#### AGNES SCOTT COLLEGE, DECATUR, GA., FRIDAY, JANUARY 20, 1922

### **DECATUR NEWS**

#### MANY HAPPENINGS IN OUR LIVELY TOWN.

Decatur has somewhat livened up since our return, so we may say, "I know things got kind of dull after the holiday rush, and then, too, what would Dr. Riley do if he couldn't make chocolate tans for Miss Agnes?"

Well, we may think that things were dull in Decatur with us away, but they were not for political, social and educational interests-these have advanced just the same. We see but one side of Decatur, and that's the commercial one, so let us take a peep around the corner and see what has happened there.

Mr. P. P. Pilcher, city manager, has released his report, which shows a marked move in the right way for Decatur. The report shows wonderful progress and prosperity in every direction. He has laid hold to a new idea in giving this publicity to his administration. It will give the people of the community a greater feeling that the government is of them, by them and for them.

He lays stress on the need in Decatur of a modern apartment or family hotel. This certainly is a necessity, for how many times people that are visiting us for quite a while must stay in a hotel in Atlanta.

A thing which would certainly beautify the city was also suggested, when he recommended an acquisition for park purposes of all the land that lies between the Georgia railroad and the street car line. This would add much to the beauty and also to the cleanliness of the city since the people would try harder to keep this part clean

At the present time Decatur is entirely dependent upon Atlanta for ice and electricity. Mr. Pilcher's report suggests a municipal ice and electric plant

Four tennis courts have been made by private citizens. This shows unusual community spirit.

The statistics of the report show remarkable increase in building which had been practically stopped by early post-war conditions.

In many instances in the report, Mr. Pilcher makes interesting little comments and one of them is that Decatur is sorely in need of a chamber of commerce. Very few towns the size of Decatur are without them.

And then socially-Mrs. P. H. Jeter entertained the

MAY DAY

Dr. Divine Brought to Agnes Scott by Lecture Association

WILL MAKE AN ADDRESS ON WEDNESDAY AFTER EX-AMINATIONS.

The Lecture Association is one of the newest organizations on the campus. Already it has offered us one treat, Dr. Robinson's two interesting lectures. It is offering us another treat on the first Wednesday night after exams. This is a lecture by Dr. Divine.

Those of us who were here last year remember the very interesting and enjoyable lecture he gave us in chapel about Russia. His chief line of work is economics in sociology and he will present some phase of this subject to us. Dr. Divine has written a number of books on sociology which are very interesting. All the girls who are studying sociology, especially those majoring in it, will certainly want to hear him, for they will no doubt study some of his books if they have not already done so.

Whether we are studying this subject or not, we will enjoy his lecture, for Dr. Divine puts so much of his attractive personality into his lectures that no one could hear him without realizing what an unusual man he is.

After the lecture a reception will be given in the Rebekah Scott Hall All the girls are invited to lobby. take advantage of this opportunity to meet Dr. Divine.

The Lecture Association has proved its worth to the college in bringing these two speakers to us. There will be one or two more lecturers in the spring. Amy Lowell, for one, and perhaps a lecturer in the field of science. We are all looking forward with eagerness, first to Dr. Divine's lecture, and are sure that he will speak to a large audience.

### Poetry Club Holds First Meeting

#### TWENTY MEMBERS AT THE PRESENT TIME.

When the announcement was made in chapel that a Poetry Club was to be organized, and that Agnes Scott INTERESTING LECTURES AND NELL ESSLINGER'S SCENARIO hereafter was to have budding poetesses, everyone gave a giggle. But this really should not have been true for by the way the plan has started out, its success seems sure.

The Decatur Parent-Teachers' Association held its regular meeting on the fifth of January. The first part of the meeting was taken up with business at which time the reports from the committees were heard. It is interesting to note that the athletic committee reported the purchase of two basketballs. Don't you know that made the girls' hearts glad?

School lunches have been served every day by Mrs. McMaster. She requested that the mothers of the Senior class assist her in her work.

#### THE HONOR SYSTEM.

Agnes Scott girls have always held to the very highest standards of honor in everything. Honor is our goal and our ideal because we realize its value as a guide for all that we do. Think what this campus would be without the Honor System and self-government. Its purpose here as everywhere is to make this a worth-while place. The beginning of a new year brings to us all a chance to prove that we either believe in the Honor System or that we give it no value. It is true that we are proud to be Agnes Scott girls. Its name is a protection and a recommendation to each one of us, but unless we uphold and believe in its principles and true ideals we do not deserve its JUNIOR REPRESENTATIVE. good name

The one distinctive thing about Agnes Scott, girls tell us who have been to other colleges, is her Honor System. We could not wth for a higher tribute to be paid our Alma Mater.

The point, however, that concerns us most is who made this quality possible. Every girl who is enrolled as a student of Agnes Scott is responsible. The honor system not only includes our individual honor, but also that of our fellow students.

The act of living up to the Honor System develops our character, or at least, our power of decision. When we are put on our honor to do or not to do a certain thing, we will think twice before we act definitely, for our honor is at stake.

The talks given at chapel one morning at the beginning of school reminded us that not only does academic work come under the Honor System, but also all various phases of college life.

"Honor and shame from no condition rise;

Act well your part-there all the honor lies."

SOPHOMORE REPRESENTATIVE.

On the very first day the poor little shaky-in-the-knees Freshmen entered Agnes Scott, they heard about the Honor System. It sounded very mysterious and awe-inspiring to them then, but they have since discovered, much to their amazement, that instead of being intricate and complicated, it is quite the simplest and most intelligible thing in the world. Which, of course, the old girls knew all the time.

### **Rachmaninoff** Delights Audience

#### GREAT COMPOSER OF RUS-SIAN MUSIC AT THE AUDI-TORIUM.

On Wednesday evening, January the eleventh, at the Atlanta Auditorium, the fifth number of the all-star concerts was rendered. Sergis Rachmaninoff, the famous Russian pianist, appeared before a very large and a very appreciative audience. A great many of the Agnes Scott girls have season tickets for these concerts; and those, along with many others from the college, attended the recital and pronounced it one of the best of this sea-The touch and finish of this son. artist added great beauty to the rendering of the Russian compositions. Heretofore, Russian music has not been so well known and only a few Russian artists have attained fame and prominence but largely through the influence and great musical ability of Rachmaninoff, the mystery and difficutly of Russian compositions have been explained and demonstrated. Consequently much weird and totally unknown beauty of melody and composition has entered the ranks of classical music.

(Continued on page 3.)

Just because of its simplicity, though, we are sometimes apt to be thoughtless and careless; no one of us would intentionally break a Student Government law. In the much-dreaded exams, which are almost upon us now, even carelessness and thoughtlessness cannot be excused.

We are all so proud of our Honor System that we want to support it just as loyally as we possibly can. If such a thing can be done, let us make Agnes Scott even better and finer than it is now. FRESHMAN.

We hear a great deal about our Honor System at Agnes Scott, and we have one of which we may be justly proud. Our Honor System is the basis of all our student life, and the foundation of our self-government organization.

Our Honor System extends to every phase of our college life. We have it before us in our social life, in our relation to our fellow-students and our faculty. Again, every girl is on her individual honor to perform her academic work fairly and honestly, and she is responsible for the honorable conduct of others.

During the two weeks in which our semester examinations are held, the effectiveness of our Honor System is put to a supreme test. There is no other time when the temptation is so strong to get credit for work we have not done as during this period when the final result of our work is being indelibly written down. When Agnes Scott girls come through this testing period, one hundred per cent. strong, facing the world squarely, and with nothing of which to be ashamed, then indeed may we say that our student body is the embodiment of honor.

The high standard of student honor which our college has maintained will not be lowered this year, but we shall leave Agnes Scott stronger and better because of our presence and our spirit.

The banquet is one of the nicestwe could loudly say the nicest-things about Blackfriars, and we think it is good of them to let the new girls come. Perhaps this will make an added attraction for those who aspire to be Blackfriars, but we really feel that those who beware the dangers of the try-outs deserve the reward which they will receive by being given places at the banquet.

The date has not been fully decided but it will come on the same day as initiation, and perhaps it will be quite

Shamefully I backed out of the door. Whew! Resolved to study my notes regularly after exams!

On to French! How I dreaded that interview!

But French looked exceedingly mild in comparison to history.

"You thought I would be dreadful," said French, "but I'm not, am I? You have worked pretty well and learned a few things. I won't be very hard." The relief was so sweet and with renewed courage I went to Science Hall to see Hygiene.

"G-r-r-r-r! You're a slacker! You're lazy! I'll be per-fect-ly terrible if you don't study a lot for me! Tremble! I like to see you!"

And I did tremble, I'm still trembling. For a gentle recreation I went to see Latin. For once my expectations were verified.

"You've done pretty well, but don't stumble over me. Be careful!" I had left the worst till last. Trig

"Ah! There you are! Revenge is sweet! He! he!" and Trig grinned sickeningly, rubbing its scaly palms together. "Eh? Directly I'm going to jump at you and eat you up! Beware!'

Eow! I jumped straight up in bed. My room-mate was shaking me. "What in the world is the matter?

#### FIRST BASKET-BALL GAMES

The first basket-ball games of the season were played Thursday night, December 16th. The Sophomores defeated the Freshmen 36-24; the Juniors the Seniors, 25-15. The audience was large and peppy, much to the gratification of the players.

The Sophomore-Freshman contest was especially close, though neither side showed its best team work and an unusually large number of fouls were called. This was probably due to the extreme excitement of the audience and the almost constant cheering throughout the game.

Spirit is indeed desirable, but let's remember the little courtesies of life and forget to cheer when the forward on the other side misses a goal.

The next game of the season is scheduled for the first Friday after examinations, February 3rd.

showed her family her culinary ability by leaving salt out of everything one morning and putting a whole box full in the next!

Of course, Miss Wilburn couldn't stay away from the campus. It has been reported that she found the faculty room in Main where mail is put very attractive-at least she visited it on several occasions. We wonder why?

But she soon became much bored with doing nothing, so the return of Aggie was promptly followed by renewal of basketball practice, and soon after by the beginning of gym. Continual rain was the only hindrance to the expenditure of still more energy in chasing tennis balls.

Everybody makes New Year resolutions, so Miss Wilburn was not to be left out. She made a "revolution"as her little niece calls it-to patiently teach her Sunday school class every Sunday. On the first of January she was determined to arrive on time, but, thinking herself late, was much astonished to be among the first. The family, taking a hand, had set the clock half an hour ahead of time!

The library is such a nice social gathering place, but one is always afraid of disturbing the place; so we had to let Miss Wilburn return to the Jap question. Not before she suggested, however, that the Seniors practice Monday night, January 9th, was almost broken up because they had all turned poetic. It seems the Poetry Club had its first meeting that night. Hence although Miss Wilburn does keep up with cooking and New Year resolutions and the Japanese question, we have a lurking suspicion that she cares just a little bit about athletics after all.

#### MR. PILCHER, CITY MAN-AGER, RESIGNS.

There has been quite a stir-up in the political world in Decatur. The citizens began to think that maybe the city manager, Mr. Pilcher, was making the government too expensive and that they should take some step to reduce the taxes.

They, therefore, appointed a committee, composed of some of the most prominent citizens, to send in a letter to Mayor Dabney, in regard to the removal of Mr. Pilcher and of the high taxes.

Mayor Dabney answered these men with a letter in which he stated that he was always glad to answer any questions when they came from patriotic desires and that he believed that these might be such, although they seemed to have a slight inkling of politics about them and of personal grudges against Mr. Pilcher.

Mayor Dabney's letter was very concise in pointing out that the taxes in Decatur were not higher than in any other town that enjoyed the same conditions. He also reviewed the budget for the year and showed how everything that had been spent had been for the good of the town.

Mr. Pilcher has tendered his resignation, to take effect on April 1st. ALUMNAE VISIT THE COL-Our best wishes go with him to other fields of labor that he may take up. NEW HOASC MEMBERS

#### The Saturday afternoon after exams were over was a time of general rejoicing in the Agres Scott community, but there were three Seniors who had especially beaming countenances. Sarah Till, Elizabeth Wilson and Roberta Love received in their mail letters from Hoasc announcing their election to membership in that organization, the honor above all others to which an Agnes Scott girl may aspire.

Hoase has two public ganouncements each year, but this election came as a surprise to every ne who thought that the elections from the Senior class were over.

These girls, who have so loyally and cheerfully given their support to their alma mater are receiving the congratulations of their friends, who know that Hoase stands for just such principles as they have shown to be theirs, in the four college years. The initiation was held Thursday

evening, and at six o'clock a delicious supper was served in honor of the new members in the lovely diningroom in the Alumnae House. A number of alumnae were present, as well as the faculty members, making the evening's entertainment complete in every way.

#### CLASS OFFICERS.

The new semester brings changes, not only in academic work, but in college activities. The class election of officers brings with it excitement, class spirit, a shifting of the responsibility, and a new opportunity for the display of talents and ability. Every organization must have leaders to guide its activities and policies. The strength of a class depends on the strength of its officers, but these officers are not in themselves able to determine the influence and character of the class. Back of them as leaders must be the willingness to serve, to criticise constructively, to co-operate with every member of the class and not with just the "faithful few." In this election the Freshman class for the first time elected its representatives to the executive committee of the Student Government Association. This fact has a great significance, for now the Freshmen have a more definite connection with Student Government, The attitude of the whole class, the feeling of each girl in the class toward the Association will be molded to a great extent by the impression made by the representatives. The responsibility of spreading the spirit of the Association lies on the representatives. To them the class will look for information about the details of the rules and regulations and for help in the observation of the spirit and letter of the law.

Dear Miss Torrance:

I meant to write you sooner how much I enjoyed my visit to Agnes Scott and to thank you for the unusually interesting and profitable visit I had to your attractive college. I was especially surprised by the high quality of the girls you get at Agnes Scott, both by their personality and by their intellectuality. I fear that in the next generation the women are going to be better educated than the men: for literature and art seem to be thriving more in the women's colleges than in the men's colleges.

Please remember me to all who did so much for me, especially to Professors Rankin and Armistead. Tell the latter that I conveyed his regards to Latane who wanted to be remembered to him in turn. Also please thank Miss Till and the lecture committee. Hoping that I may some day come back to Agnes Scott and expressing

#### BASKET-BALL PRACTICE.

Don't think for one minute that exams were over.

Every day right after that exam all were in a mad rush to get into basketthat every one had a good, big appetite for dinner besides being refreshed to study the next exam.

About four each afternoon the eyes to the clock to see just how long it would be before time for basket-ball practice. As the hand of the clock neared five, those who were anxious to play, prepared to go to the gym and with them went their colleagues whether they had played before or not. There were good crowds and can you imagine it-one girl said that she had twelve hours of exercise for one week because she didn't want to miss a single practice.

Of course these games were all inclusive and everybody came, but think how it would be if class practices were as well attended. Let's come full force and boost regular practices as we did those during exams.

#### SWIMMING CLASSES OPEN

To those who aspire to be Annette Kellermans, a great opportunity is given now. This is a chance that comes "once in a life time," and one which is open to every girl at Agnes Scott. Miss Randolph and Miss Wilburn are conducting swimming classes for all who like the "briny deep." It is really wonderful how much one can learn to do in our little "two by four" in the Gym. Just think how fine it will be to swim to the raft, across the lake, or accomplish some other marvelous feats next summer. Swimming is good for a number of things, of course. It is an aid to a person in a "mental, moral, and physical" way, Friday afternoon at 4 o'clock and perhaps. But it has another phase also at 5. Come on out, girls. ### **NEW SONG BOOKS GO TO** PUBLISHER

#### WORDS AND MUSIC OF NEW ORIGINAL SONGS TO BE PRINTED.

There is probably nothing that affords more pleasure to the college community than our "sings." This pleasure will be doubled when our new song books arrive. No longer will we have to take a back seat and follow the time limpingly, filling up the gaps with a mumbled "Ah-h-h," or "M-m-m." With a copy of our new song books, we'll be safe and can sing out "with the loudest of 'em." All the old and new songs, written by our very own girls have been collected in one volume. Ten of the best original songs are to be printed with the music. The others, which are parodies and whose tunes are familiar to every girl on the campus will have only their words printed. We hope the eagnerness with which we await our song books will inspire the printer with enthusiasm and hasten his work so that we may soon welcome their arrival.

### Founder's Day Celebration

HOLIDAY, DINNER, EVENING DRESS, MINUET.

When you say February 22nd to people they invariably think of George Washington's birthday. But to an Agnes Scotter, it means more than just George Washington's birthday. Although we love to honor our great patriot on this day, we also love to think of it as "Founder's Day" and honor the man who has founded the Agnes Scott that means so much to us-George Washington Scott.

There are a number of thrills connected with this celebration and we are already beginning to mark off the days on our calendars and figure up how many hours before the twenty-second. We might mention a few of the thrills that are coming.

Thrill number one-it's a holiday. To those of us who have become thin and worn and pale during the flurry of exams a holiday sounds good.

Thrill number two is the big dinner that night and those of us who remember the Thanksgiving dinner and the good times we had that night will look forward with no small pleasure to the one on Founder's Day. Evening dresses must be hauled out and looked over and silver slippers brought out from their hiding places. Curl papers will be in great demand on the night before and on the following day curls and curls and more curls may be seen on the campus.

But we must hurry on to thrill number three. We are to be honored on this particular night by the presence of some very distinguished guests. George and Martha Washington will be with us. Naturally they would, since it is his birthday party. But Dame Rumor also whispers that Mr. and Mrs. Jefferson and Patrick Henry and Betsy Ross and perhaps even La Fayette himself may But even our orchestra, which be there. The club voted to have monthly meetings.

This sister class idea has been the source of much fun and merriment. The first of the many joys to be gained is that of wearing the proud sister's class ring. which they knew to be five dollars. When the songs were handed in, there were in all about fifteen songs, and several original tunes. The judges had quite a time in deciding on the best one, or rather best two, for both the Orchestra and Athletic Association offered prizes. The prize offered by the Athletic Association had to be divided into one for the most humorous song, of which Helen Faw was the winner, with her song, "Oh, oh, oh," and one for the most serious type of song, "A Hymn to Agnes Scott," the words and music of which were both written by Mary Jarman. There are some more thrills, lots of them. But then some have to be saved, you know, because if you knew them all ahead of time of course they wouldn't be quite such thrills. So we must wait till then to find out the rest. #### EDITORIALLY SPEAKING.

It is the duty of every woman for her own sake and the sake of those around her to look her best. Some one has said that to look our best we must display good taste in our clothes, which demands that they be becoming, modest, and moderately stylish. For each girl and each woman there is a different fashion suitable. If we are to look our best we must make the tests of attractiveness, modesty and style and not follow blindly the dictates of Dame Fashion, who so quickly takes us to hideous and horrible extremes. At no time are extremes in dress good taste, but they might be tolerated if they were becoming and modest. At present we see all about us extremely short skirts. Are they becoming? Tall girls in short skirts emphasize their height and seem awkward and gauky, impressing others with a lack of grace. Short girls have the appearance, when wearing short skirts, of being little children with strangely overdeveloped heads. Short skirts accentuate the "roundness" of fat girls, for there is no room in their clothing for the much sought after "longlines."

"The truest sign of woman's worth,

The highest mark of gentle birth,

#### is Modesty."

By degrees we have made ourselves think that people who object to short skirts are just old fashioned in their ideas. It is well to change with the times in some things, but we should use good judgment and not be swept away by new ideas. Those who are wise and who are strong are steady in their ideas of modesty and consider very short skirts immodest. In a large city recently a girl appeared on the streets wearing a very short skirt and some one asked her if she was from the country! To be well dressed and in style we must be moderate. Every one knows the evils of the old skirt which swept the ground and carried with it millions of germs. It has long been discarded and out of date. This is a time when comfort and health take a leading place in our styles. It is well to give up the extremely long skirt, but it is not well to go to the other extreme and wear very short skirts. To be modest, graceful, well dressed, and reasonable we must give up extremes in skirts and wear skirts of moderate length.

#### LA COURSE DU FLAMBEAU PRESENTED BY L'AL-LIANCE FRANCAISE.

At least an eighth of Agnes Scott, chaperoned by a goodly percentage of the faculty, set out for Marist College on the night of February the sixth, to see "La Course du Flambeau" presented by the Alliance Francaise of Atlanta. That the whole college felt a keen interest in the play was evidenced by the fact that not even the elements, in all their fury, were sufficiently powerful to damper the enthusiasm of the eighth, even if clothes and hats were a trifle For vague unfathomable things, damaged.

There was reason enough for this, because every one on the campus, be she freshman or senior, labors daily and diligently over French, and perhaps had a better feeling for the actors, even if most of them were originally from France!

In "La Course du Flambeau" the ancient game of torches was symbolized, the object of the game being to run for long distances with a lighted torch before passing the torch to someone else. The course of civilization from one generation to another was shown in the play. The plot was very cleverly worked out, so cleverly in fact, that at some points it seemed as though it could never be untangled again. Sabine Revel, a widow, is in love, but she gives up her lover for the sake of her mother. Sabine signs some ever, when Marie Jeanne finally marries she becomes involved in financial difficulties and begs aid from her mother. SPRING HATS.

Matilda gazed with dignity Upon the gladsome day; She shook her bobbed hair up and down.

And gravely she did say:

"There's something in the air today That I can not define; I can not seem to concentrate. I somehow seem to pine

For sandwiches, or tea: I think I'll write a poem or Go sailing on the sea."

"My dear, you're absolutely off," I told her just like that. 'You don't want seas or sandwiches You want a new spring hat!"

You see the yellow jonguils bloom You hear the birdies call. You read the new spring poems-They're written in the fall.

Oh, yes, they are! The poet tramps Thru bleak November rain. And then an editor declares It's time to write again.

Some lyric on new budding leaves, On springtime sounds and sights; With that the poet plies his pen And glad spring poems writes."

'Oh, do get on the subject, dear," Matilda here did pray, 'Oh, yes-spring hats! Let me re-

"That's the best party I've been to in ages," sighed an ecstatic freshman, after the Junior Valentine Masquerade was over last Saturday night. "Yes," agreed her loyal room mate, "you can always trust the Juniors to pull off the cute parties."

At eight o'clock, strange creatures began to steal, masked, into the gym -clown and harlequin, gypsy and brigand. Soon the room was gay with brilliant costumes-some fashioned like valentines-even the comic valentine had its place. Agnes Scott's famous jazz orchestra tuned up and "the dance was on." The fun of dancing with an unknown partner only added to the general gaiety and joy certainly-well, flowed. At one corner of the room punch was served from an attractive spot, while the favors were small valentine lollypops

Sunday night, February ninth, the second regular meeting of the Poetry Club was held. Miss Janef Preston was hostess at this meeting. More of Aggies' proverbial genius blossomed forth-as it had previously done at the first meeting, just before exams, in the shape of a dozen poems.

The Club, as most of us remember having heard in chapel one morning, is a new organization on the campus, and for one so young it shows the most remarkable vigor, not to say precocity.

The only qualifications for membership in the Poetry Club are that those desiring to become members shall be lovers of poetry, and really want to try to write some of their own. The club was not of a small membership to begin with, but now it has grown much, and while there is as yet no definite limit to the number of members the club shall consist of, it seems best, however, that the membership shall not become awkwardly large. The number of members at present is about twenty.

### FRESHIE'S LETTER TO HER PAL

#### Dear "Pal:"

I haven't written sooner because I've been too cold. Yes, that's the even be content if a boy came from only excuse I have-just too cold. Marietta to see me. The ink all but froze in my founpen and my fingers were as tain stiff as nails all last week. I've heard several girls say that they blew out of bed one night, but that may not be true, but I know all my little curlers stood at attention every night.

North Pole.

Exams have become past history now, none too soon for me. And everything is back at normal again. The telephone is just as busy and the special pad as progressive as it was before Christmas. Gus Cannon even got a long distance call from Spartanburg last week. She says he was drunk when he called cause he wanted to talk all night-drunk with delight, I bet at hearing Gus' voice. She surely did strut around in Rebecca that night. She couldn't sleep so she might as well have walked, I guess.

M. Keesler and M. Shepherd are awful young to have real beaux, don't you think? Why they are only freshmen like me and they both had their out of town beaux down to see them last week. I'm not jealous or any- me was born lucky. Do you know thing, but I do wish I had somebody that Carolyn Moody has stopped

age stamp.

You know long time ago when the Constitution published lots of Agnes Scott girls' pictures, well, Emily Guille was one of them. And do you know that Emily got the "best letter" the other day from a meat market in Atlanta, simply raving about her, (now Miss Laney would call that a bad mistake for it wasn't the meat market that was raving, but a man in the meat market). Anyway, he said he simply had to meet her someway, and kinder hinted at how good looking he was. He said he had fine black hair and parted it in the middle. He didn't say much more, for I guess he didn't think it was necessary, since the most important part of him was O. K. I just don't understand Emily. Really, she's an awfully peculiar girl, for do you know she hasn't given him a date yet, and I don't think she has even answered his letter. Oh dear, I dare anybody to tell me I'm as good looking as he told Emily she was.

Sometimes I think everybody but

to come to see me and make me feel school to get married. (Now I've gone big. These boys that came to see and told when I had promised on them were from Charlotte, but I'd my Trig book not to. Well, it'll be never know I forgot). I think she has begun learning to cook, so the casuality list can be cheated. H. Lockhart and C. D. Richards heard Bill had a bill-board about Carolyn and so they got busy. And now I want you to know that it is rumored abroad that they are about to get rash also. It must be jolly. 'cause then you don't have to study, but shucks I'd just as soon study as cook.

Oh, I almost forgot my bit of romance in gossiping about the other girls. Please, please don't repeat this that women are believers in circumever or Mr. Star might hear it, and then I'd feel so disgraced. The other day I was sitting in my window drying my hair and a train stopped out front, and do you know one of the boys on it waved at me and I waved back. I didn't know him, but it wasn't so awful of me, was it? That's what I call making love at long distance. My room mate laughed me to scorn, said I was a "boob" and that wasn't making love, but just the same I believe it was a wee bit, even if it isn't like the way they do in picture shows.

#### Ellen Walker and Mary Anne McKinney Join the Writers' Club.

Two girls, Ellen Walker and Mary Finally overcoming Ann McKinney, have triumphantly surmounted all the obstacles in the way of becoming members of Folio. They are now full-fledged sisters in that organization, whose purpose is improvement in short story writing. Mary Ann's story was called "The Contract," Ellen's "The Long, Long Trail." Their principal merit aside from form and style, lay in the fact that they contained a goodly measure of truth and were not too improbable "for human nature's daily food."

> Folio considered itself very fortunate indeed in the number of tryouts, fifteen, which was perhaps the largest in its history. This may be accounted for by the course in narration given in English I, for by this many are spurred to literary effort who would not try otherwise. The most common reason for the non-acceptance of a try-out was the choice of subject matter that was out of the reach of a school girl.

At the beginning of the new semester the Sophmore members of the club are automatically excluded; and the Freshmen who were taken in last fall and those who are new at this time are left with the responsibility of carrying on the work of Folio, that is striving to follow in O. Henry's footsteps. The membership now includes: Elizabeth Cheatham, Georgia May Little, Larsen Mattox, Margaret Wood, Mary Ann McKinney, Ellen Walker.

### February The Twenty-Second

#### GEORGE AND MARTHA WASH-INGTON ENTERTAIN.

On February the twenty-second, at six o'clock General and Mrs. George Washington entertained the college community at a large dinner. Many other famous personages besides the "Father of Our Country" and his wife were present. Among these were Betsy Ross, LaFayette, Thomas Jefferson, Benjamin Franklin, Daniel Boone, Francis Scott Key, and Patrick Henry.

To anyone who was not present at this memorable event, the foregoing paragraph may be rather mysterious. Every February twenty-second Agnes Scott celebrates the birth of George Washington and the birth of George Washington Scott. The members of the senior class, dressed in costumes like those worn during Washington's life time, act as hostesses. Two groups of seniors, one in White House Dining Room and one in Rebekah Scott, dress and take the part of famous people of the eighteenth century.

The celebration this year was particularly realistic and interesting. We will always remember the Thanks giving dinner because of the evening dresses and-the food: we will always remember the Christmas dinner because it was a surprise and because It gave us such nice Christmas thrills; but we have many more things to remember the twenty-second by: it was a holiday; the dinner was delicious; everyone looked wonderful in evening dress; the costumes of the seniors were beautiful and picturesque; their speeches were amusing and interesting; and the ball, after the dinner, was a great success.

In White House Martha Lee Tolliver took the part of George Washington, Ruth Keiser was Martha Washington, Harriet Scott was Betsy Ross, Laura Oliver represented LaFayette, Sarah Till was Thomas Jefferson, Ruth Virden represented the venerable Benjamin Franklin, Ruth Pirkle was Daniel Boone, Althea Stevens took the part of Francis Scott Key, and Lilburne Ivey was Patrick Henry.

In Rebekah Scott dining room Mary Knight and Jeanette Archer were berta Love was the maker of the first flag, Cama Burgess took the part of Franklin, Elizabeth Brown strode in Colville was Patrick Henry. When the dance was over and every guest had told Martha and George what a perfectly marvelous time she had had and had said goodcome just about twice as often.

Mrs. Alden, of Decatur, had a reception for Mrs. Gresham on February 14th. The invitations were in the form of lovely little valentines.

Mrs. Alden herself in a lovely black afternoon gown met the guests herself at the door and took them into the living room where they were introduced to Mrs. Gresham and others who were in the receiving line. #### STUDENT ELECTIONS.

It seems almost unbelievable that a whole year has gone by since this time last year, when we were looking forward to the same all-important event that is going to happen again in less than a month-an event which is, of course, elections. Although we can hardly believe our ears when told that the fifteenth of March has rolled around again, we must indeed take the calendar's word for it and begin thinking most seriously about the girl of our community is really to be the democracy we believe it. A demthe future success of student organizations will depend.

The responsibility of elections is one that cannot be waived by a single girl if our community is really to be the democracy we believe it. A democracy does not deserve the name unless every member takes part not only in its government but in all its activities. The only means of doing this is by the ballot. Quite obviously, therefore, it is the clear duty of every girl at Agnes Scott to vote.

No duty can be performed well that is not done thoughtfully; and in this matter of elections an unusual amount of thinking is necessary. It is only occasionally that a girl's fitness for an office is so marked that no further consideration of the matter is necessary. The usual problem is to be able to decide which girl most nearly fits the office and which office is most suited to the girl. It takes careful thinking to discover either of We would beware, therefore, of thoughtlessly jotting down the first these. name that comes to mind.

Furthermore, in this business of voting, let's be sure that our ballots represent our own and not another's opinion. Of course, it helps greatly in deciding on nominations to talk over the situation and discuss the "candidates," but our opinion should not change just because someone else disapproves of our choice-that is, unless she can offer sufficient proof that another girl would be better.

Perhaps our last word is most important of all. Certainly it has been most stressed in times past; but however that may be, it will do no harm

#### DISCUSSION GROUPS FORM. ED IN THE DORMITORIES.

#### First Meetings Held On February 12.

Have you a mission in life? Has God a special plan for your life and a special work for you to do that no one else can do? Is it possible for you to miss your calling, and what will happen if you do? Is there a second plan? How can you find your mission, and when you have found it how can you fulfill it? Have you, as a college student, a greater obligation than the girl who has not had the advantages of education? Have

you even thought about these questions and what they mean to your life?

We know that every girl on the campus is interested in making Agnes Scott just the very best place possible and is interested in every possible way of doing this.

Think what a great thing it would be if every girl on the campus realized the fact that she has a special mission in life, and suppose she set about preparing herself to fill it and to live a life of the greatest possible service? Had you ever thought what a wonderful place Agnes Scott would be if this were true? Is there any plan that we can adopt that would help us realize this ideal?

A new plan is being tried from which we are expecting great results. This plan is the formation of discussion groups in each of the dormitories for the purpose of discussing these problems which touch our lives so closely.

These groups meet on every other Sunday night. Any questions may be discussed and the discussion is open to every one. So far there has been no set program. The questions have merely been discussed openly. Further plans, as to programs, can be made as they are needed.

There can be no estimate of the good that may come from these meetings. They bring the girls in closer touch with each other as well as throw light on the various questions. They give rise to new ideas and new duties. They show us that merely living from day to day is not enough. pertoire included good, snappy rags, We must fit ourselves for life-work. These are all questions which we should think about. They are things that touch our lives. Let's think Mayonnaise about them every day and see what new light we can find on them, and then come to the meeting Sunday Demi Tasse night and talk it over with the other girls. ### BLACKFRIAR BANQUET.

#### New Members Received.

Last Friday all the Blackfriars were enjoying a banquet at the Alumnae House. We say all, because the socalled new members were present as they had already undergone-well, we really don't know what. (It's secret, they say.) The table was long and narrow, and extended the entire length of the tea room. On it the color scheme, black and white, could clearly be detected. The black candles upon it burned with a mellow light. The mints were heart-shaped and white, while the doilies they were on were black. The flowers were white candy-tuff, the bowls they were in were black.

The head of the table was occupied by the president, Sara Till; the foot by the vice-president, Valeria Posey. The faculty board present included Miss McKinney, Miss Sutphen, Miss Vaney, Miss Alexander, Miss Wilburn, Mr. Johnston and Mr. Cunningham. Miss Moses, the Blackfriar coach, was there and assisted the president in receiving. Miss Hopkins was a guest of honor. A charter member of Blackfriar, Miss Margaret Phythian, was also present. She was Miss Alexander's visitor. The one toast of the evening, made by Sara Till, was to "Blackfriars."

first and second Between the courses, Ruth Keiser danced. She wore a clever costume, which emphasized a maid's mode of dress. When encored, she re-entered carrying a basket of favors, which she ingeniously distributed. Between the next two courses Valeria Posey gave an entertaining recitation, which concerned a maiden who was searching for a heart. This maiden, as the

story goes, entered a shop where she intended to purchase a heart for herself. In the end she lost her own heart. This story was particularly interesting as it was given at a time so near Valentine's day. The music, which was a distinct feature of the evening, was furnished by none J than our splendid orchestra. Its reas well as selections like the Hymn to Agnes Scott.

#### **"EAGLETTES"** EMORY SEARCH FOR THE "GIRL OF YESTERDAY."

Just the sight of a man on the campus is quite thrilling to every Miss Agnes-even to the most unromantic maid. Last Monday afternoon we were quite excited for there were six additional men here (not members of the faculty). Six members of the Eagle Club from Emory University came out to initiate two "Eaglettes" into their social club.

This was not a formal call, but it was rather unexpected, and only those girls who were strolling about the campus happened to know about These fortunate girls were stopped, and the men talked to them! Some girls are blessed by the godsthey are always having thrilling adventures. The initiates, one of whom was dressed as a farmer and the other had on a dress suit, stopped every girl they saw, and asked her if she were the "Girl of Yesterday." The poor girls were at a loss as to what answer they should make. They knew that they were not old-fashioned girls, but they were certainly anxious to please. Whether they answered yes or no made no difference, for they were closely scrutinized by the boys who were well armed with flashlights and field glasses. After a rather close examination the girls were all informed that they did not come up to the requirements. The boys stayed long enough to discover that the "Girl of Yesterday" does not attend Agnes Scott.

The Eagles and "Eaglettes" left. and it is rumored that they made their way out to Cox College in search of the same young lady which they have not found until yet. If, by any chance, they ever find her, we hope that they will bring her out to see us, because we are especially interested in antiques.

among the newest organizations on the campus is the German Club, now officially named Das Deutsche Kranzchen. It is composed of all the German students in school and all others who understand German or would like to. Nell Esslinger is president, Nelle Buchanan, vice-president, and Hall MacDougall, secretary treasurer. There are only about two dozen members, so everyone has ample opportunity for self-expression. German songs and conversation supplement the more formal program. Fritz Kreisler is to be the subject of the next meeting, and an evening will be given to Goethe soon. Lectures and Business Meetings to be on Program.

The Student Volunteer Conference held at G. N. & I. C. in Milledgeville, Georgia, was attended by a number of representatives from Agnes Scott, both from the Volunteer Band and from the entire student body.

Friday, February 17, at 12:25 p. m., in a special car and returned Monday afternoon. During their stay they were the guests of the college and were graciously entertained. In the morning, afternoon and in the evening there were lectures and business meetings. On Saturday afternoon the delegates were taken on a long automobile drive through the city of Milledgeville, stopping at the Insane Asylum, where they were shown through the wards.

Every school represented had a poster exhibit showing the needs and the condition in the foreign field. These posters were both attractive and appealing.

#### COMING ELECTIONS.

#### Do you know that spring elections are just about one month off? They have to take place earlier this year than usual because the new president and cabinet of the Y. W. C. A. have to be chosen in time to attend the Cabinet Training Council, which is to meet at Agnes Scott March 24-26. Last year the training council was held during our spring holidays, but ince it is earlier this year, our elec tions must come earlier also.

Several years ago it was the custom for the different organizations to hold elections at various times in the spring, entirely independent of each other; but they soon learned by experience that those who elected first got the best officers, because it was hard to look ahead to the other elections which were coming later. So the custom arose of having one day set apart for all elections-Student Government, Y. W. C. A., Athletic Association, Aurora, Agonistic and Silhouette. There are two sets of nominations for these officers: committee nominations, made by a committee composed of the heads of the big organizations, together with the editors and business manager of the publications; and popular nominations made by the students at large, both of which nominations are posted a veek before the election takes place

#### BLACKFRIAR PLAY.

#### "The Man Who Married a Dumb Wife."

"The Man Who Married a Dumb Wife," by Anatole France, which is to be presented on March 4 by the Blackfriars, is a very entertaining play.

Master Leonard Bokal, a Paris judge, had married a beautiful wife. girl of good family and great possessions, without taking into consideration the fact that she was dumb. His old classmate, Adam Fumee, a lawyer, came in to see him one day and found him much worried. On being asked the cause he told his friend of his wife's affliction and of how much he wished she might be cured.

Adam informed the judge that a well-known doctor lived right around the corner from the judge's own home-one who had gained his fame by releasing the tongues of dumb women of Paris. But he warned his friend that there were some advantages in having a dumb wife.

Nevertheless Leonard dispatched a servant at once for the doctor, Master Simon Colline. With much joy he told Catherine that a great doctor was coming who would release her tongue. The doctor came post haste, and with him a surgeon, apothecary and two attendants bearing instruments. They performed the all-important operation with little ceremony, cut her tongue ligiments, gave her a pill, and Catherine spoke.

Yes, Catherine spoke and kept on speaking. Her first words were, "Bring me my mirror," and from that time on she proved herself accentuated by every motive that ever made a woman speak. She talked so much that the judge could not make out his verdicts, and begged her to hush. He sent her away with a servant, and she almost drove the servant mad with her ceaseless chatter.

In desperation he sent for the doctor to make her dumb again, but alas, this the doctor could not do. The only cure he could suggest was to make the judge deaf so that he could not hear her. The judge would not consent until she had come in and again almost driven him wild with her chatter. At last he submitted, became deaf, and poor Catherine chattered as uselessly as she had tried to speak in the past.

"What did you think of the play?" "I'll never be able to convince myself that such a show should be subject to an amusement tax."

The Y. W. C. A. would like to remind everyone that February 26 has been set as a Day of Prayer for stu-dents all over the world. The fol-lowing is an extract from a letter from the National Y. W. C. A.: "There comes a call from the

World's Student Christian Federation President, Dr. John R. Mott, to us, as students of the many nations, ask-ing us to dedicate the day of February 26th to each other. It is called a day of prayer and I love to translate that into the thought of a day of giving— just a wonderful day of giving to each other. For after all, that is what intercessory prayer is, a way of giving our deepest and best to each other.

Through our share in the Student Friendship Fund we have already en-tered into fellowship with the stu-dents of Europe and Asia, but even as we prepare for this Day of Prayer, we are mindful of the acute suffering and privation which many still experience. Surely the Day of Prayer should be but an expression in one day of a life of intercession which we learning to live three hundred and sixty-five days in the year. ### **Blackfriars Play on March 4**

#### ALL STAR CAST.

Every one who saw the Blackfriar plays last November (and that includes most everybody except those who were too lame to walk and too heavy to be carried) will be glad to hear that this club is going to give another play soon; in fact, on the evening of March the 4th.

The play, a comedy, is "The Man Who Married a Dumb Wife," and "them as knows" say that it's popularity ought to rival that of the plays presented the first semester. It is in two acts, and after the French custom, in which language the play was originally written, there is no break between the scenes in the acts.

The leading characters are Charlotte Keesler, who takes the part of Leonard, and Sarah Till, who is Catharine. Both characters are striking contrasts to those formerly taken by Sarah and Charlotte. Sarah, last year, was "leading lady" in "The Green Moth," and in the out-door play, "Prunella," was the speechless, motionless statue; while in the coming play she is to be anything but speechless and motionless. Charlotte, during her membership in Blackfriars, has taken important parts in more than one play. Those who enjoyed seeing her as a bride last year and as an Irish policeman last semester will surely be in the chapel early to see her go mad.

The complete cast is Eleanor Hyde, Master Adam; Laura Oliver, Master Simon Colline; Sarah Belle Brodnax, Master Serafin Dularier, Georgia May Little, Master Jean Mangier; Nell Buchanan, Madame de la Bruin; Quefelle Hareld, Giles: Louise Buchanan, Alison; Carolyn Smith, lackey; Pochahontas Wight, blind man; Isabel Ferguson and Elizabeth Griffin, attendants of doctor; Mildred Pitner, lackey Frances Bitzer, chimney sweep; Josephine Schnessler, water-cress man; Mary Knight, orphan girl.

Rehearsals have been taking place three times a week under the supervision of Miss Moses, but they will the play approaches.

One of the outstanding features of "The Man Who Married a Dumb Wife" is the opportunity it gives for a rich and harmonious color scheme: Miss time-"Tm TIRED." Moses has carefully worked out an artistic scheme for the stage and the plans for the costumes promise a treat for the eye. The period in which the story takes place calls for the long

OFFICERS ELECTED FROM ALL CLASSES.

The student body at a recent Student Government meeting adopted a plan for a second house in the organization of the Student Government Association, which is to be given a trial this semester before it is incorporated in the constitution. The object of this lower house or Students' Council, as it shall be called, is to bring more girls in touch with student government work, to aid in fostering throughout the college student government ideals, and to form an organization through which constructive work may be efficiently carried on. This new plan provides that there shall be the executive committee, practically as it is now, and the Students' Council which will work together. The executive committee, after this year, will consist of its present officers and one representative from each class and one from the irregulars. Its work and duties will be the same as those of the present executive committee. The Students' Council will have thirty-seven members; fifteen Seniors, ten Juniors, five Sophomores, four Freshmen, three Irregulars, and one day student. The executive committee will act on the Students' Council. In addition to the class representatives the editor of the Agonistic, the president of the Athletic Association, the presidents of the four classes and of the Irregulars the vice-president of the Y. W. C. A., and one representative from the day students will be members of the Students Council. This Council is not to have any power to change a decision of the executive committee, but is to be responsible for backing up the decisions of the committee. It will receive regular reports from the executive committee as information. The first vicepresident of Student Government Asso ciation will be chairman of the Council March 2nd: As far as we are con- and will appoint the committees of the tees there will be a census committee. a committee on open discussion meetings, a committee on inter-collegiate annual banquet. A number of the Freshmen who recently went through the mystic rites of Blackfriar initiation and immediately thereafter experienced the pleasures of a Blackfriar banquet, were thrilled the next day to find that they had been cast for small parts in the play. The fact that the parts were small dampened their spirits not at all, for they had learned already one of Blackfriar's important lessons: to take advantage of every opportunity. So "The Man Who Married a Dumb Wife" will mark their dramatic debut.

#### A. S. C. Sunday School.

One of the things we are most proud of on our campus is our Sunday School. We have always been proud of it and we are still more proud now, and justly. The enrollment this year is 125 and the average attendance is 90. In other years the attendance has averaged about 40. This shows how much the school has grown. Much credit is due Miss Randolph for her enthusiasm and splendid work as superintendent. We owe much, also, to the World Fellowship Department of the Y. W. C. A. which has worked

#### ENTERTAINMENT FOR DR. CELEBRATION ON FOUNDERS' STOCKARD.

Last Thursday when the first supper bell rang, one could hear extraordinary sounds and could see extraordinary Lupton, For instance, trunks were begold slippers were being taken out, and every one seemed to be talking. "Mary, please hook me up," said one girl, who is never ready before hand, "I'll never get there on time." And thus it went. But where are these fair damsels going? Why, Dr. Stockard, the distinguished lecturer of the evening, is going to dine in White-House The dining-room was very gay looking that evening as every one looked so charming and delighted. After eating, drinking, and being merry, every one went to the chapel. Besides the college community, there were many visitors from Atlanta including students from Emory and Oglethorpe, Also, members of the State Biology Association were present. We will not stop now to tell of the interesting and didactic lecture Dr. Stockard delivered. Let us see what happened afterwards. The scene of action changed from

Everybody knows that co-operation is necessary where efficiency is concerned. But we wonder just how many of you know just what kind of co-operation the Agnostic needs. The co-operation of the staff, of the faculty, of the student body, and of the adv ertisers. If it weren't for our loyal advertisers, the Agonistic would starve till it shrunk to the size of a callingcard, we fear. And so we are all properly grateful to our advertisers.

But there are times when gratitud e is shown more by deed, and less by words. This is just such a case. The business concerns which advertise in the Agonistic expect our patronage in return for their support. And they are entirely right, for since they help us, we must co-operate, and help them in return.

We do not know what Dr. Stockard did with the rest of his time, of which he so kindly gave us a good part. But we do know he had relatives in Atlanta, so he must have been with them sometimes.

Patronize our advertisers! Let that be our slogan when we go to town. When we buy our spring clothes, let's patronize those stores which are kind enough and prudent enough, to advertise in our college paper. Let us give them their money's worth in our trade. Let's play fair in our business, too.

### **ALUMNAE NEWS**

"Spring hath came." You can tell most thrilled girl in the world-who scares me. Oh, if ever I'm in love, I times not news at all to most of us, for may help her more efficiently to attain our dear old alumnae love their Alma Mater so truly that many of them have venient for Bessie to have him at Tech goodly representation of them in our instead of V. M. I. Maybe when he midst, we are kept well posted on the subject of what is happening among old Agnes Scott girls.

But girls do love to "gab," even and a piece of alumnae news that is especially fit material for "gabbing" has just reached us this week. Whenever "the students are asked to remain," when the chapel grows suddenly full of chatter, then upon insistent shooing suddenly silent again. and Emma Jones gets up to talk to us, then we truly prick up our ears. Well, last Tuesday that very thing happened, and strange were the tales that those ears listened to, indeed. "Did you ever hear," Emma asked, "of the days when we all marched two and two, to church. behind Miss Hopkins, while Miss Mac-Kinney brought up the rear? Did you ever hear of the times when the car line ran right in front of Dr. Gaines' house?" Some of us had and some of us hadn't, but at any rate we all heard with all our ears now. These and many more strange and funny things about the days of the "Institute" and so on, down to our own day and gen-"Now please don't go out to-night," eration, we heard. But the laughable said the paternal janitor to his way- things were not all for Emma grew very serious later and told us about the big things that had been happening behind the scenes. Agnes Scott, as we know and love her, had been being made by those who love her most, and have given their loyal service to her. "And the chief among these," Emma said, "has not been content with making history but has written it too." Last summer Dr. Gaines wrote "A History of Agnes Scott" and gave it to the alumnae and now they are selling it for the benefit of their new house. So here's a grand chance for every one of us to learn a lot, to gain a very valuable possession and to help the alumnae with their new house, all at once! Of course a copy of that history will soon be among the treasures of each and every one of us.

Our alumnae, however, are not thinking only of selling past history they, like Dr. Gaines, are thinking of making present history too. And of course they always stand for the best

"Alumnae news" at A. S. C. is often for Agnes Scott. In order that they that "best" they are organizing now an Alumnae Council, which is to discuss problems which interest both students and alumnae. The body is to be made up of representatives of the Alumnae Association, of a representative of the faculty, Miss Hopkins, and a student, Nell Buchanan. One fact which surely augers success for the Council is that that most loyal and efficient of our alumnae, Miss Mary Wallace Kirk, was here for its first meeting. This first meeting was held on February the twenty-fourth in the Alumnae House, and we all wishing, in its beginning, and in all that it may do, the very greatest accomplishments for our Alumnae's Council!

inhabitants of the third floor Inman gathered around it. Then followed sandwiches, pickles, crackers, candy, cake-and lots of it all.

With Harriet Scott as toastmistress, the time passed merrily. There were toasts to Inman, to "Us," to the food committee, to Nannie Campbell, the 2-AGONISTIC BOONE-

originator of the feast. There were songs (much to the assgust of the second floor), a pantomime acted out by May Bess Bowdoin and Elizabeth Shaw, and a dance by Harriet Scott and Cordelia Henderson. But best of all was the good time that everybody tried to give to everybody else.

Of course it wouldn't do to stay up

the Y. W. C. A. is the Freshman Commission, or so the Freshmen think. It was the first organization in those early and never-to-be-forgotten days of pig tails and strangeness and homesickness, to bind the new class closer And what a feast it was! A long together than ever and to give each table had been made in the hall, and member of it a chance to meet and at the witching hour of 12:30, all the know some other member. In fact, the only time a Freshman dared to "speak her mind" without fear of being peanuts, lemonade, and ice cream and completely squelched by an overpowering Sophomorish glance, was at commission meeting. The one place in which, oh happy thought! there were no Sophomores.

> Of course the primary object of the commission is to offer an opportunity for an informal discussion of the problems and difficulties which seem, somehow or other, to confront Freshmen at all times. Some one is always discouraged or blue; some teacher is always harder and stricter than she has any earthly right to be; lessons are miles too long-mercy! it takes you all night to do Latin Prose and then you flunk it!

And so it is delightful and extremely encouraging to have an upper-classman-who has some how evaded the pitfalls of three years at Agnes Scott, sympathize with you and tell you that everything will be perfect bye and bye, that the first semester is by far the hardest, that the teachers aren't really and truly as bad as they seem, that everything else is all right, if you don't worry. Now, it's a peculiar thing, but when you leave a meeting like that,

At the phone: "Hello, hello, who is this?" At the other end: "How do I know? I can't see you."

### ATHLETIC NEWS

#### HOLIDAY CELEBRATION SEEN THRU ATHLETIC SPECTACLES.

February 22nd was variously celebrated at Agnes Scott along the athletic line.

First on the schedule at 9:30 were two basket-ball games. We wonder if the rings were as sore from the goals thrown through them as the elbows and knees of players were from contact with an immovable brick wall and a hard wood floor. After much earnest effort and necessary expenditure of energy, accompanied by the shouting song they could think of. They enof an appreciative holiday audience, the Freshmen defeated their Senior opponents, and the Sophomores won from their Junior competitors.

This brought the percentage up to .750 for the Sophomores who have won three games and lost one; .500 for the Seniors with two victories and as many defeats; .200 for the Juniors and Freshmen, each credited with two victories and three defeats.

After the games Miss Gibbons, Nannie Campbell, and eight other hikers left for Stone Mountain. The ten-mile walk thither was snappy, though the sun rather delighted in giving a fine coat of tan to those in the open, and the hard macadam road tended toward blistered feet.

Upon arriving at the Mountain six this obstruction while the rest waited at the foot in the shade of the trees. light-they had to use flashlights. All these, regardless, enjoyed the lunch and the street car ride home.

Other less venturesome hikers visited the precincts of Decatur, some taking lunch and spending the day out. The tennis courts were in use, as those interested combined pleasure with practice in anticipation of the approaching tennis tournament.

On the whole, Agnes Scott spent a rather athletic holiday in memory of the father of our country and of our Sophomores were able to equal. college.

DAY STUDENTS AND RUTH HALL HIKE.

On Friday, February 29th, the day students held a peppy hike with Ruth Hall as honor guests. Upon their return they felt rather more at ease in contemplation of possible attendance at a Tuesday night sing, for Ruth Hall had taught them the newest songs and yells.

They wish to express their thanks to her for bringing them into this was bragging about his auto. He endcloser contact with the life of the ed his eulogy by declaring: "It runs college, and hope that she may have so smoothly you can't feel it, so quietly been repaid for her courtesy by new- you can't hear it, and as for speedmade friends among the day students. boy, you can't see it!"

#### HIKE TO PINE HILL.

With a "Yo, ho ho" and several bottles of pickles, sandwiches, and various other goodies that the housekeepers provided, fifty-three Hottentotters hiked to Pine Hill Saturday. They left at four o'clock in the afternoon, chaperoned by Miss Gaylord and Miss Rothermel. As soon as the hikers reached Pine Hill, they made a campfire, fixed the most wonderful picnic spread, and ate to their heart's content.

After supper they gathered around the fire, played games and sang every joyed playing "Three-Deep," "Jacob and Rachael," and many other games which took them back to their childhood. And such songs as there were! They made the country ring with their "Just A-Wearying for You," "Hottentot," other songs old and new, and especially "Oh, Oh, Oh."

After the girls had aired their voices for a considerable time, and when it began to get dark, it was suggested that the wandering ones turn their footsteps homeward. "And then the fun began," for this hike had been advertised for weeks and weeks as a moonlight hike, and all of the girls were thrilled at the idea of hiking back to the college in the moonlight. The moon is such a curious fellow, however, that he absolutely refused to of the faithful undaunted surmounted come out, and the romantic girls had to come back by a very unromantic

#### BASKET-BALL GAME.

The 12:30 Junior section decided to play the 5 o'clock group in a game of Swedish bat-ball. After a peppy threeinning contest the victory went to the 12:30 section by a score of 13 to 7.

of Wilson is he that it is thought that he is at the bottom of the movement for the memorial foundation to Wilson.

"In 1918 Mr. Holt visited all the battlefronts of the Allied armies as the official guest of the various governments. When the covenant of the League of Nations was drafted, Mr. Holt was in Paris, and Colonel House apppinted him as liaison officer between the American delegation and the League to enforce peace. Later, Mr. Holt toured the United States with Mr. Taft and others, speaking in favor of the League. Mr. Holt visited England, France and Germany again in the summer of 1920, and since then has kept in close touch with the situation here and abroad. During the presidential campaign Mr. Holt took a leading part as an advocate of American entrance into the League of Nations, and has maintained this position ever since.

Mr. Holt is a man of marked ability. He has an A. B. degree from Yale, and has taken post-grauduate courses at Columbia University. In foreign affairs Mr. Holt has also been renowned. The kings of Italy and Greece, the President of France and the Emperor of Japan have honored him. He is also the author of "Undistinguished Americans," "Commercialism and Journalism," and the introduction to ex-president Taft's book, "The United States and Peace.'

Mr. Holt will lecture on "America and the International Outlook." Since Baron Koff's lecture, although not in this series, proved so widely interesting to such a number of girls, we feel sure that Mr. Holt's, being on an allied subject, will prove doubly so After Mr. Holt will come Amy Lowell, the poetess, whom we are anticipating great pleasure in hearing.

The lecture association this year has done much for A. S. C. in bringing these many eminent people to us and, if there is (and there is every indication that there will be) as great an audience to hear Mr. Holt as seized the opportunity of hearing Dr. Stockard, the wide interest in him and his popularity are both assured.

#### MRS. SYDENSTRICKER AT MONTREAT.

To those of us who are planning to be in Montreat next summer it will be welcome news that Mrs. Sydenstricker is to be there, too. She is not only to be there but will lecture. Her lecture will be given during Woman's Week. During this week will be celebrated the founding of the Woman's Auxiliary of the Southern Presbyterian church. This is the tenth (10th) anniversary of the founding of the organization and as Mrs. Sydenstricker is one of the charter members, being at the time the organization was founded the member from Mississippi, it is very fitting that she should be the speaker of the celebration. The Auxiliary is composed of members from all of the Southern states in which there is an organized Presbyterian church. The Auxiliary has recently founded at Tuscaloosa, Ala., a school for negro girls. In view of these facts Mrs. Sydenstricker's subject "The Negro," is both appropriate and practical. She will lecture on the problem of the relationship between the two races. Mrs sydenstricker herself laughingly remarked that she was chosen to speak on that subject because the negroes all like her, but we all know that there are deeper reasons than that.

#### Y. W. C. A. CONVENTION AT HOT SPRINGS, ARKANSAS.

From National Headquarters, Y. W C. A. 600 Lexington Avenue, New York City.

For the first time in the history of the student movement of the Young Women's Christian Association, a national student assembly will be organized at the seventh national convention of the Young Women's Christion Association, which will take place at Hot Springs, Ark., April 20th to 21st. More than 200 student delegates from the leading colleges and universities of the country will attend as delegates and participate in LETTER FROM DR. STOCKARD the election of a national student president.

Miss Emily Gordon, a member of the student body at Wellesley.college, who has been serving as the national chairman of the field councils of the student Y. W. C. A. movement, will preside at the meeting at Hot Springs, until the election of a president. Miss Welch has called a meeting of the student executive committee for March 4th, at the National Headquarters of the Young Women's Christian Association, 600 Lexington Avenue, New York City, at which time the committee chairman for the student assembly at Hot Springs will be appointed. The members of the executive committee to meet in New York are; Miss Louise Schlicting, of Barnard; Miss Hildegard Ross, of Vassar; Miss Lucy Miller, of Talladega; and Dean Irene Wright, Dean of Women at the University of Ohio. Representatives to the National Student Assembly will meet as a separate group from the convention, with the exception of Monday afternoon, April 24th, when the entire convention program will be given to the students. On Tuesday, April 25th, the student and industrial delegates will join forces in a dinner party at one of the leading hotels.

#### FRANCES CHARLOTTE MARK-LEY'S POEM IN "POETS OF THE FUTURE."

#### Agnes Scott Girl Honored.

Agnes Scott is proud of all her Alumnae but she is especially proud of those to whom any honor has come. Agnes Scott is proud of Frances Charlotte Markley because of her wonderful record here as a student and of the many honors she received when here; but she is also proud of her because just recently she has had her poem, which she wrote last year in her course in verse and which was printed in one of the Auroras of last year, printed in Dr. Schnittkind's book, "Poets of the Future."

Every college, practically in America send to him their college magazines and from them he selects the poems he considers the best and prints them in a book, which he calls "Poets of the Future." For three years Agnes Scott has been honored by having her girls mentioned in this book. In 1921 Frances Charlotte Markley's poem was published and to three other girls he gave honorable mention, they were Charlotte Newton, Elizabeth Enloe, and Mary Ann Justice. In 1920 Margaret Bland, Janef Preston and Alice Cooper were honored and given a place among the "Poets of the Future.'

These poems were all written in the verse course that is given here in the English Department and were printed in the Auroras. We are proud of our Aurora and also of the poems that first printed there, have now been given a place in the book of Dr. Schnittkind, "Poets of the Future." The girls, who have written the poems are not the only ones honored by having their poems printed, but Agnes Scott, herself, is honored.

We are proud of our Alumnae. They have gone out into different parts of the world and have reflected glory on Agnes Scott by their achievements. We are especially proud of Frances Charlotte Markley, of the Class of '21, who had many honors while here as a student, such as editor of the Agonistic, and of the Silhouette and of The Gomma Tau banquet, given last being founder of the Journalistic Club the book "Poets of the Future" for The long table which was placed in this year. ### QUEEN COMES!

That's the way we all feel when we see Mary Knight, now. It is she, who has been chosen to be crowned on May Day. By the recent election she was agreed upon by the students as the most beautiful and the most queenly in the Senior Class. Congratulations, Mary!

The plans for May Day are of course. not completed, but the old customs of the choosing of the maids of honor by the queen is certain to be carried out again this year. The May Queen, each year, chooses six maids from among her friends. These maids accompany the Queen and she is usually crowned by one of them.

This custom has been followed so long that there is little reason to believe that it will be changed this year.

At any rate we all know that May and Day will be a success, especially with Gravy such a competent May Day committee and such a beautiful Queen.

The very fact that we are living in this world puts a responsibility on us. But more than that because we are members of families, churches, a college community and are citizens of a great nation, we must realize that there is a part in the life of this world for each of us. On a business basis purely, we are answerable to our families for an enormous debt. Everything we have had since we can remember has come from them. They have done everything for us and have given up much that we might have more. Because we owe everything to them and because they have put so much trust in us and are hoping so much for us, we find that our responsibility to be true to them is very great. Sometimes we take our families for granted and fail to see just what they are. We get so busy with other people that we do not have time to be friends with our families, while all the time they are the best and truest friends we have. We can never give our families all they have given us, but we can live up to our responsibility to them at least partly if we are friends with them.

We are responsible to God for the light he has given us and the commands to do His will. As members of Christian churches we will always be accountable for the fact that we have given to others the opportunity of enjoying a more abundant life or that we have to come. The meeting itself is just Eakes, Anna Meade and Peyton Stinnot. There are so many who are without that opportunity, and there a gathering for a simple and sincere son, all told of some recent event in are so many ways in which we can give it to them and at the same time add to our own lives.

Beside the forty delegates we expect to have Miss Lumpkin, Miss Leonard, Miss Heller, Secretaries of the South Atlantic Field, and other speakers.

While all these friends are with us they will be very busy attending meetings. Yet in between meetings we may have a chance to know them. Let us not think that the Y. W. C. ### there were songs and a general good of the people. Miss Crumley urged ever had.

Since women have been allowed to vote they have been looked to for clean politics and reform in public life. We all love the country which we call our own and think of it as being the greatest the world over. It is the responsibility of women in their influence, teaching, and voting to make our country a better place, to insist on the best in everything and to raise the standards and ideals. The character of a nation's social and political life depends after all on the women for they have the most influence; and therefore they have the greatest responsibility.

A college community can not be efficiently run if every member does not take some active part in it. Each one has a responsibility in many different lines, but the greatest is found in Student Government. The faculty at our request put the government of student life into the hands of the students. They expect us to feel our responsibility and to uphold high ideals. A few girls can not keep the college life what it ought to be. To be true to our college we must keep ourselves in the "straight and narrow way" and never give up to the temptations to satisfy our own petty desires.

In every friendship there is a responsibility. No one can lead another better than a friend. In just that fact lies our grave responsibility. Every friendship should result in helping and elevating on both sides. Our friends look to us for the best that we have and we look to them for their best. As some one has said, it is not the happiness of ourselves but of many others that we hold in our hands each day. Most often it is the happiness of our friends that we can increase or decrease by very little things each day.

All these responsibilities to family, church, nation, college, and friends are involved in one great responsibility to be true to ourselves and the ideals which have been given us.

"This above all: to thine own self be true, And it must follow, as the night the day, Thou canst not then be false to any man. Nor will we then fail in our responsibility.

The devotional meetings have been listed under day students' activities, but to state this without reserve is to omit one of the most interesting phases of the meetings-the talks which the boarders have contributed. # Hilda McConnell President of Student Government–Unanimous Nomination

### **ELECTION HELD FRIDAY** MARCH 17.

Since the posting of all committee and popular nominations, the all important question over the campus was "Who do you think will be president of Y. W.?" "Who do you think will be the editors of the Agonistic, the Aurora, and the Silhouette?" and many other similar questions. The question of the heads of all the organizations on the campus is one of vital importance to every single Agnes Scott girl and one that should be given her most careful consideration because on this depends the future of all college activities.

Elections were held Friday, March 17 and at that time it was the duty of every girl of the college community to come to the chapel and vote for the girls that she considered could best fill the various offices. Hilda Mc-Connell was nominated unanimously as president of student government, this being the first time in which there has been no difference of opinion about the girl best fitted to fill the responsible position.

Other elections were as follows:

### DECATUR NEWS.

Joyous springtime has dispelled the political squabbles which have for so long rankled in the breasts of Decaturans. Quiet peace and tranquility or still better an exultance in the new commission exists. The registration books for the new election have been opened, for the election which is to be held on April 4th.

The Jordan-Moody wedding was one which was of mutual interest to both Agnes Scott and Decatur. The wedding was solemnized at the home of the bride's parents on March 7th at 10 o'clock in the morning.

Rev. Robert Tyler performed the impressive ring ceremony before an improvised altar of ferns and flowers. The reception rooms were attractively decorated with cut flowers and ferns. Before the ceremony, Miss Nell Eslinger sang, "Now Love Is Mine," accompanied by Miss Elizabeth Lawrence at the piano. Miss Lawrence also played the wedding march.

The bride was handsomely gowned in a travelling suit of mid-night blue tricotene with accessories to match. She wore a corsage of orchids and lilies of the valley.

All of us remember Caroline with much pleasure and we wish for her all the joy and success in the world in her new calling.

The groom is the very promising young pastor of the First Methodist church of Black Mountain, N. C. He attended Trinity, where he was a member of the K. A. Fraternity, and graduated from the theological department of Emory University, having taken his B. A. degree there. He took his M. A. degree from Yale.

Haven't you ever been over to see Mrs. Sydenstricker and noticed a sweet-looking lady busily painting or maybe reading the most current of news? She is Mrs. Helen C. Plane and is quite a prominent woman.

Mrs. Plane was recently honored at a meeting of the Atlanta Chapter U. D. C. She was founder of the Atlanta Chapter and the Georgia division, honorary president of the national organization of the U. D. C.

All was made festive in the chapter house for this was a day that would long be remembered by many. Spring flowers were used in the decorations and the whole lower floor seemed to be transformed into a floral bower.

Mrs. Perdue, president of the chapter, paid a beautiful tribute to Mrs. Plane who was to celebrate on March

#### OH, OH, OH!

I'll tell you the dream of an Agnes Scotter, And a dream she had that would make you totter, She ate some spuds and she ate some grits, And here's the dream that gave her fits, Oh, Oh, Oh!

Dr. Arm was the first she met; He called her a lovey-dovey, honey pet; He gave her a great big Capital A And said he'd see her another day, Oh, Oh, Oh!

She went to the gym by special request, And remained four years as Miss Randolph's guest, She vaulted the horse,-what a narrow escape, And climbed on the rings like a regular ape, Oh, Oh, Oh!

She went to the library, found a nook, Browsed through every single book, She read a French dictionary without restraint And rolled right up in a cold, dead faint-Oh, Oh, Oh!

#### Hot Springs Convention.

Many of us remember the National Convention of 1920, held at Cleveland, of which our delegates told us so enthusiastically. From April 20-27 there is to be held the seventh National Convention of the Y. W. C. A., and this time the meeting place is to be in our Southland. Formerly the conventions have been held in the North and in large cities. But this approaching convention is to be in a town. Hot Springs, Arkansas, is an ideal place, for there are lovely mountain driveways and paths to be enjoyed at this pleasure resort, as well as the convention itself.

Agnes Scott is to have three underclassman delegates and cur Y. W. C. A. president. It is hoped that we will also have a faculty representative. Besides these regular delegates any one who is interested is invited to go. And what are some of the things the convention will be concerned with? The 1920 convention made reports and recommendations which the 1922 convention will discuss and act upon. Among the important things to be considered are the following:

1. Standards for city associations. 2. Alternate membership basis in associations other than student.

3. A committee on leadership-employed and volunteer-as to training. qualifications, etc.

4. A committee on individual membership.

5. A committee on place of work in life of women.

Saint Patrick certainly had a royal elebration in his honor Saturday night at Ireland that belongs to A. S. C. Every one had an opportunity of visiting this Ireland because it was not far away and is surrounded on all sides by walls that have doors through which all were cordially invited to come.

Beside these recommendations there will be others from the National Board. tenham College and at Oxford, where One of the things of especial interest she was known as a brilliant debater. to us is the Student Assembly, a legislative body. This Assembly is so new that it has as yet no president. Miss Emily Gordon, of Wellesley, will act as chairman until a national president is elected. The Assembly will meet every afternoon. There are several very important things to be discussed, den: among them the membership basis as laid down by the Los Angeles amendment and the results of this basis. Another discussion will be that of a method of electing delegates to conferences of the World Student Christian Federation such as the one to be held in Peking, China. Also, the question of students' share in financial support of national Y. W. C. A. will come up. Student industrial co-operation will be discussed and if any report is to be made from this field, an Agnes Scott delegate will give the report. Students and industrial girls will be held before the whole convention.

The National Student Assembly is being entirely planned by students and in every phase of its business it will be conducted by them.

#### PARTY FOR DR. SEVIER.

I suppose every one has heard of Tuxedo, N. C., where Ruth Hall was a councilor and several Agnes Scott girls spent a part of the summer. They (those who are fortunate enough to have been there) saw that it's the grandest place in the world and everybody goes swimming, rows and plays tennis to their heart's content.

Mr. Sevier, the head of the camp, came through Atlanta last week, and Ruth Hall and all of the girls who were at Camp Graystone last summer gave a supper for him over in Home Economics Building. It was in every detail except the costumes of the girls -bloomers and middles not being considered quite the correct thing for 'supper-wear" at Agnes Scott-a regular camp supper. Everyone had lots of fun talking about the jolly times of last summer and planning for still more when vacation comes again.

outs. The Spring try-outs were held the middle of February, and consisted as usual, of a short story. Many fine stories were handed in and the choice of new members was hard to make. Mary Colley, Alice Virden, and Margaret Brenner were finally chosen as the lucky girls to be

admitted to the mystic order. These girls are to be highly congratulated on making B. O. Z., for it is an honor that every Agnes Scott girl wishes to attain, though most of us vainly. That all of their stories were unusually good goes without saying, and we are expecting great things from them.

#### Sophomores Come Out First.

2

The present basket-ball season is one of the most successful that Aggie has ever witnessed. The individual games more than in the past have each held a special interest and been closely contested, the outcome scarcely ever being certain till the finish. The teams were very evenly matched and have exhibited a healthy enthusiasm, pep, and fighting spirit.

The Sophomores with four victories and two defeats won the championship. Their chief strength is in good individual players plus team work. The forward line is a particularly valuable asset. The determination of the team is a strong point, because when there is a realization that a certain game must be won a firm decision will pull them through to the victory.

The Freshmen valiently won second place with four victories and three defeats. They showed a marked improvement during the season, being an even match for any team on the campus at the end of the contest. Their main strength lies in quickness and sureness of goal shooting.

### SOME RECENT VISITORS

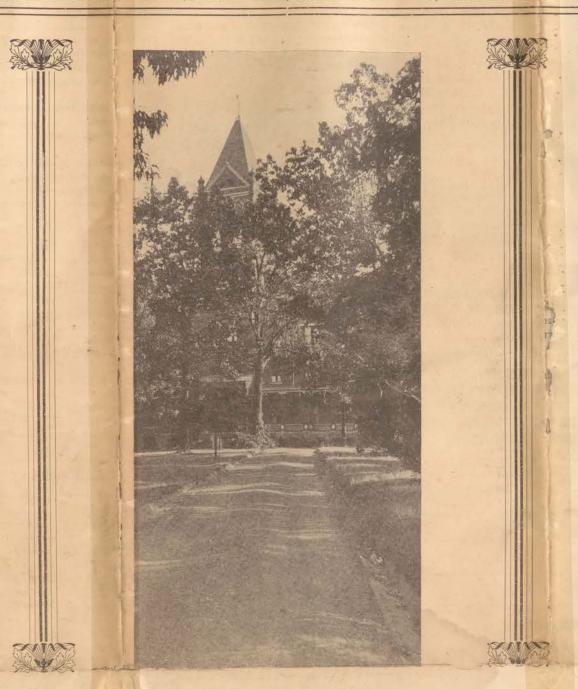

Families of Agnes Scatters have been particularly anxious about their daughters' welfare lately, or maybe merely curious to see Agnes Scott, at any rate the last two .weeks have brought mothers and aunts and cousins in abundance. Some of them arrived at a very exciting week endwhen the Freshmen and Seniors played off the basket ball game for first place and when the Freshmen wore green for the second time this year. Others dropped down into the midst of elections and caught the praveailing excitement. Still others merely enjoyed being conducted around the campus and class rooms, and watching the girls as they went about their tasks (?) One mother had a most interesting time in biology laboratory when she helped her daughter dissect an earthworm (Miss McDougal said she was sorry they weren't studying a more aesthetic subject!)

Some of the visitors were: Mrs. Sims, Mrs. Manly, Mrs. McClure, Mrs. Wharton, Mrs. McCulloh, Mrs. Jennings, Mrs. Douglass, Mrs. Arnold, Mrs. McClain, Mrs. Harrold and Mrs. Terry. We were glad to welcome them and hope that other mothers will soon follow their example.

### DECATUR NEWS.

With a view to increasing its influence and the political power of Decatur women in the governmental affairs of the city and DeKalb county, the Decatur League of Women Voters is conducting an aggressive membership drive and a systematic campaign of suffrage registration to the end, if possible, that every eligible woman voter in the city may be qualified to participate in the fall elections. The city has been divided into seven districts for this purpose, each in charge of a captain authorized to appoint as many assistants as she may need to make a thorough and complete canvass of her district. The work is well under way, and the results will be announced at the next regular meeting of the league, which will be held on Friday, April 7.

At its last meeting a few days ago, the league adopted resolutions commending the spirit manifested by the board of city commissioners in resigning in the interest of harmony in the city government.

The league also memorialized the board of commissioners to elect Mrs D. C. Lawhon to membership on the Decatur board of education to succeed Scott Candler, who is to be a member of the incoming board of commissioners, and whose resignation from the school board will be necessitated by that fact. The name of Mrs. Lawhon was proposed by Mrs. J. C. Hoke, who is at present the only woman member of the Decatur school board. Mrs. Lawhon is president of the High School Parent-Teacher Association and a leader in educational

#### Y. W. C. A. Cabinet.

The new cabinet, that of 1922-23, has been chosen. The cabinet members are as follows:

President Eloise Knight. Vice-President ..... Beth McClure. Secretary ..... Beulah Davidson. Treasurer Baron Hyatt. Ch. World Fellowship Josephine Logan. Ch. Religious Work .... Pearl Smith. Ch. Social Service .. Mary Goodrich. Ch. Social .... .... Virginia Ordway. Undergraduate Rep. .. Victoria Howie. The cabinet commission, consisting of chairmen of various committees under the departments, has also been chosen. Both the cabinet and commission are beginning training immediately. A great deal of study is necessary as preparation for the examinations. Much of the instruction is obtained through the training council, which we have the privilege of having at Agnes Scott this year. Miss Margaret Clark, student ad-

#### MAY DAY CAST

Practises to Start Immediately

All day Monday, March 6, sweet strains of music came floating over from the gym where the May Day tryouts were being held. Thin ones, fatones, tall ones, short ones, there were places for all and many donned bloomers and sneakers and went to the gym to exhibit how gracefully they could walk, skip, and hop.

The scenario to be given this year was written by Nell Esslinger. The May Queen had already been chosen and Mary Knight was chosen as the Seniors of 1922. The six maids have not been chosen by the queen yet. The characters needed for the scenario this tal Virgins, Bacchanale, Flames, Hunresses, Mountain Streams, Reeds, Nymphs, Villagers, Maidens, Sunlights, Fruits, Grains, and Shadows. The solo dancers will be Ruth Keiser, Harriet Scott, Cordelia Henderson, and Caroline Moore. Ruth Keiser will take the part of Syrinx, Harriet Scott of Pan, Cordelia Henderson of Thalius and Caroline Moore of Diana. Ruth Keiser took the part Pandora in May Day last year and well we know how beautifully she dances. The other three are beautiful dancers too and Huntresses: R. Pund, L. Brown, A.

Guess who is the happiest girl on the campus? It's hard to decide, but after due consideration I believe Ruth Harrison wins. You know Emory Glee Club performed in Atlanta last night and Ruth was sponser. Can you conceive of anything more thrilling? She says it's the cutest program ever, and that we mustn't dare miss it, but 1 don't believe Ruth saw or heard them much for she was too excited. "Toosie" was there too and she says it's fine too, but then "Toosie" had other reasons for enjoying it also.

Fanny Swann certainly is a popular girl. She just stays dated up all the time, and I hear that there are a few Emory boys that think it would be simply fine for a buss line to be run directly from Emory to Agnes Scott. It would save them lots of time really. She and Mary Mann are running a race at Emory I believe.

#### Barnard, Smith and Vassar to Debate Philippine Independence.

Barnard has chosen her representatives for the Intercollegiate Debates for 1922, in which Barnard will meet Smith, at Smith, and Vassar, at Barnard. The affirmative team will debate at Barnard and the negative team at Smith. The formal period of preparation for the debate has started and the teams have begun work on the question to be debated. The question of the debate is "Resolved, That the United States grant immediate independence to the Philippines."

#### BALLOT FOR BI-ANNUAL ELECTIONS.

#### Votes of Absent Members May Be Sent In.

The following ballot for the election of Officers and Committee Chairmen is submitted to the Alumnae Association by the nominating committee. The committee, according to the constitution, was appointed by the Executive Committee at its meeting in the early spring, and consisted of Margaret Phythian, Chairman; Sallie (Watlington) Barnett, and Ruth (Slack) Smith. They have presented two nominees for each office, who shall be elected by the written ballot at the regular meeting. If any member is unable to attend the meeting she may send her written vote to the secretary, provided it reaches the secretary at least three hours before the meeting. It is suggested that the ballot below be cut out, and the desired candidate indicated by a check beside that name.

In another section of the Agonistic will be found several amendments to the Constitution which have been proposed by the Executive Committee for the consideration of the Association. If these amendments are adopted, it will be necessary to provide committee chairman for the committees thus created. Therefore, those nominees in the ballot after the explanatory note will be voted upon, only if the amendments are passed by the Association.

We are especially anxious that every paid member of the Asso-ciation will take part in this election. No one who has not paid at least one year's dues may vote. We want this election to be more representative of the true wishes of our alumnae than any we have ever had. The only way in which this can be done is to have every one vote. If you haven't paid your dues send them to the alumnae secretary, then vote.

This is not merely a case of "votes for women," because we've been voting before the Susan B. Anthony amendment was added to our national Association. This is a voting for officers of our Alumnae Association and only by every one taking a part in this can the results of the election represent the wishes of the alumnae.

### SPOT-LIGHTS AND SIDE-LIGHTS ON ALUMNAE

#### Statistics Given By Classes.

Giving side-lights on our various alumnae is a difficult thing to do. In self defense we quote from the letter sent in by one of our married alumnae, which we think is "simply splendid-

'I imagine those of us who stay at home bringing up the future citizens feel rather blank when we look at the reverse side of your questionaire. Yet, though I cry loud and long 'votes for women, yet I do declare no number of degrees or positions can make up to a woman for home, children and husband. So, unlike Macbeth, we will not have to stand at life's end and soliloquize.

My life has fallen into the sear of the yellow leaf.'

I suppose this will always be the problem of women graduates, how to be great though married.' Now we are convinced that our married alumnae have been accomplishing great things! If you could only read the records, and see how they are taking part in the civil life of their communities, they are members of the League of Women Voters, they are active in Parent Teachers Associations, they are untiring in church work, in club work and all the various other activities that go to go up a successful community life.

Just read and see! You may be surprised to see what your friends really are doing!

#### 1893.

This class and the class of 1901 are the only ones that have the distinction of 100 per cent of married members! The records of these two classes would perhaps show more interesting incidents than those of any other class, but one isn't able to get enough space to print all of them.

Next Meeting at Portland, Ore., in July 1923.

The committee appointed by the chair to consider the place of meeting of the next convention consisted of Dean Ella McCaleb, of Vassar, Miss Hearon, of Agnes Scott College, and Mrs. Mitchell, of Oklahoma. It was suggested that the west was not sufficiently represented on the commit tee, so nominations from the floor

added two members from the west. The committee reported in favor of Washington, though invitations had been received from Chicago, Des Moines, Milwaukee, New York, Port land, Ore., San Francisco and Washington. However, the convention was nothing if not independent, and after rejecting the recommendation of its committee chose to accept the invitation of Portland.

#### International Banquet.

The banquet on Friday evening was international in character. Mrs. Edgerton Parsons, a member of the Committee on International relations and treasurer of the International Association as toastmistress introduced first President Wooley, of Mt. Holyoke. Those of us who heard her speak in the open meeting of Gamma Tau Alpha two years ago, can know what a happy dinner talk was given. Fresh from her Chinese experience. she paid a glowing tribute to the Chinese women of the older and newer generations. Several moments later Miss Helen Wong, a young Chinese girl, now a student at the University of Michigan, strenghtened President Wooleys tribute. She was followed by Dr. Barriox, of Madrid, who had been sent to this country by the can methods of dealing with the problems of infant hygiene and child welfare; Signorina de Castelvecchio represented Italy, pleading eloquently for the better understanding on our part of the ideals for which her country

The last speaker of the evening was Miss Sarah Wambaugh, now of Wellesly College, formerly a member of the Virginia. What the colleges have done for the emancipation of women is dramatically clear from the comment made in a Boston newspaper of about 1840 apropos of the public presenting of diplomas at Mount Holvoke College the first endowed college for women, then in its infancy. The radical innovation was condemned as an evil "endangering that beautiful seclusion in which female loveliness should live and move and have its being and reward." Oberlin College, the oldest co-educational college, then starting in the wilds of Ohio was more caution. It required that the lady graduate's final essays should be presented in public, vicariously but modestly, by a "member of the faculty.'

#### The Future.

Truly this is a time when women have come to play an important part in the destinies of our country and the world. It is entirely fitting that a group of college women should clearly express themselves on these policies which affect the welfare of our country and the peace of the world. If we are really to contribute our share in the advancement of our country, we must keep ourselves informed. The Convention of the A. A. U. W. is pointing out to us the path.

AGNES SCOTT COLLEGE, DECATUR, GA., TUESDAY, SEPTEMBER 26, 1922

# **SESSION OF 1922-1923 BEGINS**

#### OPENING EXERCISES IN CHAPEL.

#### Mr. J. K. Orr Speaks-Dr. Gaines Outlines Growth of Agnes Scott.

Agnes Scott opened formally this year with the exercises held in the chapel at 10 o'clock the morning of the thirteenth. By that time most of the students, both old girls and Freshmen, had arrived, and these with a large number of alumnae, trustees and other friends of the college formed an audience that crowded the assembly hall.

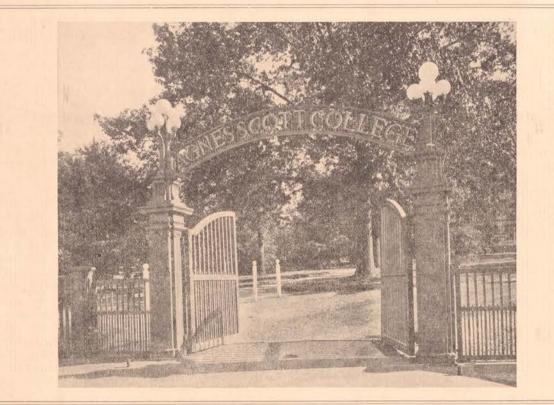

The devotional program began with the reading of the nineteenth Psalm by Dr. Clinton, of the Ponce de Leon Methodist Church. This was followed by a prayer from Dr. McGeachy, pastor of the Decatur Presbyterian Church. Dr. Gaines then introduced Mr. J. K. Orr, who is chairman of the Board of Trustees and a speaker that never fails to delight an Agnes Scott audience; and this time he was at his best.

Then Dr. Gaines took this occasion to tell some very interesting and encouraging facts and steps in the development of Agnes Scott as a college. It began, he said, as an elementary and grammar school in one building with four teachers. There were 63 pupils. Now there are 450 students enrolled; the faculty numbers fiftysix; the institution owns twenty-one buildings, and best of all Agnes Scott which was a "Seminary for Young Ladies" is now a full-fledged "A Grade" College for Women, with a curriculum that compares favorably with those of other older and larger institutions.

Dr. Gaines told something of the high ideals of Christian womanhood which the college has always striven R. S. H. to inspire in its students. He spoke, too, of the mental attainment which Agnes Scott girls have had held up as a standard; and of the opportunities for social development which are offered.

Lastly Dr. Gaines told some of the pressing needs that will bring about Miss.-3 Lupton. the greater Agnes Scott which all of us are desirous of seeing.

WHO'S WHO AND WHAT'S WHAT ON THE CAMPUS.

The organizations on our campus are so many and varied that it is almost as hard a job for the old girls to keep up with all of them as it is for the new girls to learn them. At first all of these organizations seem rather vague. We hear chance words about the Athletic Association, the Student Government and others, but we are left in the dark as to what these definitely are.

First and foremost at Agnes Scott is the Student Government Association. As our president, Hilda McConnell, so ably told us the other evening, this is a student, not a self-government. Of course, there are the visible signs of it-meetings, rules, etc. -but it is the intangible part of student government underlying the actual mechanism which makes it mean so much to every Agnes Scotter. Each girl in school is part of this big, stupendous organization, and as a part takes pride in holding up the high ideals which are the embodiment of all that is visible of our student government workings.

Linked closely to our student government is the Y. W. C. A., which has as its president, Eloise Knight. It is the purpose of the Y. W. C. A. to maintain the standards of Christian womanhood, to aid in charitable causes, and to provide us with one of the most appealing and enjoyable events of each week-our service on Sunday evenings. This association is truly one of the most active and hen eficial of our campus organizationsan association which fosters the won derful spirit which prevails at A. S. C. and makes our college so distinctly in dividual.

To meet our athletic needs is the Athletic Association with Lib Hoke as president. At all times of the year, this association furnishes some entertainment for those of us who would grow mentally and physically weary if kept at an eternal routine of studies. Very soon now begin the hockey practices; later will come basket-ball, track, tennis and hiking.

Blackfriars, our dramatic club which furnishes us with so many enjoyable plays during the year, has for its president Valeria Posev. It is a much coveted achievement to belong to this club, and admission is gained only after try-outs.

#### WELCOME TO AGNES SCOTT

The Agonistic wishes to extend a hearty greeting to the newcomers at Agnes Scott. We take pleasure in this, for we feel that we are welcoming you to things new and worth while, to interesting but untried fields of thought and activity, and to a boundless and perhaps as yet little realized opportunity for self-improvement and for service to others. Agnes Scott offers to her students the essentials which other colleges of her standing offer: education, friendship, and an effective training in assurance and dependability gained from participating in the various branches of college ac-The difference seems to us to lie in the fact that Agnes tivity Scott represents the ideal and spirit of each of these. #### THE INMAN FAMILY AND AGNES SCOTT COLLEGE.

By the will of Miss Jane Walker Inman, who died in Atlanta during the summer, Agnes Scott College received a gift of \$100,-This was given by Miss Inman as a memorial 000 for endowment. to her brother, the late Samuel M. Inman.

This generous and unselfish act brings to mind a series of facts all that was going on-especially the which show the help and encouragement which the members of the Inman family have given to our College. Samuel M. Inman was ways known that the Y. W. C. A. is for many years before his death the chairman of the Board of just about the nicest thing there is, Trustees of Agnes Scott. Inman Hall was a gift to the college but we learned it all over again, and given by him as a memorial to his first wife, Mrs. Jennie D. The College feels grateful for such loyal friends.

#### ON COMING BACK.

#### (By One Who Has Tried It.)

"No, I'll never come back! Nothing will ever be the same!" says the senior at commencement when her friends try to comfort her with words like these: "You must spend the ngiht with us when you come back next year." At the time she really means it. She faces the awful fear that the gates of Agnes Scott are closing to her forever and ever, that she'll never have her old place any more, that the dreams and tests and term papers and friends of four wonderful years are part of a past that is vitally interesting only to her.

And then-

Y. W. C. A. GIVES RECEPTION TO NEW GIRLS.

#### Gypsy Songs, Dances and Punch Enjoyed.

If variety is the spice of life, the Y. W. C. A. reception for the new girls might well be called "spicy."

In the first place, unlike most formal affairs, no one was bored, and in the second place every one was dressed up in her very best and felt extremely gay and giddy. The old girls met all the new girls and the new girls met all the old girls-and the facultyand though the Freshmen appeared to be rather snowed under for awhile, in the end they all turned up smiling.

And then the gypsies! Oh, yes! they were everywhere-red turbans, yellow skirts, green beads and brass bracelets. Instead of making gypsy stew over a fire, they served the most delicious punch and even threw in for good measure, tiny hand-painted tambourines with fortunes hidden on the back.

Of course, conversation and refreshments didn't occupy the whole even-Lillian McAlpin sang "The ing. Gypsy Trail" and Margaret Powell whirled through a graceful little tambourine dance.

Being so well entertained, no one left until the orchestra was exhausted -and then went home with the pleas-

#### FRESHMEN ENTERTAIN AT FLOOR PARTIES.

On Friday night floor parties were held in each dormitory on the campus. These parties were sponsored by the social committee of the college Y. W. C. A., and were for the purpose of introducing all the girls on a hall to each other, of letting them know who's who on their floor, and of giving the Freshmen their first taste of the fun of dormitory life.

Freshmen and old girls were alowed to taste something more substantial than fun for huge bowls of peanuts, cheese tidbits and chocolate drops came to the party, too, and were given a hilarious welcome.

There were songs, of course. There is a mandolin or guitar on almost every hall, and "Hottentot" and 'Whoop-'er-up," "Oh, Oh, Oh," and most of the other college songs were sung till everybody was hoarse. A good many of the girls had been to summer camps and had some cute songs they sang there to teach to the rest.

And always there are stunts and games. Wherever A. S. C. girls gather, their "pep" and originality will show itself in the clever stunts they give, and the stunts put on at the floor parties were no exception.

Like all nice things in this world. the parties had to come to an end, but they were a huge success in getting people acquainted with their neighbors, and in letting the new girls into all the campus and faculty gossip which was handed down to the old girls, and which they feel it is their for the day students and help them add duty to hand down to incoming generations of Agnes Scott girls. The floor parties broke up with girls who had been calling each other "you in the pink dress," or "that tall one," hailing each other familiarly as Grace or Margaret, as the case might be.

The following girls were hostesses at the floor parties:

## DAY STUDENTS' COLUMN

DAY STUDENTS' COLUMN. The Day Student officers for this

ear are: President-Martha Eakes.

Treasurer for Budget-Elizabeth Askew

Athletic Manager and Cheer Leader Marion Johnson.

Member College Council-Daisy Frances Smith.

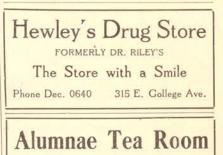

There are 116 day students so far the old ones as peppy as ever and the new ones ready to join their energies to make this year the best yet, especially in good fellowship with the whole college. Let's all pull together.

O Boarder: Did you promise to buy a brick for the Day Student House? Please remit to Daisy Frances Scott, Treasurer for this fund. O Boarder, did you fail to buy a brick? Now is your chance.

Last May in the rummage sale to which many of the boarders contributed, the day students made \$61.23, besides having a great time together in gathering the rummage, finding just the place on Edgewood avenue and transporting the salable goods hither, and lastly in discovering what constitutes good salesmanship. The credit for the successful completion of the rummage enterprise goes to Martha Eakes and her energetic committee, who, we hope, before long will be undertaking the same thing again. Moral: Save your rummage a little more to their fund for the Lay Student House.

Some of the boarders may remember that during the last two or three weeks of school there were boxes in each dormitory where they were asked to drop magazines, newspapers and scrap paper. The day students were collecting this and realized from its sale \$17.72, all duly banked and added to their Day Students House fund.

This year we hope to carry this on more efficiently with the help of all the boarders who will give us their magazines and papers when they are through with them. The committee from last year with some of the new girls will soon start this business again. They are Margaret Bruner, chairman; Elizabeth Askew, Annadawn Watson, Isabelle Clark and Olive Hall. Save papers for the Day Student House!

September comes. And September brings with her, when she comes, to Agnes Scott dozens of new faces, entrance exam. problems, old girls with suspicious looking summer acquisitions andlast year's seniors! She said she wouldn't She said she couldn't. But when September came, she had to. She was homesick for a glimpse of Ella and her not-to-be-borrowed pencil, of the squirrels on the campus, of the tea room and its celebrations, of Main Hall and its throng of hurrying feet and smiling faces. She was home-sick for the dear reverence of Y. W. service on Sunday night, for the "Hey" heard on the campus, for the thrill of hearing "Ancient of Days"-most of all, for the gentle welcome of our Agnes Scott mother, Miss Hopkins.

So she comes. And she finds that the gates are not closed. She finds that the gates are really home gates—open forever, with love and peace and new inspirations waiting for her inside. She finds the reason for it all. She is glad to know that hundreds of other girls can have the joy of four years like hers She finds that friends are made to keep and that Agnes Scott may still be served, and she goes away happier than ever, to possess the title, an Agnes Scott Girl.

#### Maria Chapdelaine.

#### With my two years of college French far in the background, it's an effort for me to awaken myself from a sluggish mind and read a good French novel in the original. So it's only an unusual occurrence, or, more accurately, only an unusual story which will lure me from the tranquillity of a good English translation to the somewhat hazardous reading of the original.

Browsing in Brentano's the other day brought me face to face with an entire shelf of paper covers, printed with the simple caption, "Maria Chapdelaine." Agnes Scott Girls Welcome We're Still Going to College!

Frohsin's is thirty-four years young and going to college every day. Never too old to learn.

Not the superior know-it-all sort, but very human and always trying to improve.

Been studying especially hard for months, planning and doing, to be ready for the teachers and students at Agnes Scott who will come here for their apparel.

Think we know our lessons. Ask us.

AT AGNES SCOTT. Tuesday night, September 19, excitement spread over the college when the notices were read that the Freshmen were requested and strongly advised to remain in the chapel after prayers, and the college community invited to remain.

Darkness and quietness reigned over the chapel, the few giggles quickly being suppressed by stares from all over the room. The doleful minor notes sounded and the Sophomore president and committee walked in, in stern and solemn file. #### RADIO CONCERT AT AGNES SCOTT.

The first radio concert given at Agnes Scott was presented Thursday, September 14, through the kindness of Mr. Thurston Hatcher, of Atlanta. Saxophone and piano selections, as well as vocal numbers, were heard over this new and marvelous machine. Some of the numbers were blurred but the majority could be clearly heard. This was the first time that many Agnes Scott girls had ever seen a radio, and Mr. Hatcher's generosity is much appreciated.

The Agnes Scott orchestra is soon to broadcast a program over W. S. B., the radio station of the Atlanta Journal.

#### FIRE DEPARTMENT AT AGNES SCOTT ORGAN-IZES FOR YEAR

#### Ruth Almond Elected Fire Chief. Other Officers Elected and Fire Drills Begin.

Agnes Scott is now ready for any blaze that dares spring up, for our fire department has been thoroughly organized, and each member of it drilled in her work. There never has been a serious fire at Agnes Scott, and every precaution is being constantly taken to prevent one, but if a fire should break out, from the wiring of the building, or any other cause, the students are ready for it.

Ruth Almond is chief of the fire department, and she has organized a company in each of the dormitories. Besides the captains and first lieutencut off the main light switch, (the first thing to be done in case of an Nannie Campbell in Charge. Comelectrical fire), each hall has its second lieutenants. These girls, equipped with flashlights, make sure that every room is vacated, so that no heavy sleeper will sleep on through the emptying of the building, and perhaps, in the event of a serious fire, be smothered to death.

bucket brigade has charge of the actual work of putting the fire out on holding it in check until the Decatur fire department can get here-a matter of only a few minutes.

There is no reason why, exercising all the precautions that we do, there should ever be a fire at Agnes Scott, but fires belong to that category of uncertain things that occur without any reason at all. If one should break out here, however, we feel confident of mastering it in a very short time. The girls who hold offices in the fire department organization are all possessed of cool heads, and at the drills given every few weeks, it is found that the dormitories can be emptied in a very short time, with very little noise, and no panic. Drills will be given frequently at first until the students can come up to the point of emptying a building in less than two minutes.

When publicity is mentioned at Agnes Scott the average student thinks of the "Agonistic." But to about ten upper-classmen the word publicity calls to mind K. U. B., for K. U. B. is one of the chief means by which Agnes Scott is kept before her many outside friends and wellwishers.

K. U. B. is the Journalism Club which was organized four years ago for the purpose of giving Agnes Scott publicity in a conservative, loyal way The members of this club have all taken an active, cheerful interest in college activities, particularly in writing for the "Agonistic," and, during their membership, have contributed articles to the "Constitution," "Georgian" and other papers. #### LATEST DEVELOPMENTS IN PLANS FOR DAY STU-DENTS' COTTAGE.

#### \$1,072.45 Collected Already.

Both students and faculty at Agnes Scott will be interested in learning the latest developments in plans for the day students' cottage. Miss Daisy Frances Smith, treasurer for the Day Students' Cottage Fund, has given the following facts to the "Agonistic." Through subscriptions of the studentbody and faculty and through the individual efforts of several of the day students \$1,072.45 has been collected up to this time. The day students hope soon to increase this amount to \$3,000, for at the annual meeting of the Board of Trustees it was decided that, when this goal was reached, the college from its Building Fund would contribute at least a like amount.

The cottage is to be a brick-veneered house with two stories. It was at first thought that it would be located on the vacant lot between Lupton and Dr Gaines' home, but it now seems best on account of the size of the cottage that it be built on the strip of ground behind Rebekah Scott Hall. Miss Smith tells us that Dr. Mc-Cain thinks that there is no reason why the work should not be begun before Christmas.

Among the contributions which have been received by the treasurer the following are especially appreciated: Mrs. Shmuel Inman of Atlanta, \$100; Mrs. T. L. Cooper of Decatur, \$100, and Dr. Gaines, \$50. Members of the Agnes Scott faculty have given substantial help amounting to \$290. As all pledges to the "Buy-a-Brick" campaign of last spring have not been paid at this time, it is impossible to state the exact amount of the students' contribution.

It will be remembered by those who attended Agnes Scott last year that the day students collected old magazines and newspapers, which they sold for the enlarging of their cottage fund. This was done for only three weeks, but the sales brought \$18 into the treasury. This work will be continued during this year, and it is hoped that those board in the dormitories will co-operate with the day students.

Operetta "Egyptian Princess" to Be Given Before Christmas.

All of the old girls know of the wonderful work of our Glee Club last year, and both old girls and new are expecting great things of it this year. Last year under Miss Curry's direction they gave several concerts and just before commencement they gave the lovely Operetta "La Gitana."

All of the work for this year has not been planned but they will sing on October 25 at the U. D. C. Convention and as last year they will probably sing in Atlanta. They are also planning to present to the College just before Christmas the Operetta "The Egyptian Princess." The cast for this operetta has not yet been chosen but we know from the work of each member of the Glee Club last year that we will not be disappointed when we look forward to a very lovely operetta.

We are more than glad to welcome lins, two guitars, and a banjo, also a back Miss Curry who both organized and directed the Glee Club so well last year and we are also glad that most Misses Lillian McAlpine and Frances of the members are back. During the early years in the life of the college there were many times when the outlook was so discouraging that there seemed little possibility of continuing Agnes Scott even as a grammar school. The trustees themselves often lost hope. It was only through Dr. Gaines' untiring efforts and unfailing optimism that Agnes Scott began at last to grow into a real college. His idea was to bring into existence an educational institution in which the ideals of learning should be combined with all that is noble in Christian womanhood. This was a hard task, but Dr. Gaines' success is seen in the college of today. No small part of Agnes Scott's greatness as a college lies in the fact that its development was guided by a man of strong character and with the truest notions enjoyed its blessing, we beg of you to of what is best in education. To Dr. Gaines more than any one else is due the honor of the making of Agnes Scott.

#### STUNTS POSTPONED.

Both Classes Work Hard.

The contest of events between the Freshman and Sophomore classes was postponed from September 30, until The various pastors of the Decatur Saturday, October 7. This was done with the consent of both classes because more time was needed in planing and practicing for the "stunts."

The nature of the productions of the contesting classes is kept a secret, but it is generally understood that they are of much interest. The Freshmen and Sophomores are both working hard and are putting up a good fight for the famous and much desired Black Cat.

#### Women: Their Achievements.

Recent announcement by Dean William Danach shows that a woman. Marjorie Frances Murray, of Binghamton, N. Y., stands first in the graduating class at the medical school of Columbia University. Miss Murray is a graduate of Bryn Mawr.

This is especially interesting in view of the fact that last year, too (the first to include women graduates) the medical class was led by a woman. In 1921, Mrs. Linch Miller, of New York City, the wife of a clergyman, was graduated at the head of the class.

In the list of 1922 honors, another Bryn Mawr graduate, Virginia K. Frantz, of New York City, was second. The third honors were ably borne by a mere man-John C. Wells, of Middleton, Conn.

Kansas City has two women members on the city Board of Aldermen. \* \* \*

Miss Florence Momberger, of Erie county, New York, is deputy sheriff, although but 22 years old. She is known to handle a pistol and handcuffs!

#### Applied Psychology and Building Business.

One of the most unique business propositions and practical application of psychology imaginable, is the New York organization known as the "Business Builders." When I had finished Russell, Rev. John Haynes Holmes, an evening with them in the Knickerbocker Building in New York City, where they have their offices, I felt as ington Conference. Lectures at both if I had been back in a glorified spirit meeting at Agnes Scott, just after we had won from Sophie Newcomb. This is the only business organization in the world, which has proportion to the wealth of their open meetings-one can attend any Voice Over Radio: Rev. Man is or all of them-and there's nothing including lodging, board and tuition but pride in their hearts, either, for their organization.

The brains and directing force of tion. this organization is Jimmy Elliott, a little fellow who came back from Europe after the war with a big idea, ning and thinking out the problems and enough confidence in that idea to of the nations. And then they have a lecture by a real speaker who knows his subject and knows men. After all of this comes business discussion, between the various sales units which compete against one another.

If I had majored in psychology I'd be giving you pointers or applied principles. In spite of my lack I know a good thing when I see it.

#### International Summer Schools in Europe.

Last year when the Women's Inter national League for Peace and Free dom met in Austria it was attended by 300 students from 20 counties. With such success behind them they were encouraged to hold two summer schools this summer.

The first was conducted by the German section of the league in Burg Lavenstein, a castle of the eleventh century, restored and modernized. This session, held the first two weeks of August had noted lecturers-Bertrand Russell, London, Dr. Blanche Reverchon, Paris, and Heinrich Vogeler, Worpswede. The discussion centered around international problems.

The second school, held the last weeks of August in Varese, Northern Italy, dealt with international aspects of history, government, the youth movement, literature, art and pacifism. Among the instructors were Bertrand Gertrude Baer and Carlo Schanzer who was Italian delegate to the Washschools were given in English, German, French and Italian.

One of the curious schemes of the events was charging the students in countries. The charge for Americans, for the entire period was only forty dollars-and we're the wealthiest na-

#### JOSEPH HERGESHEIMER.

"The Literary Digest" recently asked a number of the most important editors and publishers of the United States to give their choice as to the ten most prominent literary figures which have appeared in America in the last ten years. Joseph Hergesheimer received the largest number of votes. The following sketch taken from the "New York Herald" will prove interesting to those at Agnes Ecott who have read some of his books and stories:

"The first paper in this series of sketches dealing with Mr. Booth Tarkington pictured the subject figuratively 'sitting for seven years on a rail fence in Indiana.' like the hero of his novel 'The Gentleman from Indiana.' Fully twice that number of years Mr. Joseph Hergesheimer had to wait before winning appreciable recognition. He was writing industriously with the dawn of the present century. Yet it was not until the summer of 1914 that his first novel, 'The Lay Anthony,' was published. The talent was always there; the long battle against discouragement indicates a courage of the finest order.

"As Llewellyn Jones has said: 'The first demand that the larger public makes upon a novelist is that his personal life shall be as romantic as his novels. Fortunately Mr. Hergesheimer can meet that demand-certainly any one who can recognize romance when he sees it will recognize it in Mr. Hergesheimer's life.' As the name indicates, he is Pennsylvania Dutch. Born February 15, 1880, brought up in a Presbyterian home, his youth was passed in a state of ill health which interfered with systematic study but which gave him time for the profitable reading of many paper covered novels. After very little schooling he entered the Philadelphia Academy of Fine Arts at the age of 17 to study painting.

"At 21 he came into some money and went to Italy, living in Venice until his funds were exhausted. Again at home, he went off on a walking tour in the course of which he fell in with a woman novelist who enlisted his aid in her proof reading. A certain hostility to what he read planted in him the seeds of authorship. He did not like what she had written and determinded to try fiction himself. In a village in the Virginia mountains he went seriously to work, writing and rewriting one story from beginning to end twenty times, part of it a hundred times. For fourteen years he worked in this spirit. Then he sold his first tale.

"Mr. Hergesheimer has always found particular joy in the reconstruction of earlier periods of American life, and before writing he has literally drenched himself in the atmosphere of the particular time and environment in mind. For example, before a line of 'Java Head' was penned he had read nearly a hundred books dealing with old Salem as it was in the days of the clipper ships and the town's maritime supremacy. The result was, as Mr.

When a record on hardened clay was place to another the Assyrians put a cover on it. They took moist clay and rolled it to the required size and thinness, usually about 3-16 inch thick, and wrapped it around the baked clay record, incising a label and address on the thin cover, which, as it dried, effectively "bound" the record Great numbers of documents thus protected have been unearthed. It is the story of Gordon Makimmon, a middle aged stage driver, who is squeezed out of his property by a local skinflint, who marries for her money the daughter of a local 'capitalist' and treats her abominably, speedily transferring his affections to Meta Beggs, a discontented school teacher, who at heart belongs to the oldest profession in the world.

He has a better story to tell, a more human story, a story which has touches of nature, drama and history, far transcending any whispers that can rise from the ruins of a throne. It will go round the world and back again, like the roll of the British drum, if only it be written with the simple abandon of one of the Premier's Welsh speeches, a "human document," not a document. It must be personal as hand that it holds out to everybody well as particular, and as Mr. Lloyd George can be most personal when he is talking, not when he is writing,

#### Dr. Gaines and Dr. McCain Visit Synods of Alabama and Georgia.

Andalusia, Ala,-Four prominent Presbyterians of Alabama were elected to the Board of Trustees of Agnes Scott College for young women, in Decatur, Georgia, by the Synod of Alabama meeting here, and will assume their duties in the building of a Greater Agnes Scott at once. The new trustees, whose nominations were presented by Dr. F. H. Gaines, president of Agnes Scott are: H. C. Armstrong, of Selma; W. A. Bellingrath, of Montgomery; the Rev. W. R. Bolyns, of Birmingham; and Rev. Dunbar H. Ogden, of Mobile.

All of these men have long been known for their interest in the growth of Agnes Scott, and the building and expansion program of the college to which the people of the South pledged \$850,000 in 1919 and 1920. They have added to the existing Board of Trustees under the new charter framed and granted the institution.

Dr. Gaines, one of the best known and best beloved of educators in the South, who was a pioneer in higher education for women in the South, and who has been especially active in the founding and development of Agnes Scott, addressed the Synod, Dr. Gaines told of the early history of noisy chatter. the institution and its progress through the thirty-four years of its intervente and the leading Ameri

He told of the Indian custom of meditation for one hour each day for a year upon one single beautiful sentence and inspring thought. Mr. Mukerji said that almost everything he knew, he had learned from his mother who did not even read or write. But she had taught him that before the head can use its knowledge the heart must be educated.

#### DIVISION OF RESPONSIBILITY.

The point system employed at Agnes Scott does much to divide the holding of offices and the doing of other kinds of work among a large number of students. However, in spite of this wise precaution, a majority of the responsibility involved in college activities goes to a comparatively small number of girls. This is not due to lack of ability or of interest in other students, but to the fact that certain class members having a more arresting personality or a greater degree of aggressiveness find themselves in the limelight in their freshman years and continue to receive a majority of class and inter-class honors.

This bestowing of responsibility on a small group is due, we think, also to the fact that a certain mental laziness is evident in student elections and appointments to office. Whenever a vacancy occurs, most of us quickly run through the list of those who are already holding office and pick from their number that student whom we think capable. It is easy to be seen that this is not a desirable state of affairs.

The Y. W. C. A. keeps a record of the interests and practical experiences in the line of high school and college activities, of every girl who en- sum was realized from the sale of , hits that will be to a saide, the exercise more judgment in elections.

This non-division of authority is perhaps mare pernicious in regard to those responsibilities which do not involve office-holding. In the many little odd jobs around the campus there is scarcely an equal division of labor. We have in mind a student who wrote the "stunts" for three organizations, which were presented in the chapel Saturday night. She probably was better able to produce more attractive "stunts" than any other member NAN BAGLEY STEPHENS of those organizations, but it was not fair to ask her to assume responsibility which might well have been held by six people. Neither was it fair to exclude others from helping.

This condition gives rise to much dissatisfaction among those who never have the opportunity of taking part in activities. They are usually willing to help and in many cases are capable of really good work. We were told by an officer of the Y. W. C. A. that the majority of cases of homesickness were found to be among those girls who for one reason or another have never taken part in college activities. That they have not is in some cases due to lack of self-confidence, but in others the blame lies with the students

#### NEW LIBRARY RULE.

The library is a place where reforms are always in order. There has just been a new rule added to the list of those already in force. This provides that all books taken out of the library for the night must be returned at the beginning of the eight o'clock period, or in other words, at 7:55, also, that no book shall be called for during the five minutes which elapse before the ringing of the second bell.

This is a good rule, and "The Agonistic" wishes to see it observed. Heretofore there has been much confusion at the beginning of the eight o'clock period caused by a persistent calling for over-night books which the is from Goucher and the secretary from librarian has not had time to return to their proper places. It seems to us that the brief period of five minutes granted to the librarian to set the books in order will do away with much noise and delay, and will consequently be of great benefit.

# Hoasc Presents Stunts

#### HOASC INITIATION AND BANQUET.

#### Beautiful Entertainment in Tea Room.

Following the public announcement in chapel on last Wednesday morning, the seven new members of Hoasc were formally admitted into the organization on Tuesday night, October 31st. Initiation was held in Mr. Dieckmann's studio at half-past seven.

After the ceremonies the members adjourned to the tea room where a banquet was held. On the table were large yellow chrysanthemums arranged in baskets tied with black tulle, while place cards and tall yellow candles completed the decorations. The menu was as follows:

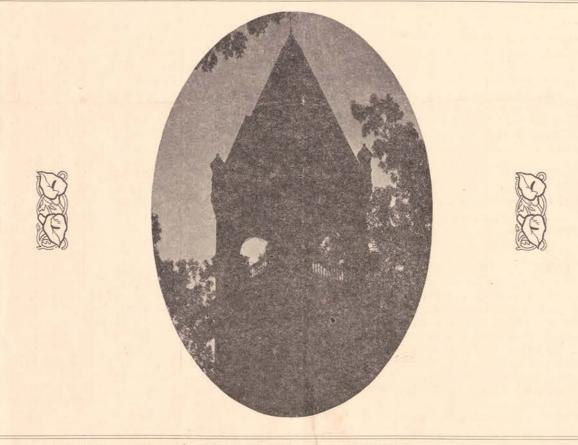

Grape Fruit Chicken a la King Potato Chips Stuffed Celery Cake Ice Cream

Demitasse Spirits rose high in such a blithe atmosphere and sounds of revelry issued from the festal hall. It was a source of disappointment and regret to everyone that the three faculty members were unavoidably prevented from lending their presence to the assembly, and they were greatly missed. It was a rare pleasure and inspiration to the undergraduates to have present four alumnae members-Emma Jones, Janef Preston, Cama Burgess and Elizabeth Wilson, who, although they are such people of affairs yet managed to attend. The other members present were: Hilda McConnell, Beth McClure, Quenelle Harrold, Eleanor Hyde, Eloise Knight, Alice Virden, Nannie Campbell, Mary Goodrich, Emily Guille, Elizabeth Hoke, Lucile Little, Valeria Posey, Elizabeth Ransom.

Similar words, with especial reference to mental activity, might fittingly fall from the lips of Quenelle Harold, president of the Pi Alpha Phi Debating Society, for it is upon such a creed as this that the organizaiton seems to be founded. Mary Colley, the president of the club, told of the plans for selling last year's Year Book. This sale occurred on Friday night. The books may be secured for seventy-five cents. Miss Laney told of very interesting offers of prizes to the writers of poetry: One from Southwestern University of a hundred dollars: one from Janef Preston and Frances Charlotte Markley for the best lyric by a member of the poetry club; one of ten dollars from the last year's Senior members of the society, and one of ten dollars from Frances Harper to the girl in Miss Laney's English Eighteen class who writes the best poem.

#### STUDENTS' COUNCIL MEETS TUESDAY.

#### Reports of Committees Given.

The monthly meeting of the Students' Council of the Student Government Association was held on Tuesday night, October 31. Nannie Campbell, vice-president of the Student Government Association, presided at the meeting. The roll of the members was called, and it was found that only about a half of them were present. After this the reports of the various committees were called for.

Eva Wassum, chairman of the open discussion group meetings, reported that one meeting had been held and that plans for others had been made. Subjects for open discussion group meetings are being collected from the students. A stunt was presented by this committee to encourage order in the library.

Elizabeth Hoke, chairman of the intercollegiate relations committee, reported that publicity had been given in "The Agonistic" to the Lecture Association at North Carolina College for Women.

Mary Steward McLeod, chairman of the library committee, said that her committee had been engaged in tracing library books which have not been returned on time and in placing placards in the library which encouraged the best of library etiquette.

After the reports of these committees the decisions of recent cases which mittee were read to the students

#### SOCIOLOGY III CLASS MAKES VISIT TO OFFICES OF BELL TELEPHONE COMPANY.

Last Thursday, the Sociology III Class was lucky enough to have the Bell Telephone Company send cars out for them to take them in to see the theories they were studying put into practice. They went to the Main, Ivy and Hemlock exchanges. Lunch was served them in the attractive lunch rooms of the Main exchange. They both saw and heard many interesting things, such as a \$75,000 double cable, some even held this in their hands (imagine having \$75,000 in your hands at one time), and then one kind operator allowed them to listen in for a minute on a long distance call between New York and New Orleans. Then they also saw the attractive club rooms for the benefit and pleasure of the girls who work there. About 5 o'clock the Sociology Class ended a very pleasant day as the guests of the Bell Telephone Company.

#### THE RUSHING WEST.

A phrase from the lecture recently given here by Dhan Gopal Mukerji, the Indian poet, comes often to our minds: "You are always in a hurry," he said; "you never stop to meditate." He gave an illustration from his own experience. An Indian teacher sat under a tree teaching to a handful of pupils the Indian theory of life and of religion. Slowly and with infinite could with comfort accommodate about care he taught and re-taught each new idea. As he was talking to his pu- a thousand girls, with plenty of dormipils, an Englishman rushed by at topmost speed, going to his tea. One of tory space, library space and class the little group asked the teacher the cause for the man's evident hurrying. room space. We have dreamed also of The teacher answered, "In the West there is always rushing. It is for the West to hurry and for the East to think."

We accept this whirlwind view of our Western civilization only with reservations. But we do feel that there is more need for that time in each day which, as Mr. Mukerji says, should be spent in meditation. Consider our own college, which ranks among the best in the South. There is too much rushing here. We are always pressed for time. We go quickly from one task to another, and sometimes we miss obtaining the full significance of the new ideas which we hear. We seldom have time in a year's work to do any real constructive thinking on more than one subject. In one of last few days, surveyors have been at L the English classes, a student remarked a few days ago, "We never have work surveying all grounds in order time to read any books just to enjoy them." Many of the students fail to read the daily papers for the same reason.

This idea of a constant confusion and hurrying is a false one. We really do have time to think and to solve the real problems which are presented to us every day. Many of our students, though we sorrowfully admit that they are in the minority, derive a rich benefit from taking time to let their constructive mental power have full play. When they study outward events, they stop to find their significance; when they read a book or a poem they search earnestly for its full meaning. Such should be a college educa tion. A period of real thinking and not one of a hurried amassing of facts with no meaning. A constant fight against time is not necessary and is far our highest ideals of an education which produces culture in the highest sense of the word.

#### PEPPY HOCKEY COACH.

Since the arrival of Miss Warner (the English hockey coach) the athletic field has been alive with many practices and much interest has been registered in the new rules and regulations which she has introduced. She has given us several interesting talks in which she has described most fully each position on the field. Henceforth, we hope to play a more scientific game after the fashion of the English.

Miss Randolph has recently introduced a new plan for marching out of chapel which is a great help for keeping order, both in the chapel and on the colonade. This method has been tried successfully at both Smith and Wellesly and we think it will be successful at Agnes Scott. This plan is for all to remain seated until one verse of the song has been finished then at the beginning of the second verse the first rows rise and march out by twos, then the next rows, etc., until every one is out. This is a much quicker, quieter and more orderly way of marching cut after chapel.

There has recently been a new rule added to the gymnasium rules for this year. When we have a day too rainy for tennis a notice will be posted on the bulletin board and the tennis for this day will have to be made up by an hour's walking. This was found to be necessary because of the confusion caused by having to make up the tennis missed on rainy days.

The French Club stunt was very ntertaining. It was a scene in a bus illed with Cook's tourists who were seeing Paris. Miss Prunella Priscilla Perkins and the beef king from "Chicawgo" found much difficulty in making themselves understood.

The Publications stunt came next. Out of a book came Aurora and her suitor Sil O Ette, who engage in a violent struggle over Add. All ends well, however, when they divide poor Add between them.

The Cotillion Club presented a lonely dance

The Glee Club, Day Students, and Orchestra also presented enjoyable and appropriate stunts.

Hoase stunt night is always a feature of the year which is anticipated pleasantly and which never fails to entertain the audiences which gather to see the attractions. The stunts this year were unusually clever and wellacted, and a very enjoyable evening was afforded those who were present

# DAY STUDENTS' COLUMN

Lorraine Beauchamp To Be Married. Day students are the possessors of a rare distinction. One of our number has become the heroine of an amazing romance! Nothing could have been more dramatic than the knowledge, bursting madly upon A. S. C. that Lorraine Beauchamp is to be married; and nothing more incomprehensible than the unthrilled calm with which she announced the fact. The reporter was (and has been since hearing of it) far more excited and alarmed and terrified than the heroine herself. There is about the whole thing an alluringly bookish bizarrety: Lorraine, big blue-eyed and flapperish, the bride of a Methodist preacher!

"Imagine me with a 'flock,' " she giggled-but we could not, try as we would. It is with impish glee that she looks forward to shocking some staid and pious small town.

The college as a whole does not know Lorraine, so short a time was she with us. But those of us who do know her-faculty and girls, too-regret sincerely that her, decision was "so sudden." #### THE GREATEST LIVING AMERICANS.

If one craves argument there is no question more useful than, "Who are the greatest living Americans?" Magazines and newspapers have waxed eloquent, bravely applauded, or bitterly bemoaned the names which have achieved the columns of the great.

Among the lists compiled by various agencies one of the most representative is that printed in the "New York Times"-It is a compilation of lists submitted by a large number of representative men and women. Of more than a hundred different men named on their lists, the following twelve received the greatest number of votes:

Thomas A Edison Charles W. Eliot Henry Ford Herbert Hoover Charles Evans Hughes John J. Pershing John D. Rockefeller Elihu Root John S. Sargent William H. Taft Booth Tarkington Woodrow Wilson

The list is given in alphabetical order, but it may be said that Mr. Edison received the highest vote. Whether or not the list is good is another question for argument. What constitutes greatest? Is it relative or absolute? And do not Charles P. Steinmetz, the Mayo brothers, as well as numerous others belong among the lists of the great?

Some time ago we had a list of the greatest American women-the argument there is at least less lengthy! Evidently they haven't arrived among the upper set, though they're on the way.

#### BORES.

Maybe you know the wit which flows from the ready pen of our modern punsters, and have entirely forgotten that such folks as Bill Nve and Josh Billings shook the sides of us ancient Agnes Scotters. But even though their wit has succumbed to the keener, more subtle humor of Irvin Cobb, George Fitch or Edna Ferber (and you know the others) one can't forget some of their clever thrusts.

Old Josh Billings may be antiquated, moss-backed and cobwebby, but when he says something true you might as well laugh and then was trying in vain to make the French maybe smile the other direction, so prepare;

"A man's a bore who talks about she said. hisself so much he don't give you a chance to talk about yourself.'

Try-outs for B. O. Z., the literary club for sophomores, juniors and seniors, were submitted on Monday and the new members will be announced some time this week.

#### GREEN APPLES. If we may be permitted a reprint

from "The New Student?" It's rather an unique idea, and we thought you might like it: it bears the name Green Apples.

"Youth is supposed to be particularly fond of green apples, half baked ideas and other indigestible comestibles. Age used to be especially apt on pointing out the connection between the indulgence of this appetite and the later colic. How often has not an old man watchd a younger one consuming Darurnism and prophesied a pain? He went the same way, so he did, and he knows how it ends.

"But the real truth is that the green apples of the old man's youth have long since ripened and become a most healhtful and innocuous diet even for the very young. The green apples of this generation are probably hardly recognized, and are doubtless eaten if at all, with little or no difficulty.

"If at all . . . that is the difficulty . . youth has become wary. He would rather starve than suffer colic. He has become mentally emaciated. Let him take a good feed from the tree of knowledge-ripe or unripe the apples are better than those handpicked fruits, taken from goodness knows where, packed in barrels, ripened by steam and fed to us with a censored spoon.

In other words, why not expose yourself to new ideas, new situations, new people. Colic? Pooh! if you have never had one you don't know the capacity of your digestion. You might turn out to be an ostrich.

I have to live with myself, and so I want to be fit for myself to know. I want to be able, as the days go by,

Always to look myself straight in the eve:

I don't want to stand, with the setting sun,

And hate myself for the things I've done.

I don't want to keep on a closet shelf A lot of secrets about myself.

And fool myself, as I come and go. Into thinking that nobody else will know

The kind of a man I really am;

I don't want to dress up myself in sham

I want to go out with my head erect, I want to deserve all men's respect; But here in the struggle for fame and self

I want to be able to like myself.

I don't want to look at myself and know

That I'm bluster and bluff and empty show.

I can never hide myself from me; I see what others may never see; I know what others may never know, I never can fool myself, and so Whatever happens, I want to be Self-respecting and conscience-free.

#### HAMILTON HOLT TO LECTURE

#### President Woodrow Wilson Foundation To Be At Agnes Scott.

The third lecturer of the series which the Lecture Committee is bringing to Agnes Scott is to be Dr. Hamilton Holt. He will speak in the college auditorium at 8:30 Thursday evening. After his lecture the committee will give an informal reception in the lobby of Rebekah Scott to which the college community is invited for the purpose of meeting Dr. Holt.

Agnes Scott is to be congratulated upon its good fortune in securing Hamilton Holt as a speaker. Not only is he an editor and author of wide renown, but he is famous as a patriotic American who sincerely loves his country and is doing his utmost to bring about a course of action that he believes will be for the lasting good of the United States.

#### GEORGIA POETS HONORED

Mariorie Lowe's Poem in "Poets of the Future," Helen Faw Honored.

By Herman D. Hancock. Great writers have said that the universe is only a pulsation of that motion of things which is represented by the rythmic movement of poetry. If this be true, schools of Georgia should feel proud that four of her sons and one of her daughters are represented in the largest collections of English college verse known as "Schnitkind's Anthology of English College Verse." The Georgia schools which have students so honored are Agnes Scott and Emory university.

The compilation of verse is done by Henry H. Schnitkind, Ph. D., in which he selects from thousands of poems submitted to him those which he deems best and publishes them in a volume known as "Poets of the Future." It is a distinct honor to be included among those selected, and it is the ambition of would-be Byrons and Shakespeares to be mentioned as one of the few who receive the honor. #### SUPPORT FOR THE "AGONISTIC."

K. U. B. has recently changed its functions from those of a journalism club with the purpose of advertising the college to the public by means of the Atlanta and Decatur newspapers to those of a club whose first object it is to support The "Agonistic." There has been felt a great need for such an organization for a long time, but on account of various conditions it has not been formed before. The "Agonistic" not only plays an important part in thought

and interest on the campus, but more than any other means it brings Agnes Scott into a real contact with other colleges. Only the 'Aurora'' can compare with The "Agonistic" in this respect. But the comparison plainly favors the latter for while the maga-zine appears only four times a year The "Agonistic" goes to numerous colleges all over the country every week. And although for service will present Africa's needs the best literary work at Agnes Scott is represented in The "Aurora," every phase of college activities and interests is found in our newspaper.

However, although it is true that **The** "Agonistic" exercises a much wider influence than The "Aurora," we regret to say that in our opinion the latter is a much better magazine than The "Agonistic" is a newspaper. There is no reason for this to be true, and we feel that the explanation lies in one of our previous statements: "The 'Aurora' represents the **best** literary efforts at Agnes Scott"-The "Agonistic" does not.

In times past the idea has been encouraged that The "Agonistic" is a kind of reporters club for Freshmen. It is to be enjoyed, or deplored, as the case may be, along with English I and then to be thrown aside. We remember hearing some one remark that no one would care to spend more than a year's work on The "Agonistic." This idea has seriously damaged the worth of our paper. It is inferior to those of several colleges which we could mention; and there is no necessity for this inferiority.

The main fault lies in the fact that we have too many incompetent reporters. This seems a rather bold statement to make. To the majority of students nothing seems simpler than to dash off an article for The "Agonistic." It is not so simple as it seems. From experience, we feel safe in saying that not more than twenty-five Agnes Scott students know the essentials of a really good news article and also in saying that of these not more than ten Mo are connected with The "Agonistic." We are rather handicapped MC by the lack of a course in Journalism. As it is impossible for Mo the English Department to offer such a course at present, K. U. B. Ro has sought to remedy these conditions in turning its energies toward "Agonistic" work. In the near future a group of associate members are to be chosen ventional snow and sleigh-bells. But for K. U. B. These members alone will have the opportunity of his pack of little bundles looked writing for The "Agonistic," and from their number the officers natural, and the things inside were and staff of the newspaper will be chosen. K. U. B. will become a most Christmasy. Wasn't he early? very active organization, meeting once each week for discussion You question skeptically. Alas, you're of the latest issue of the paper and hearing lectures on journalism too old to be fooled: you've guessed from time to time. We feel that in this way alone can The "Agonis- already that I'm talking about Lucile tic" hope to better itself. Associate membership in K. U. B. is not restricted to any class of students. Any one who has the good of our weekly publication at heart and who shows an aptitude for journalistic work has a chance of being chosen as a member. For the next two issues all you've missed a very nice feeling. As students who would like to become associate members of K. U. B. are asked to report for The "Agonistic," for from their number the new members of the club will be chosen. We wish to urge those who are interested, even in a slight degree, to help us. We need support and are relying on the students' aid.

#### WOMEN FOLLOW THEIR STAR

Women will not lose American citizenship in the future, nor their right to vote here, by marrying foreigners. The Senate on September 9 passed unanimously and without debate, an act making this change in our laws. The House had already passed it.

Women who have heretofore lost citizenship rights by marrying foreigners may be naturalized and again become American citizens. Thus men and women now have entire political equality.

#### WHAT STUDENTS SEE IN COLLEGE CAREERS.

"To the eye of the typical college boy, so far as my observation goes, college is a place of many attractions; but the principal and characteristic attractions are not flose of learning or "intellectual intercourse" as Dr. Eliot puts it. To but few is the college a place of scholarship, or even one where the student is to be prepared for greater efficiency in the earning of his living;" says John Palmer Gavit, commissioned by one of the New York papers to make a survey of college education. He visited four of the larger institutions in the East, Harvard, Yale, Princeton and Dartmouth. His articles attracted the widest attention among folks interested in education.

"After questioning a very considerable number of college boys of every class or type I conclude that in the average case learning for its own sake plays a relatively small part in the complex of motives. What the typical boy sees in college appears to be not any educational process that he is to undergo through instruction so much as a chance to live, in all that the word may be taken to mean in a very pleasant environment and amid most interesting events and social activities for four years or more before the hurly-burly and the more or less irksome routine of hard work in the outside world swallow him up.

"During the past few weeks in various places I have been asking many college boys of many different colleges as I chanced to meet them what they regarded as the net advantage acquired in their college life. The answers were all prompt and glib enough; you could make them into a formula on a rubber stamp or set them to music. With a proportion of exceptions so small as to be almost negligible, the list of advantages had to do with purely social relationships and experiences. The fellow students from every class and corner of the earth whom he met and the helpful and enjoyable friendships that he made; the teamwork in which he participated, the executive experience he gained as manager of some athletic group or as editor of a periodical; the democratic atmosphere in which he lived (every college is democratic, if you let its adherents tell it!), the selfreliance he attained, and so on. I can count on the fingers of one hand -anyway not more than two-the men who even mentioned spontaneously the studies they pursued or any purely intellectual activity in which they engaged."

There is no doubt but that Mr. Gavit, with unusual insight has discovered some of the ideas and conditions which exist at the present time. As college students and college graduates what is our answer to the question?

# Y. W. C. A. NEWS

#### PLAN FOR NEW SCHOOL.

For some time the members of the Y. W. C. A. cabinet and all those most upon. vitally interested in the Agnes Scott Sunday School have felt that some kind of change was needed to make the Sunday School mean more to the college community as a whole. Heretofore assemblies have been held from 9:15 to 9:30 and individual classes from 9:30 to 10:00. A great deal of good has been derived by those who attended from both the assemblies and the classes, but the assemblies, especially, have often had a very small attendance in proportion to the number of girls in the college community. The Sunday School leaders have appreciated most deeply the faithful attendance of those who have come and the untiring efforts of Miss Randolph and Miss Davis, who have led the assemblies, and also of the various teachers of classes; but they have felt that more of the girls of the college community ought to be reached by the Sunday School than are reached

by it. They have taken into consideration the fact that all Agnes Scott girls lead a very active life six days of the week and really need rest on Sunday and that Sunday morning is the only time many of them have to rest, so they, in consultation with Dr. Sweet and other faculty advisors, have decided that Frances Lipscomb, Sara Mackenzie, it would be a better plan to discontinue the 9:15-9:30 assemblies and let each individual class decide at what time it would be most convenient to meet-either Sunday morning, afternoon or evening. The classes will meet in the various buildings on the campus so that they will be easily accessible to all students who would like to attend, and it is hoped that the attendance will be very much increased because much help and real

#### Others Mentioned.

In addition to having five of her young students represented in the Dr. Schnitkind's work by having their poems published, Atlanta has four more of her college members given honorable mention in "Poets of the Future."

Miss Helen Faw, a junior at Agnes Scott college, a member of B. O. Z., the Poetry society, a contributor to the handbook published by the society, and author of "Sonnet," is given this distinction.

Messrs. Thomas Partridge, author of 'De Lan' o' Love;" Ernest Colwell, author of "Fishin'," and Lloyd Chapin, author of "The Harbinger," are given honorable mention by the noted collector and critic of English poetry. These men are students at Emory university.

# DR. CAMPBELL MORGAN LEC-TURES ON THE RECORDS

#### "The Historic Christ as Revealed in New Testament Literature'

The coming of Dr. Campbell Morgan to Agnes Scott was one of the notably splendid things that has happened this session. He was here from the fourth of December till the ninth. During these five days, he talked each morning in the chapel to the students, the faculty, and as many from Decatur and Atlanta as could find seats. He spoke also at the Decatur Presbyterian Church in the evening, and many from Agnes Scott were faithful attendants there.

The general subject of his addresses was "The Historic Christ as Revealed in New Testament Literature." On Monday morning Dr. Morgan's subject was "The Records and the Recorders." In this, he gave a summary view of the Gospels as a whole; and very vividly and sympathetically told something of the personality and life of each of the four chroniclers: Matthew the Publican, John Mark, Luke the Physician, and John the Fisherman. He said that all books about Christ obtained a foundation from and were dependent on the New Testament. There were four gospels in order to present four phases of truth concerning Christ. The discussions of the four following mornings took up in as detailed a fashion as the limited time permitted these four aspects of Christ's nature. "Jesus as the King," shown in Matthew, "Jesus the Servant" as revealed in Mark, "Jesus the Man," as Luke describes Him and "Jesus the Eternal God" as John wrote of Him.

Dr. Campbell Morgan is perhaps the best known Bible student in the world today. He admits that he has been seeking to prove its eternal mysteries for thirty-eight years; and filled stockings! or if those are too his masterfully, scholarly discourses juvenile for you, at least a prospect would surely attest the truth about of a well laden tree and a goodly quantity of Nunnally's Special. But the depth and breadth of his learnat any rate, Christmas is in the airings. It was a privilege indeed to have Dr. Morgan at Agnes Scott; and the instruction and inspiration gained attended the farewell reunion of that from his talks and personality will organization for this year will joy long be remembered.

NOR MORE DOWN

Oh what fun it is to have a Christmas Holiday!"

The Campus echoes the spirit if not the words of this very true song. For a while the heavy burdens that dog our footsteps leave for parts unknown, and our faces which usually wear the imprint of care are wreathed in smiles of bliss. We grow festive. and joyously thrilled at the sight of a wreath in a window. Our jaded nerves are calmed by the signing of carols. We go to town, living the jam and push and happy faces of little children, and we buy Christmas presents for those we love the most. We do not believe those who say it is not pleasant to shop at Christmas. Christmas shopping becomes a thing of delightful leisure after our struggles with Latin and Trig.

But going home is the supreme joy. Buying our tickets becomes a thing of solemn ritual. We are haunted with a vague fear that the train will leave us or something. We lock securely our ticket in our trunk, forgetting that they are of superlative value only to ourselves, and then become obsessed with the fear that we will forget and send the precious thing off with the trunk and be left ticketless.

At last we are on the train. Can there be anything to equal the moment when the wheels first begin to move, and we know we are really on the way to the promised land? We have visions of happy faces in open doors silhouetted against the glow of a firelit room, of holly wreaths and mistletoe, and we even dare to hope timidly for that which seems not evenly remotely possible-a white Christmas morning.

We have a feeling of convictions that such joys are not undeserved by us, and that we are getting a just reward for our labors. But there is one thing of which we are certain, there is no fun like that of having a Christmas holiday!

#### A Modern Interpretation of Shakespeare

Shakespeare has done well! The world knows it, the school knows it and the Senior Class knows it too!

There is just one criticism, however, which the Seniors feel might be brought against that great artist. Namely, that many of his mightiest scenes are so scattered through a number of plays that, ordinarily, people are apt to lose much of their force and beauty.

night was particularly enjoyable, as This defect the class sought to it gave a chance to see another play remedy by giving a drama entitled before the holidays, and incidentally "A Mid-Winter Night's Scream,"to peep into a real French home on the culmination of almost two weeks of careful thought and planning. Viewed from either the literary of the psychological stand-point the play might be accounted a thorough success. It may be deemed quite a scholarly achievement to combine such famous scenes from "MacBeth" as the Witches' Scene, the Sleep-Walking Scene and the Death Scene, with the Court and Casket Scenes from "The Merchant of Venice." This was what the Seniors did in a very effective way. Likewise, throughout the play many gems of Shakespearian epigram were gathered from all sources and grouped in a most convenient manner. From a psychological point of view the play showed great keenness of insight and persipacity of intellect. The class understood that if the production was to be dramactic, there must be some controlling purpose in order to co-ordinate scenes which might otherwise seem unrelated. Accordingly, a modern motif was introduced with rare success.

# SENIORS PRESENT "A MID-WINTER NIGHT'S SCREAM" | DOUBLE QUARTETS SING AT WOMAN'S CLUB

#### Agnes Scott and Emory Give Program

On Thursday night, December 13, a double quartet from Agnes Scott gave half a concert at the Woman's Club Auditorium in Atlanta. That may sound rather strange because our Glee Club never does things by halves; but you see the Emory Glee Club was the other half and both groups made an exceedingly pleasing and peppy whole.

The concert was given for the entertainment of a convention of musical supervisors. The program consisted of choruses by Agnes Scott and BLACKFRIAR TRYOUTS HELD Emory solos by the hest singers of the Emory Glee Club, a charming duet by Frances Gilliland and Lillian Mc-Alpine, and a solo by Miss Curry.

o'clock the Glee Club, directed by Santa Claus was still the same jolly Mr. Johnson and accompanied by Mr Dieckmann, according to their usual custom, gave "The Messiah," by ing with a thoroughly Christmas Handel.

This was especially appropriate at this time of year, when our thoughts were turning to Christmas and its meaning.

"The Messiah," composed in 1741, is one of the greatest oratorios ever written. The greater part of the words are taken from Isaiah, thus giving the score a double significance.

The leading soloists were Miss Margaret Battle, soprano, of the North Avenue Presbyterian Church; Miss Eunice Curry, contralto; Mr. A. W. Browning, tenor, of the Ponce de Leon Baptist Church, and Mr. Ed A. Werner, bass, of the North Avenue Presbyterian Church.

There were a number of choruses sung, among which were the famous "Hallelujah Chorus" and "All We Like Sheep Have Gone Astray."

There were a great many guests from all over the city, as this event is one which people appreciate very much. The special guests of the Society were the musical directors of the South who are now meeting in Atlanta.

#### STUDENT VOLUNTEERS AT VESPERS

Last Sunday night the Student Volunteer Board presented a very interesting meeting for our Y. W. C. A. Service. The speakers of the evening were Mr. Perry Mullinax and Mr. James Dombrowski of the Emory Volunteer band. Mr. Mullinax spoke in an introductory way of the movement and as followed by Mr. Dombrowski, who made a very forceful challenge for the call of mission work. At the close of the service, Mr. Tom Sharp, who is at the head of the movement spoke to the volunteers in the Propylean Hall. The meetings were instructive as well as interesting to all who were present.

But a brief excerpt of the play is enough to convince anyone of its intrinsicment.

Bassanio had offended Shylock greatly by biting his thumb at him.

The matter was brought into cour A committee with a representative and Shylock demanded redress in the nature of five pounds of Bassanio's flesh. Portia plead for mercy but Shylock proved relentless. A bond was then drawn up wherein it was agreed that after one week of grace

Twelve New Members Taken in A freshman was heard to remark the other day, "Isn't there anything on this campus you can get into without trying-out?" She was promptly squelched (in the negative) and just as promptly resolved that, in that case, she would systematically - try out for everything (even as you and I must admit we did when freshmen.) But the air was suitably saturated with the spirit of tryouts last week Everyone you met was either preparing a Pi Alpha Phi speech, had just written a story or, the greater of the evils, was rehearsing a Katherine and Petrucio scene, or a Mrs. Malaproj one.

'Tis the week before Christmas at Agnes Scott, but all over the campus every creature is stirring because the true Christmas spirit has invaded Agnes Scott. Each day carries a crowd bent on Christmas shopping to town and each night new packages are added to the wee mysterious ones already here. #### SOCIAL SERVICE DEPART. MENT HAS ANNUAL CHRISTMAS TREE

#### Santa Claus Visits Associated Charity Children

Christmas is here! Did you see Santa Claus? Well, if you didn't you've missed a lot, for the jolly old fellow alighted from his sleigh Saturday afternoon and, in the absence of a chimney to the Gym building, slipped in through the back window and loaded the big Christmas tree with gifts for the children from the country near Decatur and Atlanta. Santa had intended "laying his finger aside his nose" as soon as the gifts were on the tree, but the children were having such a good time that he could not resist the temptation of presenting the gifts himself, And O ves-sh-h-h! We've found out that Santa likes music, or at least we think he does, for he has a voice like Mary Jarman and you know how crazy she is about music. Well, the jolly old man was late in arriving because of the traffic system in At lanta (the Bells were frozen) and so Josephine Schuessler told a story and Mary Freeman danced. After Santa appeared there was an uproar in the Gym and the kids were so excited that they could hardly eat the apples, oranges, and cream and cake that the girls served. The rest of the afternoon will bear no description-words fail me-pandemonium reigned in the form of cap pistols and fire crackers and I'm sure I don't know where we or they would be this minute if their would-be-guardians and protectors had not shooed them off home.

Bassanio must lose five pounds of flesh in payment to Shylock. No sooner was the bond sealed than Bassanio began secretly to take Wallace reducing exercises-at Portia's instigation. Matters were complicated by the arrival of Lord and Lady MacBeth. MacBeth fell in love with Portia. He discovered that she loved Bassanio, but that she wished him thin. He knew nothing of the fate which threatened Bassanio and leaped to the conclusion that if Bassanio remained fat Portia would no longer love him. There are but two deaths and these are very convenient, since the villians are thus disposed of.

#### PICTURES FOR SILOUETTE MADE

The relentless eye of the camera was turned upon Agnes Scott during Thanksgiving week and several days after, while pictures for the annual were made. During this time an observer from an airplane might have imagined that a nest of ants were changing their place of habitation, judging from the dark stream of individuals garbed in cap and gown, or street dress who passed over the path to Science Hall. There, in an atmosphere delicately laden with the fumes of hydrochloric acid gas which was being evolved in the Chemistry laboratory, the sittings were made one by one, and few were they who escaped the camera's gaze.

Emmie Ficklen, aided by her two able assistants, Eugenia Perkins and Elizabeth Henry, has charge of the photographic work of the Silhouette. "You haven't had your picture made" and "I've come to collect" are their war cries as they dart about the campus waving the white slips of paper so systematically provided by the photographer. The photographs are being made by White Studios of New York.

#### BLACKFRIAR TRYOUTS HELD (Continued from Page 1)

like the proverbial image of granite when you have just made "such a cute speech," and how the other onlookers look grim and unapproachable-from all this, it would seem not gripped in the throes of unsuspecting ignorance, would certainly never be inveigled into trying out. But Blackfriars is such an important organization on the campus, and membership into it is so eagerly cherished that, last Monday night, more than twenty girls faced the ordeal. The tryouts were, on the whole, exceptionally good, and as a result of the night twelve new mem-

bers were taken in: Ellen Walker, Mary Anne McKinney, Monte Sewell, Rosamonde Neissler, Frances Alston, Marjorie Lowe, Weenona Peck, Margaret McColgan, Frances Lincoln, Elizabeth Cheatham, Mary Palmer Caldwell and Frances Gilliland.

The group of girls contains valuable material which Blackfriars needs, and they are to be congratulated on their splendid achievements in getting into the organization. And so, if the freshman's question were put to them, they would probably say, "No, but after it's over ain't it a grand an' glorious feelin'?"

Mills-Mills College, with a desire good character, good health and the to try something new in the way of examinations, has adopted a method candidate must be able to read and used at Girton College, Cambridge. This method has not been used in all the classes at Mills but is being tried in one of the English courses. The questions are given to each student, who then has the right to put them away until she feels prepared or inclined to answer them. She can write as long as she desires, the only requisite being that she record the time used on the paper when she hands it in.

Bryn Mawr College is to open a summer school for women in industry and will cooperate with organized labor in and about Philadelphia in providing educational facilities for women and girls actually engaged in mills and factories. An eight weeks' course is planned, to consist of such subjects as English literature, history, economics, government, labor movements, industrial organization, elementary law, physical geography, physiology and hygiene, and community life. The expense is to be defrayed by scholarships provided by workers' clubs, trade unions, and men and women who believe in the extension of education to industrial workers. The only requirements for admission are Society.

#### The Colleges as Patrons

"Miami University (Oxford, Ohio) has done a new and stimulating thing. It has endowed a poet, essayist, and dramatist (Mr. Percy Mac-Kaye) as Fellow in Dramatic Literature, with a professor's salary, a house and a studio, with no assigned duties except to work at his art, and with all opportunity for association with faculty and students. The objects held in view by the university are two. One is the advancement of literary art. The other is to leaven the increasing materialism of the American university by the presence of one whose work is the embodying of the ideal.

"Anything which will free men of high endowments . . . to do their best work deserves the praise of all . But what primarily concerns the colleges is the effect on them. It is good that those watch towers of humanity should extend their horizons. University men near great centers have the chance to keep in touch with the large actualities both in life and in art. This is more difficult for institutions in the country, where life tends toward dead routine and talk toward the local as much as it does in small communities not blessed with a watch tower.

"As to the students, the men in general admire visible success and pursue studies which they have heard lead toward it . . . The typical man of enterprise and physical vigor goes in for engineering, law, economics, or chemistry . . . He hardly thinks, unforced, of a study not visibly related to his life work . . . . But daily association with a magnetic personality, who may be giving expression in the forms of the past to what people today are thinking and feeling, can hardly fail to make the literature of the past seem more significant and vital. Even the roughneck Pharisee who passes by on the other side of the hall may admit that reputation and influence without wealth mean success."-School and

The annual white Christmas serv ce of the Y. W. C. A. was unusually ear. The white tree formed the background of the stage where the vested choir sang Christmas carols. seemed to be more of the real spirit of Christ in the meeting than usual. The story of "The Coming of the Prince," which showed so beautifully what the real spirit of Christmas is -love for others, kindness to all, and self forgetfulness-seemed to be felt in the heart of every person present. This was a very fitting service with which to close the work of our local Y. W. C. A. for the year 1922, not only because it was appropriate to impressive in its sweet solemnity this the Christmas season, but because in showing the real Christmas spirit it pointed out the ideal at which the Y. W. C. A. always aims-living up to, in this life, the ideal which Christ would have us live up to.

The occasion Friday was very lovely in every respect. The dining rooms were enchantingly decorated with holly, tiny sparkling Christmas trees, one on each table and burning candles. The dinner itself was all that heart could wish; grapefruit, chicken-salad, asparagus on toast, potato chips, celery, olives, ambrosia and fruit cake, hot chocolate and mints.

The Rebekah Scott dining room had Dr. and Mrs. Gaines as its guests. Mr. Cunningham and Misses Katherine, Mary and Margaret Cunningham, and Miss Louise McCain, Miss Randolph and Mrs. Randolph were visitors in the White House dining-room. Everyone was in the gavest of spirits, and both the faculty and students took advantage of the occasion to serenade each other.

"Oh my! oh me! We are the facultee If anybody loves the students It's we, we, we, we!"

An impromptu song that seemed to xpress a universal emotion was this: "Oh you may wonder why we are so jolly

We're going home to a house full of holly

It won't be long 'tll we see our beau And stand beneath the mistletoe!'

The total amount pledged for the Student Friendship Fund is \$830truly a good amount! In this, as in everything she undertakes, Agnes Scott has done her very best. And that "best" is always something to take notice of. The work of collecting these pledges is going on rapidly now, and every one is asked to cooperate with the work again in having the amount pledged ready for the collector.

Of course, we remember that Christmas shopping is the order right now -and that all our money is going for that. But don't let's forget that we have pledged ourselves to this amount. the fun (do they in those war-torn

'Sir David Wears a Crown'' and "The Will o'the Wisp" Given

On December 3, the Blackfriars, the dramatic organization of Agnes Scott, presented their annual fall plays. Those given this year were "Sir David wears a Crown," and "The Will O' the Wisp." Each year Blackfriars reserve the Saturday night after Thanksgiving and each year the old girls, having tested the ability of the Blackfriars, and the new girls, anxious to see what the much talked of organization can accomplish, eagerly await the first plays. Nor were either disappointed, for the plays were both usual and striking and well presented. Let me tell you what an awful tragedy has come into my life. Oh, its terrible, its horrible, its-its simply the worst thing in the world! A horrible old boy that was out here the other night told me-oh Giddie-I can't even bear to repeat it-that there isn't any Santy Claus! Anyway I'm going to hang up my stocking, for I don't believe he knew what he was talking about.

## THE COLLEGE

for November carries a complete transcription of the address delivered by Dr. Park at her inauguration as President of Bryn Mawr College, October 2, 1922. The entire address, dealing with the growth and function of the woman's college might well be given; since space is limited, we quote but one section, the crystallization of some of our own ideas:

-"if for four years the student is to be often shut away from the busy human activities to which in the end she will return, the community has ing new subjects since I went to a right to ask not only that her intelligence should be trained but that in that important period her social be the victors in 120 hours of playing. imagination should not be dulled, that Disheartened because of the interferher sympathy should not be played ence of academic work, perhaps, they upon and lessened but should be set are planning to stage a real contest to on broad and strong foundations; run day and night through the Christ that she learn respect for her own mas holidays .- Yes, we're convinced spirit and for the spirit of each individual she meets. They can demand days! that she come out to her life as a member of society with perceptions quickened, no sentimentalist, no to helping the blind." Even the moral bully, demanding and rejecting in accordance with her own standards alone.

"There is only one way to make certain this result. Within its narrow class rooms the college must see to it that she is taught with breadth of view, and this not only in so-called safe subjects, but in so-called dangerous subjects, in economics, and history and psychology and religion; taught with sincerity which will call out sincerity in her; with imagination which will create for her a true and breathing picture of the world she is to meet: and with liberty of spirit which will make her all through her life demand for herself and others the same quickening air. I have said that the community must demand this of Revolution, we forgot the forbidden the college; at the moment it is more often true that the college must create the demand."

#### "THE MIRRORS"

Many persons are now telling interesting stories about who didn't write the "Mirrors of Washington, and "Behind the Mirrors!" The guessing contest was closed by the recent announcement of the publishers, Z. P. Putman's Sons, that Clinton W. Gilbert of the Philadelphia Evening Public Ledger, was the author. Not the least surprised man to learn he guessed wrong, will perhaps be Senator Hiram Johnson, who took exception to a characterization attribut ed to Senator Borah: "I fight for principles; Johnson fights on personalities."

Mr. Johnson was very certain that a Washington correspondent, between whom mutual dislike was rampant, had held up the Mirrors. Prickly words were exchanged. They ceased when the newspaper man said: "You, may be sure, Senator Johnson, if I

THE COMMUNITY'S DEMAND OF | were attempting to write a book on outstanding personalities in Washing-The Bryn Mawr Alumnae Bulletin ton, I should not have included you.'

NEWS

Studying human nature through the newspaper has been a breakfast accompaniment for the past few days, and its been such a satisfactory contest to find the most unusual item each day. Maybe you think it's not fun, but how are these for starters?

"Play Pinochle Five Days: Three Syracuse University Men Win a Marathon." "Aha." say I. "they're teachcollege." And then I read on to see that three assiduous youths claim to that things are not as in the good old

"Wedding Gifts to Blind: Asks to have gifts sent in cash, to be applied finance's gift of several thousand is to be used, states the article, which in complete self-possession, seems not at all surprised at it's unique informa tion. Truly it's curious how news papers can contain such human bits, and yet spend many lines o' type on the latest theory for the murder Why don't you start the searching contest-though I warn you it will lure you into strange company.

#### AND WALPOLE REFERS TO WELLS

Memories of flu quarrentine and Hugh Walpole! As he leaned over the edge of the Agnes Scott platform, giving deliciously humorous touches to the stark reality that was the Russian joys of a germy city and reveled in his pictures and words. Now he's back in New York again with many lectures on the English novel. Wells, with the gyrations of his mental apparatus comes in for a share of discussion.

Speaking of H. G. Wells, Mr. Walpole said, "I should like to find the man who first said to Mr. Wells, 'My word, what a lot you know about things!' Since 1914, Wells, the artist has ceased to exist. The war swallowed him up. He pokes his head up now and then above the waters to shout, 'I know how to settle it'; and Saturday's solution is far different from Tuesday's, because the deeper he sinks the faster his brain works.'

Now, as you may recall, Kansas is in the midst of a religious controversy between theologians and history professors over the fitness for the student of Well's Outlines of History. According to press reports the Outline is not fit for students because of the naturalistic views on Christian and the improper moral viewpoint. The schoolmen endorse its value because of its broad viewpoint for history in general. The students condemn it because it is "dry." Many appeals against the use of the book have been forwarded to Governor Allen, but he has put the question up to the State Board of Administration where it is now pending.

Think of this! In the recent issue of Aurora, the November, seven contributions are from the facile pens of Day Students. This does not mean, it is true that seven Day Students contributed. But even at that, the figures prove that we're decidedly "in' things around this campus.

On the other hand, only two of us at present are contributing to Agonistis as reporters or department editors, while one Day Student is to be found then respe on the staff of Aurora.

Do these statistics bore you? In case they do, of course, stop right here and read 'Smoke and Cinders' again. Otherwise, haste on and you will find disclosed further information regarding our class.

The Day Students starring on the regular class hockey teams are these Sarah Fullbright, Lucile Phippen Daisy Frances Smith, Fanny Swann, Rebecca Skeen, and Frances Alston.

On the whole, our part in college pened to n matters is gratifying-and yet, can't we improve it?

#### ALUMNAE NEWS

One of the nicest things about Thanksgiving is that it brings so many of the old girls back to spend the holiday at Agnes Scott. During the week of Thanksgiving this year, there were sixteen of last year's girls who returned.

Lilburne Ivey, Martha Lee Taliaferro, Laura Oliver, Lucia Murchison, Gena Calloway, Joy Trump, and Carolyn Moore were here for the whole ime. Hariett Scott, now Mrs. Gratin Bowen, came on Sunday, but had to leave the following Wednesday.

Eunice Dean of Anderson, S. C. was in Atlanta, but came out to Agnes Scott two or three times. Ruth Keiser and Elizabeth Perry
