# Committee to Collect By Different Method

Using the motto, "Top 1942's Gift!", Agnes Scott students will strive next week to exceed last year's \$500 offering in the annual World Student Service Fund campaign to raise money for students in war-torn countries of Europe and Asia. Beginning Tuesday, January 26, in chapel with a speaker, who will be announced later, the drive will last through January 30. During chapel on Thursday, January 28, a group of students will discuss the drive.

Each student is asked to contribute toward the national goal of \$300,000 which will be sent by cable to serve for food grants, medical aid, travel aid, scholarships, summer work projects, etc., for Chinese, Russian, and English students, as well as for American students in interned countries.

Virginia Tuggle heads a student committee composed of Katherine Phillips, Ruth Lineback, Florence Crane, Mildred McCain, and Eudice Tontak. Miss Susan Cobbs, assistant professor of Latin and Greek, is faculty chairman, assisted by Mrs. Roff Sims, lecturer in eight such conferences held history, and Dr. Schuyler M. Christian, professor of physics.

> The campaign will not be conducted as it was last year. Under the direction of Mildred Mc-Cain, for the day students, and Katherine Phillips, for the boarders, a group of girls will distribute envelopes for contributions. The names of the girl to whom they are to be returned will be on the envelopes. No high pressure collecting will be done this year.

cards were white folders also boasting the SAE seal. The fraternity colors, purple and gold, were expressed in tiny candy baskets, and in the corsages of gardenias and violets.

After the banquet there was dancing to the music of the Auburn Knights. During the grand march the feature of the evening occurred. Patty Barbour was announced and pinned as sponsor for the SAE's. Patty wore a stunning dress of silver and gray-the top being of silver-beaded net, and the skirt of folds of gray net over taffeta. Among those at the dance were Dot Archer, "Puddin" Bealer, "Robin" Robinson (who looked very much all right in a pale green satin dress with a long-sleeved jacket trimmed in gold lace!), Kitty Kay, Claire Bennett, Jeanne Newton, Scotty Newell, Joyce Freeman, Elinor Sauls, Betty and Frances Brougher, Bettye Ashcraft, Lib Woodward, Mary Louise Duffee, Miriam Davies, Julia and Elizabeth Harvard, Mary Neely Norris, Emily Higgins, Lois Sullivan, Emily Ann Singletary, Laurice Looper, Miriam Jester, Virginia Carter, and Mr. Alkema and his

### Emory Interfraternity Dance

The interfraternity dance at the Emory little auditorium was also a real success. The decorations consisted of streamers of red, white, and blue, with different fraternity insignias on the walls. Music was provided by the Emory Aces. Once more Agnes Scott "took over." Eva Williams was there wearing a dress of orchid jersey top and black net skirt sprinkled with orchid butterflies. Others present were Marguerite Watson, Margaret Mizell, Lib Woodward, Lucy Turner (who sported an orchid!), "Puddin" Bealer, Martha Baker, Eleanor Davies, Emily Higgins, Louise Starr, Nita Hewell, Jean White, Jeanne Robinson, Joyce Freeman, Martha Rhodes, Bettye Ashcraft, Claire Bennett, Patty Barbour,

# War Council Continues Drive for Red Cross

Nancy Hirsh, chairman of War Council, revealed Saturday that only 14 personal donations had been received so far in the drive for funds to buy Red Cross kits which are given to American soldiers at points of embarkation. The junior class has pledged \$40 from the sale of campus directories, and many clubs and organizations have contributed.

War Council has asked that every student give at least one dollar before the end of the campaign on March 1.

Contributions may be given to any of the following: Nancy Hirsh, Marjorie Weismann, Flora Campbell, Pat Stokes, and Betty Brougher.

Kitty Kay, Marjorie Naab, Jean Satterwhite, Harriet Kuniansky, Mary Louise Duffee, Jeanne Newton, Ann Flowers, Betty Jo Davis, Lib Almon, Margaret Killam, Elizabeth and Julia Harvard, Ruth ological Seminary. Having been Doggett, and Mary Turner.

Nell Turner, who spent the week-end on campus, attended both dances. Before the Saturday night dance Martha Rhodes and Mary Louise Duffee went to a D. V. S. supper at the Biltmore. Emmett-Florence Wedding

Did you know that Julia Ann Florence is going to be married Saturday? The wedding will take place in Cedartown at 7:00 p. m. After that she will be Mrs. Roy Emmett! Bridesmaids in the wedding will be Claire Bennett, Polly Cook, Patty Barbour, Martha Liddell, and Susan Montgomery. Bettye Ashcraft will serve at the To Be Debate Subject reception.

### At the Nightspots

Seen at the Paradise Room over the week-end were Kitty Kay, Harriet Goldstein, Mary Campbell Everett. Jane Dinsmore and Quincy Mills went to the Rainbow Roof.

Quincy Mills spent the weekend at Fort Benning, and Agnes Scott greeted distinguished guests -such as Carolyn Rose's R. A. F. friend, and the Special Agent who visited Pat Stokes. We think he's swell, too, Patty!

Attending the B. S. U. state conference at Bessie Tift college over the week-end were Mamie Sue Barker and "Cookie" DeVane.

# Faculty Keeps Facts Secret About Revue for Red Cross

By Kathie Hill

It is unfortunate that the first NEWS of the year is coming out a whole week after our return from Christmas vaca-. for now both my hope that you had a merry Christmas and my very sincere wish that you will have a happy New Year will sound a little stale and flat. However, that's

nothing to what this column sounds like this week. You see, somehow the usual after-Christmas blues were more of a deep

ed, and vacation forgotten, more or less-mostly less. Even our two canny canine cronies have crept cautiously onto the campus again, the tin cans are being bashed, smashed, and washed. And the faculty, oh, this is too wonderful a piece of news! The faculty is going to give a Faculty Revue!! to raise money for the Red Cross.

I have begged them to tell me what it's about but they won't, although they have promised me a scoop on the title of their little project (a title which they say is alone worth the price of admission), but since the whole affair is shrouded in mystery we will just have to hold our hats and wait. All the faculty will antic-apate.

### Blackout on Library Steps

I do know that one night as the faculty writing committee was gathered behind closed doors to complete the forthcoming masterpiece, the siren for a blackout sounded and in a body the committee, after collecting its wits, itself, and its papers, rushed over to the library, which is the designated place of safety in time of a blackout. But the committee members had forgotten that during Christmas vacation the library would not be opened at night for anything. So they sat forlornly on the library steps awaiting the all-clear and hoping that it was only a practice blackout. They grew impatient, though, and finally groped their way back to the back campus.

### Relaxing Exercises

They stopped in to see Miss Winter and just as they arrived at the door of her room the all-clear sounded and so one of the group snapped on the lights. should meet their eyes but Miss Winter prone on the floor! By her side was Miss Alexander in a chair counting, "One-two-three, kick." After their first fear that Miss Winter had been murdered during the blackout had been alleviated, the committee was informed that Miss Winter was taking exercises. You see, Miss Alexander had found some new relaxing exercises and thought the blackout a good time to practice them . . . on Miss Winter.

### Room and Bored

Katherine Philips went to a social one night with a young man. The two happened to sit below a sign that advertised Room and Board. Some wit came up and said "Oh hello, Miss Room and Board." "Oh no," said Katherine, 'I'm Room but he's Bored," pointing to her date.

# Only 238,833 Miles to Go!

Rolling a bandage to the moon—sounds absurd, doesn't it? But that is what many of us are doing, even though we don't know it. We are helping the war in an astronomical way, forgetting all about the real-down-to-earth job which is waiting for us.

That is, we measure our part in the war effort by the number of things we do physically—this many dozen sweaters knitted, that many hundred bandages rolled. Yes, this is a fine way to show our interest, but we are wasting the time put into making these articles unless we have an intellectual stake in

What would you think of a man who poured water on his burning house, rebuilt the damaged parts—only to leave the cause of the fire removed? "Why, he must be out of his mind!" you would say. And yet, that is what we do when we produce tons of things to relieve the results of war, all the while closing our ears to radios and ignoring books, the two messengers of ways to prevent future wars.

At a time when everyone should be concerned about what goes on in the four corners of the earth, we are satisfied to isolate ourselves in one of the smallest worlds-within-the-world that can be found: college life.

And what will happen when we leave Agnes Scott in a few short months or years? Do you suppose that everyone will say, "Oh, those girls have a right hot to know anything about world affairs: they are college graduates!"? On the contrary, we will be expected to take over the job of creating the ordered world life which our soldiers have fought to make possible. We cannot avoid the job, and we dare not come up wanting.

So let's face facts and see what can be done. It isn't nearly so hard to do our part as we think. Of course, we are busy, but remember that the busiest people always have time to do just one more thing.

Let's listen to one good newsbroadcast a day! We know that Raymond Gram Swing has been voted the best news analyst on the air, so why not tune in on him for that short fifteen minutes before bedtime? While we put curlers in for tomorrow's beauty or knit two rows for next month's warmth, we can be painlessly absorbing the facts of the day's news as well as the big issues behind them.

Let's read one short magazine article a week! This may not be as interesting as reading Vogue or Mademoiselle, but then, too, it won't take nearly so much time to finish as a fashion magazine. Reader's Digest has two or three thought-provoking war articles in each issue, for those who don't care to ex-

plore the magazine shelves. One of the best places to browse, however, is among the Foreign Policy Association Reports, which give short accounts of many phases of world affairs. (Miss Hanley keeps them at the desk in the upper reading room.)

Most of all, let's keep an alert attitude towards everything that concerns the war and the peace which will follow! Just because we know how easy it is to slip into thinking no farther than the bounds of the campus, we must make a special effort to stay a part of the everyday world.

Knit, roll bandages (miles of them!), write letters to soldiers—yes! But let's not get so busy doing these things that we'll neglect the main job of being informed, thinking women. —(F. E. K.)

# A Woman's War

Fundamentally, this is a young man's war. But in many important ways this is also a young woman's war: young women in uniform and young women in overalls; young women in field and factory, in office and hospital.

You as young college women have a definite part to play in this crisis. For even in the classroom, today's Total War is not merely academic. It is actual.

Young women students, everywhere, are keenly aware of the facts of the war; they must also be alert to the way in which those facts affect them as women and as students. They must recognize the unpleasant fact that a Totalitarian triumph would destroy their very freedom to attend the college of their choice.

They have a tremendous stake in the war; for if we were to lose it, they would lose their future, and youth deeply deserves a future. They also have a service to perform and they are performing it with their characteristic enthusiasm and determination. I know that, for my own daughter, a college sophomore, tells me of the many war services her classmates are rendering.

One thing you can all do is to buy War Bonds and Stamps. Perhaps you cannot invest vast sums of money. But you can invest an appropriate share of all you receive or earn. And as you invest this money you will also be investing your own sacrifice and self-respect. In a practical and patriotic way, you will be uniting scholarship and citizenship.

You will also be investing in the future. Youth has always depended on the future. Today the future depends on Youth.

# United Nations Air Forces Continue Attacks on North Africa and Italy

Political Plots Threaten American Success As Giraud Succeeds Assassinated Darlan

By Tess Carlos

There was a promise of immediate success, and commentators were carrying on a verbal battle as to where new concentrated Allied attacks would come after Tunisia was mopped up with the Germans

and Italians trapped in North Africa. Admiral Darlan was set up as provincial administrator of the French North African possessions by the American forces. The United Kingdoms were converging on Tunisia from East and West,

Montgomery through Libya and Eisenhower through Algeria.

Then something happened. French fleet was scuttled by its crews. Little of the details has leaked out. Darlan was assassinated, buried, and forgotten along with his killer, who was shot after a secret trial. General Giraud was selected to become high commissioner. Mud stalled the American forces on the fringes of Tunisia. There was talk of a Giraud and de Gaulle meeting. There were arrests made of prominent Frenchmen, some of whom had aided in th occupation of Algeria. There were rumors of Royalist plots against Giraud. There were rumors of more plots against Giraud. There were rumors of more plots against American officials including the President's envoy, Robert Murphy. American and British airmen continued to pound Axis ports in North Africa and Italy. There was a lot of mud on the fields of Tunisia and on the American and French soldiers fighting there. There was plenty more, though, that couldn't get by the censors.

### The Stalking Bear

The Russian bear pawed off in seven weeks of bitter winter fighting 50,-000 miles of the 120,000 gained by the German last spring. Throwing circle after circle of Russian lines around the entrapped Nazis and their allies, all Russian forces are converging in a threepronged attack upon Rostov, one of the heavily fortified main-stays of the German line. Reports and speculations have been too optimistic. The fact that the Russians have not yet cracked any of the important fortresses of the Nazis and that the winter fighting will have to be curtailed in a few weeks because of the strenuous weather must be considered in the evaluation of the victories of the Russians.

### Jungle Doldrums

The regaining of the vast empire which the Japanese wrested from the United Nations in the Pacific area will be a long and tedious task. In Burma, British forces under General Wavell, after pushing through the sweltering jungles of northeastern Burma, are still twenty-five miles from the Jap base at Akyab. The Japanese have offered little concentrated opposition. But the British have made few gains.

In New Guinea, the American and Australian forces under the personal

# Just A Reminder

Next week we're going to print a long editorial about the World Student Service Fund and how important it is that we exceed our quota of \$500. We'll probably mention that the fund goes to help students in China, Russia, and England and also Americans interned in other countries. But what we want to say now is—be thinking about the W. S. S. F. and how much you can give. —(M. R. H.)

command of General MacArthur are still wiping out the Japanese fighting in small pockets around Buna. Although "the enemy's situation is now hopeless," many more months must pass and many more lives will be lost in the reconquest of this tiny strip of territory.

### The Magic Mountain

Taxes will rise and rise and rise. Whether this will be done through enforced savings plan, or pay-as-you-go plans such as the Ruml plan, or sales taxes, sixteen billion will have to be raised this year. This was President Roosevelt's budget message to congress and the nation. Presented a few days after his optimistic viewing of the state of the union, the budget message showed better than words that increased production and anticipated victories are expensive.

### Point by Point

OPA chief, Leon Henderson, resigned because of the pressure of certain elements in congress. His successor, exsenator Prentiss Brown, of Michigan, has the apparent support of opposition forces in congresss, and his appointment will soon be approved. But the OPA is continuing in its policy of rationing. In seventeen states in the East a ban has been placed on the use of automobiles for pleasure driving. In February a point-rationing system of canned, dried, and frozen fruits and vegetables will go into effect.

# Holey Resolution

The biggest and perhaps the most unusual New Year's resolution in history is about to be made—big because five hundred people are going to make it, and unusual because it was inspired by the sight of a hole!

Yes, this is probably the fifty-third time since the founding of Agnes Scott that we have all resolved not to walk on the grass when spring comes. And what does a hole have to do with such a time-honored custom? Only this: the sight of so many holes on the campus last week, while the new shrubbery was being planted, made up stop to think, for once, where we were walking.

It might be a good idea if the administration left a few holes in the lawn all the year around, just as a little reminder. What do you think?

# ALUMNAE DORM DRIVE NETS SUM OF \$171,024.07

2,000 Subscribe to Fund for Hopkins Hall; Mrs. Sam Inman Cooper Directs Campaign

Agnes Scott's Alumnae Fund campaign, which was started in 1940 with the intention of raising \$100,000, is a rousing success, according to Dr. J. R. McCain, president of the college. classical languages, said "The sug-He announced this week that the campaign went over the top with approximately 2,000 subscribers pledging a total sum of \$171,024.07.

Mrs. Sam Inman Cooper, the former Augusta Skeen of the class of 1917, directed the alumnae effort, chief objective of which was to provide a new dormitory on the campus to be named in honor of Miss Nanette Hopkins, who was for nearly fifty years dean of the students.

### Dorm After War

Out of the \$171,024.07 pledged, \$109,346.73 is designated for Hopkins hall which will be built as soon as possible after the war. The remaining sum, \$61,677.34, will be used for endowing student aid funds, and various other stipulated purposes.

During the last thirty-four years Agnes Scott has conducted seven campaigns in which the announced objectives were fully subscribed and fully paid. The alumnae of the college have been an important factor in each of these efforts.

### Contact Scattered Alumnae

In this most recent drive it was necessary to conduct a very quiet campaign and an unhurried one, since the Agnes Scott alumnae are scattered through all the states of the union and in many foreign countries. Those who contributed were members of the class of 1889, when Agnes Scott College was known as Agnes Scott Institute, on through every year including the class of 1942.

# Sister Classes to Meet Friday In Second Game of Season

Freshmen Overwhelm Sophomores, 32 to 20; Junior-Senior Game A Close Battle, 21-20

By Mary Estill Martin

Lving in bed in the infirmary, I have been thinking over last week's basketball and the games coming Friday. But first, let me assure you that it was a "cold bug"—not basketball—that put me to bed!

The games day after tomorrow should be a couple of the best of the season. Sister classes will clash on the court at fourthirty in the afternoon.

I predict that the freshmen will defeat the juniors, but by a much smaller margin than the one by which they defeated the sophomores. There are several reasons for my saying that the frosh will be victorious, but that the scores will be more evenly balanced.

### Good Freshman Players

The freshmen have a large supply of good players—girls who have played varsity in high school and new-comers who show definite basketball talents. With such forwards as "Soozi" Richardson (who, by the way, scored twelve points last week), Doris Purcell, Scottie Johnson, and Sally Sue Stevenson, the freshmen should roll up a good score. However, the junior guards are very efficient, as they proved themselves in the last game.

Right here let me commend Billy Walker on the beautiful tan Opera, will be the next at- playing she did. Time after time she jumped for balls seemingly impossible to reach — only to snatch them from the air and return them to her forwards. Gwen Miss Pons' program as announ- Hill, Agnes Douglas, and Billy prevented the seniors from walking away with the ball game.

### Junior Forwards

While the laurels are being passed out, let's congraulate the junior forwards. Betsy White, who is primarily a guard, scored eleven of the juniors' twenty points. Aurie Montgomery, all well from her recent appendectomy, played for the first time on the Agnes Scott court. Fast and sure, with more practice she'll be tops. Bunny Gray also turned in a nice

Your Army has scores of jobs in the WAAC for alert college women . . . jobs vital to the war . . . jobs that will train you for interesting new careers in the post-war world. And here is good news indeed — you may enroll now in the fast-growing WAAC and be placed on inactive duty until the school year ends. Then you will be subject to call for duty with this splendid women's corps and be launched upon an adventure such as no previous generation has known.

New horizons . . . new places and people . . . interesting, practical experience with good pay ... and, above all, a real opportunity to help your country by doing essential military work for the U.S. Army that frees a soldier for combat duty. These are among many reasons why thousands of American women are responding to the Army's need.

You will receive valuable training which may fit you for many of the new careers which are opening to women, and full Army pay while doing so. And by joining now you will have excellent chances for quick advancement for, as the WAAC expands, many more officers are needed. Every member—regardless of race, color or creed—has equal opportunity and is encouraged to compete for selection to Officer Candidate School. If qualified, you may obtain a commission in 12 weeks after beginning basic training.

Go to your WAAC Faculty Adviser for further information on the list of openings, pay, and promotions. Or inquire at any U. S. Army Recruiting and Induction Station.

# Tech Glee Club To Join Group In Light Opera

The Gondoliers is the title of the light opera which the Agnes Scott Glee club in cooperation with the Georgia Tech Glee club will present on the nights of April 2 and 3. This light opera is considered the best of all Gilbert and Sullivan works, and most critics agree that it is the best light opera ever written. It is not presented so much as other Gilbert and Sullivan works because the music is more difficult and because it requires a large and well-trained cast.

The Gondoliers is colorful and merry, and there are several special dances, such as the cachucha and the gavotte. It has been presented twice before at Agnes Scott, in 1936 and in 1939. Both times it has been so popular that it was given again at commencement.

The cast of characters will be the following: The Duke of Plaza-Toro, Mr. Warren Lee Terry; Luiz (his attendent), Frank Lewis; Don Alhambra del Bolero (The Grand Inquisitor), Pete Hirower; Marco Palmieri, William Wyatt; Giuseppe Palmieri, John Os-

Only seven hours by plane from her native country of Puerto Rico, Yolanda Bernabe thought wistfully of the customs and traditions she had left would like to see this custom espressions of life at Agnes Scott. In her first quarter here, she has found many differences between college life here and in Puerto Rico, but she has also found several similarities.

### Classes 'Averywhere'

A junior majoring in biology, Yoli says that there is a striking resemblance in classes here to those at the University of Puerto Rico, where she studied for two year. "Yes," she sighed, "classes are more or less t'same—averywhere." However, she says Agnes Scott is improving her English pronunciation. She never spoke English except in the class room until she came to the United States, although she has been studying it "for years."

During the long vacation Yoli visited in Detroit, New York, and Canada. It was en route to Detroit that she saw her first snow. Any Floridians who first saw snow at Agnes Scott can understand Yoli's delight.

She finds Atlanta's climate rather cold, as the average temperature in Puerto Rico is from 78-80 degrees, although in winter it sometimes hits the sub-Arctic reaches of 70 degrees or so. Yoli commented on the lack of flowers here. She said, "In Puerto Rico, avery girl wears flowerscarnations, gardenias, even orchids." It was only recently that she realized that orchids are something of a rarity here.

### Julia Anne's Wedding

Mrs. Roy Emmett's wedding was a lovely affair. The church was decorated with greens, pink gladiolas, and pink candles. Organ and violin music was heard during the ceremony, and two of the groom's fraternity brothers sang "At Dawning," "I Love You Truly," and "O, Promise Me."

Julia Anne Florence wore the traditional white satin and veil and carried a white satin muff covered with white orchids with streamers. Her dress had a sweetheart neckline outlined with white lace and three quarter News to Sponsor Films length sleeves. White lace formed a panel down the front of her dress and her enormous train was also outlined with lace. The bridesmaids, Claire Bennet, Patty Barbour, Polly Cook, Susan Montgomery and Martha Liddel! wore dresses of pale blue satin and net, and carried blue satin muffs covered with pink orchids. The girls wore blue ostrich tips in their hair tied with pink velvet ribbon.

After the wedding, the reception took place at the home of Julia Anne's parents. Serving at the reception were Bettye Ashcraft, whose dress had a top of black quisette, and Mary Louise Duffee, Students to Select who wore pale yellow and blue.

The bride's gifts to her bridesmaids were pastel bill folds bearing the initials of their owners. The groom's gift to his bride was a beautiful string of pearls.

## New Rule Goes Into Effect Letting Frosh Double Date

A new rule permitting freshmen to double date with members of their own class or with upperclassmen was recently announced by the Dean's office. This rule, which has been adopted because of the new transportation problem, provides that the freshmen and their dates must travel via public conveyance or walk.

At the same time the dean's office announced that from Monday through Saturday time limit would be moved up to 12:00 p. m., but would remain at 11:00 p. m. on Sunday night. Arrangements for late permission for Friday or Saturday nights are to be made, as before, in the dean's office.

# Virginia Tuggle Inaugurates W. S. S. F. Drive for Money

By Betty Glenn

Speaking in chapel yesterday, Virginia Tuggle, secretary of Athletic Association and chairman of the World Student Service Fund on campus, inaugurated the W.S.S.F. drive to raise money for students in the war-torn areas of the world. In her talk Virginia emphasized that it is up to American

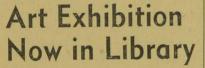

students to help preserve this student generation. "In contributing to the World Student Service Fund," she stated, "we are investing in future leadership, which means the foundation of post-

war reconstruction."

Virginia pointed out that the money contributed through the fund is used directly for supplying the needs of students and faculties whose studies have been interrupted by the war. She explained that by means of the careful organization of the World Student Service Fund all contributions are sent directly to the needy students and run no risk of falling into enemy hands.

# Dr. Currie Tells While in China

Speaking in chapel Saturday, Dr. P. S. Currie, missionary to China and father of Gay Currie, Agnes Scott graduate of 1942, told of his family's experiences in occupied China.

Dr. and Mrs. Currie first went to China in 1920. All six of the Currie children were born there. After spending some time in the United States, the Curries returned to China in September, 1938. While in Shanghai they took movies of the parts of the city destroyed by the Japanese.

Although warned by friends not to return, the family left Shanghai and returned to Haichow, their former station. When they arrived they found the city being bombed. # Swanna Is Careful to 'Guard' Squee In Thrilling Game

By Kathie Hill

Well, half my class has gone off to Julia Anne Florence's wedding and here I sit—an old maid before I'm 20. Everyone is getting worried or engaged! but then after all, I could never find a man good enough for me. The Reader's Digest says that a girl who thinks no man is good enough for her may be right—, also, she may be left.

Friday night the junior basket ball team played the senior basket ball team and lost by only one point. However, so that the seniors won't feel too elated. I have a little gem of information to impart to the world at large. At the first rehearsals for the big night, parts were given out to the various members of the team. Betty (Swanna) Henderson asked what position she was to play. "Have you ever played basketball before?" asked Alta. "No," said Betty, "I have never even seen a game but I am willing to do anything for the honor of the senior

"Well, you guard Squee." So Betty tripped over to Squee and much to Squee's amazement and surprise, took her hand, smiled affectionately, and then set her jaw and assumed an expression of defiance that just dared anyone to approach her. All the players except Swanna looked as though they were having a bad case of hysterics. But Swanna remained cool and calm as she, still holding Squee tightly it looked as though Squee were in danger of being hurt. Finally someone got the courage mustered she was doing. "Oh," said Swanna, "I am guarding Squee." And she really thought that it was her duty to protect Squee from those mean senior forwards who cared nothing for Squee's feelings but wanted only to get the ball in the basket. Now, wasn't that sweet?

They made an awful clatter and finally all the first floor rushed out in great haste but no one from the second floor appeared. Raddy got madder and madder and finally in desperation she sent two emissaries to the top of the stairs to ring the bell as hard as they could. After about ten minutes, Raddy saw her two messengers come sneaking down the stairs with sheepish expressions on their faces. They said that no one lived on the second floor of Lupton except Miss Lewis and Miss Will and that after Miss Will had come down, they heard Miss Lewis stumbling down the dark hall and as she came she was telling them that in all the years she had taught here she had never had Although the complete cast for to get up for a fire drill. ### Red Cross to Receive **Novelty Show Proceeds**

A novelty roller skating party Saturday night, February 6, at 8:30 in the gym will be the contribution of the Sophomore class for the benefit of the Red Cross.

Details of the program are being kept as a surprise until the night of the affair, but Mary Cumming, committee chairman, does reveal that among each class there will be solo and couple contests, judged by faculty members. The sophomores, as sponsoring class, will contribute several specialties and a grand finale. After the program, every one will join in skating.

Admission is ten cents plus Red Cross tax-any extra sum offered. All students, dates, and friends are cordially invited.

# Never Forsake the Liberal Arts

Action is a great thing, and it's what everybody is talking about these days. Everybody wants action on the fighting fronts, and action on the home front. And we who are college students want action on the college front. We stop to think what our friends on the battle fronts are doing, and we want to be doing, too. More than that we see what other young women are doing-as WAACS, WAVES, SPARS, WAFS, army nurses, parachute packers, industrial workers, etc. Closer home, we look at other women's colleges and find that they have adapted their curriculum to war conditions, some following the plan of intensive study of one field at a time, some specializing in the practical aspects of the sciences, and others offering special condensed war courses in such subjects as radio, engineering, and meteorology. Many of these schools have gone onto a year-round basis along with the men's colleges. They, too, are actually doing.

Seeing ourselves still nestled quietly in the lap of our Alma Mater when we realize the great need for action makes us impatient. We tell ourselves that we must finish our education, even though in order to finish we postpone by a year or so the day in which we can begin really to do something. Some of us wish that we were a few years older in this emergency—that we had graduated last year or the year before so that we could now join the WAACS

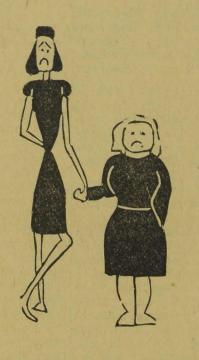

or WAVES, or work in a bomber plant, without forfeiting our opportunity for a liberal education. Others would like to see Agnes Scott join the list of those liberal colleges who have junked the liberal arts for the duration and are concentrating on courses that have a practical application.

Then why, in this frenzy of action, does Agnes Scott retain its peacetime standards for a liberal arts education? Because it is giving us something that will endure—an ability to think, a sense of the true values of life, an appreciation of art and literature. These will not desert us as soon as the war is over. Along with our strong Christian faith, they will serve as a firm foundation for our lives during the war and after the war.

Of course, we too must be doing, not idly waiting. But our doing should be of such character as not to interfere to any degree with our studying. We will undoubtedly find our study here conforming more and more to an ideal of practicality as the war continues. We will then feel that we are doing more, because we will be able to see an immediate practical value in what we are

But we know that Agnes Scott will never forsake the liberal idea. We Hottentots love our Alma Mater for the tenacity with which she holds to it and hope that by her example we, too, may cling to, and not spurn, the strong and enduring foundation of the liberal arts.

# Before and After Five-hour Gym-

Let's not start off with any misunderstandings: no true Hottentot ever looked as dejected and hopeless as the poor girls pictured at the left! But this is not to say that we haven't felt rather unenthusiastic about life from time to time.

Now that the armed services have claimed many of our friends, we are apt to be blue, both because they are gone and because we have more time on our hands. Then, too, there are many more serious problems to keep us from being as gay as usual.

That's where the new five-hour gym courses play a major role! Not only will they build us up physically, so that we will look as invigorated as the Hottentots at the right, but also they'll make us actually feel as cheerful as we look.

## Betty Pegram Gathers Campus Quotes on

# Gym Courses' Going to War

When it was announced last week that Agnes Scott was going to begin to clamp down on its physical weaklings with stiffer and longer gym courses modeled after Army training, we began to snoop around to see what Hottentots' reactions would be. All seem to think it's a fine idea, but some object to the five-hour course.

Here's what a few students had to say on the subject:

## Frances Radford—'43.

Sounds to me like one of the best things that ever happened to us. Physical fitness is certainly vital, and I think the gym department should do all in their power to put us in tiptop shape.

## Mary Neely Norris-'45

It seems to me the idea of patterning our gym courses on the army physical fitness program is fine, but I do not think it necessary to lengthen the courses to five hours.

### Mary Ward—'45

Five hours a week sounds like a lot to me, but if the gym department wants to cure Hottentots of their physical defects—for results five hours a week it'll have to be.

### Helen Roper—'46.

This physical fitness idea sounds fine to me for if the army develops healthy bodies, why shouldn't Agnes Scott? I do think, however, five hours is a bit too strenous.

### Inge Probstein—'45.

I guess this is like all the other things that are "good for you"—slightly distasteful. But I only mean the I. G. part of it, and that's a subjective objection.

### Suzy Watkins—'45

I think five hour gym courses are a good idea because you can't accomplish very much in only three hours a week.

### Betty Wade-'44.

For people who have some definite defect, I think it is very necessary that they have gym five hours a week, but for the others, it seems that three hours would be sufficient.

### Betty Broughter-'43.

I think the idea of requiring every girl

to take one team sport is splendid, because it increases the spirit of cooperation in class activities. Since every girl's schedule is so full, five hours a week of gym seems too much to me.

## Kathie Hill—'44

People are always saying we should do something for the war effort, and this physical fitness program would certainly be a big step in the right direction. As future leaders of tomorrow, we cannot be as the Germans have accused us of being, "A generation of weaklings."

### Betty Davis—'45.

Now is the time to build yourself up to insure good health for the rest of your life, and I think the physical fitness program will be very beneficial in this. With much studying as we have to do, we really need to take a lot of exercise.

# Tripoli Taken by Montgomery's Army; Rommel's Corps Escapes Into Tunisia Rommel Moves Toward Junction With Nazis; Allies Begin to Consolidate for Battle

Allies Begin to Consolidate for Battle

The quescent East African front flared into violence again this week as Montgomery's British forces swept into been amazing. Salsk, junction and the base man transports flew

Tripoli. Against powerful thrusts by American bombers and British torpedo planes which left part of the city and the docks afire, Rommel left a few shock troops while the remainder of his Afrika Corps, which is still believed to number about 70,000 trained and

experienced fighters, escaped into the German lines in Tunisia.

The failure of an Allied attempt to prevent the junction between Rommel and the main body of German and Italian forces holding most of Tunisia and the important cities of Tunis and Bizerte now means that there are about 140,000 well-armed troops in Africa opposing the American, British, and French forces.

### A Hollow Victory

Montgomery has taken Tripoli, but it is indeed a hollow victory since the primary purpose of his extended drive from Egypt has been the complete annihilation of Rommel's wily Afrika Corps. There is one compensation, however, in the capture of Tripoli. This important Mediterranean sea port can now be used as a desert supply base by the British, who have been under difficulties all along trying to supply their forces in the desert.

### Fugitives From Death

Of the 220,000 German troops which confidently attacked Stalingrad late last year, there are now only 50,000 starved and wounded men. This week they refused the Russian ultimatum of surrender while the German radio admitted that they had been given up by the rest of the German armies now being pressed by the Russian's three-pronged attack toward Rostov. When and if this meager army surrenders (the Russians expect that it will be soon), the Russians will again be able to send needed supplies from Central Russia down the Volga to Stalingrad and from there to all the armies fighting on the Don front.

Thus far, the Russian gains have

been amazing. Salsk, an important rail junction and the base from which German transports flew supplies and men to the German armies, has been announced officially as captured. Numerous small towns have been seized by fast-moving Cossacks. The Russian juggernaut moves forward, the German

### armies fall back toward Rostov. We Fight For A New World

Seventeen thousand miners are striking in the East and Central Pennsylvania anthracite coal fields. Thousands more are threatening to strike. This time they are not walking out against the mine operators. They are showing their displeasure with John L. Lewis and the fifty cent monthly increase in United Mine Workers' dues which he pressured through the last convention. The War Labor Board was powerless to end this intra-union dispute. There is talk of a personal appeal from President Roosevelt. If this fails, the Government might have to take over the operation of the mines. The striking miners say that they will welcome this. To them, the strike is as much an attempt at freedom as the fight now being waged on the widely scattered fronts of the world.

## Down to the Sea

Contrary to the voiced opinion of Allied governments the German submarine campaign was highly effective in 1942. According to a German admiralty report German subs sank nine million tons of allied shipping. Unofficial American reports admit that subs now sink about one million tons a month. According to President Roosevelt, American shipyards produced about eight million tons last year while the British claim their production is two million tons.

The Battle of the Atlantic is being lost because of a shortage of escort ships. The solution to the sinkings is convoys plus air protection. If the bombings of Europe and Africa are to continue, high-octane aviation gasoline must arrive more regularly. And it will not, until the sub menace is lessened.

# Juniors, Freshmen Expected To Be Victorious Friday Night

Freshmen Give Juniors Second Defeat, 36-18; Seniors Win Victory Over Sophomores, 34-27

### Junior Team

Unless the junior team loses some of its valuable players before Friday's bout, the juniors should win over the sophomores. I base my prediction on the fact that the junior forwards have now gained the experience they needed and that their guards are effi-

Both games last week were fast, but they lacked the good sportsmanship and teamwork of the first games of the season.

The junior-freshman game began wth a foul by the frosh. Virginia Tuggle scored for the juniors on the free shot. In the first quarter the junior guards failed to click and the freshmen ran up a score of 13 to the juniors' 4. During the last half the junior team showed more cooperation and started scoring. # Martha Arnold Helps Create Good Understanding in Lab

By Kathie Hill

The House twins have mixed up some one again. One of them was flying down the hall in Buttrick. As she whizzed by a freshman standing at the bulletin board, the twin said, "Hey, if you see someone that looks just like me tell her that someone that looks just like her has gone down to the mail-

room." The freshman just stood there a minute, shook her head dazedly and went on out the door.

KATHRYN HILL

You can't twin. Martha Arnold has originated a "joke" that has worn the biology department down to a mere chromozone, but perhaps you haven't heard it.

One day as she was studying a worm, which creature (as you doubtless know, after all these rainy days we have been having) has no legs, Martha came forth with, "Aha! This worm has no understanding." Everyone sort of gulped and then mentally patted Martha on the head and went on working. Then one day they were studying spiders in biology lab and Martha came forth with: "Aha! This spider has a good understanding." You know . . . no legs-no understanding . . . lots of legs-good understanding.

### A Three-Scene Play

Last Saturday a young man was out here having a date in one of the date parlors. A more unobtrusive young man could hardly be found. Suddenly the door to the date parlor was thrown wide (thus breaking a sacred Agnes Scott tradition). There on the threshold stood a freshman. Eyes dilated, trembling in every limb, a nervous smile hovering about her lips, she gasped "Please, can I have your tie, huh, please?" As she spoke she glanced nervously over her shoulder. The young man was so flabbergasted he took off his tie and gave it to her without a

stuff" at the gym Friday night at a drive to sell tuberculosis seals. 8:30 o'clock for the interclass skating contest, feature of the skating party which the sophomores are giving to benefit the Red Cross.

Each class will enter one couple and one solo performer in comic skits. Mary Jane Auld and Betty Bates will star for the seniors, while Bunny Gray, Marjorie Tippins, and Claire Bedinger will hold forth for the juniors. Freshman entries are Scottie Johnson and Peggy Kelly. Molly Milam, Jeanne Newton, and Mary Cumming are to compete for the sophomores. Two additional attractions will be a comedy number by Emily Higgins and Ann Webb, and a hulahula dance on skates by Barbara Frink. Prizes will be awarded to the best performers.

Scene two: The big date parlor was full Saturday night with patriotic young people who preferred to play checkers or bridge than to ride (?), when the room was plunged into darkness and a shadowy form glided out of the room. Suddenly, a shriek was heard in the hall, "It's only a number 60." The shadowy form glided back into the room and suddenly there was

Scene three: Mr. Jones was calmly reading a magazine in the maid's office when all at once his magazine was grabbed away and a page torn out, while a voice hissed into his trembling ear, 'What's your middle name?"

The explanation for all these queer goings-on lies buried in Murphey Candler building. It seems that there, Saturday night, the freshmen gave a party and the height of the evening was reached when the scavenger hunt started. The freshmen were to get, among other things, a man's tie, a forty-watt bulb, and a picture of a black cat, and they were to find out Mr. Jones' middle name. That's only half of the things those girls looked for and only a few of the shocks they gave during the evening. One girl even got his tie, and when Mildred Mc-Cain went to get her own father's tie he had to tell her, "Sorry, Mildred, I'm all tied up. Cravat one over there on Mr. Tart."

# Pat Patterson Speaks At Freshman Cabinet

Pat Patterson gave freshman cabinet a good start this quarter, with her discussion January 25 on "A Faith of Your Own."

For a theme the group has selected "I can do all things through Christ, who strengtheneth me,' Philippians 4:14.

One of the biggest plans of freshman cabinet for this quarter is a recital of freshman talent, including solos, anthems, and readings. Other plans are a joint meeting with the Emory Christian Association freshmen, one with sophomore cabinet, and the study of a book for four meetings. They will hold a retreat at the end of the year.

# Miss Mell Writes On "Po' Whites"

Saturday Review of Literature's Old South issue of January 23, 1943, contained an article on "The Southern Poor White - Myth, Symbol, and Reality of a Nation," written by Miss Mildred Mell, professor of economics and sociology.

Miss Mell, who is at present working on a book which will discuss the poor white of the Old South sociologically, prepared her article at the request of the joint editors of the Saturday Review, Virginius Dabney, editor of the Richmond Times-Dispatch, and Howard W. Odum, editor of Social Forces.

In her article, Miss Mell traces the story of the lower level of people in the South, as it is revealed through literature, and discusses the facts which have caused the tradition of the "po' whites" to spring up. She approaches the problem of these people not only from the view of literature, but also from the sociological standpoint; she also discusses the forces which tended to produce this

# Here It Is-A Word-to-the-Wise

Here it is—the promised word-to-thewise (we hope) about going to chapel.

In the dense fog surrounding an assistant editor trying to imitate the editor, two very clear reasons loom out why everyone should go to chapel every single day during Religious Emphasis week.

What a shock it would be to Bishop Moore to find the auditorium scantily filled when he talked. As he looked around to seek out the scattered students, slumping in their too-comfortable seats as they read the hometown paper, his heart would sink. How impoliteamong other things-would he think us if we did not make him feel welcome after he had made the effort to come. Doubtless, he would consider us very crude, as well, if we are late.

It is very important that we all go, go on time, and sit near the front, to form an inspiration for him. Let's do away with knitting-even of eyebrows, with newspaper reading, with cramming for the next class, and with other pleasant diversions often indulged in at this time.

Aside from being hospitable to a guest speaker, each student owes it to herself to take advantage of this opportunity to find out what religion—the kind of religion where God is worshipped instead of popularity or extracurricular activities -really can mean. For most of us, religion is something that we adopt for an hour or so on Sunday morning or for a split second between bells at meal time. Now, more than ever, we need for it to play a big part in our lives.

From a little meditation over the Bible reading and a quiet moment of silent prayer, we could communicate with God and receive encouragement from Him to do our best at whatever we attempt and to trust that we will have "a happy issue out of all our afflictions."

Though we worry and fuss about hard assignments, time changes, rainy weather and the resulting droopy hair, tin can smashing, no pleasure riding, few men to ride-or walk, and less meat and coffee, we seldom bother to confide in God and thus to receive the comfort that a brief chat with Him can give. Drawing nearer to God can make us so much happier than most of us seem today. Chapel period affords us a chance for this daily.

Time for New Year's resolutions is long past. New Year's resolutions are seldom kept, anyway. Resolutions that

Quincy Mills served as editor for this week's issue of the Agnes Scott News, while Madeline Hosmer took over the job of managing editor.

are made from a conviction that we will receive a definite profit to our very own selves are more likely to be upheld. Such a one as this is the resolution of each member of the student body not to miss a single one of Bishop Moore's talks.

By forming the 11:00 habit next week, we can strive to maintain it and to make it as much a tradition of Agnes Scott as the 11:25 bookstore habit has become. How 'bout it?-(Q. M. M.)

# War Marriages — To Leap or Wait?

Bull-sessions have turned more and more to the subject of war marriagesyes or no-in the few days following the talk by the psychologist, Mrs. Grace Sloan Overton, at Emory, on "Courtship in Wartime," and the Pi Alpha Phi debate Friday on the subject. Most Hottentots are interested in the marriage idea at any rate—war or no war. Here are a few samples of the talk around campus:

## Emily Anderson—'43.

I think a good question to ask is "Would this marriage have taken place had there been no war, or is it taking place because of the war?" Each case is different and it is entirely up to the individuals involved. For people are hesitant to give advice in these times, and still more hesitant to take it.

### Margaret Downie-43.

I think that marriage during the war depends entirely on the individual. I do

believe, however, that so many people who marry now do so because of the abnormal times and do not take into consideration the social and economic aspects of marriage.' Mary Frances Carter-'44.

BETTY PEGRAM

I heartily disapprove of "pop-up" war

marriages when the acquaintance has been a short one and the family backgrounds are unknown. However, for those who have had that certain understanding that they would tread the orange blossom trail in the future, I would say that marriage wouldn't be the wrong step-if financial conditions are favorable.

### Sara Milford-'45.

I don't think a girl should rush into marriage just because "he" is going to be sent across. Many things can happen during a war. More than ever before one should be sure one's decision is practical.

### Squee Woolford-'44.

I definitely approve of war marriages if the individuals concerned have known each other for a reasonable length of time. In spite of the fact that a girl doesn't marry a boy's family, it is certainly a good plan to know them before you take on their name.

## Jean Moore—'43.

Remember this when you make your safe and selfish little decision, you have the rest of your life to spend regretting it.

### Elizabeth Harvard—'44.

I think war marriages are perfectly all right if the persons involved have a sufficient admiration, respect, and understanding so that they can face the problems that present themselves. If a man should return a cripple, it would be up to the wife to persuade him that caring for him is a privilege and not a

## Polly Lyndon—'43.

marriages really depends upon the individuals concerned -their age, temperament, character, ambition, and mutual respect for each other. However, there should be no marriage (especially in war time) when the couple has known each other only for a few weeks or months. War marriages are suitable in some instances and very wrong in others—the individuals have to decide for themselves.

### Margarette Wilson-'46.

I think if two people are really in love and are sure of it and will be together more than a week or two, it is all right. If they haven't known each other long, however, they should wait until the war is over.

### Martha Ann Smith-'43.

If you know you are really in love, go ahead and get married, war or no war. The trouble about deciding whether war marriages are right or not is that each case is different and depends upon the

# Plot for Blackmailing Faculty To Aid Red Cross Campaign

By Kathie Hill

You know, everyone on the campus is doing something for the Red Cross: That snazzy Saturday session of skating sponsored solely by sophomores; the Faculty Revue which is to come on March 8th-admission 35 cents; the News presentation of movies, and many other activities have been given for

the benefit of the Red Cross. So I have bethought myself of a way in which I too can earn money for the Red Cross.

You see, there is a group of lady faculty members on the

campus who inquired in and thus acquired from Atlanta someone to direct them in a calisthencampaign. Two afternoons a week, in

our faculty gather to tone up for the duration. It is not a reduction center they have opened. Reducing exercises don't enter into it at all. You might call it a distribution center where avwar doopaws is distributed widely-I mean wisely. As Miss Leyburn puts it, "These exercises locate the obscure muscles."

Now, this is the point: I have gathered sufficient data on the subject from hilarious and sundry sources to write a sketch on each individual in the class. Now to the faculty I make this proposition: If, by Saturday, every member of the Calisthenics Club will place one thin dime into the box that is in the mail room, I will never again mention this subject, and will defend it to the death against anyone who attempts to joke about it. But if I have to report to the Red Cross that the box was empty, then slowly and mercilessly I will have to tell all I know about the class and its members.

Next week I will tell the amount collected and print a copy of the letter the Red Cross will write in appreciation of the huge sum that will be submitted. (?) This is being written in all good faith and, it is for a good cause so-

Did you know:

That Mardia Hopper was so excited about her ring the other day (for which you cannot blame her) that on her way out of the library she was so busy showing her ring to people that she stepped right smack into a wastebasket and nearly walked out of the library with it on her foot. Love sure is Bucher Scott, blind, and Mardia certainly put her foot into it.

> That there is a certain member of the administration who sprays perfume on all the phones because she doesn't like the way the phones smell. She thinks, I guess, that it will affect the conversations of people using the phone, so that they will be sweet and tender.

> That Raddy was in the midst of a bridge game when the bell rang for her next class and she reluctantly put her cards away. Then she gathered her books and she and her fellow bridge players went over to Buttrick. While she was waiting for class to begin she said, 'Oh how I wish I were back in the room playing bridge." Who should walk in the room but Miss Mell, who smiled but didn't say anything. Raddy wasn't sure she had heard her and she worried the whole period for fear that she had. But Miss Mell put an end to her fears. After the class was over, she said, "Now, MISS Radford, you may go back to your bridge game." She's a card, isn't she?

### Suspicious Character

To eliminate the street car ride, her father often comes to campus to take her home. Once last fall she was still busy when he came, so Mr. Kaiser hunted for his lost daughter until someone called Mr. Jones to investigate the "suspicious character wandering over the campus after dark." After an investigation, he was released—to the relief of the News staff.

# Should 18-20 Year Olds Vote?

An editorial policy is awfully hard to form—especially for an assistant editor playing editor. Either it's too radical and leads to all sorts of trouble, or it's not radical enough and doesn't lead to any trouble at all. There are plenty of issues on the Agnes Scott campus which could be the basis of either a radical or a non-radical editorial. But we decided to go off the campus for our editorial this week. Only slightly off, however, for the question is of concern to all of us between 18 and 20.

Do you think you're old enough to vote—you Hottentots between 18 and 20? Governor Ellis Arnall thinks you are and is urging approval by the general assembly of an amendment to Georgia's constitution to allow 18-20-year-olds to vote.

Governor Arnall, going on the theory that the boys who leave schools and colleges to win the war and the peace should be given the right to vote for the type of government they want, has said, "I hope Georgia will be the first state to adopt such a measure. I can't see how anybody would want to sit by and watch these boys fight and die for democracy and not allow them the privilege to vote."

Many of the boys who are fighting today are too young to vote. Now that they can be drafted they must feel that they deserve a voice in the affairs of state. It's entirely likely that before the war is over women will have to be drafted. Would you like to serve in the army of a country which wouldn't even allow you a vote? That's what many boys are being asked to do-to serve (and willingly, too) their country and yet not be allowed to speak in behalf of that country's government. Arnall's idea then is a step in the right direction, for if passed it might be taken up by other states and even by the national

Opposing the bill, Mrs. Helen Douglas Mankin, representative from Fulton county, said last week, "In the first place the bill would be passed because of the men in the army. They would not be here and therefore cannot take advantage of it. Only those at home would benefit.

"In the second place, youthful impetuousness, adventurousness, and reck-

lessness go to make a good fighting man, all of which are excellent, but which do not necessarily mean he has acquired the knowledge of government thoughtfulness in civic affairs, and so forth."

Many people will say you are wrong, Mrs. Mankin. Concerning your first argument, the governor has stated that he does not endorse the bill entirely because of the war, or entirely for the boys who are going into war, but rather for the young people of the future in whom he has the utmost faith. He believes that young people do have the "knowledge of government, thoughtfulness in civic affairs, and so forth" about which Mrs. Mankin is in doubt.

Do you think 18-20-year-olds should be allowed to vote?—(M.R.H.)

# **Impressions**

Miss Scandrett spoke at a compulsory meet for day students last Saturday. The problem discussed was that of day students smoking during chapel and lunch periods in the public places of Decatur and Atlanta in violation of the college's rule against smoking. She was talking primarily to the day students. But what she had to say regarding the conduct of Agnes Scott girls off campus is important to the whole student body. The impression we leave is binding on the reputation of the college itself. And it is unfortunate that there are those who do not consider this fact important enough.—(A. C. C.)

# Atlanta Journal Praises Alumnae

The following editorial, titled "A Splendid Consummation," appeared in The Atlanta Journal on Sunday, January 31.

It is joyful and significant news that the alumnae of Agnes Scott have completed a campaign to raise \$100,000 for the erection of a new dormitory to be named Hopkins hall in memory of Miss Nannette Hopkins, who was dean of the college for nearly 50 years. So appealing was the cause and so generous the response that gifts totaling \$171,024 were received from some 2,000 subscribers. This is what Scripture calls "good measure, pressed down, and shaken together and running over." Of the sum thus raised during the three-year campaign directed by Mrs. Samuel Inman Cooper, \$109,346 is designated for the dormitory, which will be built as soon as construction materials now under war priorities become available. The remaining \$61,667 will serve as a Hopkins memorial fund, chiefly in the form of student aid endowments.

There could be no higher tribute to Agnes Scott College than the never-failing loyalty of its alumnae. From all parts of the South, from many parts of America, and from years reaching back to the turn of the century they answered this appeal as they have all others from their beloved alma mater, with open hearts and hands. An institution which can so impress its ideals on the lives of its students from generation to genera-

tion carries within itself the gift of immortal life.

There is a yet broader significance to the completion of the Hopkins hall fund. That effort was launched in 1940 as the alumnae's part of the University Center campaign conducted by Agnes Scott and Emory University in collaboration with four other institutions in the Atlanta area. The General Education Board of the Rockefeller Foundation had pledged Emory and Agnes Scott \$2,500,000, on the condition that they themselves raise \$5,000,000 toward the purpose of creating a truly great educational center. That offer has been met and so far exceeded that the original hope for a \$7,500,000 fund is now well beyond the actual mark of \$10,000,000.

The institutions collaborating with Emory and Agnes Scott on the University Center program are the Atlanta Art Association (High Museum and art school), Columbia Seminary, Georgia Tech, and the University of Georgia. Each of the six, while cooperating for the common cause, will preserve its own identity, along with its administrative and financial independence. None of them alone could supply that great need of the southeast, a university of the first rank. But as cooperative units, each performing its particular function with a maximum of efficiency and all pulling together for high standards and adequate services, they can evolve such a university. This splendid project is going forward with a vigor that insures its complete success.

# Nazi Armies Fall Back on All Fronts As Russian Winter Drive Continues

Germans Admit Capture of Stalingrad Armies; Russians Pound Toward German Fortresses

By Tess Carlos

The depressing announcement was heralded by funeral marches booming out hourly over the German radio. A period of national mourning was declared. The fall of Stalingrad would never take place. The fall of the German army around Stalingrad, trapped, starving, and mutinying against its leaders, had occurred. The German people were told the truth. Goebbel's propaganda began an effective "scare" campaign to force the weakening German people to keep on fighting.

Meanwhile, the Russian army was reported officially to be fighting on the outskirts of the Rostov defenses. They were also making advances in their simultaneous drives in the Ukraine and toward Kursk and Kharkov.

He has been relegated to an empty honorary position in the Fascist grand council.

### A Child Shall Lead Them

Married men with children had felt comparatively safe. Although the army announced that the armed forces would be increased greatly, most married men thought that the younger age group would be affected only. Now, the War Man Power Commission has warned that beginning April 1 dependents will no longer be cause for deferment of those in certain non-essential occupations. Men working in such non-essential occupations as "gambling, Turkish baths, massage, and social-escort services," to list a few, will now have to find war jobs.

Scattered Voyagers
President Roosevelt and Prime Minis-

ter Churchill met for ten days in Casablanca and produced the demand for unconditional surrender of the Axis forces. Then they parted. President Roosevelt visited Liberia, then flew across the south Atlantic, celebrating his sixty-first birthday over water. He conferred with President Getulio Vargas, of Brazil. He went on to Trinidad, and later arrived in Washington after many weeks of travel. Prime Minister Churchill appeared suddenly in Turkey, conferred secretly with Turkish officials presumably about Turkey's role in future action, declared through the press that the decisions reached were satisfactory, and was last heard from in a fifteen-minute speech to the Eighth Army in Tripoli.

### Change of Command

The ominous threat to the American supply routes across the Atlantic increases daily. German submarines working in wolf packs are growing bolder in attacking convoyed vessels. One of the reasons may be found in the recent German Admiralty announcement that Commander Raeder, hitherto head of naval operations, has been succeeded by Admiral Doenitz, an expert in submarine warfare.

# Just A Word

We heard about it very suddenly. Someone came into the day student room and began talking. It was raining outside. And all at once we wished that this news had never happened. Suzy Kaulbach was business manager of the Agnes Scott News last year. In June soon after her graduation she married and moved away to California. She died this week of pneumonia. And all the words that might be said are insignificant.

In a world so full of death, this one loss may seem trivial. But those who knew Suzy feel otherwise. We wish it hadn't happened.—(A. C. C.)

Shocking Generation!

Reminiscing over the Agnes Scott that was, Miss Torrance explained that a Greek May Day was quite an innovation. The inescapable problem arose of what the girls would wear on their feet. In the olden days the Greeks danced barefoot, but that would have shocked even the most progressive individual of the early twentieth century. The dilemma was averted when someone suggested flesh colored stockings, with the toes sewed up on the feet. On May Day morning the dancers ran and jumped on the "mall" in front of Inman, in the comfort and assurance that they were modestly garbed, while the spectators, unable to discern the stockings at a distance, were horrified, gravely concerned over the future of "this modern generation."

# Seniors to Play Sophs Friday; Juniors May Defeat Freshmen

Juniors Win Victory Over Seniors, 34 to 27; Freshmen Defeat Sophomores by Two Points

By Mary Estill Martin

The basketball season has passed the half way mark. The seniors meet their sister class Friday night at 8:30 p. m. in the gym, and afterwards the juniors will play the freshmen. Let's look back and see how each team has done this season.

The seniors suffered their second defeat last Friday. A powerful junior team downed them with a score of 34 to 27. The freshmen and sophomores battled

> frosh barely winning with a 34 to 32 score. Possible Junior Victory

After looking

over the record McCain of the junior McCall team, I think have they good chance of beating the

class of '46 in Friday night's bout. Although the juniors lost to the seniors and to the freshmen in the first games of the season, they have shown steady improvement and growing strength. Now that the juniors have a victory over the sophomores and one over the seniors to their credit, there is no reason why they should not give the freshmen a stiff fight.

In Friday's tilt the junior forwards showed good cooperation and teamwork. Their guards also were more efficient than ever before. Special credit goes to Virginia Tuggle, Ruth Farrior, Gwen Hill, Billy Walker, and Agnes Douglas. By the way, it certainly is good to see Rufus playing again. Sophomore Team

Although the freshmen won the basketball game last week, the sophomores should be commended for their good playing. They gave the freshmen the hardest fight they have had.

Congratulations should go to all the sophomore team. Mary Cumming, Mary Munroe, and Molly Milam played nice games. The guards, too, turned in a good performance.

As usual, the freshmen guards Gloria Ann Melchor played exceptionally well. Sally Sue Stephenson also showed her value to her team.

# Valentine's Day Comes and Goes; So Does Ceevah's Orchid

By Kathie Hill

Raddy Radford tells this story so it must be true: it seems that one day several businessmen were standing on the corner over there waiting for the street car. There were several colored men waiting, too, and as the car rounded the corner, the businessmen heard one of the colored men say, "Let's not

### Orchids to Ceevah

The Valentine story of the year comes from Main building. Ceevah Rosenthal received a lovely orchidaceae-which to those ignorant ones who do not take biology is a perennial epiphitic plant that common people call "an orchid." She received it the morning before Valentine's day and placed it on the ledge outside her window. It was not long before someone came in to the room to see the rarity-so Ceevah waltzed to the window and raised it and-the orchid was gone!

Ceevah was heartbroken-someone offered the brilliant suggestion that a squirrel took it to give to Pearl, a girl squirrel. "Nuts," said Ceevah, who even in the midst of her troubles could be witty (?)

Anyway, Ceevah was as nervous as a wreck so she looked out her window and in her excitement she thought she saw her orchid lying on the grass. So she sent Biddy King out to get it. Biddy pulled and tugged at it. She was muttering something about the fact that the flower certainly did weigh a lot when she opened her eyes and saw that she was try ing to pick up a "Please" sign.

To this day no one has seen Ceevah's orchid.

But you know, there are other sacrifices going on on this campus street car was that none of us know about. > Then, Miss Larew is coming and she is going to speak and she is very funny, I understand, for she tells funny stories on other people and I think if Joella makes this last supreme sacrifice, we all should go see what it's all about.

# We're Playing With Real Fireworks Now

February 22nd has a great deal of meaning for every person who has been associated with Agnes Scott in any way, as well as for every American citizen who feels a deep sense of gratitude for all that George Washington signifies as the "father of his country"—of our country.

Washington's birthday will be celebrated in the nation this year not with gala parades and fireworks, but by a re-dedication on the part of every real patriot to the highest ideals of democracy and freedom.

As Americans we will celebrate by renewing our faith in our American way of life. We will be thanking God for the blessings He has bestowed upon America through the great statesmen who have guided her destiny. And we will be praying that America may always remain true to the democratic principles on which she was founded.

George Washington Scott's birthday will also be quietly celebrated, but the occasion will probably mean more to thinking Hottentots than it has in the past. Instead of the usual holiday ending with a festive banquet where George and Martha Washington match rhymes with Daniel Boone and other pioneers, the senior class will present a Founder's Day program in chapel in order to direct our thoughts to the ideals upon which the college was founded and to make us conscious that the same ideals must still form the basis for education, even in wartime.

Firecrackers and fur-clad Daniel Boones are out for the duration. Our boys are playing with guns instead of fireworks. This year George Washington and George Washington Scott demand a serious, thoughtful attitude toward the ideals they set forth many years ago.

# Russians Sever Railroad Supplying Kharkov, Begin Seige of City As Germans Retreat

President Roosevelt Addresses Nation and World Pledging Unconditional Surrender, Lasting Peace

By Tess Carlos

The Russians continue their advances. And the Germans continue their retreat without the support of the Luftwaffe, which once had complete control of Russian skies. The siege of Kharkov has begun, and the Russians in a smashing semi-encirclement have severed the railroad line supplying the city. The Germans have yet to make a stand since the Russian winter began last month. Conflicting reports continue to come in whether the German army will retreat further. Russian communiques are still announcing advances with marked restraint.

### Dinner at 8:30

The President spoke to Washington correspondents assembled in the Hotel Statler this week. His message, the first since his arrival from the conference at Casablanca, was sent out via air to the world. What he had to say was not new. The people of the United Nations have known this from the time they entered the war. Prime Minister Churchill has reiterated it often in his speeches before Parliament. The war will not end until the three Axis partners submit to unconditional surrender. And the war which is being fought today upon widely scattered battlefronts will not have been waged in vain. Security and lasting peace must follow with the end of bloodshed. There must be no more world wars. It remains to this generation to see that this comes

### Home Is the Hunter

Reports have been filtering in since the beginning of the war about Nazi atrocities among the conquered peoples of Europe. Greece is starving. France is starving. And Poland is being annihilated by hunger and by the guns of German soldiers and Gestapo agents. According to the account of Polish atrocities issued by the American Jewish Labor Committee, four million Jewsmen, women, and children—have been

murdered. The Germans are not alone in this ruthless hunt for men. The Italians have shown themselves to be quite adept in the art of murdering Yugoslavians, as have the Japanese with the Chinese and the other peoples of the Orient.

### Inflation Blues

The fight against inflation is becoming more desperate. While labor chiefs threaten to demand higher wages in violation of the Little Steel formula, President Roosevelt has decreed a forty-eight hour week in labor shortage areas. Critics of the measure insist that paying labor overtime will result in further danger to the nation's economy.

### A Fast Strike

Mahatma Gandhi, confined by the British, has begun a twenty-one day hunger strike which the viceroy, Lord Linlithgow, calls "political blackmail."

Gandhi, along with his chief followers, was jailed last year to prevent further interference with British defense of India. His fast has already provoked a number of riots, but the viceroy refuses to alter his policy of locking up members of the All-India Congress.

# Absent Minded

Haven't you forgotten something? We were thinking that you had when we went to chapel during the last few days and saw books lined along the corridor floors and the staircases. We know that you realize how untidy they make Presser lobby look, and that you probably passed the studio on the right without thinking to leave your books there during the chapel period. This is just a little reminder, so that when our distinguished visitors arrive for the conference on February 27 and 28 we will not thoughtlessly give them the impression that we are a careless group of students.—(F. E. K.)

## Footnotes--

How many basketball games have you seen this season? Four good teams are making athletic history on the court in the gym every Friday, but often this history is made with few witnesses. Those who play are not just putting on a show for the grandstand, but they certainly wouldn't mind having an audience.

Perhaps some of us forget when the games are going to be, since we don't play ourselves. If this is so, we probably should have some special weekly reminder on the bulletin board or in chapel about the time of the game and who is playing.

Let's go watch some good basketball and cheer our own teams on to victory.

Campus appearance is something that makes an impression on everyone who comes to Agnes Scott whether on business, to visit, for concerts and lectures, or to attend classes as we do every day. The administration takes care of all the big things such as planting beautiful lawns and keeping them cut, but it is up to us to help them keep the whole campus clean and neat. This means no books and coats flung around the lobby of Rebekah at mealtime, no books lining the walls of Presser at chapeltime, no candy papers dropped along the walks and in the halls—it

# Should They Vote?

By Betty Pegram

Last week the question of letting the 18-20 year olds vote was brought up in an editorial and through Governor Arnall's statement that he favored the plan. Here's what Hottentots think about it.

### Helen Smith-'43.

Eighteen year old boys are being drafted because we need the man power in order to win the war, but I can see no reason for allowing 18 year olds to vote. This is not necessary, and I think the majority are not mentally mature enough to assume the responsibility.

### Virginia Carter—'45

Eighteen year olds should be allowed to vote. If their government thinks them old enough to fight for their country, they should be old enough to have a voice in that government. Also the average 18 year old does as much thinking about politics and government as the average voter. We all are at fault though in thinking too little about our government and our democracy.

### Martha Baker—'46

I don't know enough about it to give a definite opinion on this question, but off hand, I would say, "Yes, eighteen year olds should vote." Teen age boys are being called into service—a bill is pending for the drafting of eighteen year old girls. If the youth of America are considered old enough to shoulder the responsibility of killing or at least participating in the war, why are they not old enough to vote?

### Susan Guthrie—'43

I can see no connection between eighteen year old boys being physically fit and being mentally mature. I don't think this is the time to consider such a move.

## Alice Gordon—'46

I really shouldn't give a definite opinion on this subject for I am judging other eighteen year olds by myself and the majority of my friends. I regret to say that we do not know enough politics to be able to judge the best man for an office. Even though 18 year olds are fighting for their country, they would probably vote the way their parents do and not have an opinion of their own. Therefore, I say "No."

### Florence Crane—'45

I don't think 18 year olds should vote because I think I am an average 18 year old, and I don't feel that I know enough about government, nor do I have enough interest in government to vote.

### Molly Milam—'45

I'm not in favor of 18 year olds voting because it seems to me they aren't well enough aware of or even vitally interested enough in government affairs to have the vote. I don't say that 18 year olds shouldn't have some interest, but I do say, speaking from my own eighteen year old point of view, that in general I think teen age youths are incapable of such a responsibility.

If you are head of any organization that has positions filled through student elections, remember that you must list the requirement for each elective office in your organization. To be published in the Agnes Scott News, these lists must be given to Martha Dale by 6:00 p. m., Sunday, February 21.

When it comes to chronic bridge playing, Swanna Elizabeth Henderson, also known as Betty, heads the list, for after dinner Swanna and Dot Holloran daily let out a howl for bridge players. Happily Swanna settles down with her rulebook, refusing to bid or make a single play without numerous consultations.

Last summer, however, she had another distraction. Someone had to care for her little namesake, who was staying at her house. Swanna, a psychology and English major, bravely rose to the occasion by applying her child psychology. Dates often were chagrined when Swanna took the baby to the

Sweet Music, Please

One of Swanna's passions is music—the more sentimental the better-especially if it's Andre Kostelantez or Carmen Cavellero. When it comes to her own vocalizing in the tub, she warbles, "When You're Away."

Last year Swanna was treasurer of the junior class, worked on the annual, and was on Lecture Association. She is in Who's Who, a member of Cotillion, and is now learning the hula a la Barbara

Swanna is ideal as president of Public Lecture Association for she can talk to anyone and she's always bubbling over with excitement and energy. Right now she's preparing for Dr. Margaret Mead's lecture this week-end.

# Aggie's Date Book

By Caroline Smith

The week-end was so crammed full of events that it's really hard to find a beginning of it all! A good place to start is with Yoli Bernabe's formal birthday party Friday night at the Paradise Room. Yoli was nineteen, and she was right ready to start celebrating.

Fifteen girls—Yoli's sister, Belen, Mary Carr, Marjorie Tippins, Ann Wright, Paule Triest, Eleanor Manley, Betty Sullivan, Betty Wade, Miriam Walker, Kathie Hill, Squee Woolford, Mir

and Mas House, Margaret Cathcart-and their dates made up the party, and the evening began with a turkey dinner.

The crowning point to the evening was the CAROLINE SMITH birthday cake,

which, to all accounts, was a wonder! Numerously tiered, whiteiced, and beautifully decorated with pink candy rosettes and curley-cues, there was a whole layer left at the end of the party! After dinner everybody danced and had a big time.

Yoli declares that their party took up a whole street car, and that on the way back to school the remainder of the cake was divided among everybody on the trolleyconductors 'n'all—till Tony (Yoli's date) dropped the last piece!

Phi Chi Formal

Another big even of Friday was the Phi Chi (Emory med frat) formal at the Biltmore. Hottentots dancing were Alice Clements, Laura Cumming, Mas House, Margaret Downie, Elizabeth Harvard, Claire Bennett, Barbara Irland, Betty Brougher, Miriam Jester, and Laurice Looper.

And the Junior Banquet Saturday night was perfect! The lovely table decorations were green candles, ivy streamers, and bowls of spring flowers. Uniforms and "tuxes" added quite a bit. Hand it to the junior class and Mortar Board—they do things right! The play was a big success.

### First of all, is the WAAC really needed?

Emphatically ves! Already the President has authorized the Corps to expand from 25,000 to 150,000. The Air Forces and Signal Corps have asked for thousands of WAAC members to help with vital duties. Both Ground Forces and Services of Supply are asking for thousands more. Members of the WAAC may be assigned to duty with the Army anywhere - some are already in Africa and England.

## Can the WAAC really help win the war?

The whole idea of the WAAC is to replace trained soldiers needed at the front. If American women pitch in now to help our Army (as women in Britain, Russia and China do), we can hasten Victory — and peace.

## What can my college education contribute?

College training is important equipment for many WAAC duties too long to list. Cryptography, drafting, meteorology, laboratory work, Link trainer and glider.instructing, for example. If you are a senior you may enroll at once and be placed on inactive duty until the school year ends. See your WAAC faculty adviser for more details.

## But can I live comfortably on WAAC pay?

There are few civilian jobs in which you could earn clear income, as WAAC enrolled members do, of \$50 to \$138 a month - with all equipment from your toothbrush to clothing, food, quarters, medical and dental care provided. WAAC officers earn from \$150 to \$333.33 a month.

# Some questions and answers of interest to every patriotic college woman

### The drilling sounds so strenuous-?

Nonsense! The most beautiful women in America today are the girls in khaki! Some calisthenics and drilling are vital to general good health, discipline and tuned-up reflexes. After a few weeks at Fort Des Moines, Daytona Beach or the new Fort Oglethorpe training center you'll feel better than ever in your life.

## Maybe I wouldn't like the work?

People are happiest doing what they do well. Every effort is made to place you where your service will count most toward final Victory. You may have some latent talent that will fill a particular need for work interesting and new to women - such as repairing the famous secret bombsight, rigging parachutes, operating the fascinating new electronic devices - or driving an Army jeep over foreign terrain.

### Then I have a chance to learn something new?

Yes, indeed. And the list of WAAC duties grows constantly. The training and experience you get in the WAAC may equip you for many stimulating new careers opening up for women.

### What are my chances of promotion?

Excellent. The Corps is expanding rapidly and needs new officers, both commissioned and noncommissioned. Those who join now have the best chances. All new officers now come up through the ranks. If qualified, you may obtain a commission in 12 weeks after beginning basic training.

### What is the age range and other requirements?

Very simple. You may join if you are a U. S. citizen, aged 21 to 44, inclusive, at least 5 feet tall and not over 6 feet, in good health - regardless of race, color or creed. But the Army needs you now - don't delay. Total War won't wait!

Linguists needed. If you speak and write Spanish, Portuguese, Chinese, Japanese, Russian, French, German or Italian, see your local Army recruiting office now! You are needed for interpreting, cryptography, communications.

# Think On These Things

"Ignorance is bliss" is one adage that isn't supported by the average Hottentot—that is it isn't upheld consciously. But in practice many of us have been trying to live in ignorant bliss. We have been trying to demonstrate that we can get along perfectly well without knowing what is going on in the world. Or perhaps we are just living examples of the fact that "A little learning is a dangerous thing," for we are slipping along getting general impressions about current events and world problems without taking the trouble to seek authoritative information.

As college students we are expected to be able to talk intelligently about the affairs of the day—we should know how to answer unpatriotic complaints about rationing by knowing the reasons underlying the rationing system; we should be able to influence less tolerant people to take a calm, sane, and rational attitude toward the race problem, which is assuming ever-increasing magnitude because of war conditions; we should be the leaders in constructive thinking about the peace and the possibility of a world federation of states after the war.

These are just three of the important questions which we are expected to

know about. College students—especially women, since they are almost the only ones now who will have the advantage of higher education—are in the spotlight. The government and the nation count on us to give concrete proof of the value of keeping the colleges open. One way we can do this is by showing that college is developing in us mature attitudes toward these world problems.

But has college done this for us? Apparently not-or rather most of us have successfully resisted all its efforts along this line. But now we are to have our one big opportunity. Next week-end the college community will hear more authoritative, qualified speakers than have ever before been assembled on this campus. This is the most important function of the year. We owe it to the administration to take full advantage of the opportunity they have worked so hard to give us. We owe it to ourselves to attend all the meetings in order to gain an authoritative basis for intelligent conversation. And we owe it to America and to the world to make use of this chance to prepare ourselves for assuming places of leadership after we leave

# Eisenhower's Troops Forced to Withdraw As Nazi Tank Forces Take Initiative

By Tess Carlos

It's so hard to know what really is going on. Yes, communiques, unbelievably detailed, come out daily. But in this war the action of a front cannot be viewed as a whole. This is the problem in North Africa. The war there has now become a movement of position. Jubilation one day over a minor victory in a more minor skirmish is overset by gloom in a few hours by the announcement of successful enemy counterattacks. When in truth, nothing has occurred to change the status quo.

This much is known. Marshal Erwin Rommel, after fleeing from the borders of Egypt across Libya, is now entrenched in Tunisia. Raw American troops hold him from retreating further. The victorious British eighth army is approaching the fortified Mareth line to the rear of the Afrika Korps. There are reports—some observers now claim that they are confirmed—that Rommel has been seriously injured in a bombing attack of his headquarters by American bombers and that he has been removed out to Germany.

Nevertheless, his tank forces in a new

advance of thirty-five miles have tried to take the initiative from the Allies and have forced the evacuation of three American flying bases. The plan of attack seems to be to force the right wing of Eisenhower's army northward, thus driving a wider wedge between Allied Tunisian forces and the advancing eighth army.

By Bitter Fighting

The Russians, encountering bitter opposition, continue to move on. Rostov has fallen. Kharkov, the most powerful Nazi base in all of south Russia, has fallen. German forces in the area east of the mighty Dneiper river are in danger now with the fall of this city, from which last summer the Germans launched the great offensive that brought them to the gates of Stalingrad. Kharkov has been in the hands of the Germans since October, 1941. The Germans now are falling back toward Kiev for a last stand. The test of true military strength has yet to come in Russia. The coming battles will determine who will hold the sprawling Ukraine.

A Lady Speaks

Madame Chiang Kai-shek was in Washington this week as a guest of the President. Speaking before the Congress, she pleaded for more direct aid to China, who is now fighting off seven drives by the Japanese against Chungking, the nationalist capital. Whatever aid might be sent will have to be small since the Burma Road, China's best contact with the outside world, is in the hands of the Japanese. The Chinese realize this. But what they cannot understand is our underestimation of Japan's striking power in the east.

# Presidents' Tea Elections Scheduled To Fete Frosh And Transfers

Presidents of all organizations will entertain freshmen, transfers, and sponsors at a tea in Murphey Candler today from 5:00 to 6:00 p. m. The purpose of the tea, sponsored annualy by Presidents' Council, is to introduce new students to the various campus organizations, each of which will decorate booths representing their activities.

The Christian Association will be a tableau showing their annual projects. The Agnes Scott News will display issues of the News at its booth, and Granddaughters' club's booth will feature annuals and scrapbooks. The booth decorated by French club will describe the who, when, where, and how of becoming a member of French club.

Athletic Association's booth will feature amusing figures made of pipe-cleaners arranged in postures depicting different sports. The club presidents will be on hand to discuss the activities of the clubs with any who are interested.

The class presidents, Mary Ann Cochran, Anne Ward, Molly Milam, and Soozi Richardson, are in charge of invitations and of placing of the booths, and Martha Ann Smith is refreshments chairman. Dot Holloran, Frances Radford, Betty Henderson, and Betty Bates will serve at the tea.

# Navy Pre-Flight Hears Chorus

Special Chorus presented a vocal program for the Naval Pre-Flight Training School in Athens last night. Preceding the concert, the Naval Choir members entertained the group at a dinner at one of the local hotels. Afterwards, the girls were conducted over the training school's grounds in a navy bus.

At 8:30 p. m. in the Fine Arts auditorium, Special Chorus presented their hour concert, featuring groups of four members who sang three numbers. Between these selections Jeanne Newton, Mabel Stowe, and Barbara Connally sang solos.

On Tuesday, March 9, Special Chorus will sing at the Lions club banquet at the Ansley hotel in Atlanta. This will be the last invitation the Chorus will accept until after the opera.

# To Be Held April 1

Plans are already in progress for the annual student elections which will take place at the beginning of the spring quarter. The popular nomination is scheduled for the first Satuday in the new quarter, March 27. Results of these nominations will be posted Monday, March 29, together with committee nominations. The following Thursday and Friday, April 1 and 2 the elections will be held.

To assist the student body in making wise selections in nominating and voting, two lists have been posted. One is a list of the campus organizations, showing which girls have participated in each organization and in what capacity. The other list states the duties and qualifications for all offices. These lists will serve to guide students in deciding who is best suited for each office.

# Varsity, Subvarsity to Meet In Final Bout of Season

Despite Dot Holloran's Help, Seniors Lose 45-21; Juniors Win Over Sophs in Last Game

By Mary Estill Martin

If you want to see the year's best basketball players perform, come down to the gym Friday night at 8:30 p. m. to the varsity-subvarsity game. It should prove to be good.

Betty Manning announced these two teams at last week's game. The varsity includes Virginia Tuggle, Ruth Farrior,

Mary Cumming, and Gloria Ann Melchor as forwards. The varsity guards are Clara Rountree, Gwen

M. E. MARTIN

Hill, Billy Walker, and Peggy Kelly. Frances Radford, Molly Milam, Mary Munroe, and Sally Sue Stephenson are forwards on the subvarsity, while Anne Egen, Ruth Gray, Mil-

dred McCain, and Mac McCall are the guards.

Freshmen Win

In last Friday's bouts the freshmen defeated a worn-out, bedraggled senior team 45 to 21. The freshmen out-played the seniors in every way. This victory should give the basketball cup to the class of '46. They have lost only one game; the juniors defeated them two weeks ago. Congratulations, freshmen.

Have you heard what a good sport Dot Holloran is? A terrible thing nearly happened. At the end of the half the seniors found that they had to have another player or forfeit the game. Some remembered that Dot had played basketball her freshman year; since the seniors were pulling their hair, Dot agreed to play. The senior team thank her from the bottom of their hearts.

### Juniors Victors Again

The junior class was victorious in last week's tilts, but the game was too close for their comfort several times. The sophomores certainly have shown improvement throughout the season. I think it is interesting to notice how well represented they are on the varsity, subvarsty teams. The juniors and freshmen have four members each on these teams.

Everyone has his or her conception of what good deeds are but Jean Moore has a more warped conception of charity than any one person I've ever seen. Helen Roper-innocent, young, trusting, and inexperienced in the wiles of this world—confided to "dear Jeannie" that she had a small mole on her

know how you can rid yourself of the pesky thing." She took Helen by the hand and gently yanked her to the chemistry lab.

Suddenly, she snatched a bottle down. "Aha!"

she snarled, "The very thing!" Poor Helen was too weak to do more than ask in a feeble voice, "what that stuff was." "Oh," said Jean, in her silkiest voice, "It is AgNO3." Helen, not knowing AgNO3 from K4Fe (CN6), lifted her arms to the contents of the bottle. After the operation, Jean commanded Helen to go home and rest and in a while the mole would disappear.

Do you know wart? Helen has been going around the campus with one arm white and the other a deep walnut shade. She looked for a while as though she had been halfway to Florida for Jean had administered nitric acid which is perfectly harmless but which stains very badly. The wart or mole or what have you is still perched on Helen's arm but Helen is much the wiser.

## More About Moore

Jean Moore went to town the other day. Now to most of us going to town is a very simple procedure. But not Jean Moore. No, she goes into town with Tommie Huie, Catherine Kollock, and Elizabeth Hartsfield, and when she finishes she has nearly wrecked Atlanta, Decatur, and the streetcar that goes in between. In the first place, the girls decided that they would go to dinner at the Ship Ahoy. After they were seated around the table, Jean decided she wanted to put her purse away but she couldn't decide where.

"Where did you put your pocketbook?" she asked Elizabeth, who for some unaccountable reason, thought that Jean had said "foot."

"Oh," answered Elizabeth, "I have it under my chair." Jean thought that a peculiar place to put her pocketbook but she went on and put it under the chair.

In a minute, Elizabeth leaned over and asked, "Jean, where did you have it before?" still, of

# Does the Arrow Point to You?

Lately we have all begun to realize that the library is not so quiet as it should be, especially with exams approaching. What can we do about it? Well, here's what some people think. What's your suggestion?

### Dot Hunter—'45

I think the library definitely should be quieter and that it is up to us to make it so. We can do this by remembering its real purpose and by being more considerate.

### Lura Johnston—'46

I don't think it should be necessary to have to be reminded to keep quiet in the library. If everyone would just remember that others are trying to concentrate, it seems to be the problem would be solved.

### Marjorie Weismann—'43

I think there is nothing that we can do to keep the library quiet other than being as considerate as possible. This means that we must refrain from holding socials in the library at any time.

### Elise Marshall—'46

If people were only a little more thoughtful of others around them, the library would be much quieter. When girls study together, in the library, they should use the rooms provided for that purpose. Remember, when coming into the library, you're not on the hockey field so go easy with the feet.

Bitty King—'45

I think if we would sit at different tables from people whom we know we can't resist talking to, it would make the library more quiet.

## Gloria Ann Melchor—'46

I think that the entire library should be kept absolutely quiet because we all go there to study and not to play. If we must talk, we should at least find a more suitable place.

### Marion Leathers-'45

I think it is each girl's personal responsibility to keep the library quiet. We have been asked several times to cooperate, and I can't understand why

# Don't Forget

Examinations begin in a week and a half. Again we are reminded to keep the library and dorms quiet for those who are studying and to remember that exams aren't fatal.

And let's not forget the exam regulations—

- (1) Students taking exams may not go to the mail room during exams.
- (2) No eating in exam rooms is allowed.
- (3) Take only exam books, pen, pencil, ink into exam room.
- (4) Do not tear pages out of exam books.
- (5) Be sure to write and sign the following pledge at the end of the exam paper: I have neither given nor received aid on this examination.

we don't. It's for our own good. I think that the people who are noisy in the library should be asked by the librarians to leave. This would be embarrassing, but the noise in the library must be averted. I do believe, however, that we can be grown-up enough and considerate enough to remove this difficulty.

### Mary Ann Cochran—'43

It seems to me the library is reasonably quiet. When one thinks about the various activities, as going to the catalogue, dictionary, etc., that go on in the library, one must expect a certain amount of noise. Only such things as talking and giggling for any length of time really disturb the serenity of the scene, and I am sure we are mature enough to dispense with this.

Kay Bisceglia—'44

As college young people we ought to know library etiquette.

### Mary Estil Martin—'43

I think it is part of the honor system to keep quiet in the library. If we would not discuss private affairs, clean out notebooks, eat candy or crackers, and cause general confusion in the library, we could keep it much quieter. It is every student's responsibility to be as quiet as possible.

# Qualifications for Office Listed

### Agnes Scott News

Editor

Duties: (1) Select an efficient editorial staff, organize and direct it. (2) Hold try-outs for reporters every fall and spring. (3) Co-ordinate work of circulation and business staffs with that of the editorial staff. (4) Determine editorial policy and write editorials. (5) Plan content of each paper, assemble list of news stories and decide on topics for feature stories, (6) Do final editing of all copy before sending it to printers.

Qualifications: The editor must be able to write clearly and correctly, and must be able to correct copy written by other staff members. She must have a very vital interest in every phase of campus life, and must be able to keep in touch with faculty, alumnae, the library and all student organizations. She should be able to cooperate with the business manager and should be tactful in her relations with other staff members. She must be capable of assuming full responsibility, should have good judgment and executive ability, and must have a keen interest in the News. A knowledge of journalism would be helpful.

### Managing Editor

**Duties:** (1) Plan the make-up of paper. (2) Decide on style and size of headlines. (3) Lay out paper with help of assistant editors. (4) Direct printers in actual lay-out and check final proof at printers. (5) Write some editorials.

Qualifications: She should be able to take the initiative and assume entire responsibility for the make-up of the paper. She needs to have enough executive ability to direct the assistant editors in helping her lay out the paper and to supervise the printers. Judgment as to the relative importance of articles and originality in arranging them are distinct assets. Knowledge of journalism would be helpful.

### Assistant Editors

**Duties:** (1) Send assignments to reporters. (2) See that all copy is turned in. (3) Do preliminary editing of copy. (4) Re-write headlines when necessary. (5) Assist with make-up.

Qualifications: The two assistant editors must be interested in the News, must be able to write clearly and cor-

# rectly and to correct copy, and must be absolutely dependable.

Qualifications: She must have had at least one year's experience selling ads and must be able to do business successfully with businessmen. She must be businesslike and efficient, and must be thoroughly responsible. She should be able to cooperate easily with the editor and must be able to write clear business letters.

### Advertising Managers

**Duties:** (1) Get all local ads. (2) Select staff of assistants and direct their work.

Qualifications: The two advertising managers must have had at least one year's experience selling ads, should be able to make a good impression on prospective advertisers, must be very dependable, and must have initiative in thinking of new places to try to get ads.

### Aurora

Editor

The editor must be responsible for every phase of the magazine. She needs critical judgment in the collecting and choosing of material. With the other members of the staff she has to work out the tone and originality, and makeup, of the magazine. She must be efficient in supervising the work of her staff members, in editing the copy and dealing with the printer, in accepting responsibility for the magazine's publication and its final content.

### Managing Editor

The managing editor should assist the editor in her judgment and in carrying out the practical details of publishing.

### **Business Manager**

**Duties:** Handle all financial matters: getting and collecting for ads, paying bills, taking care of money from the student budget, and keeping books; direct assistants in getting ads.

Qualifications: Sense of responsibility; ability to keep books, to get ads, and to deal with people in business.

that they are the ones to do something about the war. Yet no major legislation has yet been enacted. The problems of manpower, taxes, and inflation must be met. Nothing is being done.

### A Black Future

A nation at war must do without so that the armed forces may be powerful. That is why driving, shoes, coffee, and canned goods have been rationed. But there are many who do not feel this way. Therefore, the institutions of the Black Market and Absenteeism have risen considerably. The Black Market is an illegal market where goods that are scarce can be purchased at higher prices. It is not only injurious to the war effort but to the health of the nation. Absenteeism is the laying off of work by essential war workers. It is not only injurious to the war effort but to the future of the nation. The appeal to patriotism has failed. Drastic measures will have to be taken.

first indecisive stage of minor attack and counterattack. The victories which Marshal Rommel's Afrika Corps gained from raw American forces, trying to narrow his path of escape along the coast of Tunisia, have now been changed to defeat as the heavily reinforced American troops counterattacked driving the Germans through Kasserine Pass. These actions are minor. The main battle is yet to be fought. The majority of Axis forces are concentrated in the fortress cities of Tunis and Bizerte which are continually bombed by the Allied air forces. The casualties on the American side have been proportionately disastrous. Much yet remains to be done.

### The Hovering Dove

The Finns have been fighting Russia for a long time now. First they were defending themselves against invasion of their homeland by the mighty Red hordes. This was long before the entrance of the United States into the war. This was during the pact of Hitler and Stalin. However, when Russia split with Germany, Finland, still suffering from the tearing wounds of one war, turned on Russia as an ally of Germany.

There have been many reports of Finland's desire to bow gracefully out of the war. There have been even more reports of Hitler's desire to make in those unofficial circles which contribute most of the rumors of coming events. An American and Swedish guarantee of Finland's frontiers is asked plus the removal of Russian threat. Most official observers believe this to be yet another threat against the friendship of Russia and the rest of the United Nations.

The last Congress was thought by

many to be too much under the thumb of the administration since it allowed greater powers to be assumed by the executive branch of the government. In the congressional elections last November the Democrats lost some of the majority which they enjoyed in Congress so that this new Congress is more hostile. An active opposition is to be desired when the opposition is warranted. The new Congress seems to be forgetting this. Instead of assuming the power which they lamentingly claim was taken from them, they continue to haggle over minor matters. Instead of plunging into the necessary problems which need solution, they argue over the influence of bureaucrats in the government. Their criticism is not constructive. They loudly proclaim

### Help! Police!

Not by any matter of means! Mary Martin went home last week-end and upon her return she found that she would be unable to make it back to school by timelimit if she ordered a taxi so she called up the police station. A few minutes later the peaceful citizens of Decatur saw a cloud of dust coming down the highway and as they picked themselves up a few minutes later and descended from their telephone poles whence they had fled for safety, they discerned the gleam of bright silver badges and Mary's grin as she and half of Atlanta's police department sped to Agnes Scott.

They give us wonderful pianos. They soundproof the rooms, but do not give us one single fly swatter," and another book landed on some hapless fly.

One of Agnes Scott's cleverer young things went out on a date blind date with her wit and wisdom, the young one said, "My mother and father were first cousins but I'm all right" and with facial contortions and grimaces that would have frightened any normal person out of his or her wits had it not been too dark to see much. But instead of the usual laugh there was a complete and terrifying silence and to her dismay, the girl's date very quietly froze the already frigid air with: "My father and mother WERE first cousins," which could be said to be a statement of relative im-

Elections are this week, and this is the last time I write this column. I hope my successor will have as much fun as I have had doing it.

Sports are looking up this spring. Volley ball has started. All of the classes are well represented except the seniors.

However, Betty Brougher and Betty Jones, who are taking it, play a nice game. Watch out for Virginia Tuggle, Jane Everett, and Gwen Hill.

If Tuggle is on the volley ball courts on the athletic field, you the clock—just like the clock!" Don't worry. She is just telling the players how to change posilike good fun.

Rush week at Emory, and doin's at the Dental college kept Aggie on the beam all last week. The S.A.E.'s presented a bit of the unusual Saturday night with their gypsy party—Patty Barbour, Mary Louise Duffee, Claire Bennett, Mary Neely Norris, Lois Sullivan, Emily Singletary, Lura Johnston, and Robin Robinson can give

particulars.

The Chi Phi rush party Saturday night entertained Joyce Freeman, Jean Satterwhite, Ann Pentecost, Jean Chewning, Ruth Doggett, and Mary Turner, while over the period of Friday, Saturday, and Sunday the K. A.'s saw a lot of Mary Turner, Mickey Beman, Marzaret Mizell, Celetta Powell, Marguerite Watson, Betty Codington, Jean Chewning, and Jane Bowman.

At the Phi Delt house Friday night were Jackie Burns, June Reynolds, Hansel Cousar, Bess Shepherd, Pobai Crane, and Martha Jane Mack, and Tuesday night at the Delta Tau Delta rush party were Louise Gardner and Sara Cooksey, while there Friday night was Lura Johnston.

With the A.T.O.'s Saturday night were Jeanne Newton, Bettie Manning, Jean Robinson, Mir and Mas House, Eva Williams, and Lucy Turner; Jean Robinson was also present at the rush party Friday night.

### Dental College in Action

The Dental college frats were rushing, too. Attending Delta Sig parties throughout the week were Dottie Nash, Ann Hilsman, Mir and Mas, the Harvards, Sue Mitchell, Ruby Rosser, "Jinx" Blake, Shirley Heller, Conradine Fraser, Jane Dinsmore, and Mickey Beman. Present at Zip parties were Betty Sullivan, Eleanor Manley, Helen Armitage, Louise Breedin, Harriet McAllister, Lanelle Wright and Mary Carr, while Julia Scott and Louise Breedin were present at the Psi O party Wednesday night.

Agnes Scott was rather silent over the week-end. Very many girls were out of town on a sort Dale, Polly Lyndon and Elise of belated "Spring vacation!" One of the most interesting occurences was Marjorie Tippins' and Eudice Tontak's trip to the Southeastern International Relation's club conference at Raleigh, N. C. wee hours. And then she does have to spend a little time on the Aurora, for, although a transfer, she's the editor.

Very competent when it comes to presiding at Aurora staff meetings, Jean merely picks up the unruly member, puts her out, and adorns the door with a busy sign. But the Aurora is published with many new and amusing ideas.

Jean's "unusual" qualities began to assert themselves long ago. Among the outstanding events Perhaps it was because she was the only girl in Greenbriar Military Academy, of which her father is president. Many of her summers were spent with 300 boys at Camp Shaw-Mi-Del-Eca. At Greenbriar she met some of the ten boys with whom she carries Mamie Sue Barker, Mary Louise on a voluminous correspondence. And she has numerous picturesone being large enough for a twopage magazine spread. The "minor" ones she keeps in a box under her bed.

Greenbriar probably influenced the development of her excellent tennis game and her ability as a

Walking barefooted in the rain with Tommy is a pet delight. She has even been known to indulge here, where shoeless feet are taboo. Sans shoes in her tan rain coat and hat, she paddles around while less imaginative girls roll up their drooling hair.

When Tommy was trying to think of Jean's pet saying, she merely commented, "She isn't common; she never says the same thing twice. They're always new." No Prosaic Trips

Her excellent sense of humor is apparent to everyone who knows her, for she can see something funny in everything. Ordinary mortals can go to Atlanta on the street car and return, but nothing happens. # Dictatorship? It Should Not Be!

Participation in student government is a responsibility which rests on everyone. Now is the time that you can all actively take part in it as individuals, since your first responsibility in assuming your share of the governing is to elect officers who will be capable and faithful in performing their duties and in representing you on the executive boards of your organizations. Remember that voting in the elections is not a privilege which you may choose to accept or reject-it is a duty which no one can shirk if our student group is to remain free and independent. Everyone must vote tomorrow and Friday!

Merely voting, however, is not the greatest responsibility. Each student is responsible also for seeing that the elections are conducted democratically and that the best people are elected, without reference to personal friendships or prejudices.

The nominating committee functions as a guide to help you choose the best. It is composed of seniors who know intimately the work of the various organizations so that they are well qualified to suggest to you girls who they think would be good to fill the offices.

Those who make up the nominating committee are the president and vice-president of Student Government, Christian Association, Athletic Association; the editor and business manager of the News, the Aurora, and the Silhouette; the student recorder; the day student representative, and the president of Mortar Board.

These 15 girls have had a good deal of experience, and they devote much time and thought to the question of nominations. But they are by no means

# SONNET—Suzanne Kaulbach Naylor

In tribute to Suzanne Kaulbach Naylor, who served the Agnes Scott News last year as business manager, the News publishes here a sonnet that she addressed to her husband, Duncan Naylor,

chaplain in the overseas unit of the United States Army. This touching appeal to God is probably one of the last things she wrote before her death.

I once asked God that He would keep you here Far from the raging horror of a strife Beyond my power to know, but not to fear: That you might serve in safety all your life; That you would never leave me here to wait In endless longing your return; to live A half life without you, a mere state Of being, and filled with love I long to give—

But now I cannot, how could I in love Ask God that He deny your right to be Where He may need you most? I ask in love Only that He bring you back to me. Knowing God is everywhere With joy I trust you to His care.

infallible in their judgments. The nominating committee does not intend to dictate to the student body. Its only object is to give you the benefit of its experience and thought and to encourage you to think for yourself.

If you blindly accept the committee's nomination you are demonstrating your willingness to be coerced by the dictatorship of the powerful few.

What you should do is to accept the committee's suggestions as the starting point for constructive, critical thinking on your part. Before you come to chapel tomorrow you should sit down and have a session with yourself to decide what you really think about the candidates after honest, unprejudiced reflection. If you agree with the committee in its selection, that is all right. But if—after careful evaluations—you think the committee is wrong, then it is your duty to vote according to your own conscience, in spite all the experience

# 'Bye, Good Luck

Today's News is the last one to be edited by the present staff. For a year now we have worked and hoped together in anticipation of each week's paper, but after today we turn over to another group of aspiring editors the job of planning and fostering a publication that will be a joy to themselves and a satisfaction to the campus.

Good luck to the new editors whoever they may be. We'll be watching for your first paper on April 28.

which lies behind the choices of the nominating committee.

The nominating committee depends on you to use its suggestions wisely. If you do, the election system at Agnes Scott is most efficient and most democratic. But it places a heavy responsibility on you to keep it democratic by voting after honest, unbiased thinking.

# U.S. Tanks Continue To Advance in Africa

## Rommel's Escape Corridor Narrowed by British Push

The war in North Africa is still going on. That is about all that can be said. The Americans have advanced under Patton and his tank corps to within twenty miles of the Mediterranean coast. The British eighth army is still attacking the primary defenses of the fortified Mareth Line. Marshal Rommel is between the two allied armies. His corridor of escape is being narrowed. He has yet to try to escape. But he is accomplishing his main purpose in fighting two allied armies. He is gaining more time for the Germans.

### Road to Smolensk

Kharkov, for which the Germans and the Russians have been fighting, fell into the hands of the Russians last month. In a series of savage counterattacks the Germans have retaken this important city. This is on the central Russian front. To the north the Russians continue to progress. But it is a slow and difficult advance. The German defenses have stiffened. And the road to Smolensk, the Russian objective, is an arduous one where the fighting is bitter and the weather against the Russians.

### Peace Plans

Anthony Eden, British foreign secretary, is now in Washington having a series of talks on the postwar problems with President Roosevelt and Secretary of State Hull. He has offered a three-fold plan that is the most definite yet brought forth. He wants complete disarmament of the enemy nations, an international police force to patrol the world and prevent disturbances, and a central power capable of carrying out the provisions of treaties. His plan is most definite, but it sounds a great deal like that proposed by Wilson in 1918.

### Erupting Volcano

The cause of labor found an interested champion in President Roosevelt who has tried in every way possible to see that labor was given a square deal. Labor, as a whole, has used the advantages gained by such measures as the Wagner Act to strengthen the cause. But there are many in the labor organizations who justly or not have tried to force greater concessions. Among them is John L. Lewis. The reaction lately has been against labor, and his actions in threatening to cause a walkout of miners have brought about more cries for anti-labor and anti-strike legislation to insure no strikes and non-absenteeism in war plants. The battle is not so much that of labor against capital, but labor against the government's measures to stop inflation.

### French Unity

The union of Free French leaders and those in control in North Africa seem closer. General Giraud who had allowed many of the Vichy racial measures and men to remain in control has now repealed most of them and has dismissed most of the offending officials. And last week he again extended an invitation to General de Gaulle, leader of the Free French, to join all forces under the French flag. General de Gaulle has accepted, and is expected to go to Africa soon.

## Announcement Shocks School

#### Student Disfavor Likely In View of OFD Action

The unexpected announcement has just been received in the offices of the official news agency, ASN, that OFD (Office of Faculty Dictatorship) has decided to grant a surprise holiday Saturday to certain especially meritorious students. Those thus honored are Madeline Hosmer, Jane Elliott, Sterly Lebey, Mary Dozier, and possibly a few others whose names will be released soon (they don't have any classes that day anyway).

In recognition of the hard (though unavailing) labor of the rest of the student body they will be given a half-holiday, beginning at 1:01 p. m. Saturday and extending through 11:59 p. m.

No further official details in regard to the announcement were immediately available but hitherto reliable sources indicated that the holiday was granted because of a very favorable report submitted to a special committee of 3:26 Second Rebekah phone rings the OFD as a result of a full week 3:35 Third Rebekah phone rings of special research conducted re-3:40 Freshman decides to have cently by each Faculty Dictator by means of a series of psychic 5:00 Frosh gather shoes to clean tests (you had to be psychic to pass them).

## Faculty Announces New HOUR for CHAPEL

Complying with the great number of requests that the hour for chapel be changed, the faculty announced this week that they had at last decided on a new hour for chapel services.

Beginning today, chapel will be held from 4:45-5:15 a. m. This will be more convenient for girls returning from dates, since they can go directly to chapel after signing-in in the dean's office.

## Merrily Mix Says--

that isn't my worst problem. No, ories for the rest of your life. I am in a still worse predicament: I am in love. It all happened at the weekly USO dance given on our campus, and two weeks ago last Saturday night I met the most marvelous Private First Class from Whattaspot, Oregon. After the first time he stepped on my foot, I knew that I was deeply in love. We plan to get married as soon as possible, but are a little worried about how we can do so without my parents' consent and with the rules of the school being what they are. Please let me hear from you as soon as possible, as my husband-to-be might be transferred somewhere else any day, and your advice would come too late to help us.

Very truly yours, BLUE EYES CROSSED IN LOVE (if you don't help me)

P. S. What do you think about our eloping from the dormitory? My fiance says he can bring a jeep up the stairs to get me, or else he will send two or three dozen of his friends to the Dean's office to keep the Dean busy while I climb down on the bed sheets from the front of the building. Of course this latter plan would be impossible if the laundry didn't get back in time.

Dear Blue Eyes Crossed in Love: You are to be congratulated for your up-to-date approach to the marriage problem. By all means elope and show your parents that you have the same ability to make quick decisions as the top-ranking generals and admirals. As you say, the method of getting away from the campus will require some finesse on your part. I am all in favor of your second suggestion—about your fiance's bringing some of his friends to keep the Dean occupied while you swing down from the third floor via rope. As you say, the use of sheets makes the plan less fool-proof-in fact, it may even have an element of danger, since college laundries seem determined to reduce sheets to tissue-paper strength. I would advise your getting in touch with the local fire department. Have alarm at midnight, and while the ever, to keep up the moralsrest of the student body is rushing to shelter, you may jump from the window into the firemen's net (what's the use of coming down the stairs, even though you can, when the other

## McCain to Tell Summer Plans

#### Report of Findings To Be Made by May

"Since the government has taken over Emory University, we have so far found no acceptable summer school for Agnes Scott students," stated Dr. J. R. McCain, president of the college, this week.

Arrangements for a summer school are being considered with the Woman's College of the University of North Carolina, and, under the supervision of Dr. Philip Davidson, former head of Agnes Scott's history department, with Vanderbilt University. "Our aim," continued Dr. McCain, "is to find a school which is not only economical, but which also reaches Agnes Scott's standards of scholarship."

Until now "A," "B," and "C" grades for summer work done anywhere but at Emory University have not been credited as merit hours at Agnes Scott. A "D" from any other summer school has received no credit at all.

Dr. McCain pointed out the difficulty and costliness of holding a summer school at Agnes Scott. "The number of Agnes Scott girls attending summer school seldom exceeds sixty," he continued, "while at least fifteen teachers would be required in the various departments."

If no one college meeting all requirements can be found, arrangements may be made for several classes. The administration expects to announce definite plans some time in May.

By Mary Louise Duffee

Senior Opera propaganda, always plentiful, is particularly widespread this year. Here is a brief summary:
"The Girl on a Golden Quest," OR "Not Our Day—Thank

Goodness!" is the FUNNIEST thing any of the seniors have seen in four years (or the time they have been) at Agnes Scott.

And according to them, any students wishing to be delightfully entertained can buy tickets for twenty-five cents from any senior, the book store, or at the door. Faculty members may buy tickets for thirty-five cents, and the general pubgram were Zena Harris, Laurice lic for fifty cents. ("No provision Lucas, and Martha Marie Trimble. Moore.) ## At Chautauqua

Joella Craig, senior from Walhalla, South Carolina, and Barbara Connally, junior from Tampa, Fla., will spend eight weeks of their summer vacation singing with the chorus of the Chautauqua Opera Association at Chautaugua, New York. The purpose of the Association is to give promising young singers experience on the stage through the production of light operas and operettas.

Both Barbara and Joella visited Chautauqua in the summer of 1941 with Mr. Lewis Johnson of the music department, but this will be the first appearance for both as singers. The jobs last from the first of July to the first of September. Two weeks of this time will be spent in rehearsals. During the other six weeks there will be two or three hours of practice a day and a performance each

Both girls are members of the Glee Club and Special Chorus. They had principal roles in The Gondoliers, the operetta given here this spring. In past years, Louise Newton, ex-'40, has also sung with the Chautauqua company.

### Christian Association Reveals May Plans

Did you see Mary Jane Auld's lovely brown straw hat, and Carolyn Bodie's with white frills on it? Bettye Ashcraft looked pretty in a peasant dress, and Susan Daniels was smart in navy blue. The Hottentots were all, as usual, right there on the beam!

At Emory this week-end Eleanor Davis was seen at the PiKA house, and Minnewil Story at the Phi Delt house dance. June Bloxton and Jodele Tanner had Sunday supper with the Chi Phi's at Tech; Mary Duckworth was at the Sigma Chi house Saturday.

The latest ring is Yoli Bernabe's -it's a stunning three-carat sparkler. The lucky man is RAF-er Bob Stanton from London, who one day will inherit his father's earldom. We like the sound of Lady Yoli Stanton, don't you?

Have you heard that Betty Sullivan is a company sponsor at The Citadel? She was there for several days last week, and looked extra-glamorous in the sponsor parade, wearing a light green dress with brown accessories. The dances Friday and Saturday nights were wonderful, Betty says, and the whole week-end was perfectly grand.

## This Is Our Policy

It's the customary thing each year for the new editor to make a statement of policy for the coming year. Here's ours—

(1) As always, complete news coverage of the campus. We want THE NEWS to be full of news. But that takes help from the whole campus. Whenever possible let us make your announcements instead of the bulletin board. We want news!

(2) Variety in makeup. We don't want to be radical, just different. The staff doesn't seem to agree on the makeup policy, so let us know what you think.

(3) Cooperation for the good of the student body and the school. THE NEWS intends to see that things get done—that needed changes are made. If by editorials or news stories we can do this we're ready to help.

P. S. All letters to the editor will be appreciated! And printed.

## Waves and Spars

The WAVES is an organization of women whose job is to replace Navy men at shore stations. The SPARS is an organization of women whose job is to replace Coast Guard men at shore stations.

As a member of the WAVES or SPARS, you can wear the same Navy blue, win the same ratings and earn the same pay as America's finest fighting men.

And you'll hold the same shore jobs that are now filled by men. At Navy and Coast Guard bases throughout the continental United States, WAVES and SPARS do all types of office work. They also are needed for important posts in mechanics and aviation ground work—as machinists, for example, or as operators of the Link Trainer, that amazing device which teaches future Navy pilots the principles of flying. Other women are needed for various special or technical positions.

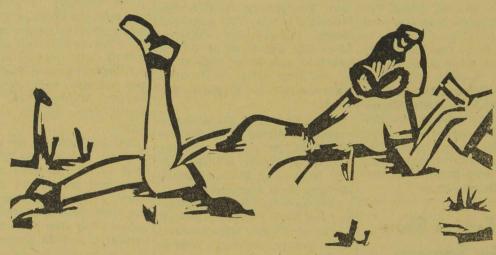

Whatever your work, wherever you go, you can be sure that you are performing a very real, very vital service for your country. It won't be any picnic. It's not a part-time "glamour" job—and it's not meant to be. You are as much a member of the service as any man with the fleet. It's full-time work. It will be hard work. But as you're the sort of woman who loves America and honors the brave men fighting to keep it free, it's work you'll be proud to do.

There are important positions in the WAVES and SPARS for women with experience in practically every field of business and industry. Have you worked in an office as a typist, secretary, operator of business machines, filing clerk or bookkeeper? You will find ready use for your skill. Have you sold merchandise or checked stock in a store? Do you know anything about radio, telegraphy, photography? Did you ever work in a library, serve at an information desk or telephone switchboard, do tailoring or sewing? Have you a mechanical "bent"? If so, your knowledge and experience will be valuable to the Navy. And it will help you to rapid promotion and better pay.

On the other hand, suppose you have no special skill or experience. There is a place for you, too, in the Navy. If you can meet the physical and educational requirements, Navy training will take care of the rest, fit you in a few short months for the post where you will be of greatest service to your country and to yourself.

There's a new booklet which has been prepared titled, "How to Serv' Your Country In the WAVES of SPARS," outlining all requirements for enlistment in these branches of service. A copy may be obtained at your nearest Navy Recruiting Station or Office of Naval Officer Procurement.

## A New Month in an Old Year

A new month in an old year. But an important new month. Although this is still April, the new month of May looms suddenly. And with it all the hurry of a last month—tests, papers, collateral readings, senior exams, exams, the daisy chain, commencement. Too soon it will all be over. The weather is beginning to turn warm, and it's so nice to lie on grass and dream. Teachers still continue to give

tests, forgetting maybe how nice it is to lie on grass. And this is the catch. You sort of have to pass all of them. There are millions of them. Or so it seems. And so before we go to lie down and sleep on drowsy grass, we feel it our duty to warn the student body about being lazy and giving up studies and failing tests. It won't be our fault if nobody pays any attention, however.

## Books in the Flames

Books are a symbol. The college library and its books are the heart of every campus. The insignia of many a college shows an open book signifying light, learning and the wisdom only man can pass from mind to mind. Books are a symbol of the freedoms for which we fight.

The other day monitors for the Federal Communications Commission paged up a Berlin broadcast praise Adolph Hitler, he of the impenetral prose style, as a lover of good books.

"To read a lot is equivalent of a good education," the radio voice said. "It was Adolph Hitler who promoted this idea in Germany."

The voice went on to say Hitler sponsored "not only books on National Socialism but books on German poets" and until he did "there were no good books in Germany."

On May 10, the world will remember how well Hitler loves good books. On that date in 1933, 25,000 good books burned in the square before the University of Berlin.

A student barker stood by to shout in the night as the books were cast into the huge bonfire:

"Emil Ludwig—burned for literary rascality and high treason against Germany."

"Erich Maria Remarque—for degrading the German language."

The book burnings were sponsored by Goebbels, the minister of "public enlightenment." Other bonfires were held at the universities of Munich, Frankfurt, Breslau, Kiel.

The lover of good books eventually drove hundreds of writers from the Reich, among them Thomas Mann, . nold and Stefan Zweig, Alfred Dob. Josef Roth, Ernest Glaeser, Jacob Wassermann. The "equivalent of a good education" did not include reading Heinrich Heine, Ernest Hemingway, John Dos Passos, Franz Werfel. It did in-

clude millions of copies of "Mein Kampf."

The "Kulturdirecktion" of the Nazis followed the blitz. The Louvain library in Brussels was destroyed. French libraries, bookstores and newsstands were pillaged by Gestapo agents to "prepare the transfer of literary, artistic and cultural treasures from the vanquished to the victorious country." In Paris the Gestape wen from bookstore to bookstore with a list of condemned books to be seized within 30 minutes under threat of severe penalty.—(ACP.)

### A Nose in the Air

By Tess Carlos

Needed reforms? Yes. There are a lot of things on the campus that could be changed to benefit the students. And one of them has recently been unearthed. Or so the proponents of the scheme feel. The idea is to let the day students elect their own representatives and the boarders the house presidents. Elizabeth Edwards, newlyelected day student representative, presented the idea to the Executive Committee Monday night. The campus will have to decide. A word of encouragement: this will do away with some of the blind voting so typical of the student elections. It is hard for either group to know exactly how each feels about their representatives. Opponents will probably point to alleged rifts that might occur on the campus. But it seems stupid to elect representatives not representative of the girls' views.

What about the new gym program? Next year's seniors, always eager to set precednts, now wander in desolate groups grasping any straw that promises exemption from five days of gym a week. The department says nothing. And those fiends who glory in the exercise of limbs laugh gleefully, "Now you can build yourself up!"

The question of chapel attendance—should it be compulsory, and how about the terrible way of sitting—is coming up again. Thursday, which is the only day theoretically compulsory, finds the chapel vaguely empty. Important announcements are made when only half the student body is present. Important questions are discussed, and very few gain anything from this because attendance is so poor. Furthermore, seats toward the front are rarely taken, and when some do sit near the speakers the blocks of empty space are noticeable.

There is a rumor going around which sounds too good to leave out, although this newspaper intends to publish only true, good news. According to someone who knows someone who played volleyball last Tuesday with Miss Cobbs, she (Miss Cobbs) as unofficial faculty volleyball manager is getting together a faculty team that might be able to play against the newly-elected varsity. Can anyone verify this story? If so, the varsity would like to know whether it should begin practices.

Thoughts on a rainy day while trying to write a column, make a date line, and get to lunch on time: Zena Harris is doing photography for the News this year. Her first attempt is the May Day snap of the Four Seasons. . . . A new fashion note has been added with the wearing of dark glasses by numerous students (actually about three). There is an epidemic of pink-eye in Atlanta. The source of bacteria seems to be streetcar-railings. See Dr. Jones if anything unusual happens to the color of your eyes. Who knows? You, too, may be able to wear dark glasses. . . . With spring comes the inevitable smell of onions as the grass is cut and the sight of numerous please signs standing upright. But since spring is in the air, we manage to ignore the smell of fresh green onions and the please signs as we tramp across the grass. . .

Rose" should be "My Wild Chinese Rose."

Speaking in chapel Friday, Mr. Chu, who has been in this country for only sixteen months, revealed many facts about China and Chinese students. According to him many of our products thought to be "native American," originally came from China. He mentioned meatballs, peaches, plums, oranges, magnolias, and even roses-hence the title "My Wild Chinese Rose."

In his opinion the students are the real heroes of China. #### May Day Visitors

Did you see that pretty flower day? On the table between the The Tech SAE's went out to the coffee urns was a May pole in miniature, with colored ribbons leading to vases shaped as tiny May day dancers and flowers in Roberts, Betty Carver, and Emily Anderson were the hostesses.

There were just lots of visitors on campus for the May day weekend. It was especially good to see Margaret Erwin, Becky Stamper, Mary Robertson, Neva Jackson, B. A. Brooks, Edith Dale Lindsay, and Dot Nabers.

Polly Cook spent the week-end home at Newnan, and with her were Bettye Ashcraft, Patty Barbour, and Claire Bennett. Also going home were Emily Higgins, Jane Everett, and Kitty Kay.

## Cotillion Members to Visit

Tomorrow evening, May 6, Cotillion club will make its weekly visit to Lawson General hospital to entertain the patients. The special feature of this week's visit is a Can-Can girl chorus by members of the club. After the dancing there will be the regular

Thursday party.

All students, whether members of Cotillion club or not, are invited to go. Anyone wishing to attend should see Marjorie Wilson.

## The McArthur Room

Mr. J. S. Dumas was sitting alone in his private office at Holsum's Cafeteria one afternoon several weeks ago-Sitting and smoking his proverbial cigar—an idea came—and what an idea!

From this particular brain baby came forth "THE McARTHUR ROOM"!

Realizing the need of an attractive supper club Mr. Dumas mixed these ingredients . . A smart supper club priced right for us young folks . . . Food scrumptious—the best and dancing too!

A really refined atmosphere which is important for you and your date. And booths where you can talk over "Life in General" with your favorite man.

Come down, we know you'll like it. Don't forget the McArthur room—we won't forget you.

## Spring Exam Schedule Told by Dean

For the convenience of the college community, the AGNES SCOTT NEWS is publishing the schedule for spring quarter examinations. The schedule is also posted on the official bulletin board in Buttrick. ## **Opportunities** For Freshmen

"You are individuals and you all have the opportunity to start here with people knowing nothing about you. The world is yours. What you do with it is your responsibility," was the challenging statement of Miss Carrie Scandrett at the final meeting of freshman cabinet Monday night.

"What a Freshman Could Have From This Year" was Miss Scandrett's theme, which she divided into three parts, work, play, and worship. She pointed out that each girl on this campus had an equal amount of time, but what each did with it varied. "A girl who gets a degree from Agnes Scott earns it," she said, smiling.

Play, she subdivided to social activities. Miss Scandrett believes that the time which is taken to make friends is worthwhile, but giving as well as taking is essential, which includes the activity line too.

"One of the greatest heritages here is that Agnes Scott is professedly a Christian college. We should be wiser, stronger, more tolerant, and deeper. It is an opportunity you can not afford to

## Frosh to Fete Sister Class

This Friday afternoon, May 7, from 4:30 to 6 p. m., the freshmen will entertain the members of the junior class at an informal tea in the Alumnae Garden.

Misses Ellen Douglass Leyburn and Llewellyn Wilburn, faculty advisors for the freshman class, will serve punch. Special guests will be Miss Carrie Scandrett, Dr. J. R. McCain, and the junior class advisors, Miss Martha Crowe and Dr. George P. Hayes. Each freshman has invited a junior to attend the tea with her.

The freshmen elected "Rite" Watson as chairman of the committee making plans for the tea, with Ruth Ryner Mary Duckworth, Ann Haggard, and Annette Neville as asistants. Mildred Mc-Cain, Martha Stevenson, and "Robin" Robinson are in charge of food; and Mary Ann Courtenay, Lura Johnson, Helga Stixrud, and Jane Anne Newton, invitations.

## Athletically Speaking—

#### By Margaret Drummond

The referee's ominous call of "1 for V." tolled the death knell Friday for the faculty as the volleyball varsity romped through to a 57 to 12 victory, proving or disproving (depending on the point of view) the time-worn adage about "brains and brawn." The faculty, rising as ever to the occasion, and playing valiantly to the end, met their inglorious defeat simply because of their lack of practice.

The members of both teams cooperated splendidly with each other, the back line setting the balls up for the first, who spiked them over the net. The now antiquated rule which stipulates that not more than three members of a team may assist a ball over the net, was quickly amended, needless to say, by the faculty, who wanted to show their ability to work together, and as a matter of mere insignificance, to make a few direly needed points.

The faculty lineup included Misses Susan Cobbs, Alta Webster, Bee Miller, Kathryn Glick, Frances McCalla, Llewellyn Wilburn, Ann Gellerstedt, Claire Purcell, and Dr. George Hayes, and Miss Will, the dietition, and Misses Lucy Cline and Emily Philips, of the library staff. Eudice Tontak, of the subvarsity, served as referee.

#### Victory of "Brains"

Though Friday seemed a veritable hey-day for "brawn" for the vigorous, more athletic way of life by a queer quirk of fate, "brains" too had it's triumph. Tess Carlos, the intellectual, the exponent deluxe of Saroyan and Wolfe, and propounder of the social causes of the American Revolution, revealing an unpredictable dual-personality, was elected varsity captain. Miss Cobbs was the faculty cap-

## Swimming Meets Not Rationed Yet!

There has been no rationing of swimming meets or of the enthusiasm of entrants and spectators in these meets. With Agnes Douglas, swimming manager, announcing) the events, a large number of Agnes Scott students participated in the swimming meet held last Thursday afternoon.

Betty Miller took top honors with four first places. Gwen Hill placed five times, and Mas House won four places. June Bedinger took three places, while Betsey White, Becky Smith, Betty Long, and Elaine Kuniansky won two places each.

Competitors in the three classes -beginners, intermediates, and advanced—provided promising material for future meets. Inge Probstein, Sally Sue Stephenson, Bettye Lee Phelps, and Misses Llewellyn Wilburn and Alta Webster acted as judges.

The next meet will be held Thursday afternoon at 4:00 in the gym when the daughters of Emory professors match their swimming ability against that of our club.

The schedule of events includes 40-yard dashes, diving, and relays. The form swimming includes front crawl, back crawl, breast stroke, and the side stroke. Ed Shea of Emory and Miss Llewellyn Wilburn will judge.

of men." That quotation from the Agnes Scott handbook is furnishing the A. A. board with inspirations for the reorganization of the Archery club.

According to the plans underway now, those girls who shoot in the spring tournament will be automatically eligible for membership the following fall. The archery manager on the A. A. board, Virginia Bowie, will be president.

Archery club will sponsor the free shooting period in the afternoons in order to arouse interest throughout the school. There will be regular meetings, at which the turns in heaven, a bent, beautiful members will have a chance to bow; so long will the fascination meet one another, and to shoot to-

## Mardia Turns Artist, Sterley Gets An Egg— It's All In the Life of a Practice Teacher

By Pauline Ertz

Apple polishing, shy love notes, mistaken identity, open adoration and heroine worship—all enter into the daily routine of a practice teacher, according to the Agnes Scott seniors who are completing their education courses this year by practice teaching in the various Atlanta and Decatur schools. "There's never a dull moment," say the girls. Almost anything can and does happen.

#### Mardia Gets Bracelet

Mardia Hopper has quite a time instructing third graders at Winnona Park grammar school. Says Mardia, "They're cute as the dickens, but so hard to control. They are always jumping up and down. But you should see them clap when I come into the room. (Mardia hopes it's for joy.) And then at lunch time there's a regular fight over who is going to get to sit next to 'teacher.' One darling little boy made me a clover-chain bracelet for a gift which I gravely accepted in token of his affection. Speaking of affection, all the students hug me goodbye before they leave. Gosh, it's wonderful to be so popular.'

According to Agnes Douglas, archery manager, the annual archery tournament will be held May 10-12. The National Telegraphic tournament, the highest score of which is sent to the district meets, is to begin May 12 and continue through May 19.

The 16 highest scores will be selected, and eight girls will be placed on a team. Last year in the Inter-Collegiate Tournament Agnes Scott placed second.

This year the highest individual score was made by Mary Maxwell, with 356 for a Columbia round.

#### Ruth Taken for Student

Ruth Kuniansky Willner loves her math classes at O'Keefe Junior high. A common experience for her is to be taken for a student. She sat in on a home room period one morning and the next day one little girl raised her hand in class and said, "That new girl who was here yesterday is absent today."

"Makes me feel young again," laughs Ruth. The children are kept outside during recess and Ruth usually can't persuade the student guards at the door to let her in. She has to tell the yard-teacher to admit her.

## Tennis Doubles Finals

Virginia Tuggle and Mary Munroe emerged victorious in the final round of the school tennis doubles tournament played off yesterday afternoon. They defeated the hardplaying team of Joan Crangle and Mary Cumming, 6-2, 6-3.

Virginia Tuggle already holds the tennis singles championship, and served last year as president of the tennis club. Her name and that of Mary Munroe will be engraved on the school tennis cup as 1943 doubles champions.

## Freshman Shoe Shop

Freshmen have opened a "shoe shop" to serve the needs of the college community. Its two-fold service-line is polishing and delivering shoes.

Boarders take turns collecting shoes for repair work four days a week; Monday in Rebekah Scott last issue of the NEWS was one hall, Tuesday in the Main building, Thursday in the cottages. Freshman day-students cooperate by taking these shoes to Decatur for repair.

> Rates for polishing are ten cents for solid-colored pairs and fifteen cents for two-tone polishing. The delivery charge also is ten cents.

Jean Stewart, head of the project, says the "shoe shop" has already earned twelve dollars for the freshman class.

## Agnes Scott Has Still

Agnes Scott, where smoking is "shipping" offense and the partaking of alcoholic beverages is strictly prohibited, owns and operates on the campus a still. It's a real honest-to-goodness producing still, too, legally registered with the Internal Revenue Service of the U.S. Treasury department.

Chemistry students operate the still, and those who taste the liquid they make usually complain of its flat taste. You see, all they ever use the still for is to make distilled water for chemistry laboratory experiments.

## An Eye to the Future

By Ann Ward

(Editor's note. This is the first of a series of messages to the school written by campus leaders.)

Midnight air-raid drills, tin-can smashing, rationed food, the passing of spectator pumps and nylon hose—these have been some of the more obvious new conditions which we on campus have had to meet during the past year in a world at war. Next year could bring almost anything—and probably will.

The thrilling thing about Agnes Scott College is that, even in times of confused ideals and values and rapidly changing conditions, it can go forward confidently and with a minimum of friction because it has the fundamental guiding principle of voluntary cooperation for the good of all concerned. A college to which students come because they honestly and sincerely desire to develop into the type of person summed up in the four-fold Agnes Scott ideal can have no fears for the future—as long as each student remains devoted to the ideal.

As we look forward to the remainder of this year and to next year when a new student generation will enter Agnes Scott, let every one of us as a member of the Student Government Association resolve to be really a member of the Association! Next year, let us each one take an individual interest and responsibility in freshman orientation; let's get to know the freshmen individually and help both in making Agnes Scott mean the most possible to each of them in making them contribute the most possible to Agnes Scott. Then, too, let's be constructive in our criticisms of Student Government by making our suggestions to the Executive Committee. And in the meantime-and this is the parting shotlet's be a little curious about what goes on in student meetings in chapel. Let's come to chapel on Thursdays-every day, for that matter. You might miss something sometime!

## Dive In for Fun

May Day is over and spring is officially in the air. Students are getting that outdoor look on White House roof and Inman porch. With no more gym for this year, freshmen, sophomores, and juniors find themselves with about three hours extra per week to play. Now, tennis, golf, archery, and swimming can be indulged in without feeling, "Wonder if I could cut today and get out of practicing?"

Instead of going to "Little Dec" for a coke (which isn't real anyway) during that extra hour when study doesn't seem too alluring, how about practicing that serve or that chip shot or just driving the little white ball. For now the hockey field and the tennis courts are open all

day for play. And it isn't far to Forrest Hills Golf and Country Club or to the Municipal golf course. And then, too, the sun on your legs makes the nylon shortage less of a problem.

Or maybe you'll want to improve your skating technique or learn to skate backwards; the gym is open for skating to the newest swing records every afternoon at 4:00 and every Saturday afternoon and night.

When it comes to swimming, there's litte to say. When your eyes are burning from working long hours on a term paper in the library and you feel hot and sticky, the ideal prescription is plunge period daily from 5:00 to 6:00 except Saturday and Sunday. Nothing can give quite the same thrill as when you cut the water with a dive and feel the soothing water close over you.

But if you have spring fever too much for any of these, there are still acres of beautiful woods with dirt paths to take you out into the sun and air.

So whether your sport is tennis, golf, archery, ping-pong, swimming or just walking in the spring, now that formal gym is over, dive in for fun!—(M. C.)

## This Voting Question

There has been much talk on the campus about the proposed scheme of letting day students elect their representative to student government and having boarders elect house presidents. Here is a sample of campus opinion on the question:

#### Dot Almond '45

A good idea! It is better for each group to elect its own officers. No boarder can really understand the problems of a day student unless she has been one, and the same thing applies to the day student who votes for the boarders' house presidents. The day students may be unhappy about the system as it stands, and because they are such an important part of our campus, they should certainly be consulted.

#### Jane Anne Newton '46

I didn't know what the boarders wanted in a house president, and the boarders probably felt the same way about the day student representative. I think a change would be welcomed.

#### Susan Daniels '46

It sounds good to me. The day students can't know very much about how different girls would get along as house presidents, and boarders don't know what the day students are dealing with. There certainly is a lot of blind voting. I think that letting the day students elect their own representative and the boarders elect the house presidents would be more democratic.

#### Beverly King '45

I think it would be more democratic for each group to elect its own representatives. I can see that some people might believe it would cause a rift, but I don't believe it would, since the groups would be divided only right at the time of elections. Lots of day students didn't vote for house presidents, because they felt that it was wrong to vote blindly. This is certainly not democratic.

#### Virginia Lee Brown '45

I think that a change would be good. The day students may not know the girls who would make the best house presidents, and the boarders may not know the girl best-fitted for the office of day student representative. General popularity is likely to count too much. Helen Hale '43

I think that the girls who are going to be affected by the different representatives should certainly be the ones to elect them. It seems to me that this would be much more democratic, and I do not think it would cause any noticeable division of the campus.

#### Teddy Bear '46

It seems to one the present systeh is pretty bad. But letting only day students vote for their representatives and boarders choosing their house presidents migh divide these two groups, when really we need more unity now. Perhaps if the group not as much concerned had only votes counting ½, he voting would still be democratic and the groups would not be too divided. Marjorie Smith '44

I do not think that day students should vote for the house presidents in the dormitory because the day students don't know about the rules of the dormitories or who the boarders would really like to have to represent them. The boarders, on the other hand, don't know who can best represent the day students, because I don't think all of them know the day students well enough.

### A Nose in the Air

By Tess Carlos

It started out very nicely and with a great deal of enthusiasm both on the part of the sellers and the buyers. All the organizations on the campus were given certain months to sell them. And for a while there was a lot of talk of competing to see who could sell the most. Strangely enough it all died out. The table in the lobby of Buttrick where the war stamps were to be sold has been taken away. And none of the organizations who were to sell the stamps seem to remember about it. No war stamps have been sold since exam week of last quarter. And that was sometime in March. Why has this

The library doesn't necessarily have to be a place where one ducks in casually to see if she might keep from having to do homework. Miss Hanley has been working very hard to make it interesting. Exhibits have been continued week on week of jobs open to women (the current one being on women in banking and insurance). In the main reading room displays are also put up of current topics. This week Hawaii is the subject. Bryant Moore who lived there a number of years and who was there at the time of Pearl Harbor provided the fascinating material that can be seen in the closed display box. The library staff has added further reading guides for those who might be interested in knowing more of this island possession.

This has become a frequent complaint in the dining rooms. It seems that girls order precious coffee and milk, eat their meal, and leave the coffee and milk behind barely tasted. Morals are rather silly when thrown out at people who ought to know better. Wartime means scarcity. And it seems stupid to add to the present difficulties of obtaining food in quantities.

Here's something else the campus is not taking advantage of. Every week the Atheletic Association posts on the bulletin board in Buttrick their Recreation of the Week chart. Now that hot days have come it's good to know when you can swim or watch somebody else exert themselves. Don't ignore it. You miss a lot of fun that way.

The annual McKinney Book Award will soon be made. It's not a contest in the strict sense of the word. It's just a way of getting a lot of girls who like to read interested enough in possessing their own books. too late to enter the contest this year. But it's not too early to remind those who may be interested in submitting their collections. The award for next year will be made on the basis of the best books collected from May 1943 to May 1944. Summer vacations begin in about a month. Most of us have a lot of leisure time. And we might begin our collections then. The collections of the present contestants will be on display in the library in a few weeks.

### Wesleyan Seen As Probable Summer School

Agnes Scott's summer school problem was no nearer solution this week as Dr. J. R. McCain reported that arrangements with the University of Georgia, Peabody, and F. S. C. W. at Tallahassee are being considered.

Also being considered is Wesleyan where two Agnes Scott faculty members, Miss Emily Dexter and Miss Frances McCalla, will

The delay in reaching a decision has been caused by the uncertainty of all schools regarding their summer plans, Dr. McCain said.

"We have written to various colleges for catalogs, but we have not received all we wanted," said Dr. McCain. "We have received word from Peabody, a college which would be suitable, but they are offering a 12-week course, and most of our students would want a six or eight-week course," he said.

"In spite of the war, Agnes Scott has to date the largest registration in its history," stated Mr. S. G. well as physical possesion of the Stukes, registrar of the college. Although the number of boarders remains more or less constant. there is a slight variation in the number of day students.

> According to reports from other schools, including Emory and Randolph-Macon College for Women, there is an increased registration in these colleges also, this fact holding true in men's colleges as well as women's.

Martha Dale, 1942-43 editor of THE NEWS, was notified this week that THE NEWS had won First Class Honor Rating in the Associated Collegiate Press' national newspaper critical service. Frances Kaiser served as managing editor of the 1942-43 NEWS.

## War Council Tells Plans

Squee Woolford, newly-elected chairman of War Council, recently announced new members of the council and their duties.

Dean Carrie Scandrett will serve as faculty chairman; Marjorie Tippins and Miss Florence Smith will head the public instruction committee; Anne Sale and Dr. S. M. Christian will have charge of blackouts; Cathy Steinbach, Squee Woolford, and Miss Scandrett will work on the finance committee; Betty Bowman will have charge of publicity; and Camilla Moore and Miss Susan Cobbs will direct conservation activities.

Plans for next year will include a war conference similar to the one held last February, if students desire it; a Victory Book campaign sponsored by the council at the close of this session for the collection of discarded books; and a mores for collecting old stockings. and 1939 through 1942.

## 79 Seniors To Receive B. A. Degrees

#### Dr. Goodrich White To Deliver Address

Climaxing a five-day program of graduation activities, Dr. Goodrich C. White, president of Emory University, will deliver a commencement address to the class of 1943, numbering 79 members, on June 1, at 10 a.m., in Presser auditorium. His subject is as yet unannounced.

The commencement program will begin on Friday, May 28, with a luncheon in the dining room of Rebekah Scott, given by the trustees of the college in honor of the senior class and visiting alumnae. On Saturday the Alumnae Association will hold a general meeting in the Old Chapel at 3:00. At 11:00 on Sunday, May 30, Bishop Arthur J. Moore, of Atlanta, will deliver the baccalaureate sermon in Gaines chapel. The dean's office will entertain the seniors and their families at afterdinner coffee at 2:00 in Murphey Candler. At 6:30 in Maclean auditorium the senior class will lead vespers. This will be followed by an open house from 7:30 to 9:30 in Murphey Candler, given for the seniors and their families by the Alumnae Association.

#### Breakfast May 31

On Monday, May 31, the faculty will meet for the final awarding of honors. Sophomores will honor the seniors at a breakfast at 11:00 at the Atlanta Athletic club.

At 4:00 in the May Day Dell the Class Day program will be presented. This will include the daisy chain ceremony and the reading of the class history, will, and prophecy. At 8:30 p. m. in Gaines chapel a music appreciation program will be given, which will be followed by the traditional book stacking in front of Main building.

mentals course stressing strength endurance, flexibility, relaxation, and body control," Miss Wilburn

New students who show their attainment of certain levels of fitness will be excused from the fundamentals course and advance to other classes. The fundamentals course will be three hours a week for fifteen weeks.

Seniors will not be required to take the courses, although Dr. Mc-Cain said, "They should want to take these courses." McCain also revealed that there will be a fitness course for faculty members.

#### By Mary Louise Duffee

To match Tess Carlos' quotation from the little boy at May Day who exclaimed "But I didn't know flowers could dance," we offer the comment commented on said day at same pageant by another little boy (in his twenties) who said: "The ingenuity of the feminine mind amazes me!"

Note to boarders: A probable must on your reading list will

be a poem which we understand was written by a member of the administrative staff, entitled "Ode to Lettuce" OR "A Prayer for Peace."

Faculty Wife Mrs. Stukes made what we think is the best current remark on engagements and weddings. (If we don't mention engagements somehow the seniors won't read the column.) In a gathering where a calm-appearing bride-to-be was told, "just you wait, you'll get more and more

Nice scene at the junior-senior banquet: At one table we noticed there were seated four seniors, all engaged or married, and four juniors, all pinned. This year would delight Dr. Henry Robinson, ASC's Dean of Marriage Statistics.

## Army Air Corps

From faculty, to student, to army-such is the life of Ruth Bastin who was once on the faculty of Agnes Scott as a nurse, who is now a sophomore, and who will go into the army as a nurse on July 1.

Ruth finished her nurse's training in 1940 and came here as a nurse for the next year and a half. In her hours off duty, she went to classes on the campus and studied. She went to the University of Chicago for summer school and entered Agnes Scott last September as a sophomore.

Last Wednesday, Ruth was notified that she has been accepted as a volunteer army nurse. She plans to ask for service in the air corps, which she says is "simply the best part of the army." This field of service may lead her to a place in the Hospital Evacuation Corps which uses flying hospital transports in its work.

girls and Emory daughters is? Well, neither did Jean Hood and groups. Dot Almond, it seems, when Pat Elam (who had been appointed to the office of "runner") asked for their sympathy, explaining that she would be forced to jump fourfoot hurdles in the performance of her duty. She said she had asked that the hurdles be lowered to three-and-one-half feet, but Dot Hunter, who seemed to be managing the "runner," stood firm. Jean and Dot A. must have felt pretty 'took in" when they found out that a runner was the person who took messages to the judges during a swimming meet, and that hurdles were put in the story to make their imaginations leap. (Kathie would have told that one better.)

Good advice from a recent speech: "If you want a few people to know a thing, telephone it; if you want a lot of people to know it, tell it to woman; if you want the masses to know it, tell it to the children.'

Ab-so-LUTE-ly floating on air-Nancy Hirsh.

Betty Brougher thought card No. 10 of the Rorschach test looked like the Taj Mahal, complete with mirrored pool in front. We'll put that response up against that of the Phi Beta Kappa Dr. Bachellor told about who thought it looked like a group of school children, dressed in colored gym suits, standing on each other's shoulders.

## Faculty Plans **Ouiet Summer**

This summer will be a quiet one for the Agnes Scott faculty and administration. "We'll all stay at home because we can't go anywhere," laughs Mr. Holt, looking up from chemistry 101 papers. But Miss Alexander plans to have an adventurous stay at home. She is going to help the Red Cross in some way—perhaps by rolling bandages. Miss Alexander, professor of French, is ready to offer her May 17-18—Claudette Colbert - Joel McCreatin "Palm Beach Story." training in mathematics to the government. "You see, I taught math for many years, and I think I could coach soldiers in math if they need me," she smiled.

Miss Elizabeth Jackson, associate professor of history, will help the government with its food supply. She plans to have the best victory garden in New Englandbut it will be New England. "There's no place like it, you know."

## **Room Queries** Now Answered

Although no definite statement has been made, the dean's office this week said that a temporary rooming plan for all four classes has been worked out.

Dean Carrie Scandrett said that if everyone continued to approve, the following plan would be used: seniors and juniors will live in Main, sophomores in Rebekah Scott, and freshmen in Inman. Gaines Cottage will be used for freshmen if there is an overflow, while some juniors plan to room in the other cottages.

Virginia Carter, and Alvara Frazer enjoyed the Theta Kappa Psi picnic at North Fulton park Saturday night.

#### Brides-Elect Honored

Cathy Steinbach entertained with an announcement luncheon for Quincy Mills on the terrace of the Biltmore hotel Saturday afternoon. The tables were decorated with three beautiful arrangements of pastel spring flowers, and a small pink carnation corsage decorated each place. Among the guests were Quincy's friends from Marietta and Acworth as well as Agnes Scott.

At her home in Decatur, Betty Brougher gave an informal tea Sunday afternoon for brides-elect Clara Rountree, Nancy Hirsh, Pat Stokes, and Dot Holloran.

Among the many parties for Colin Lawton recently was the shower Thursday afteroon at Nita Hewell's home. Nita and Mary Duckworth were hostesses. Friday Gloria Anne Melchor entertained for Colin with a bridge party at the Athletic club and Saturday Ann Hightower honored her with a luncheon in the Mirador room of the Capital City club.

Raddy Radford and Anne Frierson were hostesses at a miscellaneous shower Friday afternoon in Murphey Candler for Clara Rountree and Dot Holloran.

Mrs. Searcy B. Slack entertained for Mardia Hopper and Anne Scott at a seated tea Thursday afternoon; Marjorie Wilson was guest of honor at a tea given Wednesday afternoon by Claudia Brown-

#### Out-of-Town

Martha Rhodes spent the weekend at Randolph Macon in Lynchburg with Nan Paxton. She enjoyed their May Day program Saturday afternoon and the dance following Saturday night.

Mary Carr and Meg Bless spent the week-end at the pre-flight school in Athens.

Sally Sue Stephenson and Lib Farmer spent the week-end at Clemson, South Carolina, and Quincy Mills at Fort Benning, Georgia. Ann Webb went to Montreat, North Carolina.

Going home for the week-end vere Emily Higgins, Ruth Ryner, Midge Haddock, Mary Ann Cochran, and Mary Jane Auld. Anne Haggard and Robin Robinson went home with Martha Polk to Thomaston; also going to Thomaston was Harding Ragland with Ann Hightower. Mary Cumming and Barbara Frink went home with

## On Physical Fitness

#### By Virginia Tuggle

In a nation at war the importance of an athletic association on every college campus cannot be overestimated. In prewar days, the primary purpose of such associations was to furnish healthful recreation for students. The purpose is still to stimulate healthful recreation on college campuses, but to this purpose has been added one of exceptional importance. Now our college students must be physically equipped to meet the strict demands of the armed forces, the WAAC, the SPARS, the WAVES, and the Marines.

Shortage of manpower and economic pressure necessitate the employment of millions of women in industry. These women must be fit, and unless a well planned, carefully supervised college program is carried out, college women cannot be physically prepared for the tasks they must undertake. Health is at a premium today and the college student who cannot keep up with her work may be considered an economic loss, both to herself and to society.

Next year our athletic association expects to work in close cooperation with the physical education department in the new program which is to be initiated. Every Agnes Scott student will be spending more time at the gym-in the pool, on the hockey field, the tennis courts, or in correctives. Athletic Association must expand its program in order to meet the needs which will inevitably arise as a result of this expanded program. The new program approved by the United States government calling for five hours of physical education each week will naturally bring about greater participation and interests in athletics and in physical fitness pro-

Athletic Association will have the opportunity, as never before, to help equip each student with greater physical efficiency. Each student, as a member of the association, will be asked to cooperate to the best of her ability in carrying out the new program of physical education. Every red-blooded Hottentot must keep in mind now that proper diet, enough rest, and plenty of exercise are patriotic obligations.

## From the Reader

Editor, Agnes Scott News:

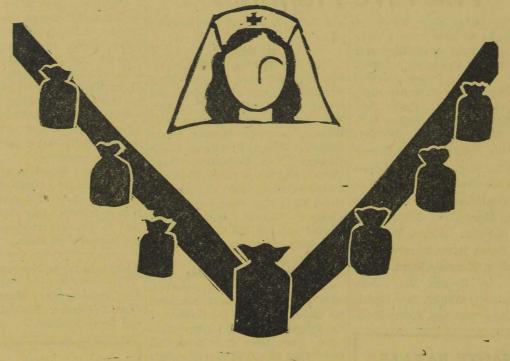

At various intervals during the three years that I've been here, the administration has tried with undying energy to prevent us, the "Five Hundred," from beating a path with our now rationed-shod feet between Rebekah Scott and the corner of the campus nearest the street car line. Those pitiful "please" signs were up for a while. But they, as well as the grass, have seemed unable to withstand the onslaught of hundreds of trampling feet.

What's to be done? No matter how much one pleads for us to use the walks, invariably we'll take the short cut when we're in a hurry and usually when we're not (even some of the faculty have been seen doing it!). Of course we have a guilty conscience when we trespass on this forbidden ground; nevertheless, we've got to catch that street car so we excuse ourselves somewhat. I would suggest that a walk be laid from Rebekah to the corner. There are already steps at the end of Rebekah Scott porch, and for what reason but to have a walk leading up to them. It would not harm the appearance of the campus as much as the path does now. If we're going across there anyway, we might as well have a walk to save our valuable shoes and our consciences.

Do you think a walk could be laid during our summer vacation?

Sincerely,

Cathy Steinbach.

-Drawn and Cut by Betty Lynn Reagan.

## In the Month of May

It's here again. May—the month of indecision and dreaming on the grass. The month when we begin to wonder "What am I ever going to do with all this extra time" and "Shall I go to summer school" (that possibility seems to be out at the moment—when even the administration seems confused on the issue).

May is also the month of the Red Cross, for on May 21, 1881, the American Red Cross was founded by Clara Barton. On our campus, especially, May should be the Red Cross month. We've promised Miss Scandrett and War Council that we'd finish raising the \$1,000 for soldiers kits. And we will. With less than \$150 to raise in three weeks our task should be simple. And certainly

we can't forget. Not with collection boxes in every corner of every building on the campus. Thirty cents from each student would put us over the top. Remember, May belongs to the Red Cross!

And while we're thinking of the Red Cross, let's carry it on into our summer plans. Long hours of nothing to do ahead of you? Take a home nursing or nurse's aid course. Working? You can still find an hour or so to take the first aid course or roll bandages. Going visiting? (Improbable, transportation being what it is.) Take along some Red Cross knitting and make your spare hours profitable.

Remember the Red Cross—in May and every other month.

## Music Appreciation

Although the NEWS staff rarely has time to attend the music appreciation hours, because they coincide with our busiest night of work, we nevertheless would like to commend Hugh Hodgson and all who have helped him on the enjoyable programs they have presented. Those we have been able to attend have been refreshing interludes in a busy week.

## Peace and Justice

By Ruth Farrior

Today we are constantly aware that we are living in a world at war, and we often wish that people would stop telling us of our responsibilities in the "World of Today and Tomorrow." However, we can no longer ignore the underlying currents which are carrying us along in their wake. We cannot escape from the effects of the conflict which encircles the entire globe.

Since we are of the few who are able to continue our college work, it behooves us to prepare ourselves to be useful citizens of our communities. We need to get the most out of our studies. But we must not so concern ourselves with the activities on the campus that we forget about the affairs in our political, economic, and social world. By reading the newspapers and magazines, we can keep informed about the world around us.

The community, the state, the world is made up of individuals. We, therefore, cannot expect international peace and prosperity, unless we have understanding and toleration among men. To accomplish this, each of us must find a faith that makes us adequate to meet the problems that are before us, and to make us truly Christian citizens. For without the love of God in the hearts of men, we can never hope for peace and justice.

This is the last regular issue of AGNES SCOTT NEWS to be published this year. A senior issue will be put out on June 1, but since it is not a regular issue provided for in our budget, a charge of ten cents a copy will be made. If you want a copy of this issue please give ten cents and your name to either Madeline Hosmer, Mary Carr, Inge Probstein, or Betty Glenn. If you are going home before June 1, let us know so that your paper can be mailed to you.

### A Nose in the Air

By Tess Carlos

We were all sitting in the day student room. And we talked about a lot of things-the way we always do when a number of tired brains get together. But we decided one thing. And we think many will agree with us. We don't like being called "Miss." A very silly thing to worry about. But you begin to feel awfully funny when toward the end of May you still call the freshman who sits on the front row in Spanish class "Miss so-and-so." And all because you don't see very much of her outside of class and think of her only as "Miss." Will it make us all feel too ungrownup if teachers call us by our first names? Or do we prefer the anonymity of "Miss."

You'll be hearing much about IRC in days to come. And so if you don't know what or who IRC is and why, we're printing this to help you. IRC is the International Relations Club. Its next meeting, which will also be its last meeting of the year, will be held in Murphey Candler building Thursday night at 7:30. The club sent two delegates, Eudice Tontak and Marjorie Tippins, to the recent southeastern conference. These two will lead an open forum in discussing the "Far East and the problem of international organization." Refreshments will be provided, and the whole campus is invited to attend.

Of course, there were probably more than the nine listed. Many of the day students and boarders have done it on their own. But it does seem a shame that from a student body of over five hundred only nine girls were officially listed as having donated their blood to the blood bank. The work that the Red Cross is doing in the field of plasma transfusions is remarkable. But it cannot be continued unless every citizen cooperates fully. And whether we realize it or not, we are citizens. Going to school does not excuse us from doing all that we can to help in the war effort. We may dream of going into uniform one or two years from now. But why don't we do something that would be a more vital benefit now?

In self-defense and with an eye toward the future, one of the most unrecognized organizations on the campus is staggering along buffeted and blown by the ill-winds of matrimony. The Spinsters' club was the idea of Eloise Lyndon (at least she was the only one I could find who dared claim charter membership). Its members creep about in secretive furtive groups shying away from the sparkling dazzle of engagement rings. The idea at the beginning was for the engaged members (they were not so when they joined) to support the spinsters by annual revenues or by finding them a man (the spinsters, I mean). The only snag that has developed thus far is that the engaged members refuse to contribute. And the spinsters have no way of getting even.

A few words before this goes to press: Did you like for the NEWS to publish this quarter's exam schedule? This was a departure from the regular make-up. Would you want it continued next year? Comments to the staff personally or letters to the editor are wanted. . . . Eta Sigma Phi, honorary classical fraternity on the campus, has finished off an active year by presenting six medals to students of Vergil in the Decatur and Atlanta high schools. . . . A lovely way of getting brown. Why not begin or continue the family's victory garden when you get back home? Not only will you get an enviable tan but you'll get muscles for next year's hard work.

This week and next week are exam weeks, times of strain for us all. Unnecessary noise in the dorms now is like the proverbial straw that—well, you know. Anyway, let's cooperate in keeping down noise!

Betty Brougher, who received her degree this morning, tries on the hat she will wear as a member of the WAVES. Betty is not the only Hottentot to enter military service-Martha Dale, Caroline Smith, and Marjorie Weismann also are awaiting orders from

## MARRIAGE, JOBS CLAIM MANY 1943 GRADUATES

By Pauline Ertz

Marriage is a wonderful institution! At least that's what 23 or so out of a class of 79 have decided. Everyone knows the seniors who are already married: Mary Ann Atkins Paschal, Nancy Hirsh Rosengarten, Dorothy Holloran Addison, Dorothy Hopkins McClure, Bryant Holsenbeck Moore,

The engaged gals have been so busy and excited for the past few months that they could hardly concentrate until the last exam was over. June brides will be Anne Scott, Emily Anderson, Wallace Lyons, Clara Rountree, Susan Spurlock and Pat Stokes. Other soon-to-be marrieds are Mabel Stowe, Marjorie Wilson, Mardia Hopper and Barbara Wilbur. Lots and lots more of the seniors are contemplating said institution but we aren't free to reveal the facts -yet. At any rate, Major Henry Robinson, home on leave from his duties at West Point, is very happy about the whole thing!

#### WAVE Candidates

We admire Hottentots who are going into the service of their country. By far the WAVES are the most popular choice of this year's graduating class. WAVE applications include Marjorie Weismann, Carolyn Smith, and

## 'We Must Not Lose Faith'— White of Emory

(Here is the complete text of Dr. Goodrich C. White's commencement address, delivered this morning.)

Thornton Wilder's play, The Skin of Our Teeth, has been described as "daffy and illuminating"; "wonderfully wise as well as wacky." Certainly after seeing the play one leaves the theatre somewhat bewildered, uncertain whether he has been subjected to an unmerciful kidding, or whether he has really seen a "tremendously exciting and profound stage fable," "a testament of faith in hu-

not sure. But I also wanted to on a basis of national competition, words that had seemed to me full of meaning as I heard them. Toward the end of the last act, Wilder makes his Mr. Antrobus say: "Oh, I've never forgotten for long at a time that living is struggle. I know that every good and excellent thing in the world stands moment by moment on the razoredge of danger and must be fought for-whether it's a field, or a home, or a country. All I ask is the chance to build new worlds and Ga. God has always given us that. And has given us voices to guide us; and the memory of our mistakes to warn us. Maggie, you and I will remember in peacetime all the resolves that were so clear to us in the days of war. We've come a long ways. We've learned. We're learning. And the steps of our journey are marked for us here.' (As he stands by the table turning the leaves of a book.)

Mr. Antrobus in the play is Everyman. He and his family have lived through the ages. The war of which he speaks is any war. And Mary Ward has an interesting when he says "We've learned.

## McCain Tells Staff Changes

In addition to the retirement of four faculty members the following changes in the faculty and administration were announced Friday by President J. R. Mc-

Miss Clara Morrison, instructor in English, has resigned to enter the WAAC. Miss Morrison joined the WAAC several months ago and has been on inactive duty awaiting the close of school.

Two classes in English will be taught by Miss Margaret Ridley, now a teacher in Atlanta Girl's High School. Miss Ridley, president of the Agnes Scott Alumnae Association, will also be College Recorder. No one has been appointed to fill the place of fellow in English now held by Ann Gellerstedt.

Other members of the faculty who will not be here next year are Dr. Eugenia C. Jones, college physician, and Miss Martha Crowe, instructor in French. Both Miss Crowe and Dr. Jones have been here since 1940, Miss Crowe having returned in that year from a leave of absence. Mrs. Margaret Davis, instructor in chemistry, is also leaving the faculty.

Mrs. Emmie Ansley has resigned to accept the position of registrar of Peace College, in Wilmington, N. C. Miss Eleanor Hutchens leaves the position of publicity director and assistant in the dean's office to do graduate work at the University of Pennsylvania, where she holds a scholarship.

In the physical education department Miss Abbie Rutledge from Texas State College for Women will replace Alta Webster. And in the book store Claire Purcell's place will be filled by Joella Craig.

Miss Charlotte Hunter, assistant dean, will return in the fall from Atlanta, Ga.; Jane Elliott, Atlanta, her studies at Duke University.

## 4 Retiring Faculty Members End 131 Years of Service

Today's commencement exercises mark the retirement of four Agnes Scott faculty members who have been associated with Agnes Scott for a total of 131 years. Those retiring are Miss Louise Lewis, professor of art; Miss Catherine Torrance, professor of Greek and Latin; Mrs. Alma Willis Sydenstricker, professor of Bible; and Robert B. Sydenstricker said. ## Anne Records Achievements, History of 'the War Class'

By Anne Frierson

On September 3, 1939, England declared war on Germany. On September 19, 1939, 144 green little freshmen arrived on the Agnes Scott campus to begin our college careers. During the first week we saw the buildings we had seen in the catalogs; we met Miss Scandrett and Dr. McCain; we struggled

through the handbook classes we went from placement test to placement test; and we were introduced to the angel robes in the

Our patient sponsors answered our numerous questions and got us safely through the admissions committee. Friday, the 22nd, 144 curious girls trucked to English 101, Biology 101, History 101, and other such freshman courses. The work began and time started flying. We were introduced to busy signs, house knocks, Mill on the Floss, the circulatory system of the frog, and fall of Rome. But we found that they were many things to do besides study-hockey or tennis, a coke at the tea house, a movie at Decatur, a knitting lesson, the sophomore party or the Black Cat Stunt. The sophomores tagged us as "rats" and we wore paper bags on our backs for a week. We began to organize as a class when we heard the rumors of "Ringing the bells on the Black Cat's neck." We worked as best as we freshmen knew how but we just couldn't win that cat.

November came along and with it six weeks' reports and the football game between Gaines and Boyd cottages. Which was worse?

Lord of the British Admiralty, Alfred Duff-Cooper, speak. Thanksgiving came and there was much confusion because Georgia's was on a different Thursday from the one in our home state.

Soon all we heard was Scarlett one hand and sixteen days until Christmas vacation on the other. Christmas vacation came and we had fun at home. When we got back to school Mortar Board decided we needed socializing. We met the Tech and Emory eligibles over a cross-word puzzle or a game of ping-pong. With an eleven inch snow we welcomed Douglas Freeman, author of Lee's Biography. Soon we were introduced to the meaning of Founder's Day. Then winter exams—the grass was cut—and we knew spring was here. Our king and queen reigned then at Mardi Gras. May Day came and exams and then-good-

But we came back in September 1940. Delighted with our experience at Agnes Scott we showed the freshmen around and told them how hard that history was or just "what was what" on campus. That fall with "Mainsapoppin" we rang the bells on the Black Cat's neck. Mortar Board decided we needed socializing again so once more we met the Tech and Emory eligibles. Mardia got the hockey stick. Investiture came and we formed an aisle for our sister class and this aisle led to beautiful new Presser. That Christmas we went home humming "O Come All Ye Faithful," because we had heard Virgil Fox play it so beautifully on our new organ.

After Christmas we met Mrs. Miniver's Jan Struther and some of us hear "Faust" at the City

Auditorium. Dr. Colwell came to us for Religious Emphasis Week. We signed up for our majors and minors. Our king and queen again reigned at Mardi Gras. May Day exams—but not goodbye yet-We had the daisy chain to make. Inman tubs were full of daisies and from 4 a. m. to 4 a. m. We tied bunches of five little white daisies together with little pieces of green string and then tied them on the rope. And—yes—it rained for Class Day.

September 1941 came and we had such fun being sisters to the freshmen. And they won the Black Cat. Maurice Hindus told us about Russia. Some of us heard Rachmaninoff. Then that fatal December 7 when the Japanese attacked Pearl Harbor. Radios were carried into the dining room and we began to realize that the war which had been declared before we entered college was closer than ever and that it would have a greater effect on the lives of each one of us from then on.

We went home with sad hearts that Christmas for we had lost one of the finest girls of our class.

After Christmas we were inspired by Dr. Elliott's messages dur-Then we heard the former First ing Religious Emphasis Week. We thoroughly enjoyed the Chekov Players' "Twelfth Night." And then The Junior Banquet came with its men and its dancing at the Rainbow Room or its midnight show.

Spring brought Nelson Eddy at O'Hara and Rhett Butler on the the City Auditorium and Mr. Ede at school. There were class and campus elections and seven were elected to Mortar Board. May Day, exams and then we were capped as seniors.

September 1942—and we came back for our last year. Seniors at last. The war was closer than ever to us. There was rationing -no after-dinner coffee, no senior cars, and many friends in the service. Our socializing was done by "V-Mail." Our sister class won the cat again. Some of us heard Jeanette MacDonald sing "Ah Sweet Mystery of Life." Eleven seniors were elected to "Who's Who." The rain stayed away long enough for us to have our fun in our little girl's dresses. And then on the following day we attained our senior dignity with Mr. Holt's message and Miss Scandrett's capping us at Investiture. The Christmas Choir seemed pretier than ever. Christmas and its month's vacation came and went.

After Christmas we discussed problems of our present war at the War Conference. Bishop Moore gave us a week of inspiring messages. The Red Cross cam-

## After Bombing, Bryant Moore Returns to Receive Diploma

By Alice Gordon

One of the happiest persons on the campus recently was Bryant Moore, whose husband, Major Thomas Carlyle Moore, of the U.S. Marine Corps, had just returned from the Pacific area on a 30-day leave. Bryant and her husband were stationed at Pearl Harbor when it was bombed on December 7, 1941, and Major Moore was stationed there until last July when he was transferrd to parts unknown. At the end of this month, Major Moore will report for duty in San Diego, California. He will and their two-year-old daughter,

They had been stationed in Hawaii since 1940 and their home was on a peninsula extending into Pearl Harbor. When the Jap planes came over, they did not bomb the peninsula itself, but everything shook from the explosions in the water and on the land near by, and pieces of shrapnel covered their front yard and came whizzing through the air making it unsafe

The bombardment started at about 8 a.m. and lasted until about 11:30 a. m. After her husband left that morning, she did not see him again until Tuesday. That night, she and her neighbors, wives of service men, decided to stay in their homes for the night. They stayed there trying to get news over the radio until about 10:30 p. m., when a single bomber came over. They decided they had better go to a safer place; so they called the police, who took them back into the hills to the home for the feeble minded, where they were taking all women and children. We could only take 15 pounds of luggage on the clipper, but the government later sent all the other things by boat."

Mrs. Moore is the former Bryant Holsenbeck. She attended Agnes Scott for three years before her marriage, and graduated today. STATE OF GEORGIA, DeKalb County.

We, the Senior Class of 1943, being in sound mind and of durable last, do make this our last will and testatment bequeathing to this beloved Alma Mater for use in future year, those qualities which have made us so much a part of herself.

Section I. To our faculty, the Administration, and the Board of Trustees, we leave our sincerest best wishes for having such a profound influence over us, and the hopes that they will not thereby feel responsible for all that comes to pass among us.

Section II. To the Junior Class, with whom we have fought physically and mentally through these last three years, we give the right and privilege to become Seniors, and the thanks for their cooperation throughout, above and beyond the call of duty.

Section III. To the underclassmen and all fellow-laborers on this campus, we leave our high hopes in order that they may have and hold that which we have had and lose hold, if they may find out what it is.

Section IV. We, the undersigned members of the Senior Class, bequeath to our friends and otherwise, those more tangible traits and characteristics for which we have been so obviously known.

Article 1. I, Emily Anderson, bequeath to anyone who dares, the ability to wait till the next-tolast week of school and then set June 5th as her wedding date.

Article 2. I, Mary Anne Atkins Paschal, together with Ruth Kuniansky Willner, and Dorothy Hopkins McClure, do leave behind to Quincy Mills Jones, Margaret Cathcart Hilburn, Sylvia McConnell Carter, Robin Taylor Horneffer, the certain knowledge and assurance that you can be married and graduate in four

Article 3. I, Mary Jane Auld, pass on to Kay Bisceglia my wonderful tan, with the full appreciation of its value, and the certain knowledge that its quality is beyond reproach.

Article 4. I, Mamie Sue Barker, with true patriotic zeal, will "scob my knob" in order to give my wig (which has given me excellent service) to anyone who, because of rationing of hydrogen peroxide, is beginning to show her true

Article 5. I, Florence Elizabeth Bates, bequeath my senior dignity and charm to the poet laureate of Tuggle may take life easier and is too short to permit me to read may reserve some of that "Bang the list, I will refrain. appeal" for which she is so well -you know.

Article 6. I, Ruth McNeill Biggs, will to Bunny Gray my ability to not get stepped on, and if lost, the certainty of always finding oneself where one belongs.

Article 7. We, Mary Brock and Dot Nash leave to the day students of 1945 (when the dormitories may not be so crowded) the ability to board and not be bored by being campused forever.

Article 8. We, Betty Brougher, Martha Dale, Caroline Smith and Marjorie Weisman, will to Bette and Kathleen Wade, and Agnes Waters the patriotic desires to join

## 'We're Learning,' Says Goodrich C. White

We're learning," he speaks for humankind.

"Every good and excellent thing in the world stands moment by moment on the razor-edge of danger and must be fought for.'

The war in which we are now engaged and which has affected, which affects daily and hourly, the lives of every one of us is no new thing. It is, in a new form and on a vaster scale, part of the oldest struggle of mankind: the struggle of ideals against savage ruthlessness; of human worth and dignity against mad and selfish tyranny; of justice and human rights and human freedom against the lust for power; of right against wrong. Story of Mankind Is a Struggle

The whole story of mankind is the story of this struggle. It has not always been a struggle on the battlefield between contending armies. It is a struggle that has gone on in quiet libraries and sequestered laboratories; in the parliaments of free peoples and in courts of law; in college and university class rooms and in town meetings; in ancient Athens as Socrates drank the hemlock; in Jerusalem and at Calvary; at Runnymede and at Wittenberg; in the Hague and in Geneva. And it is a struggle that has gone on in the mind and heart of every individual who has seized upon some "good and excellent thing" that must be fought for if it is to be preserved in his own life or in the common life of which he is a part. For it stands—this good and excellent thing-moment by moment on the razor edge of danger.

Living is struggle. I do not know why it must be so; but it is so. And this is a time of challenge to the colleges of our country to justify themselves as effective participants in the struggle for the good and the excellent. Perhaps we have been too complacent. Perhaps we have taken too much for granted. Perhaps we have assumed too easily that the fine and high things for which the colleges have stood would survive because of their goodness and their excellence; that it would not be necessary to fight for them. Perhaps we have been selfishly indifferent to the struggles of the masses of mankind as we, a select and favored few, have found satisfaction in intellectual pursuits and in the enjoyment of the beauty which we come to know in the arts. Perhaps we have interpreted goodness in too negative and too passive a

Ceremonies Are Symbolic

for whose survival we fight. Here is symbolized the freedom to seek and to teach the truth—such freedom as undergirds the other freedoms for which mankind struggles Paris, of Oxford and of Cambridge, of Leyden and of Heidel- the outcome is inevitable. berg, of Harvard and of William and Mary.

This is a difficult time for colleges everywhere. But it must not be for them a time of despair. Much that we cherish is sacrificed for the time being. We devote much of our effort to immediate ends whereas in better days one of the great catastrophic we would work for long range ob- epochs of history—out of which jectives. But we must not yield may come in the slow course, mayour faith in the enduring values, in the eternal verities. With quiet confidence and unshaken poise we must be able to see a college such as this as the final citadel of these values and these verities.

And it is to the women's colleges that just now we must look with special hope and confidence. Women will be called to war service of many kinds. And they will go, as their brothers are going, willingly and eagerly. But there is no evidence as yet that the women's colleges will have to be so completely devoted to immediate war ends as will the colleges for men. And it may be that in them, for the years just ahead, there will be the opportunity to keep alight the torch of liberal ideals in learning and in living, even if that opportunity is denied the colleges for men.

The ceremonies of this hour must be projected against the mockery. It cannot mean, if it is background of a world at war, with our own nation girded as never before in its history for the defense of its institutions and its ideals. And more. Men must be only in Great Britain, but "everywhere in the world"-"anywhere in the world." We battle again for pattern of international relationfreedom for all mankind.

## Trustees Honor Retiring Faculty

Miss Louise G. Lewis, Agnes Scott College. My dear Miss Lewis:

As you may possibly know, the Board of Trustees of the college met today, and the Committee on Faculty brought to our attention a report on your service to Agnes Scott during forty-three years! As chairman of the board, I was given the privilege of writing to you and of expressing our thanks for all you have meant to the institution.

So far as I am aware, you rank next to Miss Nannette Hopkins and Miss Louise McKinney in the length of service given to Agnes Scott, and you have rendered a fine service throughout the years.

The entire college community have enjoyed the pictures which you have painted and are proud that you have had commissions to paint important people elsewhere. We appreciate the fact that you have studied widely and have kept up your interest in various fields and types of art.

You have won high regard from faculty and students and have been able to contribute a great deal toward the cultural development of many Agnes Scott girls through your lectures as well as through your studio work.

The fact that the students regard you as a thorough lady and as maintaining in looks and conduct fine ideals has given dignity and value to your department.

We are glad that you are to live in the community and that your college friends will be able to see you from time to time.

Wishing you all personal blessings, I am,

Cordially,

George Winship, Chairman.

Dr. Catherine Torrance, Agnes Scott College.

My dear Dr. Torrance:
Through a resolution adopted by the Agnes Scott trustees today, I am given the pleasant duty of writing to you a note of appreciation for your thirty years of service to the college. It is a remarkable record.

We know that your field of teaching has been largely in Greek and Latin, and the fact that Agnes Scott has been outstanding in these subjects is undoubtedly due in considerable measure to your leadership and effective teaching. While present conditions have seemed to minimize the importance of the classics, our trustees believe that there is a real future for these languages and look forward with confidence to a revival of interest after the emergency.

We realize that you have been very active in committee work at the college and have carried these responsibilities in addition to your departmental work. You have worked well with your fellow teachers.

So far as we are able to learn, one of your great contributions in the field of education is the personal contacts which you have had with your students and your personal influence on them both in college and after they leave. We are quite sure that Agnes Scott alumnae everywhere love you and trust you.

We are pleased that you are to live in the community and that we will have opportunities of seeing you from time to time.

Cordially,
George Winship,
Chairman.

Dr. Alma Sydenstricker, Agnes Scott College. My dear Dr. Sydenstricker:

At their meeting today, the trustees of Agnes Scott College have been greatly impressed with the report of your service to the college during twenty-six years, and I have been given the privilege of sending you a note of appreciation.

I think our board would be almost

unanimous in feeling that the Bible department is the most important one in connection with the entire college. It was the only one mentioned in "The Agnes Scott Ideal."

We are very grateful to you for the fine service which you have done in developing and maintaining this part of our college program. You have kept abreast of modern thought and have been able to bring fresh and interesting viewpoints; and yet we have never doubted your 100 per cent loyalty to the fundamentals of the Gospel and to the finer spiritual values.

We appreciate the emphasis which you have given to a broad understanding of the background of the Bible and your determination that there must be an intellectual understanding as well as an emotional response.

We know that a great many Agnes Scott students have been blessed in your teaching and influence and that many who do not yet realize the values will come to appreciate them as the years pass.

We will certainly miss you a great deal at Agnes Scott and hope that it may be possible for you to visit us often.

With best wishes, I am, Cordially,

George Winship, Chairman.

Mr. R. B. Cunningham, Agnes Scott College. My dear Mr. Cunningham:

The trustees have noted with much interest your thirty-two years of work at Agnes Scott and have requested that I send you a note of appreciation. It gives me pleasure to do so.

You came to the college at a time when it had very meager resources and when every dollar must be used to the greatest possible advantage. From the earliest days, you showed ability to give an economical and, at the same time, practical administration of our funds. You were frequently able yourself to undertake plans and to carry them out which ordinarily might call for expensive supervision and overhead.

In the planning for new buildings and new development, you have shown fine judgment and unusual common sense in working out details which will make for simple and economical upkeep in the future. We know that Dr. McCain has relied very largely upon you for advice and guidance in all campus problems.

Your position has been a difficult one because it has been necessary to deny many applications for projects which we could not afford; but you have been able to maintain the confidence and high regard of faculty and officers, and of students as well.

We value most your Christian character and leadership and the good influence which you have exerted in the community, in the church, and particularly here at the college.

It is a satisfaction to us that you are to live in the community and that we will have opportunities in the future to profit by your accumulated wisdom and experience and to enjoy your fellowship.

With best wishes for you and your family, I am,

Cordially,

George Winship, Chairman.

## 'Make Yourselves Known'— Advice to All New Students

Behind the book marks bearing the signature of Christian Association, welcoming cards of Student Government and the friendly greeting you received when you arrived is the work of four campus leaders—Anne Ward, Student Government president, Ruth Farrior, head of Christian Association, Virginia Tuggle, number one girl of Athletic Association, and Elizabeth Edwards, day student repre-

sentative. Each of these girls has probably welcomed every freshman and new upperclassman personally in the two days since registration began, and given a million words of welcome and advice to new students. Here they are—gathered as best

registration was going on. From Anne Ward:

"It's exciting to welcome each nes Scott campus! We need your willingness to assume the responsibility of being a real part of the campus community. Begin now to take hold of every opportunity for rich and varied experience which will be yours at Agnes Scott. Know what goes on here on campus. Don't miss a thing! To keep "in the know" on campus affairs, make chapel attendance a habit. It will prove to be one of your most profitable and enjoyable ones.

"Along the line of rules and regulations-don't hesitate to ask your House president or day student representative about anything that puzzles you. Their interest is to make campus life for day students and boarders alike as pleasant and free from confusion as possible.'

Brief, but to the point is the advice given by Virginia Tuggle, Athletic Association head:

"We'll expect cooperation from all of you in making our five hour gym classes successful. And don't forget that the tennis courts and the hockey field are yours whenever you wish to use them." To new students Ruth Farrior

"The days ahead are filled with making friends, taking part in sports, having all kinds of fun, and Anding new channels of growth. These will be the most wonderful day you can ever imagine. One so wonderful is that we grow our-

some real service, to help others, and to find our work and place in the world. You will be hearing more about the work of C. A. and how you can help us. We're going to have a wonderful year—so come

### **Tentative Plans** Announced by War Council

War Council has announced that its financial project for the year will be voted on by the student body at an early date. Suggestions for the project are already under consideration by council members.

Plans for War Council include several speakers on current events for chapel and programs bringing various aspects of the war before the student body. War Council is also considering another war conference similar to the one held last spring. An alternative suggestion is to have several speakers at different times throughout the

Each dormitory wing will take turns at selling war stamps in the lobby of Buttrick from 9:00 a. m. to 12:30 p. m. daily. Camilla Moore will direct the can-smashing with each wing being responsible for a week at a time. East wing of second floor Main will can-smash this week.

Girls interested in doing Red Cross work such as rolling bandages, knitting, or secretarial work as Red Cross staff assistants may obtain information from any member of War Council.

Squee Woolford, president of War Council, will announce further plans next week

## Three Staff Members Added to Alumnae Office and Tea Room

Three new members have been added to the staff of the Anna Young Alumnae House to carry on the work of the Alumnae association and manage the tea room, according to a recent announcement from the association.

Mrs. W. L. Rhodes, who as Jane Guthrie graduated with the class of 1938, has been appointed alumnae secretary and has taken over the office in the tea house and is supervising work on the Alumnae Quarterly. Mrs. Rhodes succeeds Miss Harriotte Brantley.

New managers for the Silhouette Tea Room are Mrs. J. B. Bunnell, former Sigma Nu housemother at Emory, and Mrs. E. Q. Harris.

## Tennis Tournament Begins This Week

Agnes Scott's annual tennis singles tournament gets under way this week.

Those participating in the tournament and slated for first round play are Betty Jean Radford, Katheryn Dozier, Ruth Ryner, Patty Dean, Joan Crangle Colin Staton, Virginia Tuggle, Ann Hough, Betty Andrews, Mary Mary Cumming, and Gloria Gaines. Virginia Tuggle is defending champion, Mary Munroe last year's runner-up.

Ann Hough and Betty Andrews were named to membership in Tennis club after the final tryouts Monday. Old members of the club acted as judges for the tryouts.

## **Posey Sparing** With B's Now

No. 131 College Place has been hearing the tramp of men moving in its new occupants-Dr. and Mrs. Walter Brownlow Posey and their eight-year-old daughter books on American history, especially the American frontier, for Dr. Posey is the new professor of history.

The name of Agnes Scott is added to Dr. Posey's long list of schools in which he has been either a teacher or a student-Vanderbilt, Washington University, Peabody, Universities of Michigan, Chicago, Hawaii, Alabama, West Virginia Wesleyan, and Cumberland University.

In fact, it was at Cumberland University, where he held his first teaching position, that he met Mrs. Posey, then Miss Grisham, student. He chuckled as he remarked, "And I gave her one of the few B's she ever got." Maybe that was to attract her attention. But he taught her-of all thingsfinancial organization. This is one man who had better not talk about his wife's budget keeping.

Dr. Posey says he meant to practice law, but his early experiences while teaching encouraged him to continue, so 20 years later here he is moving into another faculty row home.

### X-Ray Examinations Thursday and Friday

All Agnes Scott students will report for x-rays at the gymnasium between 11 a. m. and 4 p. m. on Thursday, and 11 a. m. to 2:45 p. m. on Friday.

Those who have scheduled gym classes during any of these hours need not sign up individually. They should report for x-rays at their regularly scheduled hour. Freshmen will come at the time of their "fundamentals" class. All others will sign on the lists posted on the back bulletin board in Buttrick.

The faculty is urged to take advantage of the offer of the Georgia Board of Health to give x-ray examinations to the entire college community. Faculty x-rays are from 11 to 12 on Thursday morn-

## Athletically Speaking—

By Margaret Drummond

A botanist might say that fall is when the leaves turn, the seed Blythe-and tons of notes and pods form, and the golden rod abounds; a zoologist, when the creepy, crawling things depart this earthly travail, the birds fly south, and the butterflies (for 207)) are practically non-existent; a physicist, when a certain something crosses a certain something in the planetary orbit. A grammarian would most likely impart this information; fall is the time the season between summer and winter, the third season of the year called in common parlance the "fall."

> Hottentots, their interests inclined in slightly different directions, will recognize these as surefire signs that it's time to get hep to the signs of nature: the Soph dorm. echoes of "Fine, thank you. Did you have a nice summer?" have (thank go'odness!) faded into blissful oblivion; the plaintive plea of "the books haven't come yet" is no longer justification for forgotten lessons; the wild shout of 'there's one," followed by a dignified (?) upperclassman, butterfly net in hand, lunging in the direction of some small winged creature, is now a common cry on campus.

## No-It's Not a Football Team! Only the Black Cat Gang

By Pauline Ertz

Once upon a time there was a sophomore class and a freshman class. There is both joy and pathos in this saga of the frosh-soph Black Cat Stunt.

For days before the big night in the gym, the students worked like beavers. Daily pep meetings led by rip-snortin' cheerleaders no doubt caused

neighboring Decaturites to think that Agnes Scott had installed a football team.

Ha! Little did the outside world

know what went on in secret councils of state, behind locked doors, and after lights. Script, costumes, songs, scenery—all went into the creation of Black Cat stunt night.

Before the actual battle, of course, there were some preliminary skirmishes, such as the raid on the frosh in Inman, and the 'funeral" procession around the

## News Feature Editor Duffee Combines Emory-ASC Studies

If the Agnes Scott News begins to look strangely like the Emory Wheel, it's only because its feature editor, Mary Louise Duffee, Agnes Scott student and Emory co-ed, is a member of the staff of both the News and the Wheel and some day may get her papers mixed.

As a journalism major Duffee (does anyone call her Mary Louise?) takes her courses on the Emory campus and is an ace reporter for the Wheel. She is one of the few undergraduate co-eds on the Emory campus and among the first Agnes Scott students to work for a degree in journalism.

At Agnes Scott she takes one time on the campus ferreting out material for feature stories and for her editorial page column.

The only drawback to taking courses at both schools, according to Duffee, is having a class from 10 to 11 at Agnes Scott and one

The library committee met Thursday night for the first time at Miss Hanley's home. Plans for the year were discussed. Betty Long is the head of this committee. The class representatives are Elizabeth Gribble, senior; Leila Holmes, junior; Margaret Mizell, sophomore; Margaret McManus, freshman, and Betty Bowman, day student.

The purpose of the library committee is to promote good will between the students and the library and to keep students in the library conscious of the honor system. Any suggestions from the students will be welcomed by the committee.

The committee will meet bimonthly to discuss getting books which interest the students for the rental library, to make posters in the library, and to be in charge of Book Week.

Duffee Writes

## Forty-Five Lines

By Mary Louise Duffee

(The little slip says, "45 typewritten lines of your usual fare." Hosmer spells it "fair".)

We've been here long enough now so that it's only every other day that someone mentions how cute the freshmen are, instead of every other minute like at first—and everyone but me has met all the new people. (I had to show a passport at the dean's office the other night.) I'm loyal though, honest. A couple of weeks ago the Emory Wheel ran an editorial entitled "Meet Miss Agnes."

Well, we hear PSG Anne Ward has witnessed proof that she's taking her new responsibilities to heart. It seems a Sunday or so ago Molly Milam and her crew were visiting so loudly over at Boyd that they had to be quieted and later called down by Miss Symms, after which they asked forgiveness and not to be expelled or anything. Bystanders insist that later, joining in the singing at vespers, President Ward, who had been approached by the merry offenders on whether or not they would be expelled for their misdeeds, gave out unconsciously with "Love divine all love expelling . . ."

And speaking of BWOC's (Big Women on the Campus) it's going to seem funny not to have them all Drawn and Quarter—oops!—Drawn and Cut by Pobai Crane.

Conversation of two seniors: "Maybe it's look OK, but I just can't see the idea."

"What idea."

"Changing the length of our robes—Squee distinctly told me to measure from the top of my head to the floor."

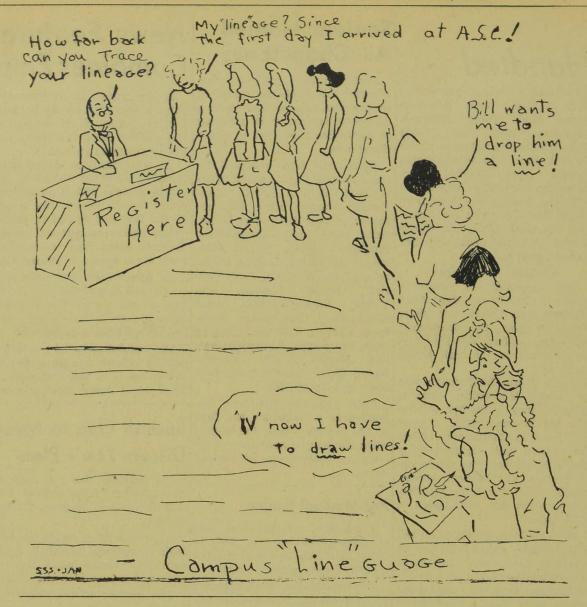

Naiveness, or "naivite" as we French say, was responsible for BettYE Ashcraft getting seat of honor the other day. It was on a visit to Fort Mac to see hance Jeff that he and Ashcraft decided to go to church at the post chapel. They were a little late, but Ash noticed the first three rows were vacant except for one elderly couple and tripped daintily down the aisle with Jeff and another lieutenant in tow and sat with the officer and his wife. It was not until the chaplain began smiling and nodding conspicuously in their direction that they began to feel uncomfortable. Colonel Early, the commandant, in whose pew they were sitting, was being honored at a special service on the occasion of his retirement from the army.

Nothing makes you feel like a senior more than sitting in the dean's office at night chatting with the dean and watching the freshmen and sophomores sign in and out. No offense to the juniors, but they always seem to be the "lost" class sociallydon't get around like the frosh and sophs, but aren't as conspicuously on the shelf as the seniors and "wa-ah widows." As someone said, the only difference between freshmen and seniors is that the seniors have been here four years.

Note to freshmen: You are having the time of your lives. Realize it and enjoy every minute of it. To paraphrase a fellow columnist (Henry McLemore): Being a freshman can be more fun than being on Frank Sinatra's draft board.

Pledged MLD.

And then there was the date who added to the Dun and Bradstreet questionaire given to all dates as they come into Main, "blood-type—4."

## For Freshmen—and Upperclassmen

Pity the poor freshmen! From the first moment they set trembling feet upon the campus they are oriented to within an inch of their life, and then in the first issue of the News they find an editorial on how to get along as a freshman—written by an editor who hasn't been a freshman for three years and, furthermore, admits that everything she learned at orientation went in one ear and out of the other!

Maybe it's just the excitement of a new school, but a lot of orientation hints manage to be forgotten. Here are a few reminders.

Being friendly is terribly important around here. Maybe you were a little surprised when on the very first day of school everyone greeted you with a cheery "Hey, there," or words to that effect. That's just Agnes Scott—no other way of explaining it. So carry on the tradition of friendliness, won't you?

When the stunt's over and you settle down to real campus life without the complications of practices and pep sessions, stop and think—there's a war on and there are plenty of ways that we on the campus can back the fighters at Salerno and Bizerte. Jump right in and smash cans. It's the accepted campus occupation for off hours. Maybe you too will learn to "hate the American Can Company." Try some Red Cross knitting. You can't study

## Don't You Think ---

the gate was filled in? With the gate so resplendent in its new paint job it seems a little silly to have visitors disillusioned as they enter the campus and step into the sand, or even worse, mud in rainy weather.

. . . that the freshmen are a swell bunch? No elaboration needed.

... that we could make things easier for the dietitians if when we eat cafeteria style we take only the things we want, and waste nothing? It's perfectly all right to go back for seconds on the things that are plentiful, but inexcusable to take something, like bacon at breakfast, and then leave it untouched.

... that seniors should wear caps and gowns on Saturdays at chapel after Investiture? It's a link with the past that's worth keeping and a part of the world for which we fight even at this moment.

that we could help the depleted library staff by keeping up the wonderful record for quiet in the library? When every moment is taken up with reshelving and checking out books, they should not have to take time out to keep discipline.

all the time and knitting is a good way of relaxing when you're dead tired from chasing flora and fauna for Biology 101 and having reactions in chemistry lab.

There are newspapers and current events magazines in the library especially for you, and it's a very good idea to give them the once over every so often.

But most important of all advice to freshmen is this—it's not as bad as you think. Look at all the seniors who survived being freshmen with never a scar or a nervous breakdown to show for it. Just remember that being a freshman isn't likely to be fatal. Relax!

And before you get any further along the road to that B.A., learn to do what probably 200 per cent of the upperclassmen (especially the editor) haven't learned. Make your resolutions today and keep them today—not tomorrow.

## The Bell Tolls

No longer do we have scholarship girls to give us welcomed messages that "You're wanted on the phone." Hence, it is necessary to find a plan whereby a few kind-hearted girls don't spend the night answering the phone for the rest of us lazy creatures.

In some schools this plan, which seems fairest to all, is used. The girl who receives a call answers the phone and runs messages until another receives a call and takes the job over. Thus, the girls who receive few calls don't have to play maid to those who do. And the more calls, the more times to answer the phone for someone else.

And is it too much to ask that we go to the room and knock? If no one is there, why not leave a note that so-and-so called at such-and-such a time? And sign your name in case she wants more information. Telephone calls can be important.

## A Nose in the Air

By Tess Carlos

The perils of writing a column for the editorial page: sleepy on a Monday morning after a Saturday deadline, no ideas of course and everyone else on campus asleep except the editor who sits glowering on third floor Main waiting for the forty-five lines. As Madeline says: "Duff is very amusing and you are very sickening. Wonderful contrast."

First whirl of a new session and the great flock of new faces is settling down into recognition. Freshmen, as is the plight of all freshmen, moan "Time. They want us to budget time! But we don't have any." Themes, then tests, then exams. And, oh, yes, somewhere in between the stunt, a hazy conglomeration of colors and yells.

The autumn leaves have not yet fallen, but we know it is autumn. Botany students have been stripping the trees even better than nature. And at least nature does not take the trouble to mutter incantations over them—"Is this veined, is this veined, is this even a leaf?"

The war has not yet struck home. There are the few of us who have lost friends or brothers. But really it is still something far-away that one glimpses momentarily in headlines of a newspaper, some word on the radio, or the figure of the few maimed or wounded soldiers that can walk the streets.

War Council was organized on the campus when the war began that we might contribute our share. The third war loan drive has just finished but stamps must yet be sold. Last year these sales lagged on the campus miserably. The means by which the stamps were sold proved inadequate. The clubs of the campus were asked to be in charge of the booth in the lobby of Buttrick. The first month was good, but after a few weeks enthusiasm died down. Few stamps were sold. Only a few girls regularly bought them. They alone sustained the drive. Toward the end of the year the booth was given up entirely.

Heard in Mr. Hodgson's one hour music class: Mr. Hodgson: Will someone tell me the opposite of allegro? Strong voice: Il Penseroso.

Rumor has it (and she can keep it) that there is a movement among seniors to counteract the chilly winters and the cold feet one invariably gets in chapel Saturday by wearing robes. How the cold feet will be helped is a matter of conjecture. But those seniors who are in favor point out tradition (seems seniors always wore then in past years), striking picture to be made by black robes and empty senior section (seniors in traditional years did not come to chapel on Saturday because they had to wear robes) and the fact that they will be warm.

The five-hour gym program which worried last year's junior class because they thought that they would have to undergo it has been beautifully solved by them. They just aren't taking any more gym.

Words of reproof before student government gets around to making it: whispering in the library is getting pretty bad. Now with a greatly enlarged student body it is even more difficult. If you have anything to talk over let it keep or go out of the library.

Speaking of the library, does anyone notice the interesting exhibits that the librarians put up for us? They are always so interesting and unusual.

Faculty Also Makes \$1000 Pledge; To Give Play for Additional Funds

In cooperation with the United Community and War Fund Drive, Agnes Scott students voted last Thursday to pledge \$1,000 as their contribution to the campaign. The money is to be raised through personal donations and from proceeds obtained by various organizational acivities. Plans for such

activities are being made in order to reach the goal by March 1.

In presenting the project to the student body, Squee Woolford, chairman of War Council, cited President Roosevelt's re-Agnes Scott Student: Tomorrow's quest that the USO and all other Citizen," Anne Ward, president of war relief agencies combine their fund-raising efforts. A committee of laymen has thoroughly investigated all 48 agencies represented in the campaign.

She urged participation by all students in meeting the \$1,294,669 goal set for Fulton, DeKalb, Rockdale, and Cobb counties. "We are spending nine months of the year in a large community," she pointed out. "We should accept the responsibilities of this community, as the transients in our home communities are doing there.'

The faculty, also with an objective of \$1,000, is putting its campaign plans in the hands of Miss. Susan P. Cobbs, professor of Latin and Greek, and Miss Eugenia Symms, secretary of the registrar. According to Dr. McCain, the faculty members hope to complete their pledges during the next week. and plan the presentation of a play in order to raise additional funds.

The United Community and War Fund is a combination of the Community Fund and the National War Fund, which are collaborating at the request of President Roosevelt under one major campaign for the entire year. Included in this one appeal are 48 groups and agencies. A goal of \$1,294,-669 has been set under the motto: "Give-from a full heart!" This money will be used for a threefold. purpose, "to support our fighting men, to aid our Allies, to protect the homes and children of our own community." Of the local donations, 54% goes to the Community Fund and 46% goes to national agencies.

Amid a series of the traditional take-offs on the faculty, Romeow and Juliecat prowled from scene to scene in the typical Shakespearean manner, finally forsaking their creator by refusing to die.

Upsetting tradition, the Sophomore production typified the ingenuity and artistic ability of the class. Suspense, mystery, and comedy shrouded the trial of the Cat of '46 who murdered the Cat of '45. Until the end of the performance the audience was kept

## Nickelodeon Rental Plans Considered

Business managers and treasurers of all campus organizations receiving money from the student budget met Tuesday afternoon to discuss plans for the appropriation of funds to pay for the nickelodeon in the gym.

A plan was discussed in chapel last week by which all campus organizations would contribute proportionately to the \$224 rental fee. The point was raised that since costs of printing and paper have gone up it would be difficult for organizations like the Agnes Scott News and Aurora to accept any further cuts in their budgets and that other groups may not be as hard-hit by war conditions and could better afford budget-trim-

It was decided the treasurers and business managers should study the problem and report its findings to the student body.

Other debs from Agnes Scott are Mary Cumming, June Reynolds, Dot Archer and Ann Hightower. Also among them

is Elinor Sauls, who was here last year. Already the debs have begun a season of war activity--from cotton picking at a nearby farm to the equally essential matter of entertaining officers and maintaining high morale.

#### Tech Dances

Agnes Scott was indeed well represented as the Interfraternity Council of Tech staged their final dances of the season Saturday. The music was furnished by Bob Allen and his orchestra. At the dance Saturday evening were Jo Tanner, Betty Manning, Mary Carr, Dale Bennett, Louise Breeden, Claire Bennett, Mary Martin, Sue Mitchell, Mary Louise Starr, Jean Satterwhite, Betty Turner, Nelson Fisher, Robin Robinson, Lelaine Harris, Marjorie Tippins and Gloria Ann Melchor.

## Nose to Ground

By Mary Louise Duffee

(Because it balances things nicely with Tess on the other side of the page.)

Having accidentally wandered into the "Battle of Main" after the stunt Saturday night I found the decks swarming with blue-jackets. "Who are they waiting for?" says a junior, "Freshman, of course." A middle-aged Tech civilian (meaning not cradle loot nor one exempted by his 38 years) walks in the side door of Main: "I want my date, please. Do I fill out an application blank?"

V-P Senior Class Bobbie Powell to Senior Ann Jacob: "Oh, well—we wouldn't have known how to act if we'd won." Some say we're the first class to go through Agnes Scott with four straight defeats on Black Cat nights. But think of the character-building, girls—how to lose successfully, and all that. And think how this may help the Class of '47 to start out as a class united—something we've never quite known.

Funny how some boarders thought Jean Rooney's representation of a day student in the sophomore stunt was an exaggeration.

Silhouetted figures of four seniors on the corner of the street-that-runs-by-Main-toward-the-gym singing, "We did it before, and we've done it again . . . "; Blitz Roper, sophomore stunt chairman, corsage laid away, dressed in old slacks 15 minutes after the stunt, ready to go backstage and lead the clean-up gang.

Ask Kathy Hill wh-uh-what she found in her bed one night last week. The word "Happyrock" will help her remember.

What not to do: what Jinx Blake did last Thursday evening (according to a very productive grapevine) when a long distance call came through for her in Rebecca just as the Freshman-Junior invasion reached that dormitory. Able to hear only a faint male voice, whose words she could not distinguish, Jinx took it for granted it was the Current One and said, "Oh, Johnny, I can't hear a thing, so just let me do the talking until it quiets down " and she continued with remarks that she had been writing him every day, etc, etc. When the hall finally quieted, she found she was talking to the Flame of Last Year or fascimile—not Johnny. P. S.: The one who called is coming down to see her anyway.

It's "time to change" at Emory—almost. There'll be at least part of a new "fleet" in there in November, what with the departure of some of the blue-jackets and marines for midshipmen's and officer candidates' schools, and some for boot camp or the fleet (we hope not many.) Then it'll be "Mother Put Up Your Service Flag"—ask any of them to sing it to you.

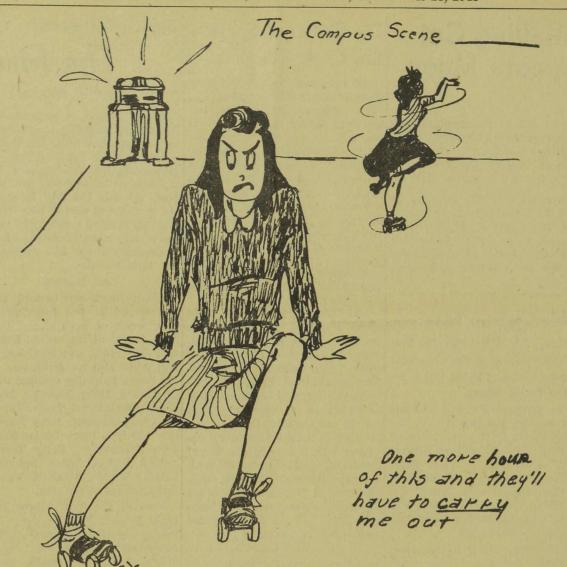

Well, maybee you've been away from Home and Him long enough now to need a shot in the writing arm. Here's a little offering you may be able to use to advantage—they say it's very effective.

## Privileges and Responsibilities

At this time when we are considering what student government means to us as individuals and as members of this community, it might be well for us to question whether we are making the most of our opportunities. We have been given the power to govern ourselves because the faculty and administration have thought that we were intelligent individuals capable of enlightened group action. The privileges of student government appeal to us, and we guard them jealously, but the responsibilities do not seem half so intriguing. We know that a few individuals will eventually assume our responsibilities for us if we fail to do so ourselves.

It is true that we are in little danger of losing the privilege of self government; and for that very reason we have grown careless. Our chief responsibility, which is to do our thinking for ourselves and make our decisions about the problems which arise not according to what our friends (and enemies) will think of us, but according to what we believe is best in the light of the thinking we have done, is the very one we have so often neglected. It does not seem to be too much to assume that we are all capable of intelligent thinking. It's just that it is easier to have someone else do it for us. We are afraid others will laugh or we are complacent and uninterested, so we allow others to do our thinking for us. We are fooling only ourselves if we think this is self government.

The most recent example of our apathy was the discussion of the United War Fund. There is no question of the worthiness of the cause, or of our willingness as a community to contribute generously to it. However, in our zeal to do our part, we fail to look at this fund honestly. A thousand dollars is a fine sounding figure, and as long as it may be raised painlessly, by organizations, benefits, and the faculty, we are only too willing to back it. But when it comes home to us as individuals, in terms of movies and cokes and Agnes Scott specials which we will have to do without, we

suddenly show an amazing reluctance to have anything to do with a cause we have agreed is certainly worthy of our greatest sacrifice.

It is unfortunate but necessary that we remind ourselves of the trouble we had in raising the Red Cross quota last year. We have forgotten, because it is painful to remember, the humiliating pleas that had to be made to us repeatedly toward the close of the drive, and our indifference toward them at that time.

With one exception, we have all voted further discussion of this new pledge unnecessary, and therefore have all promised tacitly to fulfill the present figure. Let's not have this enthusiasm drop, and once more fall back to our old ways of letting a few people do all the contributing. Having decided to make this pledge, we can now show our understanding of the responsibilities involved in the privilege of making our own decisions. (W. W.)

## L'Affaire Nickelodeon

Last Thursday's student meeting brought to light a situation which has been developing over the past year.

The question of the nickelodeon is only an incidental matter. The real problem is the apportioning of the student budget to fit the needs of the organizations concerned. The fight made by Aurora and the News to keep their appropriations untouched merely shows how desperate they are to hold on to the few dollars allotted to them by the budget.

The students whose money makes up the student budget demand their money's worth. They expect attractive and well-planned publications which are the only permanent records of the ideas and trends of student life.

And as printing costs rise even the increased enrollment will not add enough to the appropriations given to Aurora and the News to permit them to keep up the usual standards. We do not intend to allow the war—important though it may be—to stop publication on the campus. Contracts made with advertisers make it impossible to publish a smaller number of issues of either the Aurora or the News than were originally planned for before "l'affaire nickelodeon."

Therefore we ask that regardless of the outcome of "l'affaire nickelodeon" the student body again consider an emergency budget in the light of present conditions and attempt to reapportion the student budget according to the actual needs of all groups, cutting down on appropriations where possible in order to give a greater percentage to those organizations which need it.

### A Nose in the Air

By Tess Carlos

Another Monday and another column not yet written and this time the editor who is Madeline sits over me threatening—"only an hour and this goes to the printers."

Cotton-picking has its poetry and its pains. The poetry first—Stone Mountain away in the distance and the white powder puffs of cotton. The pains—having been warned "you can expect your back to hurt," Flossie McKee and I picked cotton sitting down—and do we hurt (in the wrong places of course). Anyway, next Saturday afternoon another cotton picking crew rides out to the plantation and more cotton pickers are needed. It really is fun!

With the lovely warm autumn weather we have been having, at least one member of the faculty has solved the problem of students gazing out windows. Miss Harn conducts her advanced German classes under the trees of the back campus. Wanderers who wander in on them can stay and listen to the strange lovely sounds and also get plopped on the head by acorns that creep down from the trees to hear better.

The day students make up more than one-third of the student body. And they don't even have an attractive room in which to eat lunch or have bullsessions. The day student room where most of them meet is all right if you don't notice the overhanging pipes, the bad lighting (two lamps to begin with and now one missing), the lower half of the walls unpainted. Something will have to be done. Either the day students themselves will have to form a committee and go about making the room livable (using their own money) or student government will try to look after this one third of its populace. True, there are day student rooms in Buttrick and on first Main but they are inconveniently located and the day students are too many to use them all at once.

A story coming out of the prestunt rehearsals. Two freshmen walk across campus after rehearsal still in costume—the taller one in pants and a man's hat. The night is cold and they pass under a street light walking very close. Two juniors and their dates also walk by and the juniors stand astounded as the shorter freshman attempts momentarily to disentangle herself and the taller one yells in a hurt voice "But, darling—."

The present senior class has really set a record this time. For the fourth year in succession it has lost the stunt—can anyone quote this record for any other class in the history of the college? But at least there is still the senior opera—where there is no chance of losing except at the box office.

What about filling in those long pauses after dinner every night while you wait for the one table in the room to begin dessert by serving after-dinner coffee. Coffee is no more on the rationing list and it will give one a chance to do more with the thumbs than twiddle them.

Hockey matches have begun and every Friday until the end of the quarter the class teams will be bashing in each others' shins racing up and down the green turf. A wonderful picture—bloody shins and setting suns and one last call for your team. (Apologies to Tennyson).

Remember that old game of "thimble, thimble, who's got the thimble"? Well, in case in the near future, you happen to hear that old rhyme all dolled up with new words; in other words, to be specific, if you should happen to hear a certain faculty member (not to mention any names) going around asking, "Pants, Pants, (pajama, incidentally), who's got my pants?", don't be unduly alarmed. Lend her a helping hand; she's in dire distress.

All of which (not making any sense at all) goes to say that come Saturday, November 13, pandemonium will break loose in and around Atlanta, for on that day, Athletic Board, those most mischievous of all pranksters, (witness the aforementioned faculty member in paragraph one), will depart for a hilarious week-end at Camp Civitania near Austell.

#### Soph-Frosh Hockey

Hockey seems to be the outlet Dr. McCain Lectures for that extra stored up energy the sophs and frosh have left over from the stunt. At any rate, they carry their feudin' on, despite the fact that that much sought-after genus feline now naps lazily in Inman lobby.

With their winning streak still going strong, the freshmen raced to a 3 to 1 victory over the sophomores. Both teams played unusually strong games.

About the tennis clinic A. A is sponsoring today: "Tug" announces that Frank Coyne, prominent in tennis circles in Atlanta, will be on hand this afternoon to umpire. Also there will be no doubles matches as originally planned, as extra time is needed for the "clinic" part of the program.

At 6:30 tonight the college is entertaining the two tennis stars Tryouts Next Week and those on campus responsible for the clinic. In addition to the players, those invited are Miss Willburn, Miss Rutledge, Miss Scandrett, Mrs. Lapp, Gloria Gaines and Virginia Tuggle. Coffee will be served at 7:30, to which members of the board are in-

## On Religious Living

At weekly meetings of the Annual Leadership Education School for the Presbyterian Churches of Atlanta, Dr. J. R. McCain will deliver a course of six lectures on 'Personal Religious Living."

Dr. McCain's course includes a discussion of "Facing Life With Christ," and will cover the questions of living in fellowship with God, of religious practices necessary today, and of the effect on the individual of living in a Christian way. The course is open to leaders in Presbyterian church

## Spanish Club to Hold

Adelaide Humphreys, president of Spanish club, announced this week that tryouts for the club will be held Oct. 26-29. Requirements are posted on the back bulletin board in Buttrick.

At the last Spanish club meeting members sang Spanish songs and played bingo in Spanish. It was decided that all future meetings will be conducted in Span-

Plans for the year include a Christmas party, a feature of which will be the singing of Christmas carols in Spanish, and a Spanish fiesta in the winter

### Blackfriars Choose "Schubert Alley"

Blackfriars, campus dramatic organization, has chosen as its first play of the year, "Schubert Alley," by Mel Dinelli to be presented Saturday, November 28, according to Martha Marie Trimble, president

The seven scenes of the play will be in the form of flash-backs, showing various scenes instrumental in the formation of the course of the main character's life.

The cast will be announced as soon as try-outs for the 19 roles in the play are completed.

#### Swimming Club Adds Eight New Members

Swimming club has taken in eight new members as a result of the recent fall tryouts, according to Agnes Douglas, president. The new members are June Bedinger, Edwina Davis, Ann Hightower, Helen Hutchison, Betty Long, Betty Miller, Claire Rowe and Beth Walton.

After the club's demonstration of functional swimming tomorrow, the new members will make their debut in a number of swimming formations.

#### Hockey Schedule

At 4:00 tomorrow the frosh will meet the juniors, and the sophs will play the seniors in hockey.

The first official class games | Zena Harris Temkin again did most of the driving. Ann Webb was the outstanding player.

> The freshmen played a nice game as their first this season, and several of the players showed real hockey talent. In the first half the sophomores made two serious threats at the goal, but failed to score each time. Just before the half the freshmen succeeded in making one goal. The score at the end of the half was 1-0 in favor of the freshmen. At the beginning of the last half the freshmen again scored. The sophomores, led by Scotty Johnson, retaliated by making their only score. Late in the game the freshmen again succeeded in scoring and the game ended 3-1.

#### Freshmen on Offense

The freshmen were definitely on the offensive all during the second half, and the sophomore defense was not strong enough to hold them back. The freshman defense, however, was very strong with Ann Stipe playing exceptionally well

The most original party of the | Among the sponsors, carrying red according to Hugh Hodgson's music appreciation class, was his entertainment for them at his home Saturday night.

The guests, asked to come dressed as musical characters, showed undue ingenuity and offered unlimited amusement. Ceevah Rosenthal went as A minor, wearing a short dress, socks, and a big ribbon in her hair. Dr. Runyon went as Robin Hood, and Margaret Mace and Kate Webb as William Tell and his son. Sue Mitchel was Happy-Sue-in-Blue (Rhapsody in Blue) and winning the prize for costumes was Claire Bennett who wore a flower in her hair with ribbons dangling in her face and a big sign reading "Claire da Loon" (Clair de Lune). The evening was spent playing musical games and listening to Mr. Hodgson play. Others attending were Bella Wilson, Betty Campbell, Molly Milam, Frances Stukes, Julia and Elizabeth Harvard, Scott Newell, Mary Neely Norris, Cathy Steinbach, Mary Campbell Everett, Jo Young, Kathie Hill, Hilda Goldman and Ruth Setel.

## **Debaters Say**

Dottie Kahn and Jean Hood, defending the negative side of the question, "Resolved: That women should be drafted," capitulated to the affirmative, supported by Martha Jean Gower and Betty Glenn, in a debate last Thursday night at the meeting of Pi Alpha Phi, college debating organization.

The affirmative contended that conscription of women was essential to the increase of production and the subsequent shortening of the war, further stating that it would increase Allied morale.

The negative replied that there was as yet no necessity for drafting women and held that such an action would lead to a breakdown in civilian life and would increase the readjustment problem attend- ham, N. According to Claire Bennett, president, the club will hold tryouts for upperclassmen tomorrow evening between 7:30 and 8:30 in Rebekah Scott chapel. Those planning to try out should sign on the back bulletin board in Buttrick, where full instructions are posted.

Following are the subjects upon which those trying out may debate: "Resolved: That 18-yearolds should vote"; "Resolved: That this house approves war marriages"; "Resolved: That Agnes Scott should be co-educational.'

Katherine Phillips is in charge of the entertainment.

## 'Draft Women,' Low Bass, Trombone Talent, Lie Latent at College Place

From interest in music to the ministry to teacher is the road followed by Paul Leslie Garber, new professor of Bible.

Way back in grammar grades and high school his interest in music led him to sing low bass in his dad's church choir and to play the trombone in the band.

Upon graduation his interest in church work had so grown that he entered the College of Woster, O., a ministerial school. He received his B. D. and Th. M. degrees from Louisville, Ky., Presbyterian Theological Seminary, and became a member of Lambda Chi Alpha social fraternity,, Phi Beta Kappa, Theta Phi musical fraternity and Pi Gamma Mu honorary social science fraternity. Still unsatisfied, he won the Kearns Fellowship in American Religious Thought which he took at Duke University in Dur-

Duffee Presents

## Guest Columnist

Joella Craig

(Mary Louise Duffee, who usually fills this space each week, is in the throes of exams at Emory. She presents Joella as guest writer this week).

"Do to the faculty what I do to the students," said Duffee in her invitation, and to all of you let me say that their lives are above reproach. It is with untold delight, but likewise with much nervous alarm (sometimes called trepidation) that the task is begun. (Donations for a one-way ticket to Walhalla will be gratefully received in the book-store!)

Having dispensed with the inevitable plug for the city, hear ye the highlights of the Faculty Bacon Bat. The Bacon Bat is surrounded by tradition equaled only by the Black Cat Stunt. The name itself is a sort of mystery—only the privileged ones of the faculty and administrative staff who attend, and who are pledged to secrecy, know its meaning. At this annual gathering the newcomers are the honor guests and are escorted; the hostesses are the newcomers of the previous year.

This time the yard of Harirson Hut was alive with smiling Jack-o-Lanterns, with a strong suggestion of Hallowe'en and the Japanese lanterns which departed this life in the rain after the fall reception. A tragedy befell one of these lanterns . . it caught on fire . . . and Mr. Sims came to the rescue. The fellowship around the big bonfire was so pleasing that some sat on the ground Indian-style, and to walk about it was necessary to dodge the tin cups of coffee nestled in the grass. "Robin Hood" Runyon came costumed for Mr. Hodgson's party, and brightened the circle with his red and green outfit-and feathers. After the auction of the remaining food, two of the faculty members, whose names are withheld for obvious reasons, skipped home swinging hands.

Topic for conversation in those silent moments at senior coffee; the faculty dogs. Miss Omwake and Miss Harn, after the death of their little black kitten bought "Mickie," as playful pup as was ever seen. There is "Caroline," who belongs to Miss Leyburn, "Kate," who belongs to Miss Glick, and the Stukes' dog "Carrie," named for our beloved dean.

This little bit of information should really make bright the hearts of the administration. According to the grapevine, there is actually one junior who has paid her \$25 room reservation fee for next year. Afraid you'd be left out in the cold?

Besides her well-known book, The Science of Life, Miss Mac-Dougall has written poetry. She has graciously consented to the use of a favorite one here:

O little girls and lassies gay We love your sweet and winning way.

But when you come with us to stay

Please put your chewing gum away!

And the biology department is indirectly responsible for the confusion of the freshmen who believed the upperclassman who said the M (imagine it—a freshman, too) on her biology test was the initial of the person who graded it!

Respectfully submitted, Joella.

You know, Agnes, I think you look just like Rita Hayworth

## Only the Editor Would Write This

Honor roll students can relax and not study occasionally; student body presidents can fraternalize with the masses.

But the editor must be always pontifical. The editor is supposed to know everything that happens. It is taken for granted that she already knows it—so no one ever tells her anything. Only the editor must always keep an open mind, and at the same time be ready to pass judgment on each daily occurrance.

Honor roll students see a constant row of merits on their quarterly reports; student body presidents hear complaints in open forums.

Only an editor has to guess.

Only the editor has to grope blindly along, trying to put out a paper for a student body who will talk only behind her back, who will never tell her what they like or don't like, who will squawk loudly only when they are irreparably wounded, who never thank her when she says anything nice about them or censor anything objectionable, who have to be tracked lown, cornered, and beaten insensible before they will so much as give her a news lead. Only the editor slaves for days on a good story and then reads it on the bulletin board an hour before the paper comes out.

## Are You Guilty?

A chronic habit of Hottentots is that of being late. We all are guilty.

If he's asked you for a date, one usually supposes it's because he wants to see you. He won't think you forward or too eager just because you are on time. But if you sign in the maid's office that you're waiting, you won't waste the time of the information girl, the maid, and the girl on your hall who finally answers the phone and chases you down. Why not surprise him by being different?

And if you're double dating, be considerate of the other couple who may really want to see the whole show or actually go to the dance. The age of the grand entrance is passe.

If you make a date, keep it! Maybe the other person had to change her plans to suit yours—maybe she even refused a date.

And don't promise to do something and promptly forget all about it. If you're to make arrangements or get information, remember that other people's work may depend upon the completion of yours. If your deadline says Friday 6:00, Saturday morning is not just as good.

—M. C.

Honor roll students are an inspiration to their teachers; student body presidents can point with pride to a list of the year's achievements.

Only the editor never accomplishes anything.

Only the editor has to see 540 of her 545 loyal readers, each and every week, turning immediately to the gossip columns, ignoring everything else in the issue; to find the layouts over which her staff labored completely unappreciated; to feel her editorial campaigns coldly ignored.

Honor roll students get unlimited cuts; student body presidents get to introduce visitors.

Only the editor is silly enough not to want to trade places with any of them.

And, when the truth is known, only the editor has the satisfaction of knowing that her thousand words a week are written in words that cannot be erased; of sensing that if she knew how to use it, she has the whole state for her audience; of feeling that she is doing a job for the students that no one else could do in quite the same way; and last, but hardly least, of being sure of a staff that, no matter how hard she is forced to abuse them, overwork them, deny them any reward for their work, will be driven back for more.

And only the editor would gripe about it.

## A Nose in the Air

By Tess Carlos

People have been coming up to me and saying "I am getting tired of the way you begin your column." So I am not beginning it. There shall be no beginning or end—but a train of subdued thoughts that will go on and on until I get the required forty-five lines written.

Here's one way of counteracting the numerous questions of passersby who view the picture of your best beau and exclaim "Who is that hunk of man?" In a senior room in Main hangs this notice by the glorious picture of a man: "The address of this glamour boy will be furnished for a slight fee (to cover cost of postage and handling). Lay off the handling! THE MANAGEMENT."

IRC (International Relations club) is certainly having activities this year. They are planning two meetings a month. One an open forum (which was two weeks ago, led by Johnnie Mae Tippen and Carolyn Calhoun) and the other featuring an outside speaker. This Thursday at 8:00 in Murphey Candler building, Andrew Robertson, chairman of the Decatur city council, will speak on city government, the theme of this year's program. Also, the club is noted for its refreshments. Wendy Whittle, who is in charge of refreshments, loves food and likes to share it with the commun-

Here is a suggestion: so many girls have one set of symphony or suite records. And they get to hear only that one. There are a great many different sorts of record collections on the campus. Can't there be some way of pooling them or lending them out so everyone can enjoy the mountain ballads, the Beethoven symphonies, the numerous renditions of "Lay that Pistol Down, Babe" (see following item), and the Gershwin melodies from "Porgy and Bess."

Rebekah is in an uproar. The Sinatra craze has struck home. Is Frankie ruining "Pistol-Packing Mama"? Or is he improving it by making it into a swing classic. Two vehement letters—of protest and of approval—have been duly sent to the sponsors of the Hit Parade. Results will come later. Advocates insist—"Frankie shows his sense of humor." Opponents yell—"He stinks!"

War stamps are being sold every morning in Buttrick. But no one is buying them. The old apathy again. The apathy that has us subscribing sums of money for various funds—the World Student Service fund, the Red Cross, the War Fund. And never reaching our quota. Why do we want to do things when we don't even care enough about them to carry them through?

Random thoughts: the number of broken, sprained, cracked limbs of the students, hobbling around . . . the swarms of multicolored, multispecied dogs that stream across the quadrange, into buildings, under the feet of students, in chapel processions. . . . the space in front of soph-frosh sections in chapel, five rows deep, the gaps in the middle and the triangular lines of seating that move toward the back . . snapshot contest of Silhouetteperfect shooting weather these days if film can be found the bicycle tours Miss Cobbs, Miss Winter, Mr. Runyon, Miss Scandrett take-the envy of bicycleless students who yearn to travel other than in street cars.

### Students Hear Council Plans, **Approve War Conferences**

The student body Thursday approved War Council's plan to sponsor another week-end of conferences similar to the one held last February. A definite date for the conference cannot be announced until plans are nearer completion, but it will be after the Christmas vacation.

Other work of War Council will continue throughout the year in the form of a competition between five groups, the four dorm groups and the faculty, according to Squee Woolford, student chair-

A large chart with the name of Inmanites and freshman day students will be posted in Inman. Charts for Rebekah, the cottages and Main will include sophomore, junior and senior day students respectively.

Individual participation will be checked and points awarded to the group on this basis. Total points for the year will be worked out on a percentage basis. The winning team will be given a party at the end of the year by the los-

### Robin Hood to Head Parade of Costumes Tomorrow Evening

Attired in a Robin Hood costume that is, to quote, "out of this world," Dr. Ernest Runyon will head the parade of entries in the contest which will feature the costume show to be presented tomorrow night by Blackfriars and the play production class.

Other faculty members slated to model costumes include Miss Roberta Winter, Miss Melissa Cilley, and Dr. J. R. McCain, whose costumes promise to rival that of Dr. Runyon. A cash prize will be awarded for the cleverest or the contest.

Blackfriars members will model costumes appropriate for such characters as Scheherezade, the Sarong Girl, Juliet, and, yes, even that fearful character, the Phantom of the Opera!

Proceeds from the show, which will be held at 7:30 in the Presser auditorium, will be contributed to the United War Fund Drive.

### "Met" Stars to Give "Faust" Saturday

As a part of the All-Star Concert Series, the Atlanta Music club will present singers from the Metropolitan Opera Company in Gounod's "Faust" on Saturday, Oct. 30, at 8:30 p. m. at the Atlanta city auditorium.

In the role of Marguerite will be Vivian della Chiesa, well-known soprano of opera and radio. Armand Tokatyan, tenor of the "Met," will take the part of Faust and John Gurney, basso, will sing Mephistopheles.

Special cars for Agnes Scott students will leave the underpass at 7:30 p. m. About two hundred and fifty people from Agnes Scott attended the first concert on Oct.

Bring this copy of your News to chapel Thursday. We will vote for beauty section of Silhouette from the following forty nominations:

Ruth Anderson, Betty Andrews, Patty Barbour, Claire Bennett, Teddy Bear, Liz Carpenter, Jean Chewning, Carolyn Daniel, Cookie Devane, Ann Equen, Mary Jane Fuller, Joyce Freeman, Shirley Graves, G. G. Gilland, Bippy Gribble, Gloria Gormley, Harvard twins, Robin T. ### Blackout

### Noise, Sardine Sandwiches Highlight Air Raid Test

By Pauline Ertz

Prowling around in pitch dark can be fun. Or fearful. Well. to tell you the truth, we had lots of fun last week touring the campus during the blackout. Of course we couldn't see anything. We bumped into strange inanimate objects, and got Marian Anderson accused of being a saboteur.

To get on with what we didn't see. Over in Main-land everything was nice and cozy and sociable. A few unmentionables stayed in their rooms and actually SLEPT. But down to the day student room in the basement trekked most of the dorm. The whole right wing, second floor, came prepared for a party, dressed in pajamas, coats and hats, mittens and evening bags. It was absolutely taboo to take off one's that it was the first blackout exchapeau for even a minute during perience for the freshmen, and so, the blackout. The leftiests, not to be outdone by the Madhatters, they calmed their fears by singing contented themselves with intel-

lectual diversion such as playing bridge, polishing nails, heckling

Squee, etc. Then the two factions got together and combined for a rousing game of Percolator! (Ask Leila Holmes about Errol Flynn.)

business and society, has accepted 13 seniors from Agnes Scott.

The girls named are Carolyn Daniel, president of the senior class; Ruth Farrior, president of Christian Association; Smiley Williams, house president of Inman; and the ten Mortar Board members, Clare Bedinger, vice-president of student government; Elizabeth Edwards, day student representative of student government; Bunny Gray, Bible club president; Ann Jacob, editor of the Silhouette, Ruth Kolthoff, president of Mortar Board; Mary Maxwell, vice president of Athletic Association; Aurie Montgomery, house president of Rebekah Scott; Katherine Phillips, vice president of Christian Association; Virginia Tuggle, president of Athletic Association, and Ann Ward, president of student government.

The girls whose names were submitted through the office of President J. R. McCain were notified Monday of their acceptance.

In keeping with the ideals and church-school background of Agnes Scott it is interesting to note that 11 of the 13 girls have shown a marked interest in the activities of Christian Association. Seven of the girls have served on student government; two are on Athletic Association and one represents the three campus publications.

"Who's Who," first published in 1934 with 250 colleges represented, now lists outstanding students from 650 colleges and universities.

## SPORTS

By Margaret Drummond

Being partial to things English retold are snatches of their quaint conversation and anecdotes which prove their incomparable sense of humor. Just to pass on a few:

After the banquet which the college gave for them last Wednesday night in the alumnae house, it seems the conversation turned to coordination and the fundamentals of physical education as now being taught to the freshmen. Our visitors were very much interested and asked Miss Rutledge to demonstrate. Within a few minutes, unhooked and unzipped for action, the three were going through all sorts of queer monkey motions, which rendered very doubtful (this from Mrs. Little) the duration of their stay in Milledgeville, their next stop.

The amazing thing was the short time in which they learned the coordination tricks; they were able to do in a few minutes what it takes some classes weeks to learn (this from "Tug").

Delightful also were their English expressions. New to this campus was Mrs. Little's "Oh my godfathers," when she missed a shot, and her "Oh I don't think I shall," while running back for a deep drive. "Tug," who was there as her partner, says she would turn to her with a "Now let's get this way. This promises to be very shot by the tail."

A red circled day on the Athanyhow, this campus won't soon letic calendar is November 27. On forget its delightful visitors of that day the council of the Athlast week. Still being told and letic Federation of College Women meets at Shorter with Virginia Tuggle presiding. They will outline plans for the year, and will, according to "Tug," who goes off on a tangent like this ever so often, "attempt to integrate the standards and values of sports and other related activities.'

> In common parlance, the GAFCW is attempting to cooperate with the government, and to help college athletic associations meet the new standards of physical fitness. Hence Agnes Scott's new five-hour gym program, which is a cog in the wheel turning toward victory.

In the near future also is the big "Birthday Hockey Game," which is scheduled for around the 23rd. In case you haven't heard, three of A. A.'s notables, namely, Virginia Tuggle, Jo Young and Miss Rutledge, have birthdays on and around said date. They plan to choose teams, and play a classic game (according to "Tug"), but to a 101 mathematician like me, three people choosing teams adds up to three, and three teams playing each other-well, in the best hockey circles, it just isn't being done, not during war-times anyvery interesting.

### Tennis Tournament Enters Second Round

The results of second-round play this week in the annual tennis singles tournament show Mary Cumming and Ann Hough headed for the semi-finals, each having defeated her opponent by a safe score. Other second-round matches slated to be played soon are Ruth Virginia Tuggle vs. Joan Crangle.

By defeating Mary Munroe 6-1, 6-1, Thursday, Mary Cumming staged the major upset of the tournament thus far. Munroe was runner-up in the singles tourney last year, and paired with Virginia Tuggle won the doubles championship. The match was more exciting than the score might indicate, both participants being steady players, full of grim determination.

Ann Hough, one of the most promising freshman players, defeated Doris Kissling 6-0, 6-0. The match was a quick one, filled with swift serves and hard drives on the part of both players. In the long run, Ann's superior endurance and control of the ball gave her the victory.

As an added attraction, a boxing match took place between two frosh around Mary Ann Turner's bed, with Mary Ann in it, of course.

On the other side of the tea house, Lupton resigned itself to communal sardine sandwiches, star-gazing, and the inevitable coffee pot.

### Jo Young Reveals Hockey Schedule

Jo Young, hockey manager, this week announced the schedule of hockey games for the rest of the quarter.

This week the sophomores will cross sticks with the juniors, while the freshmen will play an undefeated senior team. On Nov. 5 sophomores will play the freshmen, and the juniors will vie with the seniors.

For the rest of the season the games are scheduled as follows: Nov. 12, sophomores vs. seniors and juniors vs. freshmen; Nov. 19, sophomores vs. juniors and seniors vs. freshmen; Nov. 26, varsity vs. sub-varsity; Dec. 3, varsity vs. faculty.

### Seniors Remain Undefeated; Juniors Beat Freshmen, 5-0

By Bettye Lee Phelps

In last Friday's hockey games the seniors retained their record of straight wins by crushing the sophomores 3-0, and the juniors trampled the freshmen 5-0.

The senior-sophomore game was fast, with both sides making use of long drives. Zena Harris Tem-Ryner vs. Kathryn Dozier and kin, Ruth Farrior and Harding Ragland played especially well in the backfield.

In the first half of the game the seniors made five serious threats to the goal and managed to score twice. Che Nellans, sophomore goal keeper, playing excellently was largely responsible for diverting the other three first half senior threats. The sophomores made no serious threats on the goal during the first half, which ended 2-0.

The second half saw the seniors tally another score and the sophomores fail in one attempt. The whole senior team played well and displayed good hockey technique. The sophomore defense was particularly strong and worked smoothly, but needed a more powerful forward line to break through the strong senior lines.

The junior-freshman game was also faster than usual. The juniors were very persistent at the goal all through the game and and general merrymaking that made several good drives and

### Time Changes, Not the Girls, Veteran Maids Reminisce

By Carolyn Fuller

Beloved by Hottentots for 31 years, Ella Cary, the maid in the office in Main building, has seen two generations of Agnes Scott girls come and go. At registration, freshmen often ask for Ella, saying "Mother told me to be sure to see Ella." She tells of the "regiment of boys who came to see the girls (of

bygone days, of course) on Sunday afternoon." The rule required that the boys be kin to them. According to Ella, some claimed kin and some didn't.

Ella's first job on the campus was in West Lawn cottage. Since then she has worked "everywhere except the infirmary and the boiler room." Ella has been happy here and is "going to stay as long By Cotillion Club as she can walk."

#### Tabby's 30 Years

Tabby McCalla, who now does pressing in the basement of Main building, has also given many years of service and is always remembered by alumnae. Brought here by Ella 30 years ago, she first worked on second floor Inman under Miss Miller, the matron. After Miss Miller took her to work in Main, she remained there for 24 years. She too, says "the longer I stayed, the better I liked it."

According to Tabby, one of the most entertaining girls at Agnes Scott was Margaret Roe from England. During World War I, as Tabby was going on duty in Inman one morning, she heard the girls screaming and calling to her to come to see Margaret, who had broken out in a red rash. "Why, Tabby immediately diagnosed. The girl wailed, "Oh, I'd rather have anything than that now."

Both Ella and Tabby think girls of today are much the same as their mothers. They enjoy fun as

### Two Local Debs Among 16 Asked

Including Atlanta debs, Anne Equen, president of the Debutante club, and Mary Cumming, 16 new members were elected to Cotillion club this past week, according to an announcement by president Julia Harvard.

Seniors head the list with five members chosen: Polly Cook, Carolyn Daniel, Miriam Davis, Bobbie Powell and Betty Sullivan. The new junior members, in addition to Anne Equen and Mary Cumming, are Eugenia Jones and Jeanne Robinson.

Sophomores elected are Marianna Kirkpatrick, Ruth Limbert, "Robin" Robinson and Rite Watson. Sue Hutchens, Helen Hutchison and Ann Scott are new freshman members.

Cotillion club functions as a purely social organization. It was active last year in holding classes to teach students the latest dance

From time to time throughout the year the club sponsors dances which keep the girls in practice for their off-campus dancing dates. Plans are also being made this year for the club to make arrangements for girls to help entertain men in the armed forces.

(of type about types on the campus.)

Theme of the week: They're either too young or too old.

Take Carol Mason, or Nita Hurst, for instance (or any other senior). Ask them how old they are or what year they are in college and they shudder.

If Anne Equen's luck holds out she'll soon be moving in the real White House (you know, the only place in Washington where the rent hasn't gone up because of crowded conditions). Besides recently making Agnes Scott's Cotillion Club, and being No. 1 in Atlanta's Debutante Club, wellhow'd you like to receive a virtual collection of orchids air-express from Guatemala. (The medical major who sent them probably thought he'd done his duty-but the Equens had to pay it on the package.)

Boo Boo is back.

Back South too, on Sunday was "Lanky" Flowers (Mr. Bobby Powell) who, they say, stepped off the plane with a 3-year-old child in his arms.

Picture of the week: "Hers to Hold" at the DeKalb and along the same theme the new kodacolor snap of Frances Brougher's "Chris" in his army whites. (BettYE Ashcraft says she's going to get a 12x14 likeness of Jeff. What she wants is not a picture but an almost life-size portrait.)

The grapevine says Investiture isn't to be the only event of Nov.

What hairdos can do! They say the dean's office didn't recognize Alumna Anne Wilds the other night when she chaperoned a group. She has a new feather-cut, it seems.

Miss Hunter can now become (this is the only place I've ever written they didn't count off for split infinitives) a full-fledged member of the faculty Bike Set. It was announced over the weekend that she had acquired a brand-new second-hand balloontired job WITH GEARS. Miss Scandrett says the group's next trip will be all the way to Stone Mountain, which is so far away we students have to get out-oftown permission for it.

Tribute should be paid here to ex-ASC, now Second Lieutenant Ruth Bastin, who recently subscribed to the News. She's assigned to the Army Air Forces hospital at Greensboro, N. C.

Sophomore Saga: It's about the sophomore who, when tripping over to Inman to visit during the ALL-PERSONS-INSIDE-PLEASE part of the blackout, collided with Air Warden McCain. After a chase which she says lasted all around Murphey Candler and the quadrangle, she got safely and unidentifiedly back to Rebekah—but with a lesson.

Freshman Fumble: Made by the one who, at the first of school, asked the Agnes Scott switchboard operator to ring "Dee Eee airborn

# Our Cultural Advantages

Fortunate indeed is the Agnes Scott community which can share the many and varied cultural advantages which the Atlanta metropolitan area affords its residents in art, drama, lectures and music.

An excellent collection of paintings and sculpture is always on exhibition at the High Museum of Art in Atlanta. At present the directors are also presenting each Sunday afternoon a program of cathedral singers. With the enlargements of the art department and the addition of Howard Thomas as professor of art, Agnes Scott plans to have a number of interesting exhibits on display on third floor of the library during the year. Authoritative speakers are invited to point out factors in judging and enjoying art. In the past we have been fortunate in having such speakers on our lecture series as H. S. Ede, former curator of the National Gallery of British Art in

Opportunities for seeing Broadway productions and for hearing excellent lecturers on various fields—current events, philosophers, politics, literature—are unexcelled for this section of the country. Such well-known actresses as Helen Hayes, Katherine Hepburn and Gertrude Lawrence have appeared here.

In addition to interesting speakers brought to Atlanta by Emory University and organizations in Atlanta, our own public lecture association has already made plans for three interesting speakers this year—Henry C. Wolfe, international affairs expert; Robert Frost, poet, and Reinhold Niebuhr, philosopher.

Perhaps most of Atlanta's cultural opportunities lie in the number of musical artists who appear here frequently. This season we are extremely fortunate in the number and excellence of appearing artists. In addition to the All Star Concert Series of eight programs including Kreisler, Horowitz, the Minneapolis Symphony, and "Faust"-which will be presented this Saturday evening-five added attractions are offered: Marian Anderson who will sing tonight, Jeanette Mac-Donald, Sigmund Romberg, Oscar Levant, and the Philadelphia Opera Company, which will present "Die Fledermaus." In addition to the Ballet Theatre included on the series, the Ballet Russe de Monte Carlo will present two programs.

In Presser hall the Decatur Service League will present during the current session Josephine Antoine, soprano star of the Contented Hour, Erick Hawkins, dancer from the musical "Oklahoma," and Frederick Jagel, "Met"

Atlanta offers its own talent through the Atlanta Civic Opera and the Atlanta Civic Ballet, which will present "Naughty Marietta" opening Tuesday.

Here on campus we have each year a well produced Christmas carol service. Last but not least, a great source of enjoyment is the musical programs presented every other Monday night in Presser hall under the direction of Hugh Hodgson, foremost pianist in Georgia, and C. W. Dieckmann, professor of music.

By taking full advantage of these opportunities in art, drama, lectures and music, Agnes Scott students should easily acquire a speaking acquaintance with these fields.-M.C.

### Have We Forgotten?

Was it two weeks ago we voted in chapel to give \$1000 to the War Fund Drive? Two weeks ago that we were almost overcome by our enthusiasm and came near subscribing \$2000? Already the enthusiasm of that student meeting has died.

If something isn't done pretty soon we're going to forget the applause which broke out spontaneously that morning when we realized that we had pledged twice our usual amount. Maybe the applause was indicative of our surprise-for we were surprised when we did it.

Before we loose sight of our goal let's start individual pledging. Entertainments are all right in their place, but why not simply give \$2 per student and for once in our lives give something in return for nothing more than a feeling of a job well done?

### Don't Let Their Victories Kill Them!

A man just died. In Africa, in England, in Russia, on the Aleutians, in the South Pacific. Died because there was no blood plasma on hand to save him, no "dried life" to bring him out of the gray-faced shock of the seriously injured. Died because a few hours before someone three thousand miles away had read the triumphant headlines of the morning paper and said, "We're winning. No need for me to give my blood."

Yes, we're winning. Inch by inch we're winning our way toward the day of freedom. But every inch of that way is marked by crosses of American, British, Fighting French, Russian, Polish dead-who might have lived. Might have lived, had the headlines not painted such a bright picture and lulled us with their false security.

American casualties from Salerno to Naples were 8,307: 5,428 wounded, 511 killed, 2,368 missing. It's safe to say that one-third of those listed as "killed in action" could have been saved by blood plasma-had the supply been sufficient. But it wasn't. The victories those men had won before Salerno and Naples cost them their lives later. The cheerful head-

From the Reader

I wish to ask you a simple question. As a day student (the day students compose at least a third of the school's student population) I want to know why our day student room in Main has to look like a hole?

lines they helped write turned against them and killed them.

We're intelligent people—we go to college. We take psychology. We know what happens to people when they hear good news. It happens to us too. But it must not happen. We must not be the people who, reading the morning paper, say, "Things are looking up. Think I'll cancel my appointment at the blood bank."

We must be the ones who see behind the headlines the endless miles of blood-stained stretchers bearing men who can be saved by our thirty-minute visit to the blood bank, who need not become names on casualty lists, gold stars on service flags, who win by their victories not death because of those triumphs, but life to enjoy them.

We must be the ones who think when the morning's headlines are spread before us, "Victories mean wounded men who need blood plasma, and I'm the one to give it."

It's our job to see that another man does not

### A Nose in the Air

By Tess Carlos

This is the way is always is. You write copy and struggle with ideas and then the editor writes you a harsh note inviting the staff to a compulsory meeting. The News Room in Murphey Candler is as hot as blazes and no one seems to worry about the heat since they optimistically hope that it will suddenly turn cold and the heat will then be turned on and that way they will be in the same situation.

Madeline arrives fetchily attired in sweater, skirt, and shoes (it's getting cold these daysexplanation to any northern readers) and wearing a becoming sycamore leaf over the middle part of her hair. The effect is stunning, the way lightning leaves you. The staff is duly impressed.

Mary arrives in red and sees red throughout the meeting, muttering about how do you expect issues to come out-be hounds, track down your stories (here, the cry of a lone wolf is appropriate.)

Inge and I sit together, one of us on the table and the other on the open end of a wooden waste basket. (Guess who sat on the basket? Of course.)

Some one asks about aims and purposes and there are none further than the egoisms of the authors of those aims and purposes. The News staff are frustrated philosophers.

Then we are told straight out that we are no good which we admit and that we ought to get kicked out which we would love to do. So Madeline and Mary give out orders and so does everyone else. And the main result is that this column is two days late. And I may never write it again which is altogether a good thing.

The various funds for the relief of national and international tyrannies are soliciting money. To date nothing has been done. Just as in the past nothing was done about war stamps and bonds, Red Cross donations and the World Student Service Fund.

International Relations is now sponsoring the W.S.S.F. They are setting up a competent organization that will fail unless the campus community is willing to help it. Otherwise, it deserves to die. There is no need for us to pat ourselves on the back and contrawise to berate our aspirations. But it will have to be an allout fight or it isn't worth it. The lighter side of campus life:

Professor: Do you have anything to contribute to the arguments or say? Student: Not that I know

Too bad that the latest food poisoning episode came too late to make a feature out of it. But as things stand we can congratulate ourselves on having an issue of the paper at all this week. Three of the four hard-working editors wrestled with the gremlins of disease after the paper had been "put to bed" Monday night. But after all's said, the tragedy would have been more inopportune yet on investiture weekend. ePrhaps Miss Scandrett would have had to officiate at the Infirmary. Horrible thoughts arise . .

When there's nothing, positively nothing, to etherealize about, there's always the weather. So for this week's hymn of praise-the black, low-driving clouds-that "tragic sky" Mr. Thomas had his art class paint when he went to Athens.

# Dean Will Invest 98 Seniors

### **Ex-Hottentots** To Meet Here **Next Tuesday**

"Relaxation and Good Fellowship" will be the theme for the annual Alumnae Day to be held Tuesday, Nov. 9, according to Mrs. Jane Guthrie Rhodes, alumnae

Alumnae will begin to arrive on the campus shortly before 4 p. m., when they will register and purchase tickets to the Wolfe lecture to be held Tuesday evening.

Upon completion of registration, Howard Thomas, professor of art, will speak, after which the alumnae will go en masse to the third floor of the library building to see the art exhibit. Also in the library will be the book exhibit, which Miss Edna Ruth Hanley, librarian, has agreed to hold over for the guests.

From 6 to 6:45 p. m. is scheduled a cafeteria-style supper, to be followed by coffee in front of the big fireplace in the library. Here new faculty members will be introduced and old ones will be on hand to discuss old times. Guests will then attend the lecture, which begins at 8:30 p. m.

Members of Granddaughters' Club have volunteered to take care of children who cannot be left at home. Beginning at 4 p. m., Granddaughters' Club members will entertain the children with games and a tour of the campus and will take them to supper.

In announcing that only two Gaines, formal speakers were scheduled for this year's Alumnae Day, Mrs. Rhodes explained that this year, as never before, alumnae feel the need of getting back in touch with each other and with their college itself. "Alumnae want to get back in touch with Agnes Scott," she said, "for it will be their duty to perpetuate its ideals for this generation and for the ones to

Gaines' grandfather was an Agnes Scott alumnus, having attended the coeducational Decatur Female Seminary, which later became Agnes Scott. During the ceremony Gaines will sit in a small chair traditionally provided for the mascot by the dean of students.

Investiture is a tradition originated on this campus. In 1913 at the suggestion of Miss Mary Cady, then professor of history, Agnes Scott started investiture as a symbol of receiving senior rights and privileges. Since then this custom has been established in a

The pillow on which the seniors will kneel for the capping ceremony belonged to Miss Nannette Hopkins, the first dean of Agnes Scott, and has been used for investiture every year since the beginning of the ceremony. Upon her retirement Miss Hopkins gave the pillow to the college to be used in future investiture services.

Friday, the day before investiture, the seniors will observe "Little Girls' Day," just as has always been done in past years, with the exception that there will be no dining room parade this year. Until noon all the seniors will dress and act like first-grade children, eating lollipops, carrying dolls, and playing on the quadrangle during chapel period.

Mr. Wolfe, who has been decorated by six governments for his brilliant work in the field of international relations, is the man who predicted the Nazi-Soviet pact four months before it actually occurred, and then predicted that it would be broken.

Months before the pact was broken Mr. Wolfe said, "The Nazi-Soviet relationship is not based on friendship. It is not a genuine alliance. It is a working relationship of two revolutionary regimes that serves the immediate purposes of both. But inasmuch as both these dictatorships are guided

### Stagger Plan Adopted for Yule Vacation

Christmas holidays will begin this year with the end of each stuwinter quarter reorganization on January 4, according to President J. R. McCain.

"The government has asked us to restrict travel between December 15 and January 15. We felt we could best cooperate by adopting the stagger system," said Dr. McCain. "We also did not feel it advisable to go without spring vacation again this year, so the present plan was devised.'

Miss Leslie Gaylord and Miss Carrie Scandrett will begin work on the examination schedules this week. Because the students have two extra holidays this year, there will be no special exams or changing of sections except for emergencies.

Spring vacation will begin after winter quarter exams, as announced in the catalogue.

As the poet has so aptly put it: "This is a song of all the world's ." To be specific, lost things . . . sleep, energy, illusions, dignity, sense of humor. In other words, to be presented forthwith are the trials and tribulations of a sports columnist, or "you just don't know the half of it," or, for gosh sakes, Mary Estill, for how long can this

That hapless soul (the columnist) takes pen in hand, nigh onto midnight of the night before a 8:30 deadline, gets settled in a comfortable chair (fatal mistake), optimistically arranges several sheets of clean paper before her, and if she's fortunate (?), manages to keep one eye half open, that one eye being more than sufficient to inform her that absolutely nothing is being written down on said paper.

After a week-end in the country, chigger bites itching, briar scratches stinging, muscles aching, eyes closing, the first consideration is: does Madeline really need a sports column for this week anyway? What a fine specimen of journalistic endeavor the Students Pick week anyway? What a fine speci-A. S. News would be without that obviously labored over, obviously trivial forty lines called "Speaking of Sports." At a moment like this, nothing seems more remote than last Friday's hockey results, or next Wednesday's swimming meet.

That question settled, and dismissed from mind (pure heresy in the first place), the next item considered comes under the common heading of "the news." Just to make the situation complete for a nervous breakdown, "the news" for this week is absolutely nil. A frantic phone call or two (limited to five minutes, please) brings in a mere dribble.

Yes, there was a hockey game last Friday. The usual people nothing spectacular — no angle there. Next Friday's game starts the class schedule all over again, freshmen against sophomores, juniors against seniors - no angle there, either. Yes, there'll be a swimming meet on Wednesday night at 8:30, but there's no news until the results are known. # Forum Topics

Topics for this year's open forums were discussed and tentatively chosen at a student meeting held in chapel Thursday, Oct. 28.

Exemption from examinations, compulsory chapel on Thursdays, and War Council's plans for a week-end of conferences were the three suggestions received most enthusiastically. One of these three will be the topic for the first forum of the year on Thursday, Nov. 11.

### Seniors Still Undefeated as Juniors and Sophs Tie, 3-3

By Bettye Lee Phelps

Friday's games saw the seniors remain undefeated and untied when they swamped the freshmen by a score of 6-0. The juniors and sophomores battled it out to a 3-3 tie.

The senior-freshman game was fast and full of thrills. The first half ended with Zena Harris Temkin "laid out" on the hockeyfield after having been hit

on the head with a hockey stick. Billy Walker, center forward, for the senior team, played excellently and tallied four points in the first half. The freshmen made one serious threat at the senior goal, but the strong senior defense managed to keep them from tally-

### Classes to Compete Tonight In First Swimming Meet

Neptune's daughters will battle it out tonight at 8:30 in the gym pool, when members of swimming club and the girls in swimming classes will participate in the first meet of this year, as announced by Agnes Douglas, swimming manager.

Each class will make separate entries in the competitive class events; there will also be an event in which all entrants may take part. The class managers, Helen Hutchinson, freshman; Margaret Scott, sophomore; Joyce Freeman, junior, and Elizabeth Harvard, senior, have been coaching their entrants daily for the past few weeks.

Virginia Tuggle will announce each event and the name of the entrants.

The schedule of events includes a 40 yard dash (two lengths) free style form swimming, elementary backstroke, side stroke, breast stroke, and surface diving. There will also be a 20 yard dash of one length of the back-crawl.

The climax of the events will be diving-two standard, running front or swan, jack and back, and one optional dive.

A clothes pin relay, in which all the swimmers may participate, will close the meet.

### Former Flunker Becomes Dean

Take heart freshmen, as a Hottentot, Miss Carrie Scandrett, now dean of students, was actually called into the office of one J. R. McCain, vice-president, to be warned about her grades. She even confesses she almost didn't come back her sophomore year.

Miss Scandrett can also sympathize with struggles with the life cycle of the mosquito, for she, too, had the life cycle under Miss "Mac." # In November

Agnes Scott students who wish to give blood to the Red Cross Blood Bank will have an opportunity when the Atlanta chapter of the American Red Cross sends its mobile unit to the campus in November. The unit will visit the Agnes Scott campus provided that 75 students volunteer for donacions. To date 50 girls have signed the blood donor list on the back bulletin board in Buttrick.

According to Dean Carrie Scandrett the unit will be here on Nov. 17 and 18, probably in the afternoon from 12 to 3, but both the date and hours are indefinite.

"The college is providing a means," said Miss Scandrett, "for those students who feel that they should like to give blood, but we are in no way insisting that a student make a donation."

Prospective donors must be twenty-one years old, or present permission from parents or guardian if between the ages of eighteen and twenty-one, and must weigh at least 110 pounds. They must have no cold or symptoms of hay fever or arthritis and no exposure to contagious diseases.

A recent tooth extraction or any sort of infection automatically disqualifies one as a blood don-

Being subject to rheumatic fever, heart disease, or fainting spells; having a history of malaria within the past fifteen years, of yellow jaundice within the last year, or of any serious illness with the last three months also makes one ineligible for donating

Donors must also conform to the following diet rgeulations: for a morning appointment, breakfast may consist of dry toast, coffee without milk or cream, fruit or fruit juice, clear tea, or Coca-Cola. No dairy products or fats permis-

If the appointment is in the afternoon, a regular breakfast may be eaten, but no food other than listed above may be eaten within six hours of the time of the appointment.

According to Red Cross ruling, a period of eight weeks must elapse between the first and second or second and third donations, while four to six months must elapse between the third and fourth dona-

### Reception to Honor Wolfe, First Lecturer

A reception honoring Henry C. Wolfe, international affairs expert just returned from Europe, who will open the 1943-44 lecture series Tuesday evening, Nov. 9, will be given in Murphy Candler immediately after his address.

Guests at the reception, given by the Public Lecture Association, will be members of the lecture audience and college community.

In the receiving line will be Mr. Wolfe, Dr. J. R. McCain, president of the college, Miss Emma May Laney, faculty member of the lecture committee, and Betty Sullivan, student chairman of the committee.

Miss Leslie Janet Gaylord and Miss Kathryn Glick, faculty members, will pour. The lobby of Murphey Candler will be decorated with fall flowers.

Other members of the Lecture Association who will assist are Frances King, Shirley Graves, Betty Dickson, Frances Brougher, Meg Bless, and Jeanne Robinson.

### Red Cross Unit Summer Teaching Experiences To Come Here Show Boys Frank, Girls Nicer'

By Martha Baker

Two Agnes Scott faculty members who have gone co-educational as far as their teaching is concerned are Dr. George P. Hayes and Dr. S. M. Christian, who taught this summer at boys' schools.

Dr. Hayes, who is head of the Agnes Scott English depart-

ment, was a member of the faculty at Tech this summer, teaching English, but studying geogra-

Geography and speech were favorite courses at Tech, according to Dr. Hayes, but freshman English ranked pretty low on the chart Gaines 15, and in Lupton 11, exof Uncle Sam's boys.

#### "Sissy"

On his first day in class, Dr. Hayes reports that he was greeted by shouts of "sissy," the word evidently having gotten around that he taught in a girls' school.

Dr. Christian, on the other hand, said that no such gibes were made when he appeared to teach his first group of V-12 trainees at Emory University.

#### Flunking Can be Fun

However, he reports that for the first time he found a student deliberately trying to flunk physics.

"Yes, he just wanted to be a plain private in the Marines. By failing he would be sent straight to "boot camp." But there were others who took the opposite view. One man said it was 'heaven—just heaven.' That, however, was because he was on the outside looking in-not a student, but a member of the Navy administrative

Dr. Christian reports no difference in teaching boys and girls, but Dr. Hayes said, "Boys are frank, girls nicer."

### A Few Words

By Mary Louise Duffee

The annual announcement of WHO MADE WHO'S WHO alway holds a surprise somewhere—humorous or otherwise. It was only last year that a skeleton, the famed Mr. "Goodrich C." Dooley of the Emory medical lab, was nominated and accepted as a Who—even to being listed in the pretty book. This year, it was the jinx-y number of 13 who made it at Agnes Scott. Many college students, including some of those who made it, have for the past year or so been wondering Who is Who.

Campus seen: Take a black convertible, an ensign, and the stretch of College avenue that runs in front of the gate. Add two seniors, and imagine in your own mind what they said to themselves when the car and ensign passed in front of them. Patty Barbour and Polly Cook nearly fainted when the car stopped and backed up. "Uh-oh" they thought. Then, to ruin good suspense, it turned out to be Hugh, from Way-off-yonder and Long-since, come to see Claire Bennett.

There may be lots of disadvantages to being a day student, but oh, that creamed chicken at home.

Picture: Miss Wilburn, 30 minutes late and with a pink rose in her hand, arriving at her own housewarming party in Main.

They tell me the members of the News staff who live on the campus practiced packing in a hurry this week. Got it down to three and a half minutes—just taking essentials, like Mother's picture and a few dresses.

People who knit socks for Christmas always have trouble with the heels. (Awful, isn't it.)

The penny-bank on Kathy and Squee's door is getting heavy. We can't figure out whether they just want to have a party, or whether it's really hard for them to control their tempers even when it costs. You see, when any of the 2nd Main crowd loses their temper to the extent that they express themselves in an unladylike way, they have to pay. (Rime.)

### A Little More

By Kathie Hill

Duffee's train just left, so I'm taking over. I'm glad to be back again if only for a visit. Of course, Miss Scandrett and several others blanche when I slyly and silently slink subtly to said sufferers' sanctums and slowly say, "Anything funny today?" But they have only to remember that this is a temporary mishap and will be remedied next week.

There are those who have had the good fortune to see the famous and lovely screen star Norma Shearer who is visiting in Atlanta. But from the awe struck lips of each came startling information. "She went right out of the bookstore and got onto a victory bicycle!!" said one admirer. "Right down main street she rode, too." But it was Biddy King who had the doubtful honor of tripping Miss Shearer on the dance floor. Miss King and Miss Shearer were actually sharing the same dance floor and Miss Shearer was unfortunate enough as to get too near our bubbling Biddy, and Biddy was unfortunate enough to stick her foot out at the wrong time and Miss Shearer's public nearly watched a star fall.

Fixed beyonets mean dangerhet your blood be ready.

### Expression Through the Right Channels

There was a day student meeting last Friday after chapel. There seemed no apparent reason for this meeting. And since there never has been more than one day student meeting a quarter, the day students thought it might prove important.

The day students were told that from now on it would be better if they presented their complaints and suggestions through the "right channels" and not bring them before the whole school through the columns of the News or by open discussion. More could be accomplished by the "right channels," they were told.

In the light of this, it would be interesting to remember what happened to a day student petition before student government last year, asking that an investigation be conducted on the fairness of having the whole student body elect day student representatives.

In a short, hurried meeting the petition was squashed after little discussion. But thoroughly! There was no attempt to consider the rightness of the request. Petitions are not circulated unless there is a reason.

There has been a great deal of misunderstanding in the past few weeks between exec and the day students. The misunderstanding exists only because neither knows the wishes of the other. Both have been kept in the dark of the other's wishes by the same intermediaries who are supposed to represent them.

The day students—who have expressed themselves publicly or in private conversations among themselves and who merely wish to clarify the situation and the misunderstanding because they are interested in the greater participation of the day students in student government-repeatedly spoke to their representatives about one thing only: getting something done about the distressing appearance of the room in Main. Their suggestions were repeatedly promised fair hearing. But nothing was heard of them. When, disgusted by the run-around, they asked why nothing was being done, the representatives suggested waiting until things were more settled-until the end of the war!

The News took the initiative in its columns

because there was no other organ by which to call attention to the suggestions. The day students involved merely wanted an improvement of the present facilities. They never expressed any desire for a new day student room.

That the administration was contemplating doing something is unfortunate. Because no one of the day students was told of this. They met silence from their representatives. And they learned of the plans later when they were accused of ungratefulness and of trying to stir dissension.

Therefore, we insist upon open free discussion of the problems faced by all students—not only the day students but of everyone who wishes to speak but hesitates because of possible reproof.

The "right channels" fail because the students have no way of knowing what they are doing or planning, nor they of what the students are really thinking!

All right. The News intends to help the "right channels." We promise to continue giving all of you the fair hearing of your opinions. That is behind the principle of freedom of the press and the purpose for which this newspaper exists. We hold to no special group. We merely express the trends of thought and discussion on the campus as they are brought to us.

This is our only purpose. We are merely writing and publishing what you think. Advance your opinions. That is what we want. And only then will something be done. No good will come of trying to stop the free expression of the individual student's ideas.

### Two Noses In the Air

(By Ann Seitzinger and Martha Whatley Yates or Martha Whatley Yates and Ann Seitzinger.)

What are we doing here? Where is our Tess? What are we going to say for five hundred words? Let's see, we have used twentyfour words already and maybe we can babble through the four hundred and seventy-six others that are still alloted to us. From a greenish-yellowish color creeping up her neck, the doctors summarized that something was a bit wrong wtih our Tess and they diagnosed her case to be malaria. So while our Tess relaxes at home surrounded by medicine, we are at her bidding, doing our feeble bit to compose copy worthy of her

Tess usually writes about the meetings she attends, but we are the unpopular type and we never go to meetings. We may not go to interesting meetings, but we can ask questions. TO DUFFEE: WHO OR WHAT IS BOO BOO? AND WHERE IS HE, SHE OR IT BACK FROM? AND WHY? AND SO WHAT?

If there are any small mistakes in spelling or sentence structure, it is because this typewriter, suh, was used by the army of occupation. (Gen. Grant's army, natch). Also, there is a certain key which, when hit, sends the typewriter carriage flying across the room to ricochet from the opposite wall. As we brush aside the beard from this ancient machine and lay our fumbling fingers on these shaking keys, we are again faced with the problem of—What to Say.

Things to wonder about: Will Terry get Grett? Will Christmas come—THIS YEAR? What will happen to the stamps we didn't use for coffee because the item is not rationed now and why? When is George coming home?? What has happened to the worms that appear on the brick walks when it rains?

There are some things that always baffle us. We'd like to throw these random thoughts your way: The bewildering looks on the freshmen's faces the first time they attended open forum. The way the juniors are still gazing lovingly at their new Agnes Scott rings which denote that they are truly members of the upperclasses. The unpopularity of the war stamp booth in Buttrick compared with the constantly overflowing tea house and bookstore. The presence of the pigeons on the lofty turrets of Fortress Buttrick—what a nice accompaniment they will make during exam week. The strange fact that out of a comparatively healthy student body of 545 girls, ONLY 50 so far agreed to give a pint of blood to the Red Cross.

The column is getting filled almost to the bottom.

And now we are back at that old question—What are we going to say?

In all this maze of "PROGRES-SIVE" education in the fullest sense of the word, with students studying in every nook and corner of the campus, with meatless Tuesdays, with war council speakers and exams coming up, there are two things to be thankful for —George is a sergeant and "Pal" is a big boy now.

With these happy thoughts (which you no doubt cannot understand) we leave you to your own destruction.

### New 'Family Worship' Service Inaugurated by Senior Class

A new tradition was initiated by the Senior class last Sunday in the simple, but impressive "family worship" in Gaines chapel at eleven o'clock. Friends and families of the Seniors nearly filled the auditorium, in spite of the rainy weather.

Dr. Paul Garber, new head of the Bible department preached the sermon. He told how Isaiah, with a Pearl Harbor experience," asked the watchman

on the wall outside of Jerusalem, "What of the night," in his peoples' blackest hour, and received these words in answer: "The morning cometh, but also the night."

Using these words as his text, Dr. Garber went on to show how this is true today, even in the war-Pin-up boys will vie for top hon- torn countries of Europe, which seem the darkest. Said he, "Do not so concentrate on the candle that you forget the darkness around it," but also remember that "all the world's darkness cannot extinguish one of God's small candles.'

There's a saying somewhere about the "ups and downs" of life. It's too trite to be restated here, but you get the idea. It seems the senior class traveled life's bumpy road last week, coasting down the slopes of success to the depths of defeat, with the reckless bravado of a daring driver.

Last Wednesday night, for the first time in the history of this generation, the seniors won top honors in the swimming meet. Nobody seems to want to commit themselves on the date of the last senior victory, but "Tug" went so far as to say that such an event is "highly irregular." At any rate, the class rallied this year, mounted up a total of 45 points to the freshmen's 31.

The high-light of the evening was a clothes-pin relay, won by the sophomore class. Ruth Farrior announced each event, and Miss Wilburn, Miss Rutledge, and Miss Hunter were judges. Miss Gaylord kept score.

Friday afternoon the seniors were scored upon for the first time in the present hockey season. In the senior camps that afternoon, as in Mudville on a certain day when a certain ball player struck out, there was no joy, no laughter.

With Tug and Billy both out taking medical aptitude examinations, the seniors' was a decidedly make-shift line up. Good authority, however, reports that the score was due not to the seniors' line up but to the valiant fight put up by the juniors. And fight it was! Senior casualty: Zena Harris Tempkin, out with a broken

### DeKalb Heroes Spanish Club Admits To Be Honored

At a program taking place tomorrow at 8 p. m. in Gaines chapel the Decatur Last Man Club will honor DeKalb county servicemen who have lost their lives in combat.

Dean Raimundo de Ovies, dean of the Cathedral of St. Philip, will deliver the memorial address. The Agnes Scott and Georgia Tech glee clubs will combine in singing Kipling's "Recessional."

An added attraction on the program will be the appearance of Miss Josephine Antoine, Metropolitan Opera soprano, who is scheduled to sing Friday night in Presser under the auspices of the De-Kalb Service League. Miss Antoine has agreed to arrive a day earlier to sing on the program.

The Last Man club is an organization of World War I veterans who erected the bulletin board in front of the DeKalb county courthouse honoring 8,000 DeKalb county service men and women.

### Agnes Scott, Georgia To Debate Thursday

In a non-decision debate with the University of Georgia on Thursday, Nov. 11 at 7:30 p. m., Pi Alpha Phi will take the negative side of the question, "Resolved: Roosevelt should run for a fourth term." Betty Glenn and Claire Bennett will be the debaters for Agnes Scott. The college community is invited to attend the debate in Murphey Candler.

On Nov. 16, Julia Moody and Martha Jean Gower will return the visit to the campus of the University, upholding the negative of the subject, "Resolved: Women should be drafted.'

### Five New Members; To Meet Tonight

New Spanish club members, admitted after recent try-outs, are Frances Woodall, Ruth Gray, Susan Kirtley, Joan Crangle, and Harriet Frierson.

The club's next meeting will be held tonight at 7:30 in Murphey Candler. Short talks on "Music in to score on two. Latin America" will be given by Yoli Bernabe, Julia Slack, Mary Alice Hunter, Carolyn Calhoun, and Alvara Fraser.

### Hayes Defines Love, Places **Emotions in Plan of Life**

The place of the comic view, the tragic view, and the religious view in life was stressed by Dr. George P. Hayes at Agnes Scott's 31st Investiture service Saturday, where parents and friends saw Miss Carrie Scandrett cap 98 seniors. "There must be laughter," he said, "and tears, and there must be meditation and prayer."

"Malvolio is a worthy person," Dr. Hayes began, "but he lacks a sense of humor.'

Giving his sophomore classes "a the English profressor break," drew upon the characters of Shakespeare's "Twelfth Night" and other plays to show the folly that comes from pride. To act like a fool is to give the world

The consequence of folly the speaker termed as tragedy. That men act like fools when they are endowed with infinite intelligence s tragic, went on to say, telling Homer's story of

"Have you ever been in love?" Dr. Hayes asked his audience. "If you have received notice from one far worthier than you and felt that it was because of his mercy, then you have loved," he told them.

### Sophomores Defeat Freshmen; Seniors and Juniors Tie, 1-1

By Bettye Lee Phelps

Class spirits rose to great heights Friday when the sophomores defeated the freshmen by a score of 2-1 and the seniors and juniors battled it out to a 1-1 tie.

The first half of the sophomore-freshman game was to the sophomore's advantage. Out of four serious threats at the goal, the sophomores managed

Peggy Jones scored the first with a nice drive from her right inner position, and Betty Long tallied the second during a scramble at the goal.

#### Freshmen Take Offensive

In the second half of the game the freshmen took the offensive They made three serious goal threats and Mary Ann Martin, right wing, scored with a long ed in Latin America are invited drive durng the freshmen's first offensive of the second half. However, the last half was marred by freshmen "turning" on the ball, or obstructing. Che Nellans, soph goalie, and Gene Goode, freshman center forward, because of a foul at the goal made by Che Nellans, had a bully. The bully, made have recently formed a branch of while all the other players of both teams are behind the 25-yard line, went to the freshmen, but the sophomores managed to get the ball out of the scoring circle.

The senior-junior game started with the seniors lacking two stars, Virgnia Tuggle and Billy Walker. Zena Harris Temkin shifted from fullback to center forward and tallied the only senior score. During the first half the juniors made four threats at the goal and Mary Cumming made the only junior score of the game.

#### Help for Seniors

Virginia Tuggle and Billy Walker entered the game in the second half. The senior team, however, with all players present, could not score again. 25-yard bullies in junior territory abounded in the

second half. The strong junior defensive, however, managed to divert the ball from their goal each time. Jane Everett, junior goalee, played excellently. The juniors made two threats at the opposite goal but failed to score. The juniors were proud of the 1-1 tie, since before Friday's game, the seniors had been undefeated and untied.

### The Five Hundred

By Camilla Moore

Investiture week-end, for the seniors at any rate, was one of the busiest all year. From little girls to invested seniors in one day involved greatest activity, in addition to entertaining hosts of out-of-town friends and relatives. Parents here for investiture enjoyed the continuation of the week-end through

Sunday, including the church service in Gaines chapel and the senior coffee Sunday afternoon.

Hostesses at coffee were Barbara Connally, Aurie Montgomery, Bippy Gribble, Ruth Farrior, Clare Bedinger and Ann Ward. The decorations were lovely, and consisted of huge bowls of yellow chrysanthemums and yellow can-

Parents visiting on campus for the Investiture week-end included those of Betty Ashcraft, Bobbie Powell, Mary Carr, Betty Sullivan, Clare Bedinger, Barbara Connally, Cathy Steinbach, Laurie Looper, Betty Wade, Jo Young, Flossie McKee, Agnes Douglas, Anne Ward and Quincy Mills Jones.

Did you see Martha Ray Lasseter's beautiful corsage of gardenias Sunday morning?

#### Rush Parties

Lots of girls from Agnes Scott helped with rush functions at Georgia Tech. Patty Barbour and Laurie Looper enjoyed the Pi KA dance at the Georgian Terrace Saturday night, while Clare Bennett, Carolyn Fuller, Nelson Fisher, Betty Mann, Betty Turner, Dot Peace, Edith Burgess, Janet Liddell and Margaret McManus attended the KA house dance . Jeanne Rochelle, Anne Wiedeman and Connie Fraser were seen at the Delta Tau Delta House. Peggy Gregg, Joyce Gilleland, and Sue Hutchens at the Sigma Chi hay ride. . . . ### Campus Cuties Capture College Community from Athens where they attended Before Serious Seniors Show Solemnity

By Leila Holmes

"Shoo-fly, don't bother me, shoo-fly, don't bother me." At this point, the college community sighs with relief as they add the new line, "Thank good-

ness, they're invested.'

After Little Girls' Day on Friday, starting at 6:45 a. m., with est closing the week-end was an alarms and seniors going off (both at the head) and ending in hilarious remarks in classes, it was quite a shock to see dignified (?) seniors again

> Will you ever forget how at breakfast they heralded everyone's arrival by singing "Good morning to you"; Carolyn Daniel posing for everybody's camera, with her best toothpaste smile; Zena, Duffee, Squee, and Miriam posing as the four "most bow-legged"; Patty getting her feelings hurt because her playmates called her freckles "black measles"; the prize remark in class when Dr. Posey called on Miss Maxwell and she replied, "My mother calls me

Then there was the pop test in psych on which the seniors just drew pictures; Mr. Tart giving pennies to the infants; Dr. McCain, Dr. Garber, Dr. Gillespie, and Dr. Posey playing "Farmer in the Dell" with the little girls during chapel; Miss Glick saying, "Scram" to some hecklers outside the door of her class; Bobbie's explanation of Kathie's absence from class, and someone hitting me from behind with spit balls. (I'll never forget!)

Later, who could miss the painful groans as the weary seniors fell into their beds, tired but happy little girls. They slept for twenty years and the next day they were invested.

### **Exhibit to Show** Thomas Oils

Howard Thomas, professor of art, will exhibit 50 oils, watercolors, graphics, and drawings in the library gallery Nov. 15 to Dec. 5.

Mr. Thomas, who has been represented in national exhibitions since 1935, received his training at Ohio State University, Chicago Art Institute, and the University of Southern California. He was formerly head of the department of art at the Woman's College of the University of North Carolina. He has also served as president of the Wisconsin Painters and Sculpters.

In 1930 Mr. Thomas was awarded the Milwaukeee Journal prize for work in oils. More recently he has received the Milwaukee Art Institute Medal, and first prize for watercolors at the Wisconsin Salon with his "Boat and Turtle" which he will exhibit.

### "Fire Side Chat" to be IRC's Fund Project

A "fire side chat" on the hockey field tomorrow night will be International Relations Club's contribution to the War Fund drive to raise \$1000.

Duffee Puns

# Seen; or on the Campus Herd

By Merry Ell Duffee

Puns should be spoken, not written.—Duffee.

A pun is the lowest form of wit.

—Somebody (I looked it up.)

How every fool can play upon

the word.—Shakespeare.

A pun is a noble thing per se—
it is perfect as a sonnet; better.

—Charles Lamb.

Thanks, Lamb.

Blackfriars is anxiously informing everyone that their forthcoming production, "Shubert Alley," is NOT a drama of dead-end kids. Fact is the name comes from the setting, which is behind the famous Shubert theatre in New York. (We know the theatre is actually in N. Y., because Bob Battle, who just finished midshipman's school at Columbia and immediately reported for active duty here at A. S. C., saw it just a few weeks ago.) Advance notices say its a "must."—Variety.

A constant source of amazement to people who stay around this campus long enough to know it well is the storehouse of information that rests in the "dean's office" and with its inhabitants. They know the glad things, the sad things, and yes-most of the things that people don't think they know. In the hands of just anyone, all they know could be unfortunate, but we (this column and I) think that little room is the nerve center of the campus and is the main reason why the student body lives as smoothly, (then you must immediately admit that life could be a lot rougher.) May they always guide, never run —and here's to them.

Yes, it isn't like me—but I'm a senior and was not only invested but touched on Saturday.)

No foolin' though, someday a book's going to be written about the people here, and the dean's office will be a big part of it. Can't decide whether that chapter should be titled "Dean's Office Dick," "The Fact Hunter," or "For Whom the Bella Told."

Most appropriate for our class to have a little boy for a mascot. We just love little boys. Especially about 21-23 years—"and don't Uncle Sam dress 'um cute?"

Ceevah Rosenthal answering the telephone: "White Hoose."

Rosemary Jones' article in the Aurora reminded most everyone of the way they felt their freshman year—although all of us didn't even claim that we tried to do all the studying we were supposed to do. We just agreed there was too much to do. Never will forget how Miss Hunter howled when I presented my own tentative schedule, written out, with RECREATION scrawled over two hours every afternoon.

Seriously, though, her question was well-answered this week by a junior, who talking to a senior, said, "Did it take you 'til your junior year to realize why you were here? Why, I'm really enjoying every course but one I'm taking this year."

Oooo . . . The nostalgia is getting me. Sign of age. I must stop—and so must you.

P. S. The appearance of sentimentality and favorable comment in this column does not necessarily denote endorsement of the same by this columnist nor the NEWS since we do not generally endorse any type of sentimentality. Too often it retards progress.

### Apathies Aren't Funny Any More

There's been a lot of talk on the campus lately about the apathy of the student body toward matters which concern the war effort—blood donations, war stamp buying, and War Fund participation. As is usually true with oft repeated phrases, our "apathy" has become a campus joke. We laugh—forgetting that if carried too far this apathy can be serious.

Consider the record—80 donors out of a total of perhaps 300 eligible to give blood, \$20 a week in war stamp sales when \$50 a week is nearer what we should be buying. (That's only one 10 cent stamp a week per student, or today's visit to the book store or tea house cancelled!) Look further—\$1,000 pledged for the War Fund drive, and less than \$100 actually raised. At that rate our pledge will become a burden on future classes, as have so many other pledges made on this campus.

We can hardly give the excuse that we haven't the time to give to these three most important activities. Donating blood takes about 30 minutes, buying a war stamp or bond is a matter of a few seconds, and contributing to the War Fund is as simple as saving \$2 from our whole year's budget and turning it in to War Council.

Our individual apathy toward the War Fund can perhaps be excused by the fact that nothing has been said to us about contributing as individuals. But we must realize that when in chapel we voted to pledge \$1,000 we must have realized that it meant \$2 per student. Money raising by organizations is fine, but takes time. (Remember last year's Red Cross kit drive?) If we waited to raise the quota by merely attending functions given by campus groups it would take important time—time which can be used for other war work.

If the general student contribution should be \$2, that means that we would have to attend at least eight parties or similar entertainments and spend at least 25 cents at each. At least eight hours of our time gone already—not to mention the hours spent on the entertainment by the members of the group sponsoring it. Yes, I know recreation is a grand thing and it's nice to meet your fellow students at other places besides the library—but, don't we do enough of that already?

(Note to organizations planning to have entertainments for War Fund. This is not so much directed at you as it is to the students who have not yet realized their responsibilities.)

About blood donors. Maybe enough has been said, maybe not. But remember that on the day before the Armistice in 1918, 35,000 Allied soldiers died. We should not become over optimistic, simply because we are on top—at the moment. Our blood plasma may save some of the Allied casualties on the day before the World War II armistice.

And then we have war stamps. They are on sale every day in the lobby of Buttrick, you know. Lack of enthusiasm on the part of the girls in charge might be responsible for the slow sales, but more responsible is the lack of enthusiasm on the part of the students. We shouldn't have to be sold war stamps. We should buy them.

The best step yet made on this campus to end our apathy for once and for all is War Council's scheme of posting the score of each student's war activities on posters in each dorm. Perhaps when our activities are put on a competitive basis we will begin to wake up to their significance.

### Hymns of Praise

Praise be to second Main's telephone answering system. The ingenious girls there have posted a chart on which black and red lines record who's answering whose calls. A black line stands for calls answered, a red line for the number of calls the girl received. When the length of the red line exceeds that of the black one, the girl concerned is "in the red," for not answering as many calls as she received. An object of public scorn, her position is not an enviable one, and she will probably mend her ways.

Praise be to the dining room set-up—for the curtains in the cafeteria, a sweet gesture; for coffee last Saturday night; for good Sunday night suppers this year; and for pancakes despite difficulties on Sunday morning.

Praise be to all the people who manage to look clean and cheerful at dinner, who can converse about things other than the tests they've flunked, are flunking, and will flunk.

they've flunked, are flunking, and will flunk.

Praise to all people who work for the improvement of our common lot, if in little ways.

(I.P.)

### From Other Campuses

"We ought to realize, without being told over and over again, the necessity of purchasing war bonds and stamps.

"One writer has compared the war to a gigantic football game in which the men actually fighting on the front are playing in the backfield. He points out that in any game the linemen must open the way for the backs. We civilians at home are the linemen who enable the fighting men to win the battles. We open up holes in the line by our purchase of stamps and bonds, a purchase which helps to supply the men with necessary equipment and war materials." The Daily Cardinal, University of Wisconsin, Madison.

"Yes, the totals are in.

"Probably it will be of no more avail to discuss the Campus War Chest now that it has been previously, but with the computed figures released, silence on the matter is hardly conceivable.

"So Syracuse university is a group of people supposedly representative of a decidedly important portion of the United States. That portion which is also supposedly educated, from which comes the thinkers, many of the leaders, the professional group, the foundation of the 'back bone' of the nation!

"Yes, the totals are in and we wonder . . ."
Daily Orange, Syracuse University, Syracuse, N. Y.

### The Spirit of the Law

Here at Agnes Scott we hear a lot about observing the spirit as well as the letter of rules. Student Government emphasizes that we should uphold the spirit as well as the letter of all its regulations.

Recently there occurred an incident, in itself no cause for great excitement, which indicated to some that perhaps students have become a little careless in their observance of Agnes Scott's high standards.

When a professor found it necessary to be absent from her class, she requested another to put a quiz on the blackboard. Having written the quiz on the board, this professor left the room. To her amazement, as she stood in the hall near the classroom, several members of the class, having read the quiz and decided that they did not wish to take it, calmly left the scene. When the professor question them as to their action, they replied that some others had gotten away by leaving while she was still at the board checking over what she had written, and that they just thought they would leave, too.

Had the teacher of the class been present and given a quiz, members of the class would never have dreamed of getting up and walking out because they didn't like the assignment made. Yet they felt not the slightest compunction about leaving when the professor was not there to check up on them.

This occurence is not, in itself, a particularly serious violation of rules It would, however, be extremely serious if it were an indication of a general tendency among the student body toward a let-down of standards of personal honor "in every phase of college life." The spirit of wanting to "get by with" things is at opposite poles from the spirit of Agnes Scott's honor system.

Let's hope that this incident was just a regrettable case of thoughtlessness; and let's all work together to keep bright our personal honor and that of our Alma Mater. (B.G.)

### A Nose in the Air

By Kathryn Johnson

First I was asked to write a column about anything. Then, after I'd planned to make it light and amusing, Tess said to make it critical . . "but, since you're only a freshman, not too critical!" So, I thought I'd write about the only thing a freshman knows anything definite (?) about, the freshmen.

Things that impress the freshmen: Seniors (?), chapel, Student Government and Open Forum, War Council and Mortar Board.

Most popular questions asked by freshmen: "What is 'time'?" "How do you get to be seniors?"

Things that we're always talking about but never seem to do anything about: the sale of War Stamps and Bonds; compulsory chapel on Thursday; walking on the grass instead of the walk.

Overheard: Two freshmen who wished that they were eighteen so they could be blood donors.

If you hear freshmen reciting, with one hand on their diaphram: "One, . . . hu . . . hu . . . hun," don't think they're "cra . . hey . . . hey . . . azy," they're just doing their "Sp . . . he . . . heech" homework!

What freshmen never think about doing: Looking on the bulletin board and turning in suggestions to Student Government.

We don't know whether to dread Christmas or not, because with it comes exams as well as home!

If you've heard girls talking about plants that can walk and swim and fly, they're only Dr. Runyon's biology class evolutionizing another plant.

Speaking of sports: Hockey has really made a hit with the freshmen. It seems that those who play hockey are in one of two classes—the upperclassmen who study and play hockey and —the freshmen who play hockey and study.

Miss Wilburn could easily combine human biology and freshman fundamentals. Everytime we learn a new exercise, we discover the next day (and how!) that we have a new muscle.

Campus scene: two freshmen arguing as to which had the deepest shadows under her eyes. (That's one thing all Hotentots have in common.)

Tabby, the maid in the basement of Main, was given a birthday gift by the day students in honor of her 69th birthday Wednesday. Tabby practically danced a jig on receiving the gift.

Odds and ends: Our thanks to Mortar Board for the frosh parties starting Wednesday. . . . Did you notice the freshman reaction to "Little Girls' Day"? We just can't believe those seniors who were invested Saturday were actually the same little" girls we saw Friday morning. . . . Why the sudden homesickness, freshmen?

Freshman theme song:
"O Happy Day . . . 'Mill on the Floss' is put away!"

From the very first day of school, the friendliness of the upperclassmen (even the sophs!) has made a lasting impression on all freshmen. We hope we'll live up to what you expect of us. We should, with so many helping hands . . .

And our favorite pastime is chasing to the dean's office, to second Main, to third Main, anywhere—to find the answer to the \$64 question: Where can I find a senior chaperone?

AGNES SCOTT COLLEGE, DECATUR, GA., WEDNESDAY, NOVEMBER 17, 1943

# In First Lecture of the Year

Attacking the foolishness of public opinion which underestimates the powers of our enemies, Henry Wolfe, international affairs expert who opened Agnes Scott's lecture series last week, pointed out in an interview after his lecture that our position is rather like that of a football team—we should never misjudge our adversary.

"You never hear a football captain," he said "telling his men that the game they're about to play is a pushover. No. He tells them that they've got to fight hard to win and makes them realize what they're up against. We, in our warfare, should follow the same practice.'

Mr. Wolfe, who delivered his second lecture since his return from England at Agnes Scott, said that in speaking on "The Next Act in Europe," he was not speaking merely from the experience of his ten-weeks visit but from 26 years of work in international

#### "Nobody Knows"

In answer to the question, "When will Germany crack?", he answered, "Nobody knows."

American army leaders received high praise from the lecturer, who gave special mention to General Jacob Devers, commander of the European Theatre of Operations-in his estimation "an A Number 1 general."

Mr. Wolfe was especially critical of the apathy of the American people toward the war, both in his address and later while being interviewed. "Americans," he said, "are doped by Japanese propaganda to the point of believing that we can win the war in a week."

"No such attitude prevails in England," he reported, "where the war is more real to the citizens."

"We had air raids the last six nights I was in England, and there's nothing like an air raid to impress you with the reality of war."

### Christmas Holidays Extended One Day

The winter quarter will officially begin Wednesday, Jan. 5, instead of Jan. 4, the date previous- Rabbi Discusses Need ly announced, according to President J. R. McCain. Because of this addition to the Christmas students will attend classes Feb. 22, traditional holiday at Agnes Scott.

According to academic regulations, students cutting classes the first day of the quarter will forfeit all cuts for that quarter.

# Of Brotherhood Today

'What we need today is not all Christians or all Jews, but better Christians and better Jews." With this as keynote, Rabbi Abraham Feinstein spoke at chapel on Friday, Nov. 12. His talk was based on the need for a brotherhood of

### From Students to Students

The World Student Service Fund drive beginning on the campus this week is an appeal from students to stu-

In German prison camps U. S. Army Air Corps officers will receive books provided by the W. S. S. F. To these men, most of them college graduates of the last few years, these books will mean a chance to continue the studies they left for a job temporarily more serious—a chance provided by fellow students.

Strictly for students, this appeal is our chance to show that we who are still in school remember the sacrifices made by those who represent us. This is one appeal in which we alone are responsible for the results—we alone are to blame if we break faith with those who short months ago were our fellow students.

It must not happen! Contribute to the W. S. S. F.!

A program of poetry integrated the group leaders are not there in with music will be presented by Dr. George P. Hayes, professor of English, and Hugh Hodgson

> The program follows: "Jesus, Joy of Man's Desiring," words from cantata "Herz and Mund," Death," Whitman, and "Come, Sweet Death," Bach; "To a Scarlatti Composition," Hillyer, and Alone Has Looked on Beauty Bare," Millay, and "Sarabande," Hameau-McDowell; "Talkative," Ujejski, and "Mazurka," Chopin; "Chorus from Empedocles on Etna," Arnold, and "Dance of Delphi," Debussy; "Ode on Death of Duke of Wellington," Tennyson, and "Funeral March" Prelude, Chopin; "Run, Run," and 'March, Little Soldier," Pinto; "Dover Beach," Arnold, and "Nocturne," Chopin; "Lamb," Walfe; and "Elves," Schumann; "Silver, de la Mare, and "Claire de Lune, Debussy; "Epitaph Placed on his Daughter's Tomb," Mark Twain, and "Adagio," Schonberg; and "The Congo," Lindsay, with "Allegro Barbaro," Bartok.

### Miss Kathryn Glick To Speak in Chapel

In keeping with the student government theme, "Today's Agnes Scott Student: Tomorrow's Citizen," Miss Kathryn Glick, associate professor of Latin and Greek, will speak in chapel Friday, Nov. 19 on intellectual integrity.

Miss Glick will speak on the responsibility of Agnes Scott students in making the most of their opportunities in a world at war.

### This Week

Thursday, Nov. 18, 19:30 a. m.-WSSF chapel program. 8:30 p. m.—Swimming meet.

Friday, Nov. 19, 10:30 a. m.-12 noon, 2-5 p. m.—Lamar Dodd to visit art department.

Monday, Nov. 22, 8 p. m.-Musicale in Presser.

Tuesday, No. 23, 5 p. m.-Freshman fundamentals demonstration in the gym.

### Chairman Announces Nov. 20 As May Day Scenario Dead Line

Although May Day is still six months away, plans for the festival are already under way. Chairman Jean Clarkson is urging all Monday, Nov. 22, at 8 p. m. in students to write a script or scenario on which the annual spring fete may be based. Nov. 20 is the final date for handing in scripts to Mrs. Lapp in the gym.

Theme of last year's May Day was the Four Seasons, and the year before that, Americana. Others in the past have been Peter 'Pastorale," Scarlatti; "Euclid Pan, Comus, Orpheus and Eurydice, Midsummer Night's Dream, and International Day.

Assisting the chairman this year are the following girls: Catharine Kollock, business manager; Barbara Frink, Anne Equen, Dot Almond, costumes; Frances Brougher, Jeanne Carlson, Betty Miller, properties; Jane Everett, Louise Gardner, dances; Betty Jane Hancock, Betty Dickson, music; Jane Anne Newton, publicity; and Kathryn Dozier, art.

### Student Directory To Appear Dec. 1

Martha Sunkes, chairman of the sophomore committee for the publicaton of the student directory, revealed this week that the directory is expected to go on sale about Dec. 1.

As an added attraction this year, she disclosed, the directory will include telephone numbers of day students in addition to the names and addresses of students and faculty, birthdays of all students, campus addresses of boarders, and Christmas addresses. Directories will sell at 25 cents per copy and may be bought at the book store, in the maid's office, at the tea house and in the dormitories.

In former years, the directory was published by various classes. This year, however, its publication becomes an exclusive sophomore class project.

Girls serving on committees for the publication of the directory include Peggy Willmon, co-chairman; Jean Rooney, ads; Jane Anne Newton, art; Rite Watson, business manager; Anne Noell, typist. Assistants will be Teddy Bear, McCain, and Mary Quigley.

### Espey to Inaugurate Drive for \$500 Goal For Service Fund

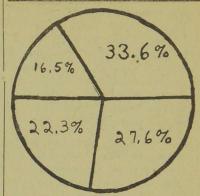

Mr. R. H. Edwin Espy, executive secretary of the national student division of the Y. M. C. A., will speak tomorrow in chapel. The World Student Service Fund, with Eudice Tontak as chairman, will launch its campaign for \$500 with this program.

Mr. Espy was a principal speaker at the War Emergency Conference held this week in Raleigh.

One phase of the work being done by the W. S. S. F. is that of sending books and materials to prisoners of war so that they will be able to continue their studies. In accordance with the Geneva Convention of 1929, books are being sent into all major prison camps in Germany. Oxford, Cambridge, and the University of London are now sending examinations to British prisoners. It is hoped that arrangements may be worked out so that work done by prisoners may be accredited.

#### Distribution

Funds will be distributed as follows: 16.5 per cent for the educational program and operating expenses of the W. S. S. F.; 22.3 per

cent for prisoners, refugees, evacuees and internees in the United States and Canada; 33.6 per cent for Chinese students dispossessed from their universities, and 27.6 per cent for American and English student prisoners, evacuees, refugees and internees.

"I hope that all the students will contribute generously to the fund," Eudice Tontak, chairman of the W. S. S. F., urged. "We students in the United States have a real responsibility for students in the war-torn areas of the world."

Contributions to the campaign, which will last through next Friday, November 26, will be made through personal solicitations by students in each dormitory and among the day students.

#### Student Heads

Rite Watson is in charge of collection in the dormitories, while Johnnie Mae Tippen will supervise collection from the day students. Jean Stewart will collect for Rebekah, Jane Meadows for Inman, Paule Triest in Main, Blitz Roper in White House, Lilaine Harris in Gaines, Jean Hood in Lupton and Virginia Bowie in Boyd. For the day students Sylvia Mogul will collect for the seniors, Scott Newell for the juniors, Ellen Hayes for the sophomores, and Kathryn Johnson for the freshmen. Mrs. Roff Sims Mary Ann Courtenay, Shirley and Miss Mildred Mell are in Graves, Lura Johnston, Mildred charge of solicitations from the

(In accordance with this paper's policy of having guest columnists, this column was written this week by Gwen Hill's black cocker, Patsy, who went along on the Athletic board's overnight hike last week-end, and who presents an unbiased dog's eye view of all that went on.)

Without making the slightest effort to be punny, I'd like all concerned to know that I have certainly led a dog's life this weekend. Some outspoken individual might tactlessly remark that I am a dog, but such a comment we shall proceed to ignore.

When my mistress informed me on Friday last that I was invited to go along, as sort of unofficial mascot, on the A. A. board's camping out party, I was just about the happiest little four-footed canine you ever did see. All I could do was run around the house, barking loudly my excitement, my long silky ears flopping as I ran. In preparation, I dashed madly out of the house, and buried my freshest bone (what with the meat shortage and scarcity of points, you never can tell).

On the way out to the camp Saturday afternoon, I suffered the indignity of having to sit on someone's lap, but since it was on the front seat, I had the advantage of over-hearing all that went on. Discussed were such things as the hockey game on Friday, the coming basketball season, what good goalies Jane and Miriam are, and when the varsity is to be voted on. You can laugh about the busman's holiday if you want to, but let it be clearly understood that this group has got it all over that proverbial conductor. Their minds just seem to run in channels of tennis, hockey, basketball, badminton and volleyball.

That night, after we arrived, everyone was concerned with preparations for supper, so I just trotted around from group to group, and the plots and plans I overheard were enough to make you cringe. People would just pat me on the head, and say, "Nice dog, Patsy"; they thought my doggy mind couldn't understand what was going on. So just for that I'll tell you, but don't say I told you.

For instance, there was the conspiracy to make Miss Rutledge

### Open Forum Defeats Compulsory Chapel

A motion to institute a compulsory chapel, whenever student government or the administration felt the need of such a meeting, was defeated at the open forum on Thursday, Nov. 11.

Clare Bedinger, vice-president of student government, presided over the open meeting. Possible punishments were decided upon, and after some discussion the student body decided to have a 10 cent fee for a compulsory meeting dismissed. When the original motion was defeated, however, this amendment was defeated also.

There will be one other open forum this quarter. The next suggestion among the votes recently taken at chapel is to discuss the possibility of exemption from

a pie-bed and to tie her pajamas in knots, but Miss Rutledge and Miss Wilburn heard them talking, and rushed in, and everybody started yelling, and they shoved the faculty out the door into the cold, which I didn't approve of at all, since they have always been very nice to me, and don't talk baby-talk like some people who have cockers of their own.

Then there was the "Chinese wedding" that Miss Wilburn and Josie conducted. Everybody skipped around the room, and suddenly sort of fell all over the floor, but they laughed, so I guess it was all right. Some bridge fiends tried to play by fire-light (the lamps were forgotten), and the others gathered around while my mistress read poetry. Now Keats and Milton and Gray may suit some people, but I really enjoy something a little more meaty, like the one about the gingham dog and the calico cat.

Some things went on that I just couldn't understand. People kept talking about the "Chief" losing her pants, and getting her shoes muddy, and kept asking each other if they had seen some person named "Algae." We even went out on a long hike just to look for her, but then somebody said it was probably too cold for her now, so we came back.

Oh, yes, there was plenty of wonderful food (I sampled most of it in the dark), square dancing, singing, hiking and laughing. Someone even gave Miss Wilburn a "hot foot," and she just smiled and said, "Oh, isn't it pretty?" I guess she didn't

tired, and it was so cold (I had ding'." forgotten to bring an extra sweater), I just crawled under the blankets, and went sound asleep.

### Seniors Vanquish Sophs, 2-0; Freshmen Rout Juniors, 6-3

By Peggy Kelly

Sisters fought sisters in exciting games Friday afternoon on the hockey field between the seniors and sophomores and the freshmen and juniors.

The seniors jumped right into the game with great spirit. In the first half Billy Walker scored the two goals which

brought the seniors final victory. The sophomores got the ball down into the senior scoring area many times, but the interference was too great. Betty Long and Mary Ann Courtenay tried to get through Miriam Walker's defense of the goal but they were not suc-

In the second half both teams again attempted to score. Sally Sue Stephenson manuevered the ball down within a few yards of the goal, only to be attacked by the precision rushing of Gwen Hill.

The junior-freshman game was a faster contest with the freshmen winning 6-3. Molly Milam urged the team on with, "Remember, juniors, we've been playing this game two years longer than our sisters." But, Louise Hoyt, Gene Goode, and Agnes Harnsberger didn't look at the situation in that light. Captain Gene Goode was the high scorer for the day with three goals to her credit and an enthusiastic team behind her. Mary Munroe, Mary Cumming and Betty Davis finally got the ball rolling for the juniors with the result of three goals.

One of the most interesting parts of the game took place in the second half of this game. Alice Newman drove the ball down toward the goal. There was great confusion and kicking around. The

### **Fundamentals Classes to Give Demonstration November 23**

Under the direction of Miss Abbie Rutledge, of the physical education department, freshmen are undergoing strenuous practice this week for the exhibition of fundamentals to be held next Tuesday, Nov. 23, at 5 p. m. in the gym.

Every freshman who is physically fit has been required to

participate in this new program. Its purpose is to locate weak areas and to correct these through conditioning exercises, which develop agility, flexibility, strength, endurance, and coordination.

At the exhibition one hundred and twenty girls, led by twelve of the best students, will 'do approximately eleven exercises without stopping. They will be dressed alike and will be in either diagonal or horizontal line formation. Immediately after the demonstration there will be folk dancing for

Commenting on the progress of these girls, Miss Rutledge said, "The progress they have made is amazing. At first they were slow and had hardly any endurance, but now they are able to perform for ages with speed and skill."

### Local Pi Alpha Phi Opposes Georgia in Non-decision Debate

that should have a fourth term" was the topic of the non-decision debate last Thursday night between Agnes Scott and the University of Georgia in Murphey Candler. Dick Steinbach and Norman Murray, debaters from the University, upbooth, and all marveled that their held the affirmative side of this question, while Betty Glenn and Claire Bennett of Agnes Scott's Pi Alpha Phi chapter defended the negative.

> The debate was a non-decision one, but both sides put forth convincing arguments. The affirmative rested its case on three main points. They showed how successful the present administration has been in the past, pointed to the fact that there is no able candidate in the field of opponents, and finally stated that the President is indispensable both to the successful prosecution of the war and to the peace which shall follow.

The negative upheld two main orchid, and Anne Eidson, Martha points, declaring first that the administration has not done what it should have done in the past; and second, that the holding of such an important office by any one man for so long a time constitutes a threat to democracy.

> Pi Alpha Phi was represented yesterday by Julia Moody and Martha Jean Gower at a debate given in chapel at the University of Georgia on the question: "Resolved that women should be drafted." The girls upheld the negative side of the question.

### I'm Sorry

### I Have No Outside Lines

By Inge Probstein

Its secret guarded by a formidable "No Admittance" sign, the little room behind the Dean's office is to most students an enigma of broken-record voices purring an everlasting song of "Agnes Scott . . . Thank you . . . One moment, please I'm sorry, I have no outside lines . . The room houses Agnes Scott's own switchboard, a maze of

plugs, holes, buttons, keys, and a series of white, yellow, and red lights that flash on and off to give the operator news of the inner mystery of this machinery. A dial, earphones, speaking tube, and finally the operator complete a setup that works on the complicated

Although it takes little time to master the actual technique of switchboarding, an operator's training period is not over when she passes her test at the end of twenty hours of supervised working-exeprience.

Slowly an operator acquires the wide general knowledge that she needs to answer the inquiries of her large public. Do Agnes Scott girls use DeLuxe or Safety cabs and why?; what are the chaperonage rules concerning all students? (this last from a stern voice which sounded too much like a trustee to be answered with indecision); what is Dr. Garber's middle name?, and is Dr. McCain usually busy in the morning?

A good operator knows when someone asks for Chromium 3495 that the chemistry major is confusing a chemical symbol with the Crescent exchange. She knows what the Emory V-12's mean by "Main, 2nd Deck," and "have the girls gone to 'chow' yet?"

Versatility is a useful qualification for switchboard work. Recently when a faculty member dialed zero and asked for an outside line, the operator forgot the mechanism by which the lady could dial her own number. (This privilege is strictly reserved for the faculty). The operator, not wanting to dim the honor of her group, decided the most business-

like thing to do was to simulate the city operator and not to admit her ignorance. She waited a moment, noisily clicked some switches, tapped madly on the desk with a pencil to create the busy atmosphere of the city exchange, then said in her most shop-worn and honeyed voice, "special operator. Your number pulleaze.'

The act worked well, the faculty member gave her number without hesitation, and the honor of the local switchboard was saved.

The greatest tribute an operator can receive comes from the long distance operator when the atter signs off with the professional salute, "Thank you, operator. What a disappointment when an unthinking long-distancer once purrs, "Thank you, honey."

### C. A. Plans Services, Party, and Caroling

Christian Association plans for the rest of the quarter include a Thanksgiving service, a firelight prayer service, a Christmas party for the underprivileged children of Decatur, and Christmas carol services, according to Ruth Farrior, president of the organization.

The Thanksgiving services will be under the direction of the freshman Bible class who will conduct the service on Thanksgiving day at 10 a. m. in the old chapel. The day will close with a firelight prayer service in Murphey Candler at 10 p. m. sponsored by the freshman cabinet.

On Thanksgiving Sunday the Bible Class will take baskets of food to the needy in Atlanta.

C. A. will entertain the underprivileged children of Decatur at its annual Christmas party on Dec. 11.

Class carol services will be held soon in the old chapel and will probably take place during the first two weeks in December.

Duffee Tells Freshmen to

### Be a B. W. O. C.!

By Mary Louise Duffee This is dedicated to you, freshman class. You, the "greenies," the frosh, the cutest girls in school every year.

This is to enlighten you so that your paths to being well-known seniors will not be so rocky nor mysterious. This is to tell you what the handbook does not—how to become a B. W. O. C. (Big Woman on the Campus). These are the impersonal views of one who is not one, and any resemblance to persons living or dead is purely coinciden-

First, remember what you have probably been told a dozen times already—especially at election time—that there is no politics on this campus. Any A. Scotter will tell you that the nearest things we have to political parties are senior coffees, and they are all just between friends.

Next, learn everyone's name, particularly upperclassmen and the officers of organizations and clubs. Volunteer to work on everything while you're a freshman, 'cause the rules keep them from accepting you, but you'll get credit for trying and they may remember your name.

Take at least some participation in Christian Association. (Refer to Who's Who, Mortar Board, Student Government.) (NOTE: A few have made the grade without this, but they are rare.)

Take advantage of the faculty-free-for-dinner-rule.

Besides the "play hockey and work on the black cat stunt" that your junior sponsor told you, accept class committee jobs and do them well. You have to be on the home team to play ball at all, you know.

If you date a lot, don't be objectionable about it. Especially do it quietly when there is a big faculty tea and a dance at Emory or Tech the same night. In connection with this, keep everybody guessing as to your opinion. Then you'll be in good with both sides. (Oops—forgot—no sides—well, then you ain't mad with nobody.)

Keep up your merit hours, but don't let studying become an obsession with you to the exclusion of everything else. Remember you came to college to get an education, not an average. Using your time well means being able to have leisure time. You needn't worry about taking too much leisure—you won't be here that long.

Last but not least, if you want more than anything to work on one of the publications, don't talk about it too much or you won't be taken seriously. They may not hurt your position, but they probably won't help you (odds—3 to 1). "Get into something vital."

Who are the present B. W. O. C.'s? Well, there are Clare Bedinger, Elizabeth Edwards, Bunny Gray, Ann Jacob, Ruth Kolthoff, Mary Maxwell, Aurie Montgomery, Katherine Phillips, Virginia Tuggle and Ann Ward, all of whom made Who's Who AND Mortar Board. Then there are Carolyn Daniel, Ruth Farrior and Smiley Williams, who made Who's Who, and there is Jo Young, who made Mortar Board.

And then there are others, like Claire Bennett, Mary Carr, Tess Carlos, M. Rosie Hosmer, Bobbie Powell and "Popesy" Scott, who have worked for four years, but read this column four years late. I notinate them for another society—"Martyr Bored."

"Why, David—are you trying to say you want me to be coowner on your War Savings Bonds from now on?"

### To the Editor

Dear Editor:

Now that the twenty hectic minutes from 10:40 to 11:00 on Thursday last are over but not forgotten, I'd like to belatedly explain what open forum was all about.

The majority of us realize that we will have to have rare compulsory chapels for absolutely necessary announcements, as we've had in the past. This forum was meant to determine how the students felt about having more frequent compulsory attendance, how it should be enforced, what should constitute a valid excuse, etc. I realize that very few of us (including the bewildered chairman) were aware that these decisions should have been our goals, and therein lies the reason for failure.

The problem we now face is the choice of the topic for the forum of December 2. Next week the News will contain a voting blank, upon which each thinking citizen of the Agnes Scott community should write her choice for a forum and drop into the Student Government suggestion box in the mail room-(before turning to page 3 to see who went to the Paradise Room Saturday night). The subject receiving the highest number of votes will be the one. The current topics which seem to be upon Hottentot thoughts are: exemption from exams, church on campus once a quarter, day student election of their representatives and boarder election of their house presidents.

I would like to suggest a fourth for consideration—an open forum on open forums. We need to clarify our attitudes and give much deliberation on questions as: why have a time when we can get together to debate certain problems and take corporate action to solve them; whether it would be wise to follow a definite program of action presented by the chairman in order to prevent waste of time and irrelevancies; whether forums present the opportunity for developing democratic ideas and encouraging demoncratic behavior?

Let's give these suggestions some careful thought; let's behave like rational citizens in chapel on December 2,—so that no freshman will leave as one did last Thursday saying dejectedly, "I never thought I'd be so disgusted with upper classmen!"

Hopefully,

Clare Bedinger.

### From Other Campuses

"In a very short time, the majority of us will be in the midst of final examinations, the purpose of which is to determine the ability of the student to grasp and retain the knowledge he has gained from a semester of college work.

"These examinations can be no measure of the student's ability, however, if the paper which he turns in contains not his work, but rather the work of one of his fellow students.

"Like many other schools, Tech has no honor system to insure against that degrading practice of dishonesty known as cheating. Yet the honor of the student is definitely tested in each exam which he takes." The Technique, Georgia School of Technology, Atlanta.

### 99% Is Not Enough

Classroom standards don't hold good on the battlefield. Former college men now stationed at remote army posts are learning that there is "no coasting through" this war. A soldier on a South Pacific island won't get by a Jap sniper with only 65% alertness. A torpedoed sailor won't survive on a life raft with only 70% of the necessary endurance. In those tests of war there is no middle ground. A man excels or fails

We who still enjoy the security of the campus are being tested too. We are up for exams in faith, understanding and effort in the war program. A 65% belief in democracy is not enough. A fair understanding of our war economy won't do. We can't crib through this war by leaving it up to our fellow students to do the saving and economizing necessary to prevent inflation.

We who have so much to gain in a sound post-war world cannot be satisfied with less than excellent in these crucial tests. We must give complete support to the War Savings Program.

Every War Stamp or Bond we buy raises the average of general welfare. Every cent we spend on non-essentials puts victory further away. We must be 100 percenters—we cannot maintain the standards of our currency, we cannot provide vital military equipment, we cannot win the peace with less.

### Now Is the Time-

When we are not in the throes of excitement connected with campus elections seems to be the ideal time to discuss methods of selecting officers. Since the nominating committee will not meet until the middle of next quarter and present officers have been in for about half their term, now seems to be the time when we can discuss objectively the problems connected with committee nominations.

The nominating committee is composed of the elected heads of organizations—15 girls who work closely with the underclassmen who will succeed them. But should these 15 girls have more influence in deciding who should head the organizations next year than the general student body? And should they be subjected to more than their share of criticism for their suggestions for candidates for the positions?

Oftentimes two girls are eligible for an office—one has worked exceptionally hard and faithfully, the other has more natural talent for the position. Which should the committee nominate? Supporters of the unnominated one have good arguments to back up their disapproval. Although devoting about the same amount of time to two organizations, a girl may be more interested in one. Yet when asked if she will accept the committee nomination for the other, she usually accepts—"because the committee nominee always wins." Yet the purpose of the committee is to suggest possible candidates for the office which the general student body may not have thought of.

A method fairer both to the nominating committee and to the nominees seems to be the suggestion of printing together in alphabetical order the popular nominees and the committee nominee because of those who are vitally interested in the outcome of the election and because of those who are indifferent, yet vote.

Those who are extremely interested will not have the opportunity to criticize the committee for their selections and no one nominee will have an advantage. The indifferent voters will not be so prone to "just vote for the committee nominee—they always win anyway."

Would it not be a sensible plan to discuss this issue at an open forum at an early date while we are still **objectively** interested in it?

### A Nose in the Air

By Tess Carlos

This business of writing a column again after two weeks of glorious leisure not worrying about deadlines and what to say and whom to see about saying something and what to think about saying if those you have to see won't say something is confusing.

The trouble with coming back to school after an illness is that you have to get completely reacquainted with everyone and everything that meant a part of every day to you. That takes a lot of time and a lot of thought. You would think that having to lie in bed would mean time to loaf and think. But it is just the opposite. An oblivion in which the impersonal bed holds you up and time passes rapidly or slowly you can't remember which.

Well, we're at it again. Open Forum, of course. Or would it be wiser to call it Open Bedlam? For that is what it amounts and has amounted to from time immemorial. The subjects discussed (can one call it discussion?) are trivial, stupid, uninteresting. The objects attained are—if you can think of any please tell me. Other than arousing such comments: "Well, it was kind of fun voting and passing and unpassing amendments but what was the subject?" Naturally it is fun, a kind of game to play between classes. Then why not pick up more interesting subjects to pass amendments on. Suggestions: seniors to be invested in kid's clothes; goats to crop the grass of the campus because of the manpower shortage; bicycles to make the run from Presser to Buttrick during days of Open Forum when only twenty minutes is given to get anything done; skating race down the front driveway between faculty and students.

Overheard (and over the head) in Russian history class: "Thesis and antithesis combine to form synthesis which is progress."

A senior dashes madly about the reserve room after an education test. "You know just five minutes before the bell, I realized that I had twice as many falses as trues and I had a hard time evening them up before the bell. I always like to have them come out even."

The senior class has not yet made its momentous decision: robes on Saturdays or freeze to death during chapel. The News is an unofficial poll a few weeks ago revealed that a majority of seniors interviewed were in favor of wearing robes. But the senior class has delayed coming to a decision. Because of reports that it shall be a mild winter?

One discouraging thing about putting out a paper, worrying over editorials (not me, of course, but the News staff in general), trying to get the student body interested in the war, trying to get them out of their thick shell of complacency is to see the sale of war stamps in Buttrick decreasing, the number signing up for the Blood Bank nil in proportion to the number of the student body, the War Fund and the W. S. S. F. drive coming up with few interested in its outcome.

Two seniors discussing the planned IRC Fireside Chat on the hockey field. "If Eudice Tontak thinks I'm going to go out there and chatter over world affairs in this cold weather . . ." "But dear, I hear they're going to roast watermelons!" Steady there. Only two and one-half quarters to go. So hold on. Hard.

### Pin-Up Boys

O. K. MISS AGNES? But definitely! Here are the three winners in White House's pin-up boy contest. Chosen from 257 entries by Professors Posey, Thomas, Garber, and Businessman Mac-Gregor, they are, left to right: Capt. Ad Grove, most handsome, entered by Freshman Peggy Gregg; Lt. Charlie Turner, cutest, entered by Junior Eugenia Jones; and Bill Cochran, most manly, entered by Sophomore Shirley Graves. Judges had most trouble defining the word "cute" in reference to men, ate coffee and doughnuts, apparently enjoyed the whole affair. Said Dr. Garber when asked an opinion on one of the many pictures in the finals, "Is he handsome? Now I don't know-I took to him right away, but it didn't last." Said Artist Thomas, "I see, cute must mean the kind of fellow you'd like to sit out in a boat with all day-and fish?"

### WSSF Campaign to End Friday; Glee Clubs Pledges to Date Total \$120

Total pledges to date toward Agnes Scott's \$500 goal for the World Student Service Fund campaign, which began last Thursday, Nov. 18, amount to \$120, according to Eudice Tontak, chairman of the campaign.

To inaugurate the drive R. H. Edwin Espy, executive sec-

tary of the national student division of the Y.M.C.A., spoke in chapel last Thursday morning on the need for realization among the students of America of their responsibilities toward fellow students who are prisoners of war, evacuees and internees in the wartorn areas of the world.

"We must keep alive not only their bodies," he stated, "but also the ideals which they have imbedded in their minds.'

#### Money Wil Reach Objective

Mr. Espy especially stressed the certainty that the money raised by this campaign would reach its objectives and not fall into enemy hands. The work will be accomplished, he explained, through neutral channels.

Collection for the WSSF is being made on the campus this week part of representatives among the day students and boarders.

Tuesday, Nov. 30-Miss Savage, Navy Nurse, speaks to physical education classes.

8:30-Kreisler concert at Atlanta Municipal Auditorium.

The plot of "Shubert Alley" centers around the success story of a young actress, Chris, played by Mary Dozier. The supporting cast includes Carolyn Hall as Hester. Chris' grim, gaunt stepmother: Agnes Douglas as Fay, Chris' sister who is responsible for much of Chris' success; Ceevah Rosenthal as Beulah, and Liz Carpenter as Anita, both of whom add much to the comedy in the play.

Zena Harris Temkin will play the role of Hattie, capable secretary who is responsible for much witty repartee; Martha Marie Trimble will appear as Miss Royce, a tempermental actress; Kathryn Dozier as Miss Elliott, department store head; and Pauline Ertz as the glamourous stage actress, Lucia Bennett.

Jean Hood will take the part of the austere Miss Whitney, who interferes with Chris' love affair. Other actresses and their parts include Shirley Graves as Rita, one of the girls in the department store; Ellen Hayes as Madge, Chris' friend; Mary Louise Duffee as Poppy, a young actress; and Martha Jane Mack as Nancy Ann, a lovable little girl.

#### Play Dual Roles

Dual roles are played by Peggy Willmon as Elsie, department store model, and as Nellie, an old flower woman; and by Martha Polk as Helen, a mean little girl, and as Miss Shuman, successful New York playwright.

General admission will be 35 cents, and reserved seats will be 50 cents. Students and faculty, who are admitted free, may purchase reserved seats for 15 cents.

The following are serving as technical committee chairmen: props, Jane Everett; costumes, Emily Ann Singletary; lights, Jean Hood; stage manager, Martha Marie Trimble; stage props, Carolyn Daniel; stage scenery, Zena Harris Temkin; prompters, Barbara Kincaid and LaNelle Wright; program, Penny Espey; business manager, Pauline Ertz.

### Speech Students Will Give Recital Dec. 3

Members of the advanced speech classes will present a recital on Friday, Dec. 3, at 4 p. m. in Maclean auditorium.

The program will consist of oneact plays read by members of the class, each of whom will present her own interpretation of the play. Members of the class, which deals with platform interpretation of drama, include Mary Dozier, Elizabeth Carpenter, Martha Trimble, Emily Ann Singletary, Zena Tamkin, Jane Everett.

The entire college community is invited to attend the recital.

There comes a time, at the turn of a quarter, when both a backward glance and a forward look seem necessary. The accomplishment of such a feat, however, lies more probably within the abilities of Janus, the two-headed god of old, than within those of a sports columnist. But this generation, forsaken by its old gods, and being unable to invoke them for supernatural aid, must, of necessity, rely on its own resourcefulness, string along with second best. Hence the following inadequate resume and hint of things to

In retrospect the fall athletic program at Agnes Scott has been a full and successful one. There has been an unprecedented all-out interest in the tournaments, meets and matches sponsored by A. A. The hockey grand-stand has been filled to practically overflowing every Friday at 4. The few who have tried to heed the call to study at that time have been unable to resist the yells and shouts outside. The numbers of students participating in the game has steadily increased, until last Friday it reached 75. At every swimming meet students have crowded the benches beside the pool. Faculty, students and administration alike turned out en masse to see the English tennis stars play. A substantial number of hearty souls even braved the wintery blasts of last week to see Virginia Tuggle and Ann Hough play their finals match.

And these signs are good. The efforts put forth have not been without fruitful results. The entire campus faces exam-time and holidays with stronger, healthier bodies, with the calmer state of mind that comes with relaxation from the strain of studies.

The winter quarter offers the

There will be modern, folk and social dancing taught by Miss Dozier, and natural dancing taught by Mrs. Lapp. Basketball will be the team sport offered, and this year, in addition, there will also be badminton. Miss Rutledge, who will direct both sports, is an enthusiastic badminton player and is anxious to organize a badminton club.

In the swimming department, Agnes Douglas will teach life saving. There will also be the usual classes for beginning, intermediate and advanced swimmers. Students needing special corrective exercises will be given an opportunity in I. G. classes under Miss Wilburn.

According to Miss Wilburn a need has been felt for a recreation leaders' course, and this may be offered during the winter quarter. It will be under the direction of the members of the physical education staff and recreation leaders in Atlanta and Deca-

as Betty wants to carry out her former wedding plans as well as finish this quarter here at school.

Bettye and Jeff met on a blind date her junior year at Agnes Scott during Jeff's internship at Grady. Bettye received her ring last August and had planned to be married soon after graduation until a change in army orders alter-

#### At Tech

It's the spirit of the thing that counts-that was proved at the Delta Tau Delta weiner roast at North Fulton park Saturday night. The weiners (which were forgotten somewhere in the process of getting to the park) weren't necessary in the least, for the party to be a wonderful success. Just ask Ann Webb, Jeanne Rochelle, Conradine Fraser, Scotty Johnson, Anne Murrell, Vicky Alexander or Martha Baker who enjoyed the picnic just as much as the house dance following.

And again, there was the Pi KA 'possum hunt" Saturday night minus the possum, but the hunt and the house dance following were lots of fun anyway, according to Jean Stewart, Ann Register, Louise Starr and Laurie Looper.

### A. S. Debaters Visit University of Georgia In Non-Decision Bout

Agnes Scott's Pi Alpha Phi returned the visit made by Universcampus recently, when Martha Jean Gower and Julia Moody debated against the Georgia Student Assembly at the University in Athens last Tuesday in a non-decision debate. The subject of the debate was "Resolved: Women should be drafted into military and labor services."

Georgia debaters, supporting the affirmative, stated that there is a definite need for such a draft and that no other plan would be able to solve this problem. The girls upheld the negative side, pointing out that there is no need for such a draft, and that the labor problem can be solved in other ways. They further maintained that a draft of this kind would be detrimental to society.

After the debate, the girls were entertained at lunch and were shown the campus by the Georgia debaters and their manager.

### University Center Plans Study Of Graduate Work Facilities

College.

At a meeting last Tuesday, Nov. | bers of the University Center in-16, the Advisory Council of the clude the University of Georgia, University Center of Georgia dis- Emory University, Georgia School cussed plans for the future work of Technology, the Atlanta Art of the Center.

According to S. G. Stukes, dean of the faculty and registrar of Agnes Scott, plans made by the council include a study of library facilities available for graduate work among the colleges and universities composing the University Center, three of which offer graduate work.

"Since none of the institutions making up the University Center have enough money for a complete graduate school, it is planned to have each library specialize in certain fields," Mr. Stukes explained. "For example, the Tech library would specialize in engineering books, and other libraries would offer authoritative volumes on various other subjects. Thus graduate students at any of the schools would have access to the facilities of the others, and duplications would be avoided.'

The Council also discussed the annual awards made by the General Education Board to persons interested in doing research work in the Center's institutions. Mem-

### Mortar Board Tells Marriage Class Time

Although plans have not been completed for the marriage classes sponsored by Mortar Board, Ruth Kolthoff, president of the organization, has announced that the classes will be held in the winter quarter. This arrangement of the classes was made by vote of the senior class.

Marriage classes are open to seniors and engaged girls.

Ruth Kolthoff urged that seniors hand in their suggestions for class discussions and speakers.

Mitchell Writes

### Catty Remarks

By Mitchell Duffee

I'm red-and-white and half-Persian, and people say I'm very, very intelligent-and it seemed to me I might add something appropriate to the old lady's (Mary Louise's) column, so here I go pawing out the hunt-and-peck system. The paper will have to go to bed (my mistress taught me that journal, istic term) early this week because Falla's master said we should observe Thanksgiving this week and the printers want a holiday. So I can trot up to the printer's with this in my mouth before Rosie or M. L. even notice it.

First let me pass on something I just heard when the telephone rang a minute ago. "Pickle" (Harrold Herrin) is back in Georgia after five-months-and-no-letters at sea, so if this issue of the News looks like a special edition in celebration of Merchant Marine Day, you'll know the editor is just excited.

Heard one of those girls who comes over here to our house to spend the night say just the other day that Rosie Hosmer and Patty Barbour had been arguing over who was more of a war widow. Now Pickle and Jim are both back in port the same week. This is really Thanksgiving week for Main, they said, what with Ashcraft's Jeff, Patty's Jim, Rosie's Pickle, and Leila's Jack all here or coming. Thanksgiving elsewhere, too, on account of Julia Harvard's John, Elizabeth Harvard's Claude, Lela Powell's Harry, Carolyn Fuller's "Bud," and Zena Harris Timken's Isadore Benjamin, all of whom made people glad with visits or visits-to-come. Kind of a pin-ups-come-to-life week.

Speaking of Zena's husband, I heard he made the beautiful twisted gold wedding ring she wears.

Who was that who brought a DOG to the pin-up contest? I wasn't invited!

Ann Jacob sent in a special message to be conveyed by this column. She offers an apology to the whole campus for the get-up she wore one day last week—a loud striped shirt and a loud checked skirt together. She changed it after several members of her sociology class complained of being dizzy.

I know something. You know how kittens are about snooping among books. Well, in a back issue of the Silhouette it says Carrie Scandrett is a representative type of student on the campus because of her good disposition. In another place in the Silhouette it had this quotation under her picture: "Who mixed reason with pleasure and wisdom with mirth."

Guess that's enough. Don't want to overstep my bounds because people would say I'm just a "cat's paw."

Autobiographical note: I am eight months old. My mother belongs to Madeline Hosmer and my grandmother did too. My grandmother once caught two mice at one time. I have caught one. My little sister (or half sister) "Robin" belongs to Nita Hurst. My name is Mitchell because I purr so loud they say I sound like I had the twin engines of a B-25. My ambition is to come over to the campus and look up that little black number the freshmen and sophomores fight over every fall.

### Salute Their Courage

There was a time when we could listen to the appeals for the World Student Service Fund and then say, "Why contribute? I'm not concerned."

Those days now belong to the past. Unfortunately we are concerned—vitally concerned with the fate of several hundred thousand of our fellow students who at the moment are attending classes either behind the barbed wire of prison camps or on the muddy roads from the site of a bombed-out university to a new location—perhaps in some mountain cave.

To these prisoners and students-in-transit so little means so much. Ten dollars will do wonders for an ill student in a Chinese university-on-the-march, even two dollars will provide an amazing amount of study materials for an American prisoner in Germany.

Equally as important is the work being done among German and Italian prisoners in the United States and Canada. This may well mean that 20 years hence another student generation may not have to suffer from a dictator's tyranny as today's students do.

Salute the courage of today's students under fire by making your W.S.S.F. contribution large—and by making it now.

### We Nominate

We nominate for recognition those 51 girls who gave blood when the mobile blood donor unit visited the campus last Wednesday afternoon. That little prick in their arm and the bronze pin they wear proudly may actually mean a soldier—someone's brother, friend, sweetheart—may have a chance to fight again for us. That small prick is a badge of honor.

We nominate also for recognition those 16 girls who on Thursday afternoon gave up the picture show and other alluring attractions to go to the Decatur Red Cross center to fill war kits—576 of them in two and one-half hours, which officials say is more than the regular women usually fill in a week.

Especial recognition should go to those girls who, having given blood on Wednesday afternoon, had a legitimate excuse for not doing war work the following day; yet some of these girls were among those who appeared Thursday afternoon to fill the kits.

We should not let these girls put to shame the rest of us who have done little or nothing yet in the current war work campaign. We can do our part to send up the charts in the dormitories by spending an hour or so any day in the week until 4:00 p. m. except Saturday making surgical dressings at the production headquarters on Sycamore street in Decatur.

—М. С.

Because of a change in the printers' schedule due to the Thanksgiving holiday Thursday, this issue of the News, the last one before non-activity week and exams, is being published a day earlier than usual. The next issue will appear January 12.

### Don't You Think-

That the dining room should remain open longer on Monday mornings since classes do not begin until 9:00 and on Sundays which is the one day to sleep fairly late?

That the seniors should end the suspense of the "Case of the Robe" by voting soon on the question?

That the book store should close 15 minutes after the class bell instead of with the bell for the convenience of students who have classes but also must get something from the store?

That organizations should resume Wednesday night coffee just for mid-week relaxation?

That package call should last at least 20 minutes—extending from 9:20 to 9:40 a.m. so that students from first and second period classes may get their packages? And that packages, especially perishables, should be distributed as long as any one is in the mail room?

That boarders should be allowed to return books on Monday mornings by 9:00 instead of 8:30?

That seniors, who will not be affected by changes in rules, regulations, policies, etc., next year ,should be allowed only one-half vote after spring quarter elections?

That cement should be used generously on the campus—in the hole at the front gate and in the trench between Rebekah porch and the carline?

That the tea house should serve short orders through dinner time on Friday night for avid fish haters?

### A Nose in the Air

By Tess Carlos

Seems to me that for once I ought to write a column that has been planned long in advance, that is polished to that ultimate incoherence which so distinguishes my style, that is in before or during the deadline. Well, it seems to me.

Now to get down to writing this—a number of days, hours, and hemispheres late; incoherent as only lack of time and the fact that I can't type fast can make me; and planned because sometime last night when I awoke from dreams of coming exam week I jotted down the few worthy things left to talk about.

Who is S. M.? Who is she, he, or it? Shakespeare may know. Or even you may be the lucky winner. Conjectures as to "its" identity range from Sue Mitchell, Sara Milford, and Sylvia Mogul, whose initials are S. M., from anyone who has S, M, or any other letter of the alphabet as their initials to Super Man. Best guess is that some senior, despairing of ever getting a man, threw caution to the winds and addressed a plea to "Some Man," any man, to meet her.

The editor of the News, which published the classified ad states: "With our depleted budget, with expenses piling up, with my hair practically gone from the rigor of this newspaper life, you ask me why we accept ads like that. Money—the root of all evil. We need it so bad we're willing to find men or husbands for any senior, junior, sophomore, or even freshman. For a consideration, of course."

The nominating committeewhat are you going to say about it that hasn't already been said better and plainer? When I was a freshman, the student body was trying to abolish or reform it. And they are still at it. An organ which is attacked so often and by so many of the student body ought to be changed. It is a hangover of a belief that government of the people must be regulated by the ones who THINK they know what is best for the people. Its influence and power, though denied, is great. Too great to allow for the functioning of democracy. Hitler thought that the best way to make people happy was to let. them vote yes or no. The Nominating Committee thinks it best for the student body to vote yes or no to its nominations. Well, what are you going to do about it? (This is not a paid endorsement, since this columnist, against her will, is on the Nominating Committee.)

A bright ray to bolster those who face the problem of whether to study now or just keep on not studying: a rumor that day students are going to be abolished because of the chaotic conditions of war time. Like the Martian Invasion it spread like wildfire among the more thoughtful and consequently less studious students of the campus. Boarders are now wondering if something can't be done for them.

The blood bank has, come and gone. But not for good. We hope. Not enough of the student body gave their blood the first time. And those who did can be donors again in eight weeks. Will the blood bank unit be back on the campus after Christmas holidays? There are no obstacles in its way.
