COLLEGE RESPONSE TO WAR IN PERSIAN GULF

On Tuesday, January 15, as the UN deadline approached for the withdrawal of Iraq from Kuwait, church and school bells all over the country rang out at 12 noon calling people of faith to prayer for peace. The bell at Agnes Scott rang and will continue to ring each Tuesday at noon until the war is over, reminding us all to remember in our thoughts and prayers all those most dramatically impacted by the Persian Gulf situation.

Along with the ringing of the bell, the College Chaplain's office will hold a weekly prayer service for peace in the Middle East. This week the brief service will be held in the Chapel at noon on Tuesday, January 22. In subsequent weeks the service will be at 10:25 a.m. on Mondays.

Plans are also underway to begin a support group for the family and friends of those serving or others at particular risk. This group will meet following the Monday Prayer Service and will be open to faculty, staff, and students of the College.

Please contact Patti Snyder at ext. 6537 with questions about the prayer service or support group.

CAMPUS SHOP REOPENS

The Campus Shop will be open until 6 p.m. Tuesday and Thursday this week and until 6:30 p.m. every Wednesday evening this semester. The deadline for textbook refunds and exchanges is February 6. Please do not write in new books until schedules are firm.

NEW SMOKING POLICY IN EFFECT

The following smoking policy went into effect January 7, 1991:

Agnes Scott College is a "smoke free" campus. Smoking is prohibited in all buildings and offices. The one exception is in residence hall rooms where the student assigned to that room indicated that she was a smoker on her housing form.

WIESHOFFER RECEIVES AWARD

Ingrid Wieshofer, Associate Professor of German, was named the Georgia Professor of the Year by the American Association of Teachers of German (AATG) recently. Dr. Wieshofer was notified of her AATG award at a joint meeting with the Foreign Language Association of German in Macon last semester.

Every effort is made to print announcements as submitted. However, the Office of Public Relations reserves the right to edit all submissions for clarity and style. Please include your name and phone extension with any announcement submitted.

BLUE SPRUCE PLANTED ON QUAD

A 16-foot Colorado blue spruce tree was planted near the wall on the Woodruff Quadrangle just in time to be decorated for the holidays. Matthew's Tree Service donated personnel and equipment to assist in the planting.

For an investment of under \$400 (approximately the cost of two similar cut trees), the College has a permanent Christmas tree for year-round enjoyment.

Although the tree is not common in our area, with TLC and a little luck, Agnes Scott can decorate this tree for many seasons to come.

CHOOSING THE FUTURE

Strategic Planning News

The Strategic Planning Steering Committee is committed to keeping the campus community informed of its actions and of the progress of the planning process in general. This insert in the *Campus Connection* will be reserved for planning process news and will be used as necessary by the steering committee or the task forces.

As stated before, the support and participation of the entire campus is critical to produce an effective portrayal of the issues faced in strategic planning. The planning process can only be successful when discussions are focused, participatory, and open. As input from all segments of the campus community is encouraged and invited, the task forces outlined earlier are committed to providing at least one open campus forum during this first phase of the process. Information on those opportunities for additional involvement will be forthcoming as the task forces begin meeting this week.

The first phase of the planning process should be completed by April 15 when the task forces will make their reports to the steering committee. In the second phase, the steering committee will provide further opportunity for campus-wide response to the findings of the task forces. Over the summer, the president will review all of these community recommendations and present a strategic agenda for the College which will be shared with the campus in the fall.

The result of this process should provide a "thematic umbrella" for the future of the College which will guide the various programs of the College. The College should gain a sense of direction about how it can adjust to and react to the strategic issues critical to its future prosperity.

Task Forces have been formed from names submitted by and to the steering committee and guidelines have been established for their work. Many of those who volunteered have been named to task forces. Outlined below is the charge for each Task Force and a list of its members.

Task Force A - Campus Climate and Communication

How communication and campus climate issues are handled is vital to the success of this planning process and to the College's sense of community beyond this introspection. To ensure that these are given the proper attention, the highest organizational level in the planning process is charged with determining, understanding, and suggesting resolutions for the issues that affect campus climate and communication. As it serves as this task force, the Strategic Planning Steering Committee is responsible for deciding how the planning process itself should be communicated so as to relate sincerity of purpose. In addition, it should determine the other issues that have an effect on the campus climate and address them in order to improve the campus community.

The Strategic Planning Steering Committee serves as this task force.

Task Force B - Academic Initiatives

Poised between some major but partly unrealized academic initiatives of the 1980s and suggested new programs for the 1990s, Agnes Scott faces important choices concerning its academic direction. Existing but underfunded options, like the programs described by the seven-point Centennial Academic Plan approved by the faculty, must be reassessed in the light of additional proposals and newly ascertained needs for the present and future. In order to recommend priorities for action, current and proposed initiatives will be reviewed, not in isolation, but within a strategic framework of centrality to college mission, competitive advantage over other institutions, impact on clearly limited resources, and effects on current departmental planning.

In the decade of the 90s, however, already predicted to be an "era of creative frugality" at best, proliferation of programs and efforts is untenable. At the same time, in an increasingly competitive environment, we must be willing to take risks, to seek initiatives that hold promise of attracting more students to Agnes Scott. To have any hope of success, these efforts should build on this College's present strengths and be adequately funded, even if, as is probable, all funding cannot be attained through reallocations.

Task Force C - Supporting the Faculty and Academic Support

This task force is charged with the responsibility for addressing strategic issues concerning the recruitment, retention, and support of the best faculty for Agnes Scott in the 1990s. The challenge is a particularly serious one, since a faculty shortage is predicted for that decade.

The charge is a broad one: To be concerned not only with the issue of compensation and how it affects recruitment and retention of faculty, but also with the quality of life - the shared values and technical support that attract, motivate, and sustain a faculty with a strong commitment to its institution.

The task force will be recommending specific proposals in priority order, not compiling a wish list. These proposals will be appropriate to the kind of college Agnes Scott wants to and can be, with full consideration of costs.

Task Force D - The Quality of Student Life

This task force takes as its charge analysis of the current student environment and culture of the College and consideration of changes that will enhance the College's ability to fulfill its mission. In formulating recommendations, the Task Force will consider several aspects of student life including the relationships among students, staff, and faculty, and the role of diversity at the College. The group will examine the scope and emphasis of student activities, including religious activities and athletics, with respect both to values the College wishes to stress and to questions of size and efficiency. It will also look into the adequacy and effectiveness of student support systems and programs. The task force will focus on the student as a whole person and as a member both of the campus and of the larger community.

Task Force E - Enrollment Management and Financial Aid

This task force will look at the over-all enrollment picture. As the numbers of both high school and non-traditional-aged students continue to decline and as competition for available students increases, how can Agnes Scott set and achieve realistic goals for a larger student body of appropriate diversity and quality? To what extent will the College continue to subsidize a student's education. How can it make the best use of existing resources? In addition, how can the College retain the students who do enroll?

Task Force F - The College Economy and Infrastructure

The people, facilities, and services that support faculty, students and the administrative infrastructure are critical to accomplishing the academic mission of the College. If the College is to remain academically strong and financially healthy in the future, the resource allocation decisions must reflect broad institutional priorities and values appropriately. As a result, this task force will examine ways to assure the efficient and cost-effective deployment of resources, provide information to the campus community about those resources, maximize the use of the College's facilities, and attract, retain and sustain staff personnel. Each of these efforts will be studied in the context of the College's mission and/or performance or regulatory, legal or prudence requirements by examining data and consulting with many members of the College community.

CAMPUS CONNECTION

COLLEGE EVENTS COMMITTEE SURVEY RESULTS AVAILABLE

The results of the College Events Committee survey from last semester are now available at the circulation desk of McCain Library.

In summary, most respondents felt that the College Events Series (CES) is an important part of the academic program, providing the major cultural events and speakers for the College in addition to providing an important service to metropolitan Atlanta. Suggestions included considering the CES in the budgeting process in order to provide a subsidized or even free cultural opportunity to students. Most felt the series should be free to students but not to faculty, staff, or the general public.

The current programming format was seen as favorable, but should possibly include less chamber music and more speakers, dance, and theatre. Diversity of historical periods and styles, including some programs from non-Western/non-Eurocentric traditions, women and minorities, all received many more positive than negative responses.

The reasons for poor attendance given most often were too many demands on one's time, raised or high ticket prices, the distance from the campus for many faculty and staff, no big names to attract an audience, inadequate publicity, low morale on campus, and too many activities in Atlanta and on campus.

PUBLIC SAFETY CONDUCTS RACE RELATIONS COURSE

On Friday, January 18, the ASC Department of Public Safety presented a law enforcement training course on race relations. The course combined lecture, practical exercises, discussions, and role playing to identify and encourage creative resolutions to race relations problems.

Officers from ASC, Mercer University, the City of Avondale Estates, and DeKalb Community College attended the course. Dr. Carole Morgan of the North Central Georgia Law Enforcement Academy monitored the course on behalf of the Georgia Peace Officer Standards and Training Council (POST).

As a result of having successfully completed the on-site evaluation, as well as the instructor training course at the academy, POST awarded Officer Charlotte York her Instructor's Certificate. Officer York joins Sgt. Gregory Scott and former Lt. Amy Lanier in reaching instructor status. Sgt. Curtis Parrott will undergo an on-site evaluation in March in order to receive his certificate.

COLUMBIA SEMINARY TO HOST DESMOND TUTU

ASC neighbor, Columbia Theological Seminary, will host Archbishop Desmond Tutu during regular chapel time from 10-10:45 a.m. on February 8. He will preach and celebrate Communion. We support the civilians and the military personnel caught in this conflict and desire a solution to the war which would save as many lives as possible. Thank you again for aiding us in delivering our message of peace.

FOUNDER'S DAY SYMPOSIUM ON FAITH AND LEARNING PLANNED

The assumption of the Presbyterian founders of Agnes Scott was that learning is most complete when it is undertaken with a moral vision. Although independence is also a central part of the Agnes Scott tradition, the reliance upon a broad moral vision and an association with the Presbyterian Church are important aspects of the College's heritage. What does that heritage mean today? How do the issues and concerns of the 1990s relate to the vision of the founders of the College? Does the commitment to the Christian tradition make us parochial, or can we be open to persons of all faiths and backgrounds who want to study, work, and teach here? What are the implications of the modern debate about diversity for institutions like Agnes Scott? These are the issues that the 1991 Faith and Learning Symposium seeks to explore.

The symposium, held on February 19 and 20, will include a keynote address by Dr. Jane I. Smith of Iliff School of Theology titled "The Christian Faith and Religious Pluralism" during the Founders Day Convocation. Discussion groups, panel discussions, and a keynote address by Dr. William R. Rogers of Guilford College titled "The Liberal Arts College and the Christian Tradition" will round out the schedule of events. Every effort is being made to include the participation and leadership of members from all segments of the Agnes Scott community. For more information, contact John Carey at ext. 6207 or Patti Snyder at ext. 6437.

NEW DIALING PROCEDURES FOR JAPAN AND MEXICO

The Japanese and Mexican public telephone companies have introduced new dialing procedures for calling Tokyo and Mexico.

Effective immediately, 23 wards of Tokyo will change to 8-digit telephone numbers from their current 7-digit numbers by adding a "3" to the beginning of the exchange identity. The new procedure for Tokyo is as follows: international prefix ("011"), country code ("81"), area code ("3"), exchange identity ("3"XXX), subscriber number (YYY). There will be no change to telephone numbers that already use a 4-digit exchange identity. Also, the dialing procedure used to reach mobile phones will not change.

All of Mexico has transferred to the International Dialing Plan. This will require callers to dial the international prefix ("011"), followed by Mexico's country code ("52"), prior to the city code (XXXX), and the subscriber number (YYYY).

Calls placed to either Tokyo or Mexico without following the new dialing procedures will be directed to a recording.

THANKS

Thank you for all the wonderful mail I received during my illness. I found out that mail *is* important and delightful. It can be the highlight of your days, unless you get three tubs full on Monday morning. I'm sorry they raised the postage rates behind my back. I missed you.

FOUNDER'S DAY SYMPOSIUM ON FAITH AND LEARNING PLANNED

The assumption of the Presbyterian founders of Agnes Scott was that learning is most complete when it is undertaken with a moral vision. Although independence is also a central part of the Agnes Scott tradition, this reliance upon a broad moral vision and an association with the Presbyterian Church are important aspects of the College's heritage. What does that heritage mean today? How do the issues and concerns of the 1990s relate to the vision of the founders of the College? Does the commitment to the Christian tradition make us parochial, or can we be open to persons of all faiths and backgrounds who want to study, work, and teach here? What are the implications of the modern debate about diversity for institutions like Agnes Scott? These are the issues that the 1991 Faith and Learning Symposium seeks to explore.

The symposium, held on February 19 and 20, will include a keynote address by Dr. Jane I. Smith of Iliff School of Theology titled "The Christian Faith and Religious Pluralism" during the Founders Day Convocation. Discussion groups, panel discussions, and a keynote by Dr. William R. Rogers of Guilford College titled "The Liberal Arts College and the Christian Tradition" will round out the schedule of events. Every effort is being made to include the participation and leadership of members from all segments of the Agnes Scott community. For more information, contact John Carey at ext. 6207 or Patti Snyder at ext. 6437.

PUBLIC SAFETY ANNOUNCES TORNADO WATCH/WARNING PLANS

The Department of Public Safety monitors the National Weather Service on the police communications system. Once information is received about either a tornado watch or warning, the following steps will be taken:

1. As soon as the Atlanta area is identified as a "watch" area, the office will notify the Dean of Students and begin notifying residence halls by way of senior residents, resident assistants, and the hostess if one is on duty. During normal business hours, administrative offices will be advised of the "watch" and asked to pass the information on to other employees.
 2. If the DeKalb County area is placed in a "warning" status, the office will activate the emergency call list to the appropriate areas. Also, one officer will circulate through campus in a patrol car with the siren activated while the other officers move through the buildings, advising persons to move to the lowest level, staying away from windows.
 3. As soon as the "warning" status has been lifted for this area, officers will begin building to building notification since it is very likely that the power will be out due to the storm. Please stay in your area until you have gotten official notification by either television, radio or an officer that the warning has lifted.
- In preparation for severe weather, the Department of Public Safety encourages each office area to maintain a flashlight and a battery operated portable radio.

CHOOSING THE FUTURE

Strategic Planning News

VOLUME III

MARCH 22, 1991

During the last month, the Strategic Planning Steering Committee has been busy overseeing the work of five task forces and attending to its own duties as Task Force A, Campus Climate and Communication. As the April 15 deadline for task force reports nears, the SPSC again encourages everyone to review the progress of the task forces thus far and to note the opportunities for participation as listed in the reports below.

Alumnae Association Task Force

The Alumnae Board has begun exploring its own long range planning by developing goals in its annual retreat on March 2. The Alumnae Board will continue to act as the Alumnae Association Task Force until the College's planning process is complete. At that time the Alumnae Association will evaluate its role in implementing the strategic plan that the College formulates.

Task Force A - Campus Climate and Communication

Task Force A, also the SPSC, has devoted its last three meetings to devising a set of values that the campus environment at ASC should espouse. These involve how we treat each other, how decisions are made, and effective campus communication, among others. The values will be shared with the campus community in an insert in the March 28 *Campus Connection* and will be discussed in two forums open to the entire campus. The first of these is April 5 at 10:25 a.m. The second is April 12 at 2:15 p.m. Both will be held in the Alston Campus Center's Lower Lounge.

Task Force B - Academic Initiatives

co-chaired by Sarah Blanshei, Linda Hubert, and Gus Cochran

This task force pursued its charge initially by listening to the views of faculty, staff, and students as expressed in an open forum and by reviewing materials from earlier planning efforts. Currently, our discussions are focusing on several academic models and institutions that illustrate those models. For example, a "theme" model would retain the broad curricular coverage of a classical liberal arts college, but focus its resources and shape its image to emphasize its distinctive strength(s). Another model would feature special programs such as a MAT or Masters in Liberal Studies degree. An emerging emphasis in our discussions and another model is that of partnerships with other institutions, academic, cultural, corporate, etc. Seeking to estimate the consequences of any initiative has led us to question carefully the extensive investment required by some models, such as the work study (co-op education) model.

Task Force C - Supporting the Faculty and Academic Support

co-chaired by Sarah Blanshei and John Pilger

Task Force C is charged with studying ways of supporting the faculty and the academic programs of the College. The Task Force drafted a series of questions (see *Choosing the Future*, vol. 2) in order to focus the work of the group and to guide discussions with College constituencies. This task force has held two open forums and has met with part-time faculty members. Meetings are also planned with the Director of Personnel Services to discuss faculty benefits and the Director of the Library to explore ways that it can better meet the requirements of faculty and students. All the meetings of this task force have been designed to give insight into the needs of faculty in all stages of their careers as they teach and carry out their scholarly endeavors.

Task Force D - The Quality of Student Life

co-chaired by Gué Hudson and Rosemary Eberiel

The Quality of Student Life task force has completed seven open sessions with the following groups of students: students from each of the residence halls, African-American students, international students, and RTCs. A final open forum for this task force will be held on Monday, March 25, at 10:25 a.m. in the lower level of the Alston Campus Center.

Task Force E - Enrollment Management and Financial Aid

co-chaired by Terry Lahti and Art Bowling

The task force on Enrollment Management and Financial Aid has held two open forums for the community to discuss such issues as how ASC is being promoted to prospective students, perceptions of ASC in relation to the reality, maintaining the academic quality of entering students, how messages are given about financial aid, and the implications of having a sizeable endowment. The members of this task force have divided their efforts into three main areas: marketing (image and reputation, positioning, and strategies), financial aid (viability of continuing to meet 100% of need, possibility of changing the mix of financial aid and scholarship funds, the number and amount of need-based and non need-based awards), and diversity (pursuing it in our enrollment efforts and support structures for retaining students).

Task Force F - The College Economy and Infrastructure

co-chaired by Gerry Whittington and Kathy Kennedy

In its work of the last few weeks, Task Force F has held an open forum, met with staff members in a lunch meeting for discussion of staff issues, distributed a questionnaire to the campus community, analyzed financial data and organizational structure, and met with occupants and users of campus facilities concerning areas of improvement. Nearly 130 of the questionnaires were received and the results from those will be put on reserve in the library for campus review.

CHOOSING THE FUTURE - HOW SHALL WE LIVE?

Task Force A, the Strategic Planning Steering Committee, has held several sessions during the planning process on the issues of organizational culture, campus climate, and communication. Efforts have been directed at producing a set of statements which would ideally characterize the Agnes Scott environment. The following statements represent a synthesis of the task force discussions and will serve as a basis for further discussion at the open forums held Friday, April 5, at 10:25 a.m. and Friday, April 12, at 2:15 p.m. Both will be in the lower level of the Alston Campus Center.

DECISION-MAKING

After larger institutional goals are in place, we should delegate decision-making when appropriate and not concentrate this responsibility in upper levels. We should assure the advance consultation of those who will be affected by our decisions. We will communicate decisions clearly with the understanding of who is responsible for their implementation. Finally, decisions must be related to fiscal realities.

RISK-TAKING

We should create a climate at Agnes Scott that encourages creative thought and informed risk-taking, as there are alternative ways to achieve goals and objectives in our diverse environment. Although risks should be taken in order to obtain success, the reality exists that some risks may produce results unacceptable to the community.

STANDARDS

When the College and its individuals undertake an action, it should be done with the best effort possible, with attention to detail, and in an atmosphere of cooperation and mutual support. We should strive to avoid duplication of services and utilize resources in a coordinated approach to achieve distinction in what we value.

HOW WE TREAT ONE ANOTHER

The people of ASC and the divergent viewpoints they represent are its most important resource. For that reason, we will recognize the importance of individual opinions and be appreciative and respectful of those, especially when decisions are being made. We should also strive for an environment which encourages directness and trust and which values a sense of humor.

COMMUNICATION

Communication at ASC should be targeted to the audience most affected and, when possible, be done informally. It should also be timely, concise, and purposeful. Meetings will only be called when face-to-face communication is required; meetings deemed necessary require advance preparation (agenda) and summary actions (follow-up).

CITIZENSHIP

ASC has an opportunity and a responsibility within the larger community to foster partnerships and alliances to improve individual and institutional citizenship. Successful promotion of ASC can combat feelings of isolation and can be mutually rewarding to both the community and the College.

DIVERSITY

ASC values diversity and seeks to foster an environment that welcomes and supports contributions from all members of the community. The institution, while continuing to increase the diversity of the campus community, recognizes the need to devote special attention to the interactions of all its varied individuals and groups.

STEWARDSHIP

ASC faculty, staff, and community are invited to join the Host Family Program for the '91-'92 academic year. Responsibilities include meeting the student at the arrival location, hosting student for a few days before the campus opens, and helping the student get settled in the dormitory.

This could be an ideal exchange of cultural and regional perspectives that could ultimately strengthen the human experience. If interested, contact Sarah Hawk at ext. 6587 or box 94 by May 1.

THANKS

Thanks to those who helped with the second Prison Ministries With Women workday on April 13. Additional workdays are being planned for May 11 and 18. For more information, contact Patti Snyder at ext. 6437 or Barbara Gifford at 622-4314.

HUMAN RELATIONS AWARD

The President's Committee on Community Diversity is accepting nominations for the two Human Relations Awards, given to one student and one employee at Awards Convocation on May 8. The award recognizes those who have done the most "to enhance the goal of unity of spirit and diversity of people."

Both employees and students must be nominated by a member of the ASC community, which includes faculty, students, and staff. Student nominees must have demonstrated outstanding contributions in human relations in both personal and academic life and must be enrolled for fall and spring semester of this year. The employee award will be given to the employee who has demonstrated outstanding human relations in both personal and professional activities, has been employed continuously at ASC for the past three years, and is at least a half-time employee.

Nominations should be limited to one typed page signed and submitted by Thursday, May 2, in a sealed envelope to Gue Hudson, Dean of Students.

The Selection Committee is composed of the awards chair from the President's Committee on Community Diversity, the chair of the Faculty Executive Committee, the president of Student Government, a Union Steward, a member of the Staff Development Committee, and two persons from outside the campus community with demonstrated leadership in the area of human relations.

TO ASC RECYCLERS

As the end of the academic year approaches, ASC Recycling asks the community to consider recycling when cleaning up. Think of recycling before trashing something. Take recyclables to the nearest recycling center. Keep recycling centers organized. Separate types of paper, collapse all boxes flat, and remove metal and plastic from paper products. Follow ASC Recycling guidelines published earlier this year.

Also, volunteer a few minutes to pack and store recyclables in the storage areas. Ask recycling representatives for details.

Remember when leaving for the summer that others have to clean up what is left behind. It is then that solid waste reduction is most important.

TRAVEL SCHOLARSHIP

The Zenn Travel Scholarship will provide travel funds for study in a program abroad in the '91-'92 academic year. Preference is given to students of the classics: classical languages, classical art, and archaeology. The award may be given to an art, archaeology, or another foreign language student if no classics students are eligible.

The application should include an essay on the purpose of the student's travel, her program and goals, and an official transcript, and should be sent to Professor Sally MacEwen at box 968 by April 30.

HUNDREDS OF ALUMNAE EXPECTED ON CAMPUS

THANKS

I wish to thank all my friends on the faculty, staff, and administration for the wonderful party and beautiful gifts you gave me on the occasion of my retirement from Agnes Scott.

The chair and print of the College, along with the wonderful album, will be treasured items in my home for they will always remind me of thirteen happy years spent among wonderful people. I also look forward to writing my autobiography with the help of the software you gave me. Thank you all so much for making my retirement so memorable.

Clair Muller is a 1967 graduate of ASC and is currently a member of the Atlanta City Council, serving as chair of the Executive Committee. She is also a former member of the Board of Directors of the ASC Alumnae Association.

Jim Philips is a partner of the real estate financial services company Hatfield Philips and is a past chairman of the DeKalb Chamber of Commerce and past president of the DeKalb Council for the Arts. He is also the son of J. Davison Philips, ASC trustee emeritus.

Re-elected for terms of four years each were JoAnn Delafield, Katherine Geffcken, Lawrence Gellerstedt, Jr., and Douglas Oldenburg.

SUMMER ATHLETIC PROGRAMS UNDERWAY

The 1991 summer athletic programs sponsored by the athletic department are underway. The summer swim program began June 10 and will run through August 9. Call ext. 6471 to register for children's swimming lessons and to sign up for memberships. Drop-in hours for open swimming are Monday through Friday 2 to 8 p.m. and Saturday and Sunday 3 to 5 p.m. The fee is \$2.

Tennis camp was a huge success and is being held over for a second week. Monday, June 24, is the start of week number two and walk-in registrations will be accepted between 8:30 and 9 a.m. Monday only.

Also, the weight room will be open to faculty, staff, and alumnae Monday through Friday through August 9 from 12:30 until 1:30 p.m.

MORTAR BOARD PLANS BLACK CAT 1991

An emphasis on welcoming and orientating new members of the community is the goal for Black Cat 1991, plans for which have been organized by Mortar Board. De-emphasizing class competition while encouraging participation from the entire community will be the focus of this year's Black Cat activities, which serve as the culmination of freshman orientation.

Black Cat is scheduled for October 10-12 and Mortar Board has made several suggestions for scheduling that week. Professors are urged to consider the Black Cat dates when developing fall semester syllabi so that all faculty and students may participate. Accordingly, committee and departmental chairs are asked to consider scheduling meetings around the Friday activities to facilitate campus participation. A shortened class schedule on the Friday of that week has been suggested to ensure class attendance as well as participation in the Black Cat activities. The proposed schedule of classes eliminates community hours and shortens class time and the break between classes.

Regular Class Schedule Friday Class Schedule

| 2:20-3:10 p.m. | 12:10-12:50 p.m. |

The faculty and staff are invited to participate in the afternoon of games beginning at 1:30 that Friday and the picnic following the games, as well as in all of the activities of the week.

Details of Black Cat Week and its activities will be provided to the campus community in the fall shortly after the semester begins. Any comments or concerns may be addressed to Mortar Board or its sponsors Steve Guthrie, Peggy Thompson, or Tina Pippin.

HOLLYWOOD RETURNS TO ASC

Scenes for two movies, NBC-TV's *The Nightman* and Universal Studios' *Fried Green Tomatoes*, will be shot here in the coming weeks.

The Nightman, a murder mystery, stars Joanna Kerns, who plays Maggie on the ABC sitcom *Growing Pains*. From July 15 through July 19, preparatory construction and set work will be done on the first and second floors of Rebekah Scott Hall, as it is transformed into an old lakeside hotel. Filming is scheduled for July 22 through August 1, on weekdays only. For several days following the shoot, a smaller crew will work to restore the building to its pre-film appearance.

As always, we need your help to ensure that activity on campus will run as smoothly as possible. During the filming of *The Nightman*, the admission office will operate normally; however, access to the office will be affected at times when scenes are being filmed in the lobby and other first floor spaces. At those times, enter the office from the residence hall entrance on the colonnade/Main end of the building.

From July 22, through approximately August 2, large trucks needed for filming will be parked along the front loop. This will help to keep traffic related to the movie in the Rebekah area, and will leave the quadrangle and Buttrick Drive open for most of the period. This will assure a nearer normal campus atmosphere for ASC employees and conference visitors. Please park in the Rebekah and Presser lots during this time.

The company producing *Fried Green Tomatoes*, starring Mary Stuart Masterson, Cicely Tyson, Jessica Tandy, and Kathy Bates, will shoot two scenes on July 24, in the amphitheatre and on the Woodruff Quadrangle. (Miss Tandy and Ms. Bates are not in the scenes to be filmed on campus.) Period vehicles will be parked along Buttrick Drive for part of the day, and traffic across the quad may be affected for a short time.

Thank you in advance for your courtesy and cooperation during this period. Please call Carolyn Wynens at ext. 6326 if you have questions or concerns related to movie activity.

BEACH PARTY THANKS

Agnes Scott employees and students were among the volunteers at the annual Decatur Beach Party held on June 21. College personnel staffed the souvenir sales table while wearing beach party t-shirts with a large ASC logo on the back. Thanks to the following volunteers who represented the College at the most successful event ever sponsored by the Decatur Business Association: Norma Huerta, Mary Jordan, Sara King, Sally Mairs, Debbie Miles, Faye Noble, Elizabeth Orth, John Pilger, Peg Walton, Ginger Patton-Schmitt, and Mike Schmitt.

Community Relations Coordinator Carolyn Wynens served on the D.B.A. Beach Party Planning Committee, and Dean Gue Hudson and her husband, Bill, served time in the dunking booths. Thanks also to Lucia Sizemore and Sandi Harsh who offered to work.

MOVIE THANKS

During the recent movie shoots on campus, some employees found it necessary to deviate from usual routines due to production vehicle parking, the large number of crew members on campus, and the quantity of cameras and equipment required. Thanks to the entire campus community for your cooperation and patience.

Special thanks to physical plant and public safety personnel for their capable assistance and good-humored perseverance, and applause for the staff of the Office of Admission for their extraordinary courtesy and genuine excitement while NBC filmed in Rebekah Scott Hall. It was rejuvenating to the somewhat stressed public relations staff. - Carolyn Wynens and Sara King

OPENING CONVOCATION, I

Part one of the Opening Convocation for the 1991-92 school year is scheduled for Friday, August 30, at 10:25 a.m. in Gaines Auditorium of Presser Hall. The faculty will march in academic procession. In addition to providing the opportunity for the student body, faculty, and staff to come together as a community at the beginning of the new session, Opening Convocation this year will highlight the new strategic agenda, an outgrowth of the work of the task forces last year. President Schmidt will brief the community on the results of months of planning in her annual address, this year titled "Choosing Our Future." Following the convocation, copies of the strategic agenda, a draft outlining programs and ideas from the planning process, will be distributed to all in attendance.

Part two of the Opening Convocations will be held on Wednesday, September 4, and will include an introduction of the Class of 1995 and other new students and employees.

NEW BANK WINDOW HOURS

On July 1, 1991, new bank window hours were put into effect for cashing checks for students, faculty, and staff. The new hours are 10 a.m. to 12 p.m. and 1:30 to 3 p.m. on Fridays only. Personnel in the accounting office will not be able to cash checks outside of the hours listed. Students, please remember that your ASC ID card is required when cashing a check.

GLEE CLUB AUDITIONS

Auditions will be held for membership in the Glee Club on Wednesday, August 28, from 2 until 4 p.m. and on Thursday, August 29, from 4 until 5 p.m. The auditions will be in Presser Hall in Room 104.

Be prepared to sing one song and sight read simple musical exercises. No previous experience is necessary but is helpful. One must have a love of singing and be able to join a very interesting and busy group. Concerts are planned throughout the year, beginning with a pops concert in October.

For more information, contact Rowena Renn at ext. 6261.

CAMPUS CONNECTION GUIDELINES

The *Campus Connection*, as you can see, looks a little different this year. The type size is smaller and the format for the calendar has been reworked. These changes have been made in order to produce the *Campus Connection* with less money, in the same amount of time, and in the most efficient manner for the staff members who do the work. Please read carefully the following guidelines and feel free to contact the Office of Public Relations at ext. 6294 for any discussion of these items.

- 1) All announcements should be submitted to the PR office in Buttrick Hall. All calendar information should continue to be cleared through Dot Markert in the Alston Campus Center.
- 2) Announcements will be printed one week only without significant changes in the copy.
- 3) Announcements will be recycled for use in the "This Week" section after they have been used once in their entirety.
- 4) Any announcement submitted without the name and extension number of a contact person for information verification will not be used.
- 5) Announcements for events or activities that are not sponsored by, co-sponsored by, or occurring at ASC will not be used. Exceptions will be considered on an individual basis.
- 6) All announcements should be submitted in a typed and grammatically correct format.
- 7) No submissions will be accepted after Wednesday at noon for the following Friday edition.

The PR office reserves the right to edit for clarity, style, or grammar.

BLACKFRIARS MSTRIAL AUDITIONS

Blackfriars announce auditions for *MsTrial*, a new play in which two female prosecuting attorneys put God on trial for women's lack of equality. SELF-DEFENSE COURSE PLANNED

A basic self-defense course for women has been planned for Wednesday nights from 6:30 until 8 p.m. beginning September 11. It will be in the Alston Campus Center aerobics room and will cost \$60. REGISTRAR'S ANNOUNCEMENTS

Students are reminded that the last day to add courses for the fall semester is Monday, September 9.

Thursday, September 5, is the last day to take spring semester re-examinations.

BASKETBALL TRY-OUTS

All traditional-aged students are invited to try out for the Agnes Scott College basketball team. Please come for athletic physicals at 5 p.m. September 6 in the Woodruff Gymnasium. The initial team meeting will be at 5 p.m. September 9 in the third floor lobby of the Woodruff building. Bring your class schedule so that practice times can be arranged. Pre-season conditioning will begin September 16.

RECYCLING CHANGES, 1991-92

The recycling program remains much as it was last year, but some changes have been made because of a change in vendor.

Instead of *colored mixed paper*, we now have *office file stock*. We encourage you to use this whenever you would previously have used *colored mixed*, but also for some paper that was previously recycled as *low grade*. This category includes coated (glossy) bond paper, the kind of glossy paper in high grade publications, thicker than the coated newsprint used for newspaper inserts. It also includes manila folders and paper envelopes but not brown envelopes.

We are also collecting clean styro-foam packing peanuts for reuse.

Please remember that our first responsibility is to reduce and reuse whenever possible, and then to recycle. Keep your recycling flyer as a ready reference.

NOTICE:

Extra copies of the draft of the Agnes Scott Strategic Agenda are available at the reception desk in the lobby of Buttrick Hall.

DOS EMERGENCY BEEPER INSTRUCTIONS

The Dean of Students' emergency beeper will be activated at 4:30 p.m. on Friday, August 30, and will be available until 8:30 a.m. on Tuesday, September 3. Dial 833-7097 from any touch-tone phone. Listen for a ring, followed by a beep. Enter the number where you can be called. After entering the digits, depress the # key. You will hear an immediate beep or a fast busy signal, which indicates a completed page. Wait at that number until you are contacted by the person carrying the beeper.

COLLEGE ACQUIRES NEW VANS

Within the next several weeks, the College will be obtaining two new 15 passenger, fully-equipped, Dodge Ram Maxi-Wagons. These vans will replace the current vehicles which are now used for student transportation and for special functions. The 1983 Chevrolet Malibu will also be traded.

The cost of operating, maintaining, and repairing the old vans was such that we could lease these new ones for a few cents per mile more. Also, the service and safety of these new vans will be far superior to the old. Therefore, the College will now charge \$.25 per mile for the use of the new vans, instead of \$.20 per mile as in the past. All other requisitioning and use procedures are the same.

The vans will be white, and the ASC logo will be stenciled on the sides. They should be a welcome and safe upgrade to our College services.

PRESIDENT'S OPEN OFFICE HOUR ANNOUNCED

Every Wednesday, President Ruth Schmidt holds an open office hour. Anyone on campus who would like to see her for a brief time may come by between 2:30 and 3:30 p.m. on Wednesdays without an appointment. Longer appointments can, of course, be scheduled through Janet Spence, secretary to the president, at ext. 6281.

The *Campus Connection* deadline is noon Wednesday. All calendar information for the "This Week" section should be cleared through Dot Markert in the Alston Campus Center. All announcements should be turned in to the public relations office in Buttrick Hall.

AGNES SCOTT ANNOUNCES ART SEASON

The College Events Committee announces its 1991-92 arts season, highlighted by the Hispanic tradition that launched Columbus and the Europe he left behind. The 1991-92 arts season begins with The New York Coronet & Sacbut Ensemble on September 21. The performance begins at 8:15 p.m. in Gaines Auditorium of Presser Hall.

Playing music from 16th-century Europe, the New York Coronet & Sacbut Ensemble continues its 17th season of brass performances with a period instrument called a sacbut, a descendent of the trumpet and a predecessor to the trombone.

The season continues with the Voice of the Turtle on October 22. This group provides the music of 15th-century Judeo-Hispanic culture on a variety of instruments rooted in the Mediterranean.

The College brings to campus for two performances November 7 and 8 Pilobolus, the internationally-famous modern dance group which is celebrating its 20th season. Pilobolus' performance is co-sponsored by Dancers' Collective.

Eduardo Fernandez, classical guitarist, will present a varied program of guitar music of the Hispanic tradition and other European cultures on February 11. He is noted the world over for his guitar repertoire.

The Boston Camerata graces the Agnes Scott stage on March 10 with "The Roots of American Music," a vocal and instrumental dedication to the music of Medieval, Renaissance, and early Baroque Europe.

"The Lunatic, The Lover, and The Poet" is a two-hour festival of the works of Shakespeare, conceived, created, and performed by Brian Bedford, one of the world's most heralded Shakespearean actors. Bedford performs his program on March 25.

A 12-member string orchestra, The Grande Bande, will present the early music of Europe to close out the '91-92 arts season. With original instruments and national acclaim, the Grande Bande will perform on April 2.

Season tickets are \$40 for Agnes Scott faculty and staff. Students should check their campus mail next week for information on their College Events tickets. Subscriptions may be guaranteed by phone with a VISA or Mastercard. For ticket information, call ext. 6430.

AGNES SCOTT LISTED IN PETERSON'S GUIDE

Agnes Scott College is one of 353 top colleges and universities around the country to be selected for inclusion in *Peterson's Competitive Colleges 1991-1992*, just released by Peterson's, the Princeton-based education and career information publisher.

Peterson's Competitive Colleges is the only college guide that uses objective criteria to identify the 350-plus institutions that consistently attract and accept the brightest students. Based on each institution's own admissions data in a formula developed ten years ago and now widely recognized, the book uses student achievement rather than application numbers or reputation to identify colleges for inclusion, resulting in an unusually valuable reference source for the academically talented student.

FACULTY RECITAL

Rowena Renn, Instructor of Music at Agnes Scott College, will present a recital on Sunday, September 8, at 3 p.m. in Maclean Auditorium of Presser Hall. Renn, a soprano, will be accompanied by David D'Ambrosio on the piano.

The recital will include art songs from Mahler, Wolfe, Brahms, Scarlatti, Vivaldi and more. The recital is free and open to the public.

The *Campus Connection* deadline is noon Wednesday. All calendar information for the "This Week" section should be cleared through Dot Markert in the Alston Campus Center. All announcements should be turned in to the public relations office in Buttrick Hall.

MORTAR BOARD PLANS BLACK CAT

Black Cat seeks to welcome and orient new members of the community. Plans for Black Cat 1991, organized by Mortar Board, de-emphasizes class competition while encouraging participation from the entire community.

Black Cat is scheduled for Oct. 10-12 and Mortar Board has made several suggestions for scheduling that week. Professors are urged to consider the Black Cat dates when scheduling exams and papers so that all faculty and students may participate. Accordingly, committee and departmental chairs are asked to consider scheduling meetings around Friday activities to facilitate campus participation. A revised class schedule on the Friday of that week eliminates community hours and shortens class time and the break between classes.

Faculty and staff are invited to participate in the afternoon of games beginning at 1:30 p.m. Friday, and the following picnic, as well as in all of the activities of the week.

REVISED CLASS SCHEDULE FOR BLACK CAT:

| Regular Schedule: | Friday Schedule: |

CAMPUS SAFETY REPORT

The Department of Public Safety is charged with the responsibilities of life safety and property security services. Our department is a state authorized law enforcement agency and must maintain compliance with the rules and regulations of the Georgia Peace Officer Standards and Training Council. Georgia Code section 20-8-2 provides the power of arrest to our police officers within their jurisdiction (college property and 500 yards beyond).

Our department is staffed by police officers who are certified by the state of Georgia. All officers have had previous police experience with other metro-area law enforcement agencies such as the Atlanta, Decatur and MARTA police departments.

Whenever a police, fire or medical emergency occurs on campus, notify the Department of Public Safety.

EMERGENCY: 371-6400 BUSINESS: 371-6355

As a recognized law enforcement agency in the state of Georgia we are required to report our criminal incidents to the Georgia Criminal Information Center, a division of the Georgia Bureau of Investigation. Subsequently we are periodically audited to insure our compliance. This information is forwarded on from the GBI to the FBI for national statistics.

The following criminal incident reports were taken and categorically defined for the academic years of 1988-89, 1989-90 and 1990-91. They are as follows:

| Charge / Offense | 90-91 | 89-90 | 88-89 |

| Burglary | 2 | 2 | 4 |
| Criminal Trespass | 1 | 1 | 3 |

| Entering Auto | 9 | 7 | 10 |
| Accessing Computers for: | | | |

| Robbery | 0 | 1 | 3 |
| Simple Battery | 2 | 0 | 1 |
| Aggravated Assault | 0 | 0 | 1 |
| Rape | 0 | 0 | 1 |

If the investigator is successful in identifying a perpetrator, the case is turned over to the DeKalb County Solicitor or District Attorney for prosecution.

In the past we have published this information in handouts and distributed them daily in our office and at crime prevention programs. To gain compliance with the Crime Awareness and Crime Prevention Act of 1990, effective September 1, 1991, all institutions receiving federal aid will be required to compile this data and by September 1, 1992, they will be required to publish and distribute this information.

HAPPY ANNIVERSARY!

CAMPUS CONNECTION

UNITED WAY CAMPAIGN TO BEGIN

The 1991 fund raising campaign to benefit United Way agencies begins this week. Campus committee members Professor Alice Cunningham, Lead Custodian Travis Nolley and Coordinator of Community Relations Carolyn Wynens encourage each member of the campus community to contribute generously so that metro Atlanta individuals and families with urgent problems can be helped.

Did you know that the United Way's cost effectiveness is considered the best of all charitable fund raising? Less than 10 percent of every dollar contributed to the United Way is spent on fund raising and administrative costs. Donations are used to aid the homeless and hungry, the elderly, children at risk, families in crisis and health/rehabilitation programs including the AIDS Crisis Fund.

Because of the economy, needs are greater than ever before. Metro Atlanta colleges and universities are seeking to increase their contributions to benefit those with physical, financial and emotional burdens. You will receive pledge forms and hear more about the United Way in the coming days.

Agnes Scott's campaign is ambitious. We have set a goal which is higher than the largest amount ever raised on campus. If the entire community unites in a determined effort and each person gives as generously as possible, we can make our mark on charitable outreach in the community.

LUNCH WITH THE BOARD OF TRUSTEES

Members of the Board of Trustees will be on campus from noon to 1 p.m., Thursday, Oct. 10, before they begin their fall committee meetings the same afternoon. The college community is invited to join the trustees for an informal "through the line" lunch and an opportunity for conversation. Those interested must sign a list provided by Bertie Bond in the President's Office. The lunch is limited to 24 people and will be held in the Faculty/Staff Dining Room.

AFRICAN-AMERICAN DESSERT AND DISCUSSION

At 7 p.m., Oct. 8, Dr. Meryl McNeal will be on campus for dessert and discussion. Dr. McNeal is a graduate of Georgia State University and Boston University. She is director of Area Health Education Centers at Morehouse School of Medicine and assistant professor at Clark Atlanta University. All African-American students, traditional age and return to college (RTC) students are invited to attend. The discussion will be held in the Chapel Lounge.

PLEN CONFERENCE

The Public Leadership Education Network (PLEN) conference on women and international policy will be held Nov. 1-3 in Washington, D.C. Students interested in attending the conference should stop by the Dean of Students' Office and pick up an application. The deadline is Oct. 21.

EL SALVADORAN TO SPEAK ON HEALTH ISSUES

You are invited to a discussion at 12:30 p.m., Tuesday, Oct. 8, with Clara Mendez, a nurse from El Salvador. She will talk about her work as director of a mobile health clinic for Farabundo Marti National Liberation Front (FMLN). The discussion is sponsored by the Latin American Studies department and the Student Government Association and will be in the Faculty/Staff Dining Room.

AID ATLANTA SEEKING VOLUNTEERS

On Oct. 31, AID Atlanta needs volunteers to dress like Dracula or his bride and hand out AIDS/HIV information. Costumes will be provided. For details contact Chaplain Patti Snyder at ext. 6437 or pick up information in the Chapel Lounge.

PILOBOLUS TICKETS GOING FAST

Because of growing public interest in the Pilobolus dance performances on Nov. 7 and 8, tickets for Agnes Scott students, faculty and staff need to be reserved now. Tickets are \$15 for the general public and \$12 for ASC faculty and staff. Student charges for this event and other College Event performances are included in the student's event fee which was paid at the beginning of the academic year. Tickets for the general public, faculty and staff can be reserved at ext. 6430. Students should stop by the information desk in the Alston Center to claim their tickets.

The *Campus Connection* deadline is noon Wednesday. All calendar information for the "This Week" section should be cleared through Dot Markert in the Alston Campus Center. All announcements should be turned in to the public relations office in Buttrick Hall.

COMPUTING PROBLEMS REPORTED

During this semester, there has been a rash of problems involving campus-owned equipment and software. Hard disk systems have been modified and used for storage of personal files, computer viruses have infected a number of machines, a printer was "borrowed" from a lab and copies of software (DOS and WORD) continue to disappear from all Satellite Centers, the Writing Workshop and the Academic Computing Center. These violations of the Honor Code are unfair to others who legitimately seek computing resources. Therefore, the Academic Computing Department asks your help in keeping computing hardware and software where it has been placed, checking all diskettes used off campus for viruses and refraining from changing established configurations and setups, especially on hard drive systems. Please do not remove any software from the computer labs and be sure to return checked-out software promptly.

The pressure to produce here at Agnes Scott can possibly lead to imprudent actions. However, as we request improvements for the future, we must justify such resources and assure that they will be used in a conscientious manner.

We in Academic Computing will accept your suggestions of ways to alleviate these problems at ext. 6388.

—Tom Maier
Director of Academic Computing
