LOCATION.

THE INSTITUTE is located so nearly upon the crest of a commanding ridge that the rain waters from one side of the roof, following the natural water shed, find their destination in the Gulf of Mexico, and from the other flow onward to the Atlantic.

The elevation of the main building is approximately 1050 feet above the sea level, and from its central tower is had an inspiring view of the peaks of North Georgia and the Blue Ridge Mountains. The climate is bracing and healthful; the drainage naturally perfect, and the water, the purest freestone, uncontaminated by sewerage.

Decatur is six miles northeast of Atlanta immediately on the Georgia Railroad.

Its accessibility and nearness to the city of Atlanta, with its system of railways reaching every portion of the South Atlantic States, places the Institute within convenient reach of every section.

The situation of Decatur, sheltered from the cold winds of the more northerly section by the Blue Ridge range of mountains, and yet at an altitude far beyond the malarial lowlands of the South Atlantic and Gulf States, gives to the Institute many of the pleasant and beneficial effects of a delightful health resort. Parents residing in South Georgia, Florida, South Alabama, Mississippi and other Gulf States, will find for their daughters an atmosphere invigorating and bracing, but *not severe*; while others resident in more northerly sections can escape the severities of a rigorous winter climate without encountering malarial or enervating influences.

The village has telegraphic, telephonic, postal and express facilities; four white churches—Presbyterian, Methodist, Baptist and Episcopalian, with resident pastors.

It is also the seat of the Donald Fraser High School, for boys, a preparatory school of high grade and under superior management. It is located on the opposite side of the village and over a half mile from the Institute.

The society is educated, refined and religious, and the founders of this school believe its location to be an ideal one.

The Georgia Railroad has on sale commutation school tickets to Decatur at greatly reduced rates from all stations between Atlanta and Covington.

Buildings.

The Main Building, completed and occupied for the first time in the fall of 1891, is a massive edifice, simple in architecture, yet not lacking in impressiveness.

It is constructed of brick, granite and marble; is one hundred and ninety-four feet long, fifty-four feet wide and four stories high, exclusive of basement, besides the engine room, electric light plant, laundry and kitchen annexes, which are apart from the main building.

The entire building is heated and ventilated by the indirect steam method, and lighted by electricity.

The building contains fifty sleeping apartments, accommodating two and four pupils each, and all with outside windows; over 500 feet of wide halls, with necessary class rooms, parlors, offices and art studio. The School of Music occupies the entire fourth floor.

Each floor is supplied with water, bath and toilet rooms, electric bells and ample hose and fire buckets; the building and premises are supplied with water from three wells, a tank in the tower containing 8,000 gallons, a large spring near by, and a cistern with a capacity of 30,000 gallons.

A watchman is on duty all night, and his visits at

Rear View Main Building.

numerous stations throughout the building and around the premises are registered by an electric watchman's clock.

The building stands in the middle of ample grounds with numerous walks, croquet grounds, swings and tennis courts, affording abundant opportunity for healthful out-door exercise.

Boarding Department.

This department is under the superintendence of the Matron, who gives to the housekeeping her constant personal attention.

The table is abundantly supplied with wholesome food, secured from the Atlanta and local markets.

Sleeping Room for Four Occupants.

The chambers are unusually large and arranged so as to admit abundant sunlight, and in their construction especial attention was given to securing perfect ventilation. The furniture and appointments are home-like and comfortable, and the building carpeted throughout. While luxury has not been studied, every convenience necessary for health and comfort has been supplied, and in this respect few homes in the country are more complete.

A suite of rooms, including bed room, sitting room and nurse's room, in a retired section of the building on the second floor, has been set aside and will be used exclusively as an Infirmary in cases of sickness. The Infirmary is in charge of the Intendant, who is in constant attendance in cases of illness.

Partial View of Infirmary.

Dr. Hunter P. Cooper, the attendant Physician, is in telephonic communication with the Institute, visits the school periodically, and in cases of illness is summoned promptly.

The Trustees feel that they can conscientiously assure parents that in cases of illness their daughters will receive prompt and skillful medical attention and faithful and tender nursing, and in every case of serious illness they will be promptly advised.

The Intendant of the Infirmary is also in special charge of the two dormitory floors, occupying the second and third stories of the Main Building. She will at all times rigidly inspect the rooms of the inmates, see that they are neatly and properly kept in order, reporting any dereliction to the Principal.

Each dormitory floor has two large bath and toilet rooms, supplied with hot and cold water.

The Institute has its own steam laundry, supplied with all needed appliances, in which all the laundry work of the Institute, as well as that of the pupils, is done neatly and cheaply.

The serious danger of the introduction of contagious and infectious diseases by means of having this work in various hands throughout the village is thus avoided.

Terms of Payment.

For convenience of payment by patrons, the School
 Year is divided into quarters :

The First Quarter ends November 10th, 1894.

The Second Quarter ends January 15th, 1895.

The Third Quarter ends March 23rd, 1895.

The Fourth Quarter ends May 29th, 1895.

All bills will be rendered quarterly, and unless otherwise
 specifically agreed upon, must be paid for the first quarter
 on entrance, and thereafter on or before the first day of
 each quarter.

Note.

The entering of a pupil in this School shall be deemed a *formal and explicit contract for her to remain until the close of the school year*. If withdrawn, no portion of the fees will be refunded unless withdrawal is necessitated by sickness, the sufficiency of which to be judged of by the Institute Physician, or for other Providential reasons, to be judged of by the Board of Trustees.

No deduction will be made for absence, unless caused by sickness for as long a period as one month.

It is earnestly requested that parents will not interfere with the studies of their daughters by withdrawing them during the session to spend a week or so at home. Such absences seriously interrupt the progress of the pupil, are positively injurious to the classes thus broken up, and tend to distract the whole school.

Money for books, music and incidental expenses cannot be advanced; a deposit of ten or fifteen dollars should be made with the Principal at the beginning of each term, an itemized statement of the expenditure of which will be rendered.

Books, sheet music, art materials, etc., will be supplied to boarding pupils *only* at actual cost; day pupils are convenient to the book stores, and must supply themselves.

Pupils matriculating during the first two weeks of the term are charged as from the *first* day of the term. After the expiration of two weeks from the first day, they are charged only from the date of entrance.

The medical fee covers the attendance of the Institute Physician, nursing and medicines, *except in cases of protracted or aggravated sickness*.

No deduction for any cause will be allowed to pupils withdrawing during the last four weeks of the session.

The above regulations will be strictly enforced, and patrons are requested not to ask any deviation therefrom.

Discounts.

When two or more boarding pupils are entered from the same family, a discount of *ten per cent.* on their total bills is allowed.

When two or more day pupils are entered from the same family, a deduction of fifty cents per month for each pupil is allowed.

Pupils paying for the full Literary course and for *two music studies*, are allowed a discount of ten dollars for *each* term.

Where the discount of ten per cent. is allowed for two or more pupils from the same family, no other or further discount is made.

Ministerial Rates.

Daughters of Ministers, engaged in their callings, are given board and tuition in all regular courses, including the general privileges of the Institute, *for the School Year for \$165.00.*

Medical fee, laundry and special studies at same rates as other patrons.

A discount of 10 per cent. on their total bills is given Day Pupils, the daughters of Ministers engaged in their callings.

The discount given for two or more pupils from one family does not apply to pupils receiving ministerial rates.

Collegiate Department.

The Course of Study in this department is distributed into the following Schools, each constituting a complete course on the subject taught :

1. School of English.
2. School of Mathematics.
3. School of Natural Sciences.
4. School of the Bible.
5. School of History.
6. School of Moral Sciences.
7. School of Latin.
8. School of Modern Languages.
9. School of Music.
10. School of Art.

Courses of Instruction by Departments.

SCHOOL OF ENGLISH.

First Year.—Rhetoric—Lockwood's Lessons in English. Continuation of the work of the last year in the Preparatory School, with additional chapters in the History of the English Language, Diction, Sentences and Versification.

Literature—Selections from the works of Keats, Shelley, Wordsworth, Coleridge, Tennyson, Poe and George Eliot.

The composition work of this year bears largely upon the work in Literature, with additional subjects assigned for monthly essays.

Second Year.—Trench On Words.

Literature—The Prologue, The Faerie Queen, several of Shakespeare's Plays, Paradise Lost.

In this year the class studies the History of English Literature from its beginning through the Puritan Age. Especial attention is given to the study of the English Drama, several of Shakespeare's Plays being carefully studied, and those of representative contemporary dramatists being read in class.

Essay work.

Third Year.—Rhetoric—Genung's Rhetoric.

Literature—Selections from the Spectator, De Quincey, Carlyle, Ruskin and Matthew Arnold.

The History of English Literature from the Restoration Period through the Victorian Age.

Essay work.

Fourth Year.—(Elective), Selections from the Brownings, Wordsworth, Coleridge and Matthew Arnold.

The aim of the English course is two-fold, viz: To train pupils to write not only correctly, but in a clear and impressive manner, and to create in them a desire to read what is good in English and American literature. To gain

the desired result in the former, pupils are taught the principles which govern clear and correct writing, and are frequently called upon to put these into practice, a number of essays upon simple subjects, and weekly themes, one page or more in length, being required.

The aim of the Literature course is to make the student see what is meant by a study of Literature as opposed to a cursory or accidental reading. To attain this end, many of the masterpieces of our mother-tongue are carefully studied and freely discussed in class. The student is thus encouraged to acquaint herself first with the authors themselves, and to read critical works. At the beginning of each session, a course of instructive reading, outside of regular work, is given each class, to be reported upon at the end of the year.

A number of critical essays are required of the students through these years.

School of Mathematics.

First Year.—Wentworth's Complete Algebra, Involution, Evolution, Radicals, Quadratic Equations, Ratio, Proportion, Arithmetical and Geometrical Progressions, Choice, Chance.

Second Year.—Plane and Solid Geometry, Wentworth.

Third Year.—Algebra continued through Exponential Theorem. Plane and Spherical Trigonometry (Wentworth).

Fourth Year.—Algebra completed (elective). Analytic Geometry (elective). Arithmetic reviewed. Book-keeping (elective).

School of Sciences.

First Year.—Geology (LeConte) and Mineralogy.

Mineralogy is taught without text books, with a view to cultivating a habit of thinking and working by bringing

the pupil in contact with facts by personal observation. Thus a subject usually considered very technical is made simple and practical, and any pupil of the collegiate department is admitted to these exercises without regard to previous scientific qualifications.

Second Year.—Zoology (Nicholson) and Botany (Campbell).

Third Year.—Physics (Gage).

Fourth Year.—Chemistry (Williams) and Astronomy (Young).

It is the aim of this department to teach with clearness and accuracy both theories and facts. To this end a suitable laboratory has been fitted up, affording apparatus sufficient to illustrate all the various principles of mechanics, physics and optics.

A good three-inch telescope is in use for astronomical observations; White's Physiological Manikin for the study of Physiology; a compound microscope magnifying 600 diameters for microscopic work in botany. Through the kindness and generosity of Mr. N. P. Pratt, a mineralogical cabinet of 300 choice specimens has been recently added to the department, making it possible to carry on very thorough work in dynamical and structural geology. The text-books used are selected with the view of giving all so-called new topics full share of attention.

School of the Bible.

This is a three years' course, two recitations a week. It forms a necessary part of the graduate courses. The objects of this course are:

- I. To give a connected and systematic knowledge of the history of the Kingdom of God as revealed in the Bible. To know these facts in their order and relations is necessary to any adequate understanding of the Christian religion.

The Dining Room.

2. To teach how to study the Bible.

3. To glorify God in exalting and honoring His word. The Bible is constantly held up as the inspired word of God and the authoritative revelation of His will.

The methods used to attain these objects are regular recitations and class room drill, with intermediate and final written examinations.

The places and events in the history are located ; sufficient contemporaneous history is taught to give a clear understanding of Biblical history.

The student is also drilled from time to time in the analysis of Books of the Bible, and in the analysis of chapters.

The course is arranged as follows ;

First Year.—Creation to Kingdom ; Syllabus O. T. History, Price ; Manual of Biblical Geography, Hurlbut ; Manual of Bible History, Blaikie.

Second Year.—Old Testament completed ; same textbooks.

Third Year.—New Testament ; Studies in the Book, Weidner ; Hurlbut and Blaikie, continued ; Stalker's Life of Paul ; Evidences of Christianity, Alexander.

The Bible itself is the main text-book throughout the course. Each student should be supplied with a good copy of the Revised version.

All students in the Preparatory and Collegiate departments who do not take the regular Bible course are required to recite one lesson per week in Hurlbut's "Studies in the Four Gospels."

School of History.

In this department effort is made to arouse in the pupil enthusiasm and love for the study of History and to teach the best methods of pursuing it. Free access to the works of

the library is allowed to all pupils, and they are encouraged to avail themselves of this opportunity to do independent work.

First Year.—Oriental Nations and Greece, Myers; Rome, Myers. Mythology by topical study.

Frequent reference is made to Plutarch's Lives, Mahaffey's Old Greek Life, Wilkie's Roman Antiquities, and to standard historians.

Second Year.—Important features of Mediæval History, Myers. Outline of Modern European History, Myers.

During the second term especial study is devoted to the period of the Reformation; the French Revolution and its effect upon the political history of Europe; the Rise of the German Empire.

Third Year.—History of England, Montgomery; History of France, Montgomery; Civil Government in the United States; History of the United States, reviewed.

Topics on leading characters and important events are assigned at intervals for especial study. Maps, chronological tables and outlines are frequently required, and during the third year there is a weekly lesson in current events. Pupils are advised to study an elementary history of Greece, of Rome, and of England before undertaking the course prescribed above.

School of Mental and Moral Sciences.

The course of study in this school occupies two years, and is not taken up until the *third* or *Junior* year of the pupil, and is divided as follows:

First Year.—Psychology, Hopkins; Logic; Pedagogy.

Second Year.—Ethics, Hopkins; Pedagogy.

Lectures, discussions and library work will be combined with the study of the text-books.

School of Latin.

Appreciating the value of the mental discipline to be obtained by a thorough mastery of the principles of the language, students are required to study the characteristics of style, and the dependence of the English language upon the Latin. Books of reference treating upon the contemporaneous history and literature of each author, are supplied in the library of the Institute, and these are used under the direction of the teacher of this department. The entrance examinations serve the purpose of testing the applicant's knowledge of the forms and syntactical structure of the language, and she will be expected to answer general questions upon the passages selected for translation.

First Year.—Cæsar, Books I-IV.

Special attention is given to Etymology and Syntax, and to the study of Geography and History as related to the text.

Second Year.—Virgil, Æneid, Books I-VI. Latin Prose Composition.

With the study of this year are added Mythology, Versification, and the various peculiarities of poetical construction, including the rules of prosody, and the scanning of dactylic hexameter. Written abstracts of selected portions of the story are required, and attention is also given to the rhetorical figures of the poem.

Third Year.—Cicero's Orations ; Horace ; Selected Odes and Epistles. Latin Prose Composition continued.

In translation, accuracy of expression is required, in order that the author's meaning may be expressed in good English. Idiomatic peculiarities are carefully studied.

Fourth Year.—Livy, Book XXI., Tacitus, Germania, Agricola or De Amicita.

The study of Latin Grammar and composition are continued throughout the course.

The Allen and Greenough series will be used.

The Roman pronunciation is taught.

School of Modern Languages.

FRENCH.

First Year.—Le Français Pratique, Bercy. Reading of simple French prose. Dictation and memorizing.

Second Year.—Grammar; written exercises; reading of modern French prose. Idioms carefully considered. Dictation and memorizing.

Third Year.—Macmillan's Third Year in French; Exercises in prose composition; the History of French Literature; plays by Corneille, Moliere, Racine, Hugo, read and studied; private parallel reading of classic and modern French authors.

Throughout the course, exercises in conversation. French is used as far as practicable as the medium of instruction.

GERMAN.

First Year.—Deutsche Grammatik, Studien und Plaudereien, 1st Series; Bilderbuch ohne Bilder; Im Zwielficht, Part I.; Conversation with written Exercises; Exercises memorized; Grammar, Joynes-Meissner.

Second Year.—Deutsche Grammatik; Studien und Plaudereien, 2nd Series; Im Zwielficht, Part II.; Immensee; Undine; Conversation and written Exercises; Selections memorized; Grammar, Collar's-Eysenbach.

Third Year.—Deutsche Grammatik; Maria Stuart or Jungfrau von Orleans; Hermann und Dorothea; Handels-correspondenz; Wilhelm Tell; Iphigenie; Poems memorized; Grammar, Spanhrofd's.

German is used as far as practicable as a means of conversation in the class room. Chief attention is paid the first year to reading the language with ease and to acquiring a knowledge of the idiom. The second year the aim is mastery in translation and composition. The reading of the third year is combined with a critical study of the language and its literature.

School of Music.

This course is planned to meet the wants of those who wish to study Music as a profession or as part of a general education, and embraces instruction in piano and organ-playing, voice culture, chorus singing and theory.

Piano.

Pupils in piano-playing are divided into three grades : Elementary, Intermediate and Advanced.

ELEMENTARY.

In this grade careful attention is given to position of the hands, and all the details belonging to the formation of a good touch, values of notes, rests, etc. ; scales begun ; easy pieces ; Sonatinas and Rondos.

INTERMEDIATE.

Scales continued in 3rds, 6ths, etc., in different rhythms ; chords and arpeggios ; finger exercises to be transposed into every key ; wrist exercises ; trill and octave studies ; studies in phrasing ; study of polyphonic music begun ; easy sonatas, pieces by modern composers ; playing by sight begun (for four and eight hands).

ADVANCED.

Technical studies continued ; study of standard sonatas, concertos and pieces by modern composers ; systematic study of the great composers' works, together with reading of musical biography, analyses, etc. ; playing at sight continued.

Voice Culture and Art of Singing.

First Grade.—Breathing exercises ; exercises for gaining control of the tongue and soft palate ; exercises for firm and clear attack of tone in connection with different vowel sounds ; proper methods of blending tones of different pitch ; first grade vocalizes.

Second Grade.—Exercises in vocalization and solfeggio continued ; songs of moderate difficulty with a view to acquiring correct pronunciation, enunciation and phrasing.

Third Grade.—Embellishments and colorature exercises of greater difficulty ; minor scales ; selections from Italian, French and German songs.

Fourth Grade.—Exercises for development of the trill ; chromatic scale ; selections from oratorios, operas, etc.

Fifth Grade.—Advanced studies in vocalization and building up of repertoire of church, concert and oratorio music.

In connection with the above course, sight reading and chorus classes, open to all the pupils of the school, will be organized. All pupils in the vocal department will be required to attend these classes.

Theory.

This course (which is best begun with piano pupils of the Intermediate grade) includes Harmony, Musical Forms and Musical History. In connection with these studies there is a supplementary course in reading, comprising Biography, Criticisms, Analyses, etc. Books used are Broekhoven's Harmony, Pauer's Musical Forms, Fillmore's (or

Parry's) History of Music, Fillmore's Piano Music. For this course the school has most ample appointments.

During the past year a handsome addition has been made to the Library in a large and well-selected number of musical works, comprising Biographies, Dictionaries (Groves'), Histories and Essays. Also the Standard Symphonies, Overtures, etc., arranged for four and eight hands. On the Library tables can be found also The Etude, Music (Chicago), Music Review (Chicago), Musical Courier (New York), and Werner's Voice Review.

Upon entering this school pupils are carefully examined, graded according to their ability, and advanced as their progress warrants. Piano pupils in the Elementary grade must practice *at least* one hour daily; in the Intermediate grade, two hours. Advanced pupils can arrange for more time.

Vocal pupils must practice one hour daily.

Pupils' Recitals are given from time to time, and recitals by the teachers and visiting artists occasionally.

Certificates

Will be given those who finish satisfactorily the course in piano-playing or voice culture.

REQUISITES FOR CERTIFICATE.

In *piano-playing*—Ability to give a public recital (mostly from memory), the programme to include a movement from a standard piano concerto, and pieces of varied styles; to pass satisfactory examinations in playing at sight, and in the full course of theory, and a good general knowledge of musical literature.

In *voice-culture*—Ability to give a public recital, to be advanced to at least the Intermediate grade in piano-playing, to pass satisfactory examinations in sight-reading and in the full course in theory, and a good general knowledge of musical literature.

School of Art.

The aim of this school is to give a thorough and systematic course in Art. The regular course in Drawing and Painting each covers three years. A critical, as well as a practical knowledge of Art is sought. Lectures on Perspective, Composition, Theory and History of Art are given throughout the course.

COURSES.

DRAWING.

First Year.—Preparatory Class ; Perspective, Modeling in Clay, Elementary Cast Drawing.

Second Year.—Antique Class ; Cast Drawing—heads, busts, full lengths.

Third Year.—Life Class ; heads from life—draped model.

PAINTING.

First Year.—Painting in Oil ; still-life.

Second Year.—Studies in Oil or Water-Color ; still-life ; outdoor sketching.

Third Year.—Painting from Life ; heads.

Sketch Class—Outdoor sketching in charcoal, oil or water-color ; also from model in costume.

Students cannot enter an advanced class without passing an examination in the work preceding. No one is admitted into the painting classes without passing a satisfactory examination in drawing, including the principles of perspective, and a sufficient knowledge of light and shade.

Instruction in Elementary Drawing is given to the pupils in the Primary Department without extra charge ; also to all other students for one hour a week during one term.

Physical Culture.

The Trustees, appreciating the importance of physical exercise and training as conducive alike to health and grace of carriage, have provided a regular and systematic course in physical culture.

The Institute Gymnasium contains the best apparatus, including Horizontal and Vaulting Bars, Horse, Flying-rings, Chest-weights, Clubs, Wands, Dumb-bells, Rings, Hoops, etc.

The daily half-hour exercise should be refreshing, but never tiresome.

Each pupil is expected to supply herself with a suit of grey flannel—blouse and divided skirt—and Gymnasium shoes.

The Physical Culture suit can be obtained in Decatur at a total cost of about five dollars, for material and making.

Admission of Students to the Collegiate Department.

Students wishing to enter the first class of any school of the Collegiate Department, must stand satisfactory examinations on the Preparatory Studies of that School.

Requirements for first class of

MATHEMATICS.

(a) *Arithmetic*.—Fundamental Rules, Common and Decimal Fractions, Compound Numbers, Percentage, the Metric System, Square and Cube Root.

(b) *Algebra*.—Least Common Multiple, Greatest Common Divisor, Factors, Fractions, Equations of First Degree.

ENGLISH.

(a) *Grammar*.—Including Analysis of Sentences.

(b) *Composition*.—Of not less than thirty lines, the subject to be assigned at the time of examination. This must be correct in spelling, punctuation, use of capitals, and grammatical form.

LATIN.

The Beginner's Latin Book (Collar & Daniell), or its equivalent, with some additional reading preparatory to beginning Cæsar. The student must be familiar with the grammatical forms of the language, and with the principal rules of Syntax, and be able to translate from Latin into English, and from English into Latin, sentences illustrating these forms and rules.

HISTORY.

History of United States.

NATURAL SCIENCES.

Physical Geography and Physiology.

ADVANCED CLASSES.

Candidates for the higher classes will be examined on the subjects previously studied by the class which they propose to enter.

General Examinations.

In addition to frequent reviews and partial examinations (usually written), two general examinations will be held every year.

The *first*, or *intermediate*, at the end of the first term, and embracing the studies of the term.

The *second*, or *final*, at the end of the second term, on all the studies of the session.

Both of these examinations are conducted in writing, and are thorough and comprehensive.

Parents are earnestly requested to consult with the Principal before excusing their daughters from examinations.

Frequent and unnecessary excuses retard both the intellectual and moral growth.

While these examinations are thorough and comprehensive, they are not of such length as to be irksome and injurious.

The final grade and promotion of the pupil is determined from the record of daily recitations and examinations, and thus the student is stimulated to thorough preparation for the class-room, and also to a permanent acquisition of knowledge.

Reports.

Reports of class standing, attendance, conduct, etc., are impartially prepared and sent to parents or guardians quarterly.

Diplomas.

A student who completes satisfactorily the Literary, the Scientific or the Classical Course of study receives a diploma with the title "*Graduate.*"

A student who finishes satisfactorily the Full Course of study receives a diploma with the title "*Full Graduate,*" and also a *star medal.*

Certificates of Proficiency are given to those pupils who complete satisfactorily the course of study prescribed in any school.

A *grade mark* or percentage of at least 80 in each school must be obtained to entitle a pupil to a Diploma or to a Certificate of Proficiency in any particular school, or to pass the pupil from a lower to a higher class.

Pupils whose yearly average in any study is 90 or more receive a *Certificate of Distinction.*

"THE BLUE LIST."

For the information of parents and the friends of pupils, there is published and distributed on Commencement Day "The Blue List."

This List is in the nature of a "roll of honor," and contains the names of all pupils who have obtained an average mark of 80 or higher on their year's work, in their respective classes, and are consequently passed to the higher classes.

Those pupils whose average is above 90 are *distinguished*, and their names are printed on "The Blue List" with numbers preceding, which indicate the order of their class standing, and they also receive *certificates of distinction*; the others are placed in alphabetical order.

The "Blue List" also contains the names of all graduates, medalists, etc.

Library and Reading Room.

The library now contains about 1,000 volumes, selected with care and with a view to the needs of pupils. It includes works of history, standard fiction, poetry, biography, travels, essays and treatises upon literature, the classics, Biblical and miscellaneous topics. The Sunday School library has been selected with extreme care, and is much read by the pupils. It is the intention of the Trustees to add to the library constantly, and as rapidly as their means will allow.

The Reading Room is supplied with a large selection of choice periodicals, and receives regularly the following magazines and papers, to-wit:

Harper's Monthly Magazine, Harper's Bazaar, Popular Science Monthly, The Illustrated London News, Century Magazine, St. Nicholas, Youth's Companion, The Art Amateur, The Art Journal, The Journal of Decorative Art, The Literary Digest, Werner's Voice Magazine, The Etude, The Chatauquean, Scribner's Magazine, The New York Observer, The Christian Observer, The Southern Presbyterian, The Sunday School Times, and others.

All the pupils of the Institute have the privilege of consulting the books of reference during school hours.

The Library and Reading Room is open to Boarding Pupils every afternoon, except on Sundays.

Societies.

The Mnemosynean Society is a literary society organized in October, 1891, and has a large and active membership. The object of this organization is to foster a taste for polite

literature and to acquire on the part of its members familiarity with standard authors, musicians and artists. Readings, recitations, discussions, essays and musical numbers constitute its programme. Its members are actively and successfully engaged in accumulating a library of standard books. This Society also publishes "*The Mnemosynean Monthly*," which has a large circulation among the pupils and friends of the Institute.

Lectures, Concerts, Etc.

A number of lectures upon a variety of topics, such as foreign travel, literature, science, art, music, etc., are given at intervals throughout the school year.

These lectures are open to all the pupils of the Institute, and are delivered at intervals of three or four weeks.

The boarding pupils, invariably under charge of members of the faculty, have frequent opportunity of attending lectures, concerts, recitals, etc., in Atlanta. The nearness of Decatur to the city, and the frequent and convenient schedules on the dummy, electric and Georgia railroads, make attendance thereon easy and pleasant. Pupils are thus allowed to enjoy rare and instructive opportunities in this direction, to be obtained only in large cities. Such visits are not permitted to interfere with school duties, and the utmost care is exercised as to the character of the entertainment, only such being selected as are refining and instructive.

The Wm. A. Moore Scholarship Fund.

Under the will of the late William A. Moore, a Ruling Elder in the First Presbyterian Church of Atlanta, the Institute received in 1892 a legacy of \$5,000.

The will of Mr. Moore provides that "this sum shall be held as a permanent fund or endowment for the education at this Institute of worthy girls of Presbyterian parents, who are unable to provide a collegiate education for their daughters," the same to be permanently invested and the interest only to be used.

The scholarships under this fund are annually awarded by the Trustees, as directed in Mr. Moore's will.

Religious Features.

The formation and development of Christian character constitute one of the great objects of this Institute. The religious features of the school have, therefore, been very carefully considered.

The daily sessions are opened with religious exercises held in the chapel.

The Bible is a text-book, and the Bible course made necessary to graduation.

The Sabbath is considered the most important day of the week for spiritual culture, and is devoted entirely to the religious training of the pupils.

A Sabbath School is conducted by the resident teachers in the Institute chapel, and all the boarding pupils are expected to attend.

THE AGNES SCOTT CHRISTIAN BAND,

constituted of boarding pupils, meets every Sabbath afternoon. Its object is Christian edification and usefulness. The exercises are conducted by the members according to a programme previously arranged by the devotional committee.

Membership in the Band is entirely optional, but nearly all of the boarding pupils are members.

A weekly prayer meeting, conducted by members of the Christian Band, is also held every Thursday afternoon. An increasing readiness throughout the year in voluntary contribution to the exercises of the meetings has given evidence of growth in spirituality and earnestness.

All boarding pupils are required to attend church at least once on Sabbath, when not providentially hindered.

Social Features.

The teachers and pupils are members of the same household and mingle on terms of most intimate social intercourse, and constant and careful effort is made to develop and cultivate the social character and graces of speech and conduct, the ornaments of true womanhood.

Only such restrictions are thrown around the pupils as are considered important for their health, safety and improvement.

Every effort is made to give to the Institute the character of a home and to cause the pupils to feel at home.

General Information.

Each boarder must furnish two pairs of sheets, two pairs of pillow cases, six table napkins, six towels, napkin ring, one teaspoon, gossamer, umbrella and one pair rubber shoes. The pillow cases should be 35x22 inches.

Each article should be marked with name of owner, as should also be trunks, so as to save confusion in the delivery of baggage at the opening of the session. Parents will please see to these requirements before their daughters leave home.

Boarders are required to attend services at the Presbyterian Church every Sabbath morning, when the weather is not too inclement, under charge of the resident teachers. As often as is convenient, and on special occasions, pupils who are members of other churches attend their own church, under charge of a teacher.

Boarders are required to be punctual at meals, and no one will be excused except in case of sickness. Perfect neatness in dress is required at all meals.

No pupil is allowed to appear in a wrapper out of her chamber.

Pupils are not allowed to purchase any article on credit without written permission from parents or guardians. The amount so authorized by them must also be stated, but the making of bills under any circumstances is discouraged.

Pupils will not be allowed to go to Atlanta oftener than once a quarter for shopping purposes, and then only when accompanied by a teacher. Parents are earnestly requested not to ask a violation of this rule.

Pupils are not allowed to receive callers on the Sabbath ; nor are they allowed to make any visits except by the written request of parents, and then only at the discretion of the Principal.

Pupils are permitted to correspond only with such gentlemen as are specially named in writing by parents.

Pupils are allowed to carry ink to their rooms only in "non-spilling inkstands."

Unless specially excused, pupils must repair to the Study Hall at 7 p. m. ; at 9:30 o'clock they must prepare for retiring, and at 10 o'clock the house must be quiet.

Indiscriminate novel reading is prohibited.

Pupils are not allowed to leave the grounds without permission, nor to appear on the streets unless accompanied by a teacher.

Visitors will not be received during school or study hours, *nor the visits of young men at any time.*

Gentlemen from the homes of pupils are not received unless they bring letters of introduction to the Principal from parents or guardians.

Pupils are not allowed to borrow money, jewelry or books, nor wear the clothing of others, neither will the exchanging of clothing be permitted.

Extravagance in dress is discouraged, and parents will confer a favor by consulting simplicity and economy in the attire of their daughters.

The following violations of the laws of health are prohibited : Eating imprudently at night ; wearing thin, low shoes in cold weather ; going without wraps or over-shoes ; sitting on the ground, and walking out of doors with un-

covered heads; and the too early removal of flannels or neglect to put them on at the approach of cold weather.

The Institute has ample halls, verandahs and grounds, and pupils will be required to take sufficient exercise.

The rooms of the Institute are carpeted and comfortably furnished, and are thoroughly warmed and ventilated. The occupants of each room are required to keep it in order, and all rooms are daily inspected, and negligence in this respect is reported to the Principal.

The rooms are never crowded; they are constructed for two, three, and a few for four occupants, and in no instance will they be crowded beyond their capacity for health and comfort.

Rooms are assigned in the order of application for entrance.

Occasional holidays, according to the needs of the pupils, and the judgment of the Faculty, will be given.

The Principal, and most of the Teachers, reside in the main building, and the entire supervision of every department of the Institute is vested in the Principal.

The President of the Board of Trustees visits the School almost daily, and at all times advises with the Principal.

Day pupils, or pupils taking special courses and not resident in the Institute, will have access only to the rooms and exercises connected with their studies, unless by special permission, nor will they be allowed to visit boarding pupils in their rooms.

Parents *cannot* give their daughters permission to do what is prohibited, nor to omit what is required by the rules of this Institute, and they apply alike to every inmate of the school.

Communications respecting pupils should be addressed directly to the Principal.

For repeated violations of the rules, parents will be requested to take their daughters home.

The proper address for telegrams and letters is in care Agnes Scott Institute, Decatur, Ga.

Remittances of money should be by postoffice order, registered letter, check, or express, to H. J. Williams, Esq., Secretary and Treasurer, Decatur, Ga., or payments in person to the Principal.

Letters respecting any of the departments of instruction, the admission and dismissal of pupils, their studies, progress, personal welfare, health, etc., should be addressed to the Principal.

Requests for catalogues should be addressed to the Secretary and Treasurer until September 1st; after that date to the Principal.
