

AGNES SCOTT
COLLEGE

Minor in Environmental & Sustainability Studies

Environmental and sustainability studies is a unique interdisciplinary program that combines environmental studies and sustainability. Coursework encourages students to think deeply and act on the challenges and solutions to problems of the environment and its limitations, especially relating to human impact. Experiential learning is emphasized, with opportunities for student involvement in the sustainability effort on the Agnes Scott campus and off-campus internships.

Internship and Research Sites (*recent Scottie sites)

- Agnes Scott College Center for Sustainability*
